NEWTON SPORTS

Wilson Wins Walk and Trip
Edward G. Wilson of the B. A. A. track team won the N. E. A. A. U. 3-mile-walk title at the Melrose legion games last Saturday afternoon. He defeated Peter Laurino of Dorchester, last year's champion and "Pep" Clark of the same club. Laurino tired early in the race and it was then a duel between Wilson and Clark. The local man won by his greater speed over the last half-mile in 23 min. 47 3/5 sec. By winning the title Wilson also won the right to represent the New England union in the national games at Lincoln, Nebraska, today and tomorrow when showings made in the various events will go a long way towards making up the personnel of the American Olympic team.

Three Newton Athletes on All-Team
Three Newton high school track athletes made the All-Interscholastic track and field team selected by the Boston Globe recently. James McCrudden was chosen as fourth best man in the half-mile. Langley of Lowell headed the list with Gould of Worcester South second and Boches of Boston Latin third. In the high jump Janis of Lawrence and Chalmers of Medford beat out Ebelhore and Hammond of Newton who were awarded third and fourth places respectively.

Kollmyer Third in Heat

Hamilton Kollmyer of the Newton high track team won third place in the second heat of the 440 at the Melrose legion games last Saturday. In the finals the Newtonville lad was shut out by older and more experienced runners.

Upper Falls on Short End

Newton Upper Falls was on the short end of a 13 to 6 score in Sunday's game with the Atlantic A. A. at Atlantic. Bright, winning pitcher was found for eleven hits by Upper Falls but he kept them well-scattered while Russell and Stanton were touched for sixteen safeties. John Proctor, captain of Newton high this past season, led the Upper Falls team at bat with three hits out of five trips to the plate. In addition he stole two bases and tallied one run. Neil Mahoney, Northeastern catcher played at first and at third bases in addition to a few innings behind the bat. He connected once in five times up.

Parker Put Out in First

Charles C. Parker, one of the seeded players in the junior singles of the Massachusetts State boys' tennis championship tournament now in progress on the Longwood courts was unexpectedly eliminated from competition Tuesday by A. H. Rice, Jr., of Cambridge in their first round match. The Cambridge lad won the first set 6-3. Parker finally took the second 10-8 and then dropped the third and deciding match to Rice 6-2. Arthur D. Noble, Robert S. Turner and David Scott, three other members of the Newton high school tennis team, advanced to the third round without much difficulty. Play on Wednesday was postponed because of the heavy rain.

Stimpson Ties Course Record

Eddie Stimpson, Harvard golf team captain and Newton resident, equalled the amateur record for the Garden City, Long Island, golf course Wednesday during the qualifying rounds of the national intercollegiate golf championship when he scored a 71 for the eighteen holes. The noted golfer, Chick Evans was the first to accomplish this feat on the difficult course some fourteen years ago and the mark has never been reached since. This low mark gave the local golfer fifth on the list of qualifiers with a 311 for 72 holes.

TENNIS RACQUETS WANTED

The Lincoln House Association of 80 Emerald street, Boston, wishes contributions of tennis racquets for its summer program in the congested districts of Boston.

Any racquets in any condition will be of value.
Racquets should be sent direct to the Association at the above address or handed to Mr. Frank Westwood, at the Moore & Moore store in Newton.

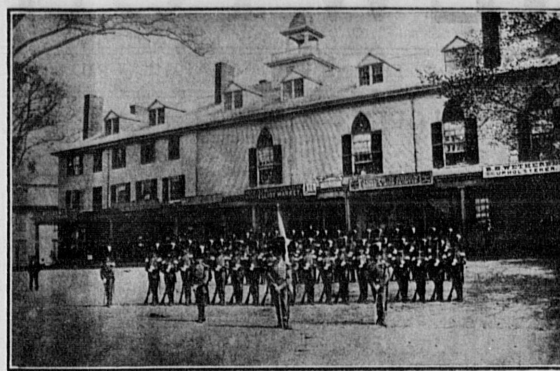

BULLOCK—WINN

At a nuptial mass in the Church of the Sacred Heart at Newton Centre on Wednesday morning Miss Mary Anastasia Winn, daughter of Dr. and Mrs. Charles H. Winn of 899 Commonwealth avenue, became the bride of Myron Francis Bullock, son of Mr. and Mrs. Alfred Bullock of Fall River, Mass. The Rev. Timothy J. Curtin, pastor of the church, celebrated the mass.

Miss Winn was attended by her sister, Miss Margaret J. Winn as maid of honor and by Mrs. Charles L. Winn (sister-in-law of the bride) of Brookline; Mrs. Cecil W. Bodley of Yonkers, N. Y.; Mrs. Robert Bartlett of Staten Island, N. Y.; Miss Marion Mansfield of Rockland, Miss Katherine Finn of Boston, Mrs. Frederick B. Corcoran of Fall River, Mrs. Daniel Day of Lowell, and Mrs. Edmund Winterbottom of Brookline. Mr. Frederick Curry of Grand Rapids, Mich., was Mr. Bullock's best man and the ushers included Charles L. Winn of Brookline, a brother of the bride; Dr. John J. Gibbons and Leo Nawn, both of Boston, and Dr. John A. Burns, William D. Keefe, Frederick B. Corcoran and John W. Dale, all of Fall River. The bride wore white satin trimmed with point de venise lace, with a peacock train of the same material. She carried orchids and sweet peas. The maid of honor wore a yellow period dress of chiffon and carried a bouquet of lavender sweet peas and roses. The other attendants were gowned in Nile green chiffon and carried purple sweet peas, Ophelia roses, and marguerites. The church was decorated with spring flowers and greenery.

A reception was held at the Hotel Somerset, Boston. Mrs. Frederick Lamb and Miss Ethel Curry acted as soloists at the wedding. Mr. and Mrs. Bullock will be at home after August 1 at Fall River where they will follow a wedding tour. The bride attended Boston University and the Emerson College of Oratory. The groom is a Wesleyan man.

THE CLAFLIN GUARDS

The picture shown above is a photograph taken 50 years ago of the Claflin Guards, then Company L of the old 1st Regiment, Massachusetts Volunteer Militia. The photograph was taken in front of the old Nonantum Block. The army of the militia company was in Nonantum Hall, on the second floor of the building. The site of the old Nonantum Block is now occupied by that part of the present Nonantum Building from the postoffice easterly on Washington street. The Claflin Guards in those days were attired in imposing gray uniforms and tall bearskin busbies. It was a social distinction to be a member of the Claflin Guards in the 70s.

The company was organized on October 10, 1870, as a unit of the 1st Regiment of Infantry. Many of the officers of this regiment were veterans of the Civil War. Colonel Isaac F. Kingsbury for many years City Clerk of Newton was elected the first captain of the company. Fred P. Barnes of Auburndale was elected 1st Lieutenant, and G. Frank Park of Newtonville 2nd Lieutenant. In addition to these three officers, there were 58 enlisted men in Company L. The new militia regiment held its first encampment in 1871 at North Weymouth. Lieut. Park resigned in December of that year, as he had entered business in New York. Walter H. Stearns of Newton, one of the charter members of the company, who had been made commissary sergeant of the 1st Regiment, was elected to fill Mr. Park's place early in 1872. That same year Capt. Kingsbury was made Assistant Adjutant General of the Massachusetts militia, so when the company went to its second encampment in August, 1872, it was under the command of Lieut. Barnes. This encampment was also held at the South Shore. The camp ground was located near Allerton. That part of Hull in those days was thinly settled. Houses were few and far between. Two lines of steamboats ran between Boston and Nantasket. The nearest landing at Allerton was made by the Litchfield line of boats which stopped at Strawberry Hill, now Waveland.

In November of 1872 occurred the famous Boston fire. The conflagration, which started on a Saturday, destroyed much of the business section of the city. Lieut. Stearns was in Boston as the fire was raging, and when the militia was ordered out to guard the city from looters, he proceeded from Boston to Harvard Square on Sunday morning, November 10, obtained a horse and buggy and hastened to Newton Corner to acquaint the local militia company with the news that it had been summoned to duty. He found a large crowd at the Newton railroad station, waiting in the hope that the railroad would run a special train into the Boston to take those who wished to see the big fire. No telephones were available in those days. Lieut. Barnes, commanding the company, was out of town, so Lieut. Stearns, with another member of the Claflin Guards, obtained a horse from Bush's stable and made the rounds of the various villages of Newton. They entered the churches throughout the city and requested the ministers to notify the militiamen to assemble as soon as possible at the Nonantum Hall armory at 4 p. m. that afternoon. Such of the company's members as were in the city quickly responded, but many of them had gone to Boston on the preceding day to watch the progress of the conflagration.

In those days of the Massachusetts militia, the commanding officer of a company had the authority to temporarily enlist men in case of emergency, so Lieut. Stearns enrolled into service enough young men to fill every available uniform, and marching his outfit to Watertown, took a train at 7:30 that evening to Boston, where the company remained on duty for 13 days. While the company was performing this duty, Captain W. B. Sears of Brookline, who had been elected shortly before to command the company, received his commission and assumed charge on the Wednesday of November 13. This fire caused a loss of \$75,000,000.

Frank Brown of Newton Centre succeeded Captain Sears as commander of the company, and others who captained the Claflin Guards in the late 70s were George N. Cousins and Arthur C. Walworth. In 1873 the company again went to Allerton for its annual encampment. In 1874 the State purchased the camp grounds at Framingham, and for many years following the annual encampments were held there. During the latter part of the 70s the 1st Regiment had dwindled in size so that it became necessary to reorganize it. The Claflin Guards formed part of an independent battalion. In 1879 the company was designated as C of the 5th Regiment of Infantry. Interest in the militia had

dwindled throughout Massachusetts, and Newton was no exception. The local company was without a captain or 1st Lieutenant, and its 2nd Lieutenant was about to resign. Colonel Truell of the new 5th Infantry came to Newton to ascertain the condition of the local militia, and finding it at such a low ebb, he announced that he would order it disbanded. Fortunately for the future of the company, Walter H. Stearns, who had been a Lieutenant in the organization, happened in at the armory on that evening, and hearing Col. Truell's decision, requested him not to take action for three weeks, assuring the Colonel that within that time he could reorganize the company. Col. Truell acceded to Mr. Stearns' request, but stated "that he doubted his ability to accomplish this feat in such a short time." Enlisting as a private, Mr. Stearns kept five of the old company as a nucleus, two of these being John C. Kennedy and Mellen Bray. Within the specified time, by dint of hard work, he succeeded in recruiting the company on a sound basis again. John Kendrick was elected Captain, Henry Downes, 1st Lieutenant, and Frank Barnes, 2nd Lieutenant. The following year, 1880, the company held a fair and raised a considerable sum, which was of material assistance in placing the organization on a stable basis again.

With the proceeds of this fair, new uniforms were purchased to replace the old gray uniforms which had been the distinguishing mark of the former 1st Infantry. These uniforms consisted of white dress coats, light blue trousers with gold stripes, and white helmets. They were quite stunning. In 1881, Lieut. Downes was elected Captain, and he was followed by Isaac Houghton, George Benyon, John C. Kennedy, George Appin, David Scott, J. Albert Scott and Ernest Springer. While Captain Springer was in command, the Spanish War occurred. Some of the then members of Company C did not enlist for service in that war. Others were rejected for physical disabilities; but their places were rapidly filled by young recruits from Newton and vicinity. The 5th Regiment, of which the company was a unit, was sent to the South for training, but did not get to Cuba for actual warfare.

After the Spanish War, Captain Springer resigned and George F. Guilford commanded the company for some years. He was succeeded by George H. Daniels, and when Mr. Daniels resigned, Philip Bruce was made captain. The next commander was Henry D. Comerals of Brookline; during his term the World War came, and Company C of the 5th Massachusetts Infantry ceased to exist. It was merged with a company of the old 9th Regiment to form Company C of the 101st Infantry, and as such went overseas under command of Captain Comerals. After the war, a company of the 101st Infantry, National Guard, was organized in Newton, and designated with the old letter "C." Edward Fitzgerald was the first captain of the new company, but he held office only for a short time. He was succeeded by John A. MacLelland, who had won the Distinguished Cross for bravery in France. He, too, held office for a comparatively short time before resigning, and he was followed by Captain Thomas Hickey, who at present commands Newton's unit of citizen soldiers.

The Claflin Guards ceased to exist in 1917, with this country's entry into the World War. But its memory is kept alive by the Claflin Guards Veteran Association, organized by Walter H. Stearns in 1895 reorganized by him last year, and having 150 members and associate members. Mr. Stearns, who was born in 1849, is still greatly interested in Newton, his native city, although he has not resided here for years. He departed from this city a generation ago to make his home in New York where his business was located. Since his retirement from business, he has made his residence on Commonwealth avenue, in the Cottage Farm district of Boston.

REAL ESTATE

The sale of the property at No. 264 Homer street, Newton Centre, consisting of a single brick and white colonial house to Mr. G. P. Stuart. This property was conveyed by Mr. Harding.

Mr. John Shea conveys his property at No. 286 Ward street, Newton Centre, consisting of 8 rooms, 2 baths, garage, and about 8,000 square feet of land to the Newton Mortgage Corporation. The latter purchases for improvement.

The Merrill C. Nutting Company, Inc., also report that they have sold for the Newton Mortgage Corporation the property at No. 4 Hillside terrace, West Newton. This is a large frame house with about 12 rooms and about 9,000 square feet of land. Mrs. Kelley purchases for investment. The buyer in this transaction was represented by Mr. William M. Noone.

No Strainers Needed

Buttermilk ought to be much more popular than it is, since mustaches have more generally gone out of fashion.

CITY HALL EMPLOYEES' OUTING

The annual outing of the City Hall employees was held on Tuesday afternoon. Over 80 attended, including, besides the employees, Mayor Childs, Aldermen Madden, Grebenstein, Noone and Hawkins, and most of the department heads. Leaving the City Hall shortly after noon the party proceeded in automobiles to the Adams House at Marblehead, where an excellent dinner was enjoyed. No after-dinner speaking was indulged in this year, a very brief greeting by the Mayor being the only post-prandial feature. Those on the outing then motored to Devereux Beach, where games were enjoyed under the direction of Mrs. Ragna Hovgaard of the Playground department, assisted by Miss Lillian Schwartz. The feature of these games was a "milk drinking contest" in which the woman's prize was won by Mrs. Cecil Chadwick, and the men's by Alderman Fred Hawkins. As Mr. Hawkins never drinks anything stronger than milk or water, he had an advantage over some of his competitors. The baseball game resulted in a win for Chadwick's team over a team captained by Hosmer. A few of the more hardy individuals ventured into the water for a dip, despite the coolness of the weather.

LIFE SAVING AT CRYSTAL LAKE AND AUBURNDALE

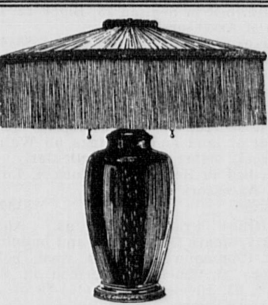

The Newton Chapter of the American Red Cross, through its representative Britton F. Boughner, has completed its second week of Life Saving instruction at Crystal Lake and Auburndale.

Separate classes for boys and girls from 12 to 17 years of age have been scheduled and the interest shown thus far speaks well for the summer campaign which is something entirely new in this section. The classes are meeting three times a week and during the hour period of instruction the children receive competent instruction in the art of life saving as well as valuable aid in swimming.

In order that the children who are not capable of taking the Life Saving instruction may receive some help, there have been scheduled preparatory classes and it is in these classes that the intermediate swimmer learns the finer points of swimming which will in time enable him to enroll in the Life Saving Class.

Classes for men and women are in the process of organization and within the next week a class will be formed. There is also a possibility of a class for older girls around six o'clock in the evening, enabling those who work to receive the instruction.

Those desiring information regarding the Life Saving Classes are requested to meet Mr. Boughner at Crystal Lake mornings or at Auburndale afternoons.

Character in Lamp Shades

Our materials for silk shade making are of the finest quality and include silks, georgettes, ribbons, velvets, laces, metallic and silk braids, silk fringes, French flowers and ruffles. Shades or frames from your own designs will be made to order, or if you have a particular lamp problem we will gladly solve it for you.

Suggestions and quotations will be given gladly upon request.

CENTRAL CHURCH NEWTONVILLE

11 A. M. Union Service in
Methodist Church.

Newtonville

—Prof. J. H. Richardson of Dartmouth College, a former resident here, is at East Boothbay, Me., for the summer.

—Mr. H. S. French of Walnut street is at East Boothbay, Me., for the summer.

—Mr. and Mrs. Stanley Horton and family are at Eastham for the summer.

—Rev. Arthur Ellis and Mrs. Ellis are at their summer home in Brewster, Mass.

—St. John's parish has purchased the property at 311 Lowell avenue as a rectory.

—Miss Faith Durrell of Newtonville avenue is spending the month of July in Maine.

—Mrs. Wm. H. Rogers is attending the Whist Congress at Hanover, N. H., this week.

is president of the American Whist League in session this week at Hanover, N. H.

—Mr. and Mrs. Richmond of Otis avenue have gone to Camp Passaconaway, N. H.

—Mrs. James Elliott of Broadway is sailing in a few days for a summer in Europe.

—Mr. Charles E. Crawford of this village graduated this week from Exeter Academy.

—Mr. and Mrs. D. Brewer Eddy and family of Kirkstall road are abroad for the summer.

—St. John's Church will hold services until July 17th and will then close until Sept. 11th.

—Mr. and Mrs. John W. Locke of Kirkstall road have gone to their cottage at the shore.

—Mrs. I. F. Woodbury of Walnut street is spending the summer at Big Moore Lake, N. Y.

—Mrs. John Brant of Oakwood road is entertaining her sister Mrs. Woods of Springfield, Mass.

—Mr. and Mrs. H. C. Philbrick are attending the Whist Congress this week at Hanover, N. H.

—Rev. Dr. Arthur M. Ellis has been appointed a captain in the 102nd Field Artillery, National Guard.

—Mr. and Mrs. Edwin L. Gardner and daughter of Otis street left this week for their summer home.

—Mr. and Mrs. Edgar Barker and family of Otis street are spending the summer at Sagamore, Mass.

—Miss Chloe and Miss Virginia Lafayette of Harvard street are visiting their grandparents in Portsmouth, N. H.

—Call H. A. McDonnell, 6 Highland terrace (Newton North 4674), for anything in the carpenter line.—Advertisement.

—Miss Katharine Locke will spend the summer at Camp Anawan, and Miss Elizabeth Locke at Camp Kihonka, in New Hampshire.

—Mrs. W. A. Corson of Elm road has returned from New Haven where she attended the graduation of her nephew at Yale University.

—Among those who graduated and received diplomas this year from St. Mary's High School, Waltham, was George L. Doherty of Broadway, who was vice-president of his class.

—William N. Locke of Kirkstall road graduated this week from Phillips Exeter Academy. He will spend the summer in camp at Trail's End, Range XXXIII, Maine.

—Mr. Charles H. Simons of Clyde street has been elected district governor of the 31st Rotary district. Mr. Simons attended the recent Rotary conference at Ostend, Belgium.

—Mr. and Mrs. Kenneth Hastings, Mr. and Mrs. Edward Richardson of Walker street and Mr. and Mrs. John Moeck of Fair Oaks avenue, are spending the holidays at Kezar Lake, Maine.

—Announcements have been received of the marriage of Mrs. Grace Taylor Brown of Harvard street and Mr. J. Albert Chaffee of Providence, R. I. The ceremony, which was at noon on Friday, June 24th, was performed by the Rev. George Lawrence Parker of the First Unitarian Church, Newton Centre.

—One of the prettiest surprise showers was tendered to Miss Dorothy Bellemey in the home of her chum, Miss Blanche O. Berry, 957 Washington street, Newtonville. About thirty young people were present. The occasion was planned to take place in the garden among the roses which were in full bloom, but as if nature was jealous of not being asked to contribute to her shower she gave a surprise of her own, so as Miss Dorothy was being showered with rose petals and blue, pink, green and white streamers, a thunderstorm was in progress. Soon a wonderful rainbow appeared whose colors blended with those on the piazza where the guests had taken refuge, making a most picturesque and realistic setting. The evening was spent in playing games and dancing. The favors were rose baskets and the place cards were miniature umbrellas. Miss Bellemey received many nice and useful gifts.

CUSHMAN'S ICE CREAM

MORTGAGE MONEY

There is a distinct advantage in having home mortgages held by home institutions. More favorable treatment is natural when the applicant deals directly with the Bank and establishes intimate friendly relations than can be expected if he deals with those who are practically strangers.

Our service is friendly, courteous and efficient, and our terms on mortgage loans are reasonable.

KIWANIS CLUB

The regular meeting of the Newton Kiwanis Club was held on Tuesday at the Norumbega Park Restaurant. Frank Foy of Quincy told of the plans which are being made for the coming outing of the Kiwanis Clubs of the 5th New England district at Norumbega Park on July 13. W. Uriah Fog will represent the Newton Kiwanians at the meeting of the Outing Committee held at the Hotel Statler on Monday night. Representatives from the ten Kiwanis Clubs of the district were in attendance.

President Clem Colburn was present for the first time in many weeks, following his recent illness. The meeting was presided over by James P. Gallagher, district trustee; the singing was under the direction of Hugh Boyd, basso cantante. Charles P. Cuniff of West Newton, was the one new member introduced.

CAN'T RENT SCHOOLS

City Solicitor Bartlett and Comptroller White have informed the School Committee that the proposal to charge a certain rate for the use of the halls in school buildings is impracticable, as there is no legal way to turn such rental money over to the City Treasurer. As the janitors are in the employ of the city, to rent the school halls would involve tangles in the pay-roll. When the halls are used under the present method, the janitors are paid by the persons or organizations who use the school building.

Upon recommendation of Director Francis Bacon of the High Schools, a teacher will be present to take charge of the use of the hall at the High School whenever any organization may use it. Those who use the auditorium or gymnasium at the High School will compensate the teacher who is present to supervise the use of either of these places.

Y.M.C.A.

The swimming pool and showers will be open daily to the boys through the summer at 3 p. m. Monday and Friday, and on Saturdays at 10:30 a. m. The employed boys' period is at 7:30 p. m. on Mondays, Wednesdays and Fridays.

We will go to Braves Field on every Thursday and Saturday of July until the Gala Day of July 25th.

There will be a Boys' Social consisting of aquatic sports, movies, and refreshments on Wednesday, July 6th, at 3 p. m., for all members of the Boys' Division.

Other features of the summer program will be a variety hour at 2 p. m. of every Tuesday on snappy subjects of interest to every boy; movies on Wednesdays; and on Fridays there will be educational trips, bike hikes, foot hikes, electric car trips to the beaches, parks and woods. Indoor sports of games, tournaments, etc., are planned for rainy days.

NEWTON CENTRE LIBRARY CORNERSTONE TO BE LAID

On next Thursday evening, July 7, at 7:30, the cornerstone of the new library building at Newton Centre will be laid. It is hoped that as many residents of Newton Centre as can will be present. The ceremony will be quite brief. When the building will be dedicated more formal exercises will be held.

Legal Notices

MORTGAGEE'S SALE OF REAL ESTATE

By virtue of the power of sale contained in a certain mortgage deed given by Martha T. Tobey to Albert C. Holzman, dated May 20, 1927, and recorded with Middlesex South District Deeds Book 5099, Page 224, for breach of the conditions of said mortgage and for the purpose of foreclosing the same, will be sold at public auction on Tuesday, the twenty-sixth day of July 1927, at three o'clock in the afternoon, all and singular the premises conveyed by said mortgage deed and therein described as follows: "A certain parcel of land with the buildings thereon situated in that part of said Newton called Waban, bounded and described as follows: Northwest by Chestnut Street one hundred and fifty-four (154) feet; Northeast by land now or late of Walter S. Place, Jr. one hundred and fifty-four (154) feet; South by Beacon Street one hundred and sixty-seven (167) feet; Southwest by the curb having a radius of twenty-seven and 1/10 (27.1) feet at the corner of said Beacon and Chestnut Streets fifty-two (52) feet (52.87) feet. Containing 24,770 square feet of land."

See plan of land in Waban, Mass., belonging to Frederick W. Webster, et al., Trs., by E. S. Smith, Surveyor, dated November 30, 1914, and recorded with Middlesex South District Deeds Book 3938, end. Being the same premises conveyed to me by G. D. Tobey by deed of July 1, 1927, recorded with Middlesex South District Deeds, Book 5056, Page 89. Subject to restrictions of record, if any, in so far as the same are now in force and applicable. Subject to a mortgage for \$15,000 to the Home Savings Bank."

Said premises will be sold subject as aforesaid and also to all unpaid taxes and municipal liens thereon, if any. \$1000 will be required to be paid in cash by the purchaser at the time and place of sale; other terms will be announced at the sale.

ALBERT C. HOLZMAN, Mortgagee.
Morris B. Frankel, Attorney,
1900 Cambridge Street,
Cambridge, Mass.
July 1-8-15.

MORTGAGEE'S SALE OF REAL ESTATE

By virtue and in execution of the Power of Sale contained in a certain mortgage deed given by Charles S. Hill of Boston, Suffolk County, Massachusetts, to John P. Spaulding, Jr., of said Boston, dated July 6, 1908, and filed with the Land Registration Office for the South Registry District of Middlesex County as Document No. 4011, and noted on Certificate of Title No. 1212, in Registration Book 14, Page 173, of which mortgage the undersigned is the present holder by virtue of an assignment dated November 25, 1908, and filed with said Land Registration Office, for breach of the conditions of said mortgage, I, the undersigned, do hereby give notice that the same, will be sold at Public Auction on the premises described in said mortgage, to-wit: Situated in the City of Newton, in the County of Middlesex, in said Commonwealth, being lots numbered twenty-four (24), twenty-five (25), twenty-six (26), twenty-seven (27), and twenty-eight (28), on "Plan of Lots on Islington Street and Islington Road, Ward 4, Newton, Mass., June 2, 1908, Irving T. Farnham, City Engineer, and filed with said mortgage, to which plan reference may be had, follows: "Westerly by Islington Street two hundred forty-six and 1/10 (246.13) feet; Northeast by land of City of Newton, eighty-seven and 3/10 (87.3) feet; Southeast by lots numbered 12, 13, 14, 15 and 16 on said plan, two hundred fifty-four and 24/100 (254.24) feet; and Southwest by lot numbered 23 on said plan, eighty-five and 28/100 (85.28) feet, be said measurements more or less, or however, otherwise bounded, measured or described."

EXCEPTING from said foreclosure sale Lot No. 24, above named, which is not now subject to said mortgage, and also record of said plan in said Land Registration Office, Book 14, Page 173.

Said premises will be sold subject to restrictions of record, to any and all unpaid taxes, assessments and other municipal liens, if any there be, and a deposit of one hundred dollars (\$100.00) will be required at the time and place of sale; other terms will be made known at the time of sale.

CHARLES F. SPAULDING, Assignee and Present Holder of said Mortgage.
Samuel W. Mendum, Attorney,
Boston, Mass.
July 1-8-15.

Notice is hereby given that the subscriber has been duly appointed administrator of the estate of Maria P. Bibbo, late of Newton in the County of Middlesex, deceased, intestate, and has taken upon himself that trust by giving bond as the law directs. All persons having demands upon the estate of said deceased are required to exhibit the same; and all persons indebted to said estate are called upon to make payment to the undersigned.

Uncle Sam gets a fair share of his income tax proceeds from Newton and Massachusetts. Recent figures for 1925 just issued show that Massachusetts stands fourth in the entire nation in the net tax paid, being exceeded only by New York, Pennsylvania and Illinois. There were 16 millionaires reported from Massachusetts, being tied with Illinois for third place in this respect. In the number of returns filed Newton was the fifth in the state with 4609, Boston had 51,655, Brookline 6048, Cambridge 6248, Somerville 6158.

BURKE—BRINE

A wedding of interest to Newton people is that of Miss Claire Brine, daughter of Mr. and Mrs. Charles Brine of Somerville, Mass., and Mr. Vincent P. Burke, son of Chief of Police and Mrs. Bernard Burke of Wildwood avenue, West Newton. The ceremony took place at a nuptial Mass celebrated at St. Peter's Church, Cambridge, on Tuesday morning at nine o'clock.

The matron of honor was Mrs. Charles Niles, of Springfield, a sister of the bride. Mr. Bernard M. Burke, cousin of the groom was the best man. The ushers were Messrs. Henry S. Kelley of Cambridge, Paul A. Waters of Newton Centre, classmate of the groom at Boston College, Clarence Brine and Girard Brine of Cambridge, brothers of the bride.

The bride wore a gown of white satin and princess lace. Her veil was of tulle with orange blossoms and she carried a bouquet of white roses and lilies of the valley. The matron of honor wore orchid taffeta and silver with hat of a deeper shade and carried a bouquet of yellow roses and larkspur.

The couple were assisted in receiving by Mr. Charles Brine and Mr. and Mrs. B. F. Burke.

Music was furnished by Mrs. Allen Passenanti, organist and aunt of the groom, and Miss Ruth Kinsella of Jamaica Plain, soloist.

After a wedding trip to Nantucket, Mr. and Mrs. Burke will reside at 77a Boylston street, Watertown.

The groom is a graduate of Boston College class of 1917.

ENGAGEMENT ANNOUNCED

Mr. and Mrs. Frank A. Newell announce the engagement of their daughter, Mildred to James Belden Sly, son of Mr. and Mrs. H. Belden Sly, of Waban.

Miss Newell is a graduate of Miss Capen's School of Northampton, and Miss McIntock's School, Boston.

Mr. Sly graduated from Dartmouth in the class of '24. He is a member of Delta Tau Delta fraternity and is of the class of '27 at Harvard Law School.

No date for the wedding has been announced.

ABOUT TOWN

By Edw. H. Powers

In the paper this week is a letter from a citizen of Newton advocating the enforcement of the ordinance which prohibits the use of fireworks, firecrackers, and similar noise making contraptions on any day other than the Fourth of July, except by a special permit. His letter states that the noise has already started on that date he wrote his protest, June 27th. He might have added that for several days preceding June 17, firecrackers and other explosives were being "fired off" on the streets of Newton.

This protest will recall to older residents of Newton the hue and cry raised by the boys of Newton when Mayor Bothfield put the lid on the unrestrained "celebrating" of the "night before the 4th" in Newton. Prior to this action by Mayor Bothfield, certain boys and young men in this city had confused patriotic display with lawlessness and on the "night before the 4th," in several years had resorted to acts of hoodlumism which finally had to be curbed. It is not unlikely that if those boys and young men in this city, who have been disregarding the law, and the rights of others, by exploding firecrackers on many days prior to July 4th, persist in this practice, that some of them may be haled into Court. There are in Newton, as in every city, many persons who are ill, and who need quiet. It is a trial on these sufferers to be compelled to endure the noise of fireworks and firecrackers even for one day. To have such noise on many days is placing an unnecessary hardship on the sick, or on those whose nerves are in poor condition.

There are many who also think that the city should refrain from granting permits for the sale of fireworks in shacks erected for this purpose. These shacks are frequently in charge of boys, or other inexperienced persons, and the youngsters who buy fireworks at such places, are apt to touch off their purchases in the vicinity of the shacks. Such permits certainly ought not to be granted in residential zones.

TRANSPORTATION FOR SCHOOL CHILDREN

Certain parents in Oak Hill have petitioned the School Committee to furnish transportation for their children who attend the Mason School, so that these pupils will be taken to and from their homes during the noon recess on the three days each week, during the school year, when long sessions are held. For years the city has furnished free transportation to the pupils from Oak Hill to carry them to the Mason School mornings and to bring them to their homes after school is over. Now some of the parents want the children brought home during the noon recess so that they can obtain rest for the day.

The School Committee decided that it will be impracticable to carry the children home during the recess period because of lack of time. Two teachers have been given extra compensation to remain with the Oak Hill children during the recess period to assist them at their lunch. Hot soups and other dishes will be provided for these children, if their parents will care to pay the small cost necessary.

NEWTON HIGHLANDS FOLKS HAVE CLOSE CALL

Monday morning as E. F. Rockwood of 35 Lakewood road, Newton Highlands was driving his automobile through Westwood, at the Green Lodge crossing of the New Haven railroad, the car was hit by an express train bound to Boston. The car had been stopped at the crossing to allow a train going towards Providence to pass, and when this train went by, Mr. Rockwood started to cross the tracks. His sedan was hit by the locomotive and hurled against a guy wire 50 feet distant. The rear of the automobile was demolished. By a miracle, Mr. Rockwood, his son and his daughter, who were in the car with him, escaped death. The son received injuries to his back and face. Mr. Rockwood's daughter received injuries to her hip and abrasions on the face. Other than being badly shaken up, Mr. Rockwood was not injured.

A. O. H. VISITS WORKING BOYS' HOME

The Middlesex County A. O. H., which includes 30 divisions, sent large delegations on last Sunday to a meeting at the Working Boys' Home on Winchester street, Newton Highlands. The Ladies Auxiliary of the Order was also well represented. A program had been arranged to be held on the spacious grounds of the home, but the rain caused a change of plans, and the meeting was held in the home building. The gathering was addressed by Brothers Osmond and Isadore of the Xaverian Brothers, who are in charge of the Working Boys' Home, and by Timothy McCarthy of the A. O. H. In behalf of the Ladies' Auxiliary of the A. O. H., Mary M. Doyle presented \$500 to the Home. Elizabeth Auston of Boston entertained with vocal selections.

LAUNDRY BROOK CONTRACT AWARDED

The contract for constructing a culvert to carry Laundry Brook from the Boston & Albany Railroad tracks near Newtonville avenue as far as Clarendon street, Newtonville, has been awarded to the McDonald Construction Company, whose bid, \$43,079, was the lowest received. The next lowest bid, that of the Engineering & Construction Company, was \$47,798.

150 VACATION TRIPS TO CHOOSE FROM

A beautifully illustrated travel catalogue, "Big and Little Journeys," tells where to go and what it will cost by auto, rail or boat to all the resorts in Niagara Falls, St. Lawrence River, Montreal, Quebec, Ste. Anne, Bermuda, Great Lakes, Nova Scotia, White Mountains, Colorado and California. This book is full of travel information and is free. COLPITTS TOUR-IST CO., 262 Washington St., Boston

All are welcome.

CUMMINGS—SMITH

Middlefield, in the Berkshires, was the scene of a most interesting and unusual wedding on Monday, June 27th. Miss Dorothy Dudley Smith, daughter of Mr. and Mrs. Louis Carter Smith of Newton Centre, Mass., was married to Mr. Henry Savage Chase Cummings of Brookline, son of the late Lincoln Clifford Cummings, at the old Smith homestead which has been in the family for five generations.

On account of the distance guests from Boston and New York arrived Sunday to spend the night, and festivities were pleasantly initiated by a large picnic supper.

The wedding ceremony, which was charmingly informal, took place at four o'clock on Monday in the garden, and was attended by a large number of the townspeople in addition to the guests from out of town.

The bride's gown was planned in old fashioned style of pale yellow broad taffeta to suggest, perhaps, the brides of other days, who were married from the same house. A collar of rose-point lace was the gown's only decoration, and no veil was worn. A prim colonial bouquet of yellow roses harmonized with the dress.

The bride and groom greeted the guests when they arrived and at four o'clock a large semi-circle was formed and the marriage ceremony was pronounced by the Reverend Gerald Birney Smith of Chicago, an uncle of the bride.

Refreshments of ice cream in moulds, spun sugar, cake and coffee were served in the garden. The bride's cake was made by Mrs. Arthur Pease of Middlefield.

Mrs. Cummings is a graduate of Bradford Academy Junior College, class of 1923, and of Boston University, 1926. For six years she has been the women's National archery champion.

Mr. Cummings, who is a Boston broker, prepared for Harvard at the Stuyvesant School, Waretown, Pa. He served in the navy during the war. Mr. and Mrs. Cummings are sailing from Montreal on the Montcalm for a wedding trip in the British Isles. They will live at 36 Druce street, Brookline, upon their return.

DAY—PAUL

Miss Agnes Cleghorn Paul, daughter of Dr. and Mrs. George T. Paul of Newtonville, was married to Mr. Clifford Harling Day of Melrose on Saturday evening, June twenty-fifth, at the Methodist Episcopal Church. The ceremony was performed by Rev. Albert D. Parker, pastor of the church.

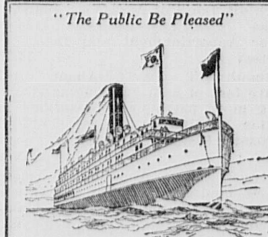

Mrs. Wyllys Lyman James of New York City was the matron of honor and Miss Mary L. Arnold of Brookline was the maid of honor. The bridesmaids were the Misses Grace Taylor of Newtonville, Elizabeth Percy of Newton Centre, Carol McGraw of Allston, Eleanor E. Day of Melrose, sister of the groom, Eleanor R. Wall of Providence and Katherine T. Paton of Newton Highlands. Miss Barbara M. Giles of Melrose was the flower girl.

The best man was Mr. Donald W. Fowler of Lebanon, New Hampshire, and the ushers were Messrs. Joseph R. Lockwood of Greenwich, Conn., Wallace E. Drummond of Forest Hills, N. Y., Elmer W. Giles and Robert Habberly, both of Melrose, Gordon H. Paul of Newtonville, brother of the bride and Percy Harling of Arlington Heights.

A program of nuptial music was played by an uncle of the bride, Frederick W. Briggs.

Following the wedding a reception was held at the home of the bride's parents, 15 Page road.

The bride is a graduate of Miss Wheelock's School, class of '25 and the groom of Wesleyan University '25. He is a member of the Delta Tau Delta Fraternity.

Damascus a Bus Center

Three motor bus lines are now being
operated between Damascus and Bel-
rut, Syria. One of these is being
managed by a railroad company which
has a rail line running between these
points. There are also bus lines be-
tween Damascus and two other cities.
The privately owned cars registered
in this era now number about 160 as
compared with about a third that num-
ber a year ago.

The American consul in this terri-
tory reports that the demand for motor
transport is on the increase.—Sci-
entific American.

Banana Is Odd Plant

To most of us the banana is the
golden yellow fruit seen in great
bunches on the fruit stalls. To the
botanist it is the product of what is
perhaps the most widely known plant
without a stem of wood—an interest-
ing member of a useful and wide-
spread family. To the expert in food
economics it is a fruit of profuse
growth excelling even wheat in food
production to the acre. The history
of the banana as an article of daily
diet goes back into remote centuries
in the civilization of the eastern hem-
isphere.—Nature Magazine.

May Preserve Old Relic

St. Cralo, where the British army
surgeon, R. Schukbury, wrote "Yankee
Doodle" to poke fun at the American
colonists, the old historical fort at
Rensselaer, N. Y., may be preserved as
a revolutionary relic. It was built in
1642.

Poisoned Grain Not

Harmful to Birds

The assumption that game birds
may be killed by grain poisoned with
strychnine and distributed to kill ro-
dent pests has been found to be with-
out foundation. Feeding tests have
shown conclusively that the gallina-
ceous birds as a group, including
quail, the prairie hen, sharp-tailed
grouse and sage grouse, possess a
certain immunity from strychnine
poisoning.

A striking test made several years
ago in California definitely proved
that barley, poisoned according to the
bureau's standard ground squirrel
formula in use in that state, had no
effect on the abundance of the valley
quail. These birds were plentiful and
remained so in areas which were
heavily poisoned. Not a single dead
quail was found, nor were any ob-
served showing symptoms of strychnine
poisoning. Quail subsequently
shot showed that they had been eating
the barley to a limited extent.
Some of the birds were captured and
fed a poisoned mixture of barley. One
adult quail ate 125 kernels of this
poisoned barley in 24 hours with no
sign of ill effects. This grain would
have killed 12 young squirrels.—Vet-
erinary Medicine.

Few Salmon Survive

Season of Spawning

It is believed that all Pacific salm-
on die after they get through spawn-
ing. As the spawning season ap-
proaches these fish work their way
as far as possible up streams. It is
a well-known fact that some species
of salmon work their way up into
brooks so shallow that their backs
stick out before they deposit their
eggs. When they have spawned they
turn over and die, leaving windrows
of rotting carcasses on the shore. Dur-
ing this season the salmon get very
thin, their eyes become sunken, their
appetites grow less and less, their
throats begin to narrow and their
stomachs shrink until they become
entirely incapacitated for receiving
food and they then die. This, however,
holds true only of the Pacific salmon.
All other salmon, it seems, do not die
after spawning, but large numbers of
them, especially the males, do not sur-
vive the spawning season.—Pathfind-
er Magazine.

Eskimo Snow Huts

Although there are no windows in
the snow-hut homes of the Eskimos,
the ventilation is not as bad as might
be expected, for not only is the snow
itself full of air, but, being porous, it
permits fresh air to penetrate
through it, so that, when one holds
his hand near the wall, he can tell
against which side the wind is blow-
ing. This circulation of air, with-
out seriously diminishing the tem-
perature within, serves the purpose
of preventing the hut from melting
away. The Eskimos live in warmth
in these snow huts even if the homes
are not particularly convenient. One
of the unhandy features is the mode
of entrance, which is through a long,
low tunnel at one side. It is through
this tunnel also that the smoke from
the fire in the center of the hut finds
egress.—London Tit-Bits.

A Butterfly Holdup

A year or two ago an especially dry
winter in southern California caused
many of the mountain plants to with-
er and die. So the butterflies of the
hills had not enough food supply and
came down in clouds to the valleys.
They were beautiful, principally of a
splendid red variety. They fluttered
in glowing swarms along the roads
and filled the radiators of passing
motor cars, causing overheating of
the engines. When drivers went ahead
without brushing off the butterflies,
the motors were often badly damaged.
The only thing to do was to stop and
sweep them out and off. It was a reg-
ular butterfly holdup.—Girls' World.

Judge the Whole by One

A corporation may spread itself
over the whole world and may employ
one hundred thousand men, but the
average person will usually form his
judgment of it through his contact
with one individual. If this person is
rude or inefficient, it will take a lot
of kindness and efficiency to overcome
the bad impression. Every member of
an organization who in any capacity
comes in contact with the public is a
salesman and the impression he makes
is an advertisement, good or bad.—
Standard Data Digest.

Good in Everything

"Deafness is a blessing in some res-
pects," said a man who recently lost
his hearing. "You are not bothered by
the rumble and roar of the city while
you're working at your desk. Petty,
distracting noises, such as those
caused by the dropping of an inkwell
or the persistent ringing of a tele-
phone, no longer annoy you. The cut-
out of automobiles, the milkman's
horse, the shouting of the newsboy
are no longer of concern."

Not Up to Rastus

Down at Camp Taylor in 1917 a
negro outfit was lined up before the
clerk for preliminary paper work.
"Name and address," demanded the
clerk of one husky recruit.
"Hub?"
"What is your name and address?"
"Yo' ought to know," said Rastus.
"Yo' sent fo' me?"—Capper's Weekly.

TAX RATE MAY BE \$27

As a result of figures obtained from Comptroller of Accounts, Daniel White, it looks as if the tax rate for the year may be about \$27 per thousand. The revenue appropriations of this city for 1927 total \$3,922,758.43. The State and County taxes amount to \$550,000, and the overlay for tax abatements is \$30,000. This brings the total up to \$4,502,758.43. It is estimated that \$600,000 will be received from the State Income Tax and city revenues, and \$32,000 from poll taxes. These receipts will reduce the amount to be raised to \$3,870,758.43; but to this balance must be added two possible appropriations of size which may be necessary between October 1st and December 1st next. These are \$28,000 for the collection of garbage, and \$25,000 for grading the high school grounds. The addition of this estimated \$53,000 would increase the total revenue charges to \$3,923,758.43.

The valuation of the city for 1926 was \$132,000,000. The estimated increase in valuation for 1927 is \$8,000,000. Dividing \$3,923,758.43 by a valuation of \$140,000,000 would give a tax rate of \$28. If \$100,000 will be transferred from the Excess and Deficiency account, a reduction of 80c could be made in the tax rate, reducing it to \$27.20; and if an additional million dollars of increased valuation could be found, so that the increase will be \$9,000,000 rather than \$8,000,000, another 20c could be taken off the tax rate, bringing it down to \$27. But this is only "may be." It is one thing to suppose that the assessors can find another \$1,000,000 of increased valuation, and it is quite another thing to find it. Moreover, the aldermen may not see fit to transfer \$100,000 from the Excess and Deficiency Fund to bring about an appreciable reduction in the tax rate. So, after all, the rate may be more than \$27.

DR. CROUCH SETS TWO NEW MARKS

The opening day of the annual three days' tournament of the Eastern Archery Association at Deerfield, Mass., yesterday, was featured by the establishment of two new records by Dr. Paul W. Crouch of Boston and a member of the Newton Archers. Despite the cloudy weather making the shooting conditions unfavorable the local archer scored 113 hits for a total score of 589 points in his first York round, a new national record. The previous mark was 116 hits for a score of 565. Dr. Crouch made his second record of the day in the first American round with a score of 629 or eighteen better than his last year's mark. Miss Dorothy Smith of Newton Centre, national champion last year, is not competing, as she is abroad.

Other local archers at the tourney are J. P. True of Waban; Miss Ruth Brewer of Newton Centre who scored 53 hits for 272 points in the first Columbia round; Mrs. J. P. True of Waban, 46—212; Miss Eleanor True of Waban, 43—232; and Mrs. B. P. Hayne, 42—164.

MISS HELEN A. GOULD

Miss Helen A. Gould of 432 Waltham street, West Newton, died Tuesday. She was born in Claremont, New Hampshire, 73 years ago and had resided in this city for 14 years. Her funeral service is being held this afternoon, and burial will be in her native town.

ABOUT TOWN

By Edw. H. Powers

The famous frigate "Constitution" will remain mostly in name and appearance after the work of rebuilding it will have been completed. According to reports, very little of the original timbers of the old ship will be in the gallant old war vessel after the reconstruction is finished.

Man, despite all his ingenuity, is still at the mercy of the elements. He has not conquered the air. The unhappy ending of the flight made by Commander Byrd in the "America" seems to prove that regular transatlantic flying will not be possible until some method of air travel is devised, far more reliable than those now in use. Ocean steamships will not be abandoned for sometime to come.

POLICE NEWS

Tuesday night, William Brooks of Dalby street, Nonantum, reported to the police that James Dezotell, 19, of 85 Allison street, Nonantum, had attacked him with a revolver. Brooks is an uncle of Dezotell, and but a few years older. The pair were riding in an automobile when they became involved in an argument. According to Brooks, the automobile was stopped on Walker street, Newtonville, where Dezotell alighted, drew a revolver, and fired a shot in the direction of the complainant. Brooks stepped on the gas and hurried to tell the police of Dezotell's action. The latter was arrested later in the night by Sergeant Moran and Patrolmen Walker and Gaquin. He was in court Wednesday morning, charged with carrying a revolver without a permit, and with making an assault with a dangerous weapon. The case was continued until July 8; Dezotell was held in \$300 bonds.

HUPMOBILE AGENCY HERE

Another popular automobile now has an agency in this city. Frank R. Fitzpatrick & Co. have opened well-appointed salesrooms for the distribution of the Hupmobile models at 493 Washington street, near Hovey street, Newton. Mr. Fitzpatrick was for some years engaged in the automobile business at Woonsocket, R. I. He owns the Old Belfry Garage at Lexington, and is the Hupmobile distributor for that section.

Mr. G. W. Brenner, who is associated with Mr. Fitzpatrick as general manager of the two branches at Lexington and Newton, has been engaged in the automobile business for 18 years. Mr. Everett Fitzpatrick is secretary and treasurer of the company. In the short time the showroom has been opened in Newton an encouraging amount of business has been transacted.

WARD WILL REMEMBER CHARITIES

The will of the late Charles C. Ward of Newton Centre, who died on June 17, bequeaths considerable amounts to various charities. His estate had a value estimated at \$110,000. The public bequests include \$5000 to the town of Marlboro, N. H.; Mr. Ward's native place; \$2000 each to the Children's Floating Hospital, Boston Welfare Bureau, M. S. P. C. A., Boston Tuberculosis Association, Boston Home for Homeless Boys, Boston Home for Aged Couples, Boston Home for Aged Men, Boston Home for Aged Colored Women. To his sister, Lilla Ward, he left \$15,000 in trust. Upon her death this amount will be divided equally between Rev. Harry Adams, Canton, N. Y., Congregational Church, Marlboro, N. H., and the Newton Hospital.

DEATHS

McLAUGHLIN; on June 28 at 3 Harvard street, Newtonville, Samuel C. McLaughlin, age 64 yrs.
GOULD; on June 28 at 432 Waltham street, West Newton, Helen A. Gould, age 73 yrs.
STURTEVANT; on June 29 at 82 Central street, Auburndale, David Sturtevant, age 78 yrs.
MOORE; on June 26 at 12 Mt. Ida terrace, Newton, Mrs. Clorinda Moore, age 84 yrs.
DONOVAN; on June 26 at 96 Pine street, Auburndale, Mrs. Mary Donovan, age 83 yrs.
ALLESTON; on June 24 at 60 Pine Grove avenue, Lower Falls, William Alleston, age 72 yrs.
BROWN; on June 23 at 112 Dedham street, Newton Centre, Charles W. Brown, age 80 yrs.

OBSTRUCTION PLACED ON TRACKS

A Boston & Albany train passing through Newtonville Wednesday evening about 5:30 ran over some planks which were on Track 4 near the Newtonville depot. The conductor of the train reported the matter to the railroad officials, and they in turn notified the Newton police, who are making an investigation.

MARRIED IN PARIS

At the Cathedral Church of the Holy Trinity in Paris, France, yesterday, Miss Helene Chess Ellsworth of Manchester, Mass., became the bride of Alexander Shaw of Newton Centre. Miss Ellsworth is the daughter of Mr. and Mrs. John C. Ellsworth of Manchester and Mr. Shaw the son of Mr. and Mrs. Robert Gould Shaw, 2nd, of Boulder Farm, Newton Centre. The ceremony was performed by Dean Beekman.

The wedding the bride was attended by her sister, Miss Phyllis Ellsworth, and the best man was Mr. Shaw's brother, Mr. Gould Shaw of Pinehurst, N. C. The bride's gown was of cream chiffon and lace and the maid of honor wore green chiffon with a large drooping hat of yellow. The church was beautifully decorated with summer flowers. Following the ceremony a wedding breakfast was held at the Hotel Plaza-Athenae.

The bridal couple will motor through the southern part of France and will return to America in September, when they will join the groom's parents at Newport, R. I. The parents of both bride and groom are in Paris for the wedding. Other members of the families present were the brother and sister of the bride, Frederick C. Ellsworth and Miss Bobbie Ellsworth; also the brothers and sisters of the groom, Louis A. Shaw, 2nd, and Paul Shaw, Mrs. Gould Shaw, and Mr. and Mrs. Augustus S. Cobb of Paris with their children. Mr. and Mrs. Lowell M. Chapin of Lake Forest, Ill., journeyed abroad for the wedding with their son and daughter, Miss Elizabeth C. Chapin and Coolidge M. Chapin. Mrs. Chapin is a sister of Mrs. Ellsworth.

GILDING CROSS ON CHURCH

A spectacular piece of work has been in progress for the past week at the Church of Our Lady, Washington and Adams streets, Newton. Steeplejacks have been at work regilding the large cross which tops the steeple of the church. This steeple is the highest in the city. A staging has been erected at the top of the structure and

many persons have been watching the work being performed high in the air.

NEWTON LODGE OF ELKS

Newton Lodge of Elks will hold a gala celebration tonight at its quarters. An enjoyable vaudeville entertainment will be given and refreshments served.

—BARGAINS—
SEELEY BROS. CO.
803 Washington St., Newtonville

The entertainment given last Sunday at Norumbega Park by Newton Lodge of Elks for the charity fund of that organization was a success, both from the standpoint of the performance and from the size of the audience.

The program consisted of numbers by professional vaudeville artists and talented local performers. During the afternoon and evening plenty of music was furnished by the Roma Italian Band of Boston, St. Bern-

nard's Fife and Drum Corps of West Newton, and the DeMolay Band of Newton. All these groups won the plaudits of the large gathering that enjoyed their offerings.

The young musicians in the band of the DeMolay Chapter of Newton surprised their friends by the proficiency they displayed, considering the short time they have been organized.

ROTARY CLUB

Mr. Charles B. Floyd of Ansbundale was the guest and speaker at the weekly luncheon of the Newton Rotary Club held Monday at the Woodland Golf Club. Mr. Floyd is a lover of birds and a student of bird life. He gave many interesting facts regarding the birds and his talk was illustrated with colored slides.

Few persons, Mr. Floyd stated, realized the economic value of birds. If all the birds in the world were removed, there would not be a green thing left within a year. Many birds eat more than their own weight each day in insects and the like.

The study of the migratory instincts of birds which has increased considerably the past few years, has led to the banding of birds and reports of subsequent appearances of these banded birds. From what figures have already been noted it is apparent that our ordinary birds travel as far south as South America each year and the arctic tern travels from the Arctic Circle to the Antarctic Circle, a distance of 22,000 miles twice each year. The banding is done by attaching a small piece of aluminum to the leg of the bird after it has been captured in a trap or while it is still too young to fly.

Last year, Mr. and Mrs. Floyd personally banded over 10,000 birds in this manner. It is curious to note, Mr. Floyd said, how some species of birds return regularly to the same place each year for raising their young.

Mr. Floyd told of the good done by birds in keeping down insects, mice and rats and urged the killing of all stray cats, whom, he stated, were the greatest menace to bird life.

Frank J. Perry, chairman of the Outing Committee, reported that a joint outing with the Kiwanis Club had been arranged for Wednesday, July 13, when the two clubs would visit the Frank A. Day Camp at East Brookfield.

The next meeting of the club will be held on Tuesday on account of the holiday and the club will be the hosts for the Rotary Club of Watertown.

SUMMER SCHOOL OPENS

More than 30 clergymen and religious educators from all over New England will attend the summer school session at Newton Theological Institution, which opened Monday for the first time since 1921. Sessions will be conducted until July 15. Lecture courses and evening conferences by the faculty and visiting teachers, respectively, will make up the program.

Dr. Everett G. Herrick, president of the institution; the Rev. Dr. Albert H. Gage, Brattleboro, Vt., and Prof. Woodman Bradbury, F. L. Anderson, and R. M. Vaughan and R. L. Howard will do the lecturing.

Evening conferences, which will be in the nature of round-table discussions, will be led by the Rev. Dr. J. C. Masse, pastor of Tremont Temple; the Rev. M. E. Bratcher, Calvary Church, Providence; the Rev. Edwin E. Sundt of Connecticut, and the Rev. Raymond L. Cooper.

A layman's day is being planned as a feature of the convention. The devotional services will be in charge of several secretaries of Baptist state conventions.

MINER-CHAPMAN

Miss Sylvia Chapman, daughter of Mr. and Mrs. John W. Chapman of Prescott street, Newtonville, was married to Mr. Reginald Bodley Miner, son of Rev. and Mrs. Guy Wilbur Miner of Washington street, Wellesley Hills, on Saturday afternoon, June 25th, at 4 o'clock, in St. John's Church, Newtonville.

The ceremony was performed by Rev. Guy Wilbur Miner, rector of St. Mary's Episcopal Church of Newton Lower Falls and father of the bridegroom. The bride was given in marriage by her father.

Miss Marjorie Chapman of Newtonville, a sister of the bride, was the maid of honor and the bridesmaids were the Misses Priscilla Aurelio of Newtonville, Eleanor Daboll of Brookline, Ruth Steele of Longmeadow and Annabelle Hillman of New Bedford. The best man was Mr. Albert Schweizer of New York City and the ushers were the Messrs. Thomas F. Bundy of Boston, Francis Cosgrove of Marlboro, Dwight Miner, a cousin of the groom, of New York City and Albert W. Holmes of New Bedford.

The bride wore a gown of white satin trimmed with rose point lace of her grandmother's, and a tulle veil with coronet of rose point lace and wreath of orange blossoms. She carried a shower bouquet of white roses and white sweet peas. The maid of honor wore pale blue chiffon trimmed with silver lace and a picture hat to match. Two of the bridesmaids wore orchid georgette and the other two wore pale peach color georgette, and all wore picture hats to match their gowns. The maid of honor and bridesmaids carried arm bouquets of pink snapdragons and blue larkspur.

A reception was held following the ceremony at the Newton Club, where the young couple were assisted in receiving by the parents of the bride and groom, and the maid of honor and best man.

The decorations at the church and club house were of peonies, gladioli and ferns.

After a wedding trip to the White Mountains and Canada, Mr. and Mrs. Miner will reside at 89 Jewett street, Newton, where they will be at home after September 1st.

The bride is a graduate of Wellesley '25 and the groom of Dartmouth '21 and Technology '24. He is a member of the Delta Tau Delta fraternity.

HANRON-MORAN

Miss Margaret Moran, daughter of Mr. and Mrs. Daniel J. Moran of Lynn, was married on Monday morning, June 27th, to Mr. Thomas F. Hanron of Capital street, Newton. The ceremony took place at St. Mary's Church, Lynn, at 9 o'clock and was performed by Rev. David J. Moran, S. J., a brother of the bride, who was ordained last Thursday at Weston, Mass.

The maid of honor was Miss Mary R. Moran, a sister of the bride, of Lynn. The best man was Mr. Edmund R. Boucher of Newton. The ushers were Messrs. J. Francis Moran, brother of the bride, Albert Flynn of Lynn, P. Francis Heron and James I. Heron, cousins of the bride, of Lowell, Mass.

The bride's gown was of white satin and chintilly lace with a court train of satin. Her veil of white tulle and chintilly lace was arranged coronet fashion caught with orange blossoms. Her shower bouquet was of lilies of the valley, roses and orchids. The maid of honor wore pink satin and tulle, with a hat of pink. Her bouquet was of buttercup roses.

A reception was held at the home of the bride from 10 to 12 o'clock. The couple were assisted in receiving by Mrs. Anne Hanron, mother of the groom, and Mr. and Mrs. D. J. Moran. The home was decorated with peonies, poppies, mountain laurel and palms. At the church the decorations were of palms, roses, gladioli, peonies and poppies.

After a motor trip to Lake George and the Adirondacks, Mr. and Mrs. Hanron will reside in Milton, where they will be at home after August 1st. The bride is a graduate of Notre Dame and the groom of Boston College. He is also a veteran of the World War, having seen active service with the 301st Engineers. The bride is a well known coloratura soprano.

McKIE-GATES

A very pretty home wedding took place at the home of Mr. and Mrs. Herbert W. Gates of Kenwood avenue, Newton Centre, on Wednesday evening, June 25, when their daughter, Miss Catherine Gates, became the bride of Mr. Donald James McKie of Rochester, N. Y. The ceremony was performed at 8 o'clock by Rev. Roy B. Guild assisted by Dr. E. M. Noyes.

The bride was attended by her two sisters, Miss Margaret Gates as maid of honor and Miss Esther Gates as bridesmaid. Mr. G. Alfred Sprot of Rochester, N. Y., was the best man and Messrs. Raymond W. Cross and Robert W. Lewis, both of Rochester, N. Y., were the ushers.

The bride wore a period gown of white tulle with a tulle veil. Her maid of honor wore rose colored tulle and the bridesmaid wore lavender tulle.

A reception was held following the ceremony at which the couple were assisted in receiving by Mr. and Mrs. Gates and Mrs. M. McKie.

The wedding march was played by Mr. Ralph McLean.

After a ten-day trip to New Hampshire, Mr. and Mrs. McKie will make their home at Rochester, N. Y.

FLATHER-CURRIER

Miss Gwendolyn B. Currier, daughter of Mrs. Jane R. Currier and the late James H. Currier, was married on Friday evening, June 24, to Mr. Ralph F. Flather of Nashua, N. H., and Hotel Charlesgate, Boston. The ceremony was performed at 8 o'clock at the home of the bride by Rev. Ray A. Eusden of the Eliot Congregational Church. She was given away by her brother-in-law, Mr. Harry M. Dexter.

Miss Doris Flather of Boston and Nashua, N. H., a sister of the groom, was the maid of honor and the best man was Mr. I. Blaine Stevens of Nashua, N. H. Miss Anne Fuller, daughter of Mr. and Mrs. Francis Fuller of Newton, was the flower girl.

The bride wore a period gown of white tulle, with bouffant skirt, and trimmed with rhinestone and pearl embroidery. Her veil was of Brussels lace. The maid of honor wore coral color georgette with rhinestone trimming.

At the reception held at the home of the bride, 104 Eldredge street, the couple were assisted in receiving by Mrs. Jane Currier, Mr. and Mrs. Harry Dexter, sister and brother-in-law of the bride, Mr. and Mrs. Ernest J. Flather and Miss Doris Flather.

The home was very tastefully decorated with a bower of ferns and palms, lilies, larkspur and spring flowers. Music was furnished by the Grieg Trio under the direction of Mrs. Del Castella.

The bride is a graduate of Miss Lucy Wheelock's school, Class of 1922, and the groom of Technology 1921.

FOCI-ANTONELLIS

On last Sunday morning at the Sacred Heart Church, Waltham, Miss Laura Antonellis of 28 Adams street, Newton, was married to Mr. Biaggio Focci of Leominster. The ceremony was performed at 10 o'clock by Rev. Joseph P. Raymond.

Miss Geraldine Focci was the maid of honor, Messrs. Amato Pescosolidi, John Focci and Joseph Antonellis were the ushers.

The bride wore a gown of white satin and princess lace embroidered with rhinestones and veil of lace. She carried a large bouquet of roses and lilies of the valley. The maid of honor wore a gown in three shades of orchid organdie with a hat and bouquet to match.

After a wedding trip Mr. and Mrs. Focci will make their home in Newtonville.

NEWTON AUTO HITS POLE

Last Friday a truck driven by Lawrence Panagiotis of 84 West street, Newton, collided with an automobile driven by Ralph Pierce of Somerville, and then crashed into an electric light pole. The accident occurred on Mount Auburn street, Watertown, near Russell avenue. Walter Sampson, 17, of Theurer park, who was riding with Panagiotis, was thrown against the windshield, and suffered cuts on his left arm. According to Panagiotis, Pierce drove from behind a street car.

It's the modern way!

Have your roofing contractor lay your new roof of Barrett Shingles right over the old wooden shingles.

This saves time and money. There's no need to rip off the old shingles—no unsightly mess—no danger of having your house exposed to the weather while your new roof goes on. And, in the end, you have double protection.

Barrett Shingles are colorful, fire-safe and rot-proof—rust-proof and unfading. Come in and see them. We recommend them highly!

We endorse
Barrett
ROOFINGS

Mr.: "The roofers arrive tomorrow."
Mrs.: "And how I dread it—shrubbery ruined, dirt, broken shingles..."
Mr.: "Wrong this time. These new shingles" are laid right over the old."

SCHOOL COSTS

Great Increase In Past Twenty-Five Years

The following comparisons will show how the cost of educating the young has mounted in the past twenty-five years. In 1902 the total cost of maintaining the schools of this city was \$253,981.57; in 1912, \$508,274.06; in 1922, \$1,060,865.06; in 1926, \$1,552,910.33. Last year the School Department called for 29 percent of the money appropriated in the budget.

In 1902 the regular running expenses of the schools totaled \$211,940.25; in 1926 the total was \$1,074,555.82. In 1902 the work of the Building Department on school buildings called for \$7,258.23; in 1926 the cost of the work done by the Building Department on the schools amounted to \$61,295.55. In 1902 the Health Department spent \$150 for inspecting the health of school children. Last year the city spent \$14,468.41 safeguarding the health of the school pupils. In 1902 no expenses were charged against the schools for work done by the Forestry Department. There was no Forestry Department at that time. In 1926 this department performed \$13,941.72 of work for the School Department. In 1902 the interest paid on School Bonds was \$1500, last year the interest amounted to \$83,000. In 1902, \$23,000 was turned in the Sinking Fund of the city to be applied to the payment of School Bonds. Last year \$260,000 was paid by the city to retire serial School Bonds.

In 1902 there were 6,147 pupils in the Newton schools. Last year there were 10,083 pupils. This made the cost per pupil \$14.31 in 1902, and \$156.99 in 1926.

MARCHANT-MacLELLAN

Miss Margaret Louise MacLellan, daughter of Mr. and Mrs. Charles MacLellan of Ansbundale, was married to Mr. John Reynolds Marchant of Newtonville on Saturday morning, June 25, at the Corpus Christi Church, Ansbundale. The ceremony was performed at 9 o'clock by Rev. T. P. MacMannon, who also celebrated the nuptial mass.

Miss Evelyn Cameron, sister of the bride, was her bridesmaid and Mr. Clifford Marchant of Newton, brother of the groom, was best man. Messrs. Frank Marchant of Swampscott, brother of the groom, Frank Murphy of Newtonville and Donald MacLellan, brother of the bride, assisted as ushers.

The dress worn by the bride was of pink chiffon with a veil of pale pink tulle trimmed with orange blossoms. She carried a shower bouquet of white roses and sweet peas. The bridesmaid wore a pale blue georgette dress with pink hat and carried pink butterfly roses.

A reception and wedding breakfast was held at the home of the bride, 330 Lexington street, from 10 to 12 o'clock. The bride and groom were assisted in receiving by Mr. and Mrs. Charles MacLellan and the bridesmaid and best man.

The home was tastefully decorated with cut flowers in pink and white color scheme. At the church the decorations were of palms and pink and white flowers.

Mrs. Florence Taffe Cunningham of Newton Lower Falls played the organ music for the nuptial mass and Miss Mary Murphy, also of Newton Lower Falls, was the soloist.

Mr. and Mrs. Marchant left on a wedding trip to the White Mountains and Quebec.

They will reside in their new home on Kenyon street, West Newton.

The groom is a member of the Newton Fire Department.

NEWTON HOSPITAL

(Legal Title)

Dependent on Contributions and Endowments for its Maintenance

More than one-half of the patients admitted to the hospital are unable to pay as much as the cost of their care.

OFFICERS

CHARLES E. KELSEY, President
STANLEY M. BOLSTER, Treasurer
10 State Street, Boston

NEWTON HOSPITAL

There's a bit of a lull at the hospital at present. For the week ending June 25 there were 110 patients in the hospital of whom 36 paid as much as the cost of their care or more, 44 paid less than cost of care and 30, including babies, were free patients. One hundred and twenty-four were treated by the out-patient department and there were 11 accident cases. Of the 14 babies born seven were boys and seven were girls. The social service department made eight calls at the hospital and transferred 11 patients in its car.

Mr. Charles Howard, the engineer-in-chief, with his wife motored to Boothbay Harbor, Me., for the week-end. Thirteen young women who since last February have been in the preliminary course at the training school have been admitted to full membership in the school for nursing. They are Grace C. Anderson, Pauline Doran, Arlene R. Ellis, Ruth B. Farnsworth, Shirley E. Fowler, Marie A. Harney, Ora A. Johnson, Elizabeth A. Lane, Helen MacDonald, Frances L. Montana, Araminta C. Thompson and Constance M. Watson.

Of the eleven accidents last week only one was an automobile accident and that one was a skull fractured by the whirling crank of a car. There were four accidents due to falls, a child broke its leg by falling against a radiator, another child bumped the back of its head badly by falling on a sidewalk, a man lacerated his hand and forearm by falling from a motorcycle and another man had a gash in the back of his head because he fell from a bicycle. A child was badly burned on the face, back and body by scalding water, an adult was burned by flaming kerosene on the hands, arm and face and a right eye was burned by acid. To complete the list there was a hand cut by an axe, an infected finger and a case of delirium tremens.

Week ending June 18. Patients in hospital 134; patients paying as much as cost of care or more 49; patients paying less than cost of care 49; free patients, including babies 36; patients treated by out patient department 131; by eye clinic 7; accident cases 13; babies born, boys 6, girls 5; social service calls at homes 14; patients transferred by social service car.

A possible fracture of the skull, a broken shoulder and a sprained back all due to automobiles were three of the accidents treated last week. There was a badly bruised lip due to being hit by the top of a tank that was blown off and a nose broken by a whirling crank. A jump from a wood pile accounted for three broken toes, stepping on a rake, left with the teeth turned up, wounded a left foot, a badly cut finger was due to a knife and a severed tendon to an axe. The other accidents included a dislocated shoulder, eye cut by glasses, a piece of steel in an eye and a green twig fracture of a left arm.

On Tuesday the superintendent with members of her staff and of the medical staff attended the opening of the Pondville hospital at Norfolk.

The hospital clinics are now on summer schedule. The Thursday orthopedic clinic will be omitted until further notice but the orthopedic clinics on Tuesday at 2 p. m., and the Saturday clinics at 9 a. m., will be continued. The children's medical clinic on Tuesdays at 2 p. m. will be continued but those on Thursdays will be discontinued.

TINKHAM-EATON

At a very simple home wedding on last Sunday evening, Miss Marion Choate Eaton, daughter of Mrs. Austin Hardy Eaton and the late Mr. Eaton, was married to Mr. Stuart Tinkham of Bay State road, Boston. The ceremony was performed by Rev. William E. Strong of Newtonville.

The only guests present were members of the two families and those who were to have been the attendants of the bride and groom, and the ushers at the wedding party planned for last Friday evening, which had to be postponed on account of the sudden death of the bride's father.

The bride wore a gown of ivory tulle with tight bodice and long full skirt and an old lace collar. Her veil which was a lace shawl of her grandmother's was trimmed with tulle from her mother's wedding veil.

After a wedding trip Mr. and Mrs. Tinkham will reside at 27 Wachusett avenue, Arlington Heights.

The bride is a graduate of the Boston School of Physical Education, class of 1925 and the groom graduated from Brown University with the class of 1923. He is a member of the Delta Tau Delta Fraternity.

DOES ADVERTISING PAY?

Newton Graphic, Newton, Mass.

Gentlemen: We have just completed our Eighth Anniversary Sale, and wish to write you this unsolicited note to express to you our belief in local newspaper advertising.

The week's sale was, without question, the most gratifying one we have ever attempted, and the advertising which we ran in the Graphic proved a very profitable one, not only in sales, but in the large number of customers which it brought to our store. Believing this note will be of interest, and with best wishes, we are Yours very truly,

MOORE & MOORE,
By Harold Moore.

DRAMA FOR HIGH SCHOOL PUPILS

In the Graduate School of Education at Harvard University there will be offered this summer for the first time, a class in dramatization for high school pupils. This class will study some of the best short plays, attempt the writing of brief dramatic sketches and present one or more plays before an audience. The pupils pay no tuition and are charged but a small sum for books and supplies. The work is to be conducted by Mr. John Merrill of Chicago under the direction of Mr. Charles Swain Thomas of Harvard, former English department head at Newton High.

POLICE NEWS

That the motorcycle cops of Newton are on the job is being evidenced by the large number of offenders appearing in the Newton Court for speeding. Another batch paid fines last Friday. Francis Perkins of Brookline was penalized \$15; those fined \$10 each were Fred Weymouth of Orange; Fred Heintz, Cambridge; James Seaver, Winnetka road, Waban; Henri Ganteaume, 33 Beaumont avenue, Newtonville; Roy Boynton, 599 Commonwealth avenue, Newton Centre.

Monday the house of Giuliano DeSantis, 85 Allison street, Nonantum, was searched by Inspector Shaughnessy and Patrolman Hannon and merchandise alleged to have been stolen from the Hood Rubber Company, where DeSantis was employed, recovered. It included 300 yards of cloth and four pairs of shoes. DeSantis was arrested on Wednesday night by the Newton police and turned over to the Watertown police to answer the charge of larceny.

Charles O'Brien of Fulton street, Medford, was arrested on Sunday night by Patrolman Chadwick charged with driving while under the influence of liquor. He will be tried on July 6.

Sunday night Patrolmen F. Feeley, McDonough and J. B. Foley chased an automobile containing several men obviously drunk. Albert Ayoub of 131 Hudson street, Boston, one of the occupants, threw a bottle onto the street during the pursuit and he was fined \$25 in court on Monday for breaking glass on a public highway. His three companions were arrested for drunkenness.

Tony Anthony of 877 Chestnut street, Upper Falls, a frequent visitor to the Newton Court, will make another appearance on July 5; this time to answer a charge of trespassing.

Joseph Monaghan of Pearl Court was fined \$50 in court on Tuesday for creating a disturbance.

Edward A. White of 269 Washington street, Somerville, was fined \$5 in court yesterday. He parked his car for more than 30 minutes in the restricted area on Washington street, Newton Corner.

James Dezottell of 85 Allison street, Nonantum, was arrested Tuesday night by Serg. Moran and Officer Walker, charged with making an assault with a dangerous weapon.

Arthur Melanson of Weston street, Waltham, was fined \$100 in the Newton court on Wednesday. He was arrested on June 17 charged with driving while under the influence of liquor.

WIN PRIZES AT FLOWER SHOW

Roses and peonies were the prominent flowers in the closing June flower show at Horticultural Hall last Saturday and Sunday. The largest peony exhibit, put up by the Cherry Hill Nurseries of West Newton, entirely filled the centre section. It was awarded a silver medal. T. F. Donahue of Newton Lower Falls, whose gardens at his home on Washington street attract many local people and others from far off states and countries, received a gold medal for a strikingly arranged group of perennials, a first prize award for his Canterbury bells, a first for his display of irises and a second in the Sweet William display.

Other local exhibitors who won awards were Herbert C. Fraser of Newton, second in the display of cut sprays of climbing and baby ramble roses; A. L. Stephen of Waban, first for the three blooms of any white hybrid perpetual rose; Herbert C. Fraser, first for three blooms of any yellow or orange rose, and Mrs. J. P. R. Sherman of Newton, second in the same competition.

The Lady Answered

He was an up-to-date, well-dressed collegian and this was his first day at the flying field. Near the Canuck, the small airplane, he noticed a crowd of men all gathered about what seemed to be the pilot. The crowd was singularly, overwhelmingly composed of members of the male sex. Our hero wondered at the deep interest shown by the men in a pilot of an airplane and he thus casually strolled over to partake of the general curiosity. The center of all eyes, he at once noticed, was an aviator. With a superior swagger, he brushed through the crowd and asked the intrepid female, "aren't you often mistaken for a man?"

"No," she answered, "are you?"—New York Medley.

Good Use of Time

I build my fortune on the dial of my watch; seconds become pennies, minutes become dimes, hours become dollars; I give a money value to every tick and take advantage of everything that enables me to conserve time. I practice economy of time, I never procrastinate, thereby permitting others to get ahead of me. I am alert for opportunities; I look carefully into whatever seems good or inviting; when my judgment approves I act promptly, with decision. If there is a law of success, a rule by which one may attain the desired and desirable rewards of life, assuredly one of its basic principles is making good use of our time.—Norma Sauls, in Illinois Central Magazine.

In 1641

I do hear them say often some men are not witty, because they are not everywhere witty; than which nothing is more foolish. If an eye or a nose be an excellent part in the face, (should we) therefore be all eye or nose? I think the eyebrow, the forehead, the cheek, chin, lip or any part else are as necessary and natural in the place. But now nothing is good that is natural; right and natural language seem to have least of the wit in it . . . and this is to write like a gentleman.—Ben Jonson, in "Timber."

SCHOOL COMMITTEE DISCUSSES USE OF SCHOOL HOUSES

At the regular meeting of the School Committee on Monday night, Mrs. Helen Hutchinson, member from Ward 3, called attention to the fact that the Newton Medical Association is protesting against the use of the Angier School at Waban by a physician who conducts clinics there, and who charges fees. She contended that this is using a school building for commercial purposes and that such use is improper. Joseph Lockett, member from Ward 6 agreed with Mrs. Hutchinson, and stated that the use of a school building for this purpose is contrary to the rules of the Committee.

Eliot Church, member of the committee from Ward 1, was of the opinion that the use of the Waban School for clinics, was as proper as the use of the Underwood School for lectures which are held under the auspices of the Newton Community Club. He was told that admission to these lectures are free, while the physician, using the Angier School receives fees for his work. It was voted to refer the matter to Supt. of Schools Wheeler, who was instructed to settle the matter in accordance with the rules of the Committee.

Mr. Church recommended that the "Stearns School Centre" be asked to file an application for the use of the Stearns School, just as other organizations must file applications. He praised the work this organization is doing, but desired in view of the argument, that all users of school buildings be treated alike.

The Boy Scouts, through Norumbega Council, asked for the use of the gymnasium in the new high school building on certain evenings during next September, October and November for the use of a Scout Leaders training school. Director Bacon of the High Schools, recommended that the Scouts be given the use of the old gymnasium in the "drill shed," as he does not favor opening up the large building for the use of a small number of Scouts. The School Committee voted to refer the matter to Secretary Kellar, who will confer with the Scout officials.

THE FOURTH OF JULY

To the Editor:

Dear Sir: It may be that you can give a few inches of space to a subject which I am sure is of general interest in the city. I speak of Fourth of July celebrations. Comparisons, whatever they may be, are sure to exist, and I cannot help comparing the arrangements for the glorious Fourth as I used to know them in Brookline, with those at present in vogue in Newton.

In Brookline, the rule was: No noise of any kind from horns, torpedoes or firecrackers, until four o'clock on Fourth of July morning. The night before, the town was covered at every point with patrolmen or special officers, who enforced this rule absolutely. During my experience as a boy, trying to slip one over on the police, my memory shows very little in my favor. The night was quiet, and the days before were quiet, and the days afterward were quiet.

Here in Newton (Tuesday, June 27th) the Fourth has already begun. Explosions of various kinds are heard on the street. From now on for ten days or more that will be a daily occurrence, unless a great change from last year takes place. Every time a boy buys some firecrackers, he'll try a bunch to see how they go, and he won't be fussy as to when and where. If there is anything left on Fourth of July, he'll fire them off then. Last year, as an actual fact, the daylight hours of the Fourth around the Upper Falls were more quiet than the preceding days. It is the same with fireworks. No one can be sure just when they will be fired, and where they will be fired. Three times last year fires were started in the grass on my place, by wandering rockets.

Certainly the young people ought to have a chance to celebrate, but is it fair to keep property owners on the jump for ten days or so with these dangerous possibilities on hand? Is it fair to the sick? I think that we shall all enjoy the Fourth just as much if the city ordinances regarding explosives of all kinds are strictly enforced, and the Fourth of July is made the time of Fourth of July celebration.

Very truly yours,
ERNEST COBB.

VACATION CHURCH SCHOOL OPENS JULY 6

The Newtonville Community Vacation Church School conducted by the Newtonville Council of Religious Education will open at 9 o'clock Wednesday morning, July 6. The school is open to all children in the community between the ages of six and 13. There is no registration fee. The school is supported by the churches of the community through the Council of Religious Education.

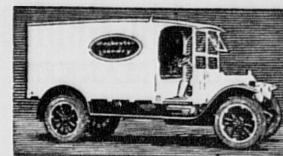

An interesting program has been planned for all age groups. Stories, games, songs, drills, handwork and dramatization will all be a part of the program of the school. The school will meet in the Methodist Episcopal Church. Children will find the church a cool and comfortable place to spend their mornings during the warm July days. The building was comfortable even during the warmest days of the school last summer.

If You Stay At Home

You will enjoy the New England Way during the hot weather. It will give you freedom from hard work and a chance to store up strength for busy days ahead.

Staying at home can be made the finest of all vacations if you plan to enjoy the help of one of our many services. The NEW ENGLAND WAYS of solving your laundry problem will prove a delight. They are varied enough to suit a family of any size and fit any purse.

Our salesman in your locality will be glad to tell you about our individual services and their cost, or, if you don't happen to see him, just 'phone and ask to have him call.

CAMP NEWS

By Harold P. Carver, N. H. S. '26

Since the grind of books is over for a brief period of three months the majority of the boys and girls of the city are already laying their plans for the vacation days. One of the favorite means of having a good time and in the same period gain some decided advantages is by going to one of the many summer camps that are scattered all over the face of the United States. The proposition is merely that of amusement plus instruction and the results usually are found in a more reliable, more responsive child when the season is over and the parents take account of stock. There are camps by the seaside, and camps by the lakes, camps of every description, and for every purpose, but they all have certain laws and regulations which are held up to the campers and teach a certain degree of respect and reverence for authority and discipline.

Since a greater majority of the vacationists take their pleasure this way in preference to any other, this column will contain for the duration of the summer, news from various camps that have a large percentage of Newton boys and girls on their rolls. If anyone has news at hand of the activities of some persons from Newton in the various camps, the writer would appreciate a note concerning the affair at the following address: Camp Passaconaway, Bear Island, New Hampshire.

Most of the seasons for camps begin on the first day of July and in consequence the councillors are doing the physical work necessary to get camp in order, and the directors are doing the mental labor that is required to have everything in order and running as it should by the time the on-coming horde strikes the camp.

Camp Passaconaway opens on Friday when the group of boys land at the Weirs ready for the short trip to Bear Island on the Mount Washington ark of the lake. Once they land in camp the councillors will be ready to extend the welcome sign, and pack them off to their tents where the first lesson in camping will be learned. Among the councillors who hail from Newton are E. Warren Blue and Edward N. Tisdale, both of the Newton High School faculty, and Charles Phelps and Franklin Hoyt from Williams. The two Chadwicks, Walter and Howard, Donald Houghton, Arthur Shute, Arthur Chamberlain, Stuart Stone, Duncan Howlett, and Harold Carver round out the list.

Among the boys that are coming from Newton are names of these followers of Chief Passaconaway: Melvin Budgell of Newton Highlands, Fredrick Hoey of Newton Upper Falls, Lee Coombs of Newton Centre, Seymour Ellis of Waban, Richard W. Hoey of Newton Upper Falls, Thomas, John and Richard Hennessey of Newton Highlands, Arthur and Donald Robins of Waban, Frank Stratton of Newton Highlands, Carl Davis, Jr., of Newtonville, William Hayden, Jr., of the same place, David and Robert Clapham of Newton Centre, Alfred Dickinson and Burton Woodward of Newtonville, John Bishop of Newton Centre, Edward Ulrich of West Newton, Rudolph Koops of West Newton, Arnold Davis of Newtonville, Robert and Reginald Bankart of Newtonville, Frederick and Ritchie Garrison of Waban, William Leighton of Auburndale, Theodore Dearborn of Auburndale, Charles Lynde, Jr., of Newtonville, Robert Lincoln of Newton Centre, Willis Foss of Newtonville, John W. Booth of Newton Centre, Gilman Conant of Newtonville, Herbert Ray, Jr., of Newton Highlands, David Biswell of Waban, Harold Knapp of Waban, John Locke of Newtonville, Albert Hutchinson of Newton Highlands, David Scott of Newton Centre, and Daniel Goodridge of Newton.

Plans have been made for one of the busiest summers that the camp has ever experienced, and the archery courts have been cut to give better results, while the baseball field has received an unusual amount of attention. The old Safety has received a new deck and engine and nearly approaches the speed boat class. Next week there will be further news of other camps as soon as reports come in.

BORN IN THIS CITY

Clara Louise Burnham, the well known author who died last week Monday at her summer home on Bailey Island, Me., was born in Newton some 70 years ago. She was the daughter of Dr. George F. Root, a former popular composer of music. Mrs. Burnham published her first book in 1881 and her last book came out last year.

PROF. RIPLEY WINS \$500

William Z. Ripley, professor of economics at Harvard University and a resident of Newton Centre, has won the Harmon-Survey award of \$500 and medal offered to "the author of the

article appearing in 1926 in any American periodical or newspaper which makes the most distinctive contribution of the year to social or industrial welfare in the United States." The award to Professor Ripley was made on his article, "From Main Street to Wall Street," published in the Atlantic Monthly of January, 1926, in which he discusses the evils of divorcing management from ownership in industrial and public utility corporations, through the forming of holding companies and the issuing to insiders of shares of common stock which carry the entire control.

CAMP F. A. DAY OPENS

(Continued from Page 1)

with an hour of rest after dinner. Setting up exercises start the day, after which a dip in the lake is in order. The campers then assemble for the flag raising and then go to the dining hall for the morning repast. This is followed by chapel exercises in the outdoor chapel. The camp grounds and the tents must next be put in order for inspection. At 9:30 the group assemblies for the morning activities. At eleven o'clock the boys take to the water for a swim in the lake where a class for beginners is also held. At noon the dinner call is sounded after which an hour's siesta is scheduled. At 2 o'clock the afternoon activities are resumed and shortly after four another half hour swim. Just before 5 o'clock instruction in the handling of boats and canoes is given for an hour. At 6 o'clock the boys welcome the call to supper after which they either take to the boats or canoes or play games. At 8 o'clock they gather around the campfire and three quarters of an hour later go to their tents for evening devotions. At five minutes after nine taps are sounded and all lights are extinguished. The officer of the day then makes an inspection tour to see that all are in bed.

The general program of the summer is arranged with an ascending order of events, the big Field Day and Camp Banquet coming at the end of the season and the annual circus furnishing the half-way mark. The Sunday schedule is slightly varied. Overnight hikes, canoe trips and the like add to the enjoyment of the campers.

Here's the Iron You Want!

Never Too Hot—
Never Too Cool—
It's New, and
It's Better

The Westinghouse Automatic Iron

JUST think of leaving your iron indefinitely, without bothering to pull out the plug, and upon your return, find that the temperature is just right to continue your ironing. The Westinghouse Automatic does this—and more—and does it automatically. No waiting around while a cool iron heats—no worry or fear that a hot iron will do damage if forgotten.

Surely this is the iron you want! Your Electric Dealer and the nearest Edison Shop have it—see it where most convenient—while these liberal terms are still effective.

Trade In
Your Old Iron

\$7.75

We are allowing \$1.00 for your old iron, regardless of its condition, toward the purchase of a Westinghouse Automatic Iron. This offer is for a limited time only!

Annie M. Kelley. About 27,696 square feet of land on Goddard street, being more particularly described in Section 53, Block 13B, Lots 128 and 129 of Assessors' Plans. Taxes \$16.80

Beatrice MacDonald. About 13,520 square feet of land on Charlemont street, being more particularly described in Section 53, Block 13F, Lots 274 and 275 of Assessors' Plans. Taxes \$14.00

William A. MacFawn. About 7,875 square feet of land on Bernard street, being more particularly described in Section 53, Block 13D, Lots 307 and part 308 of Assessors' Plans. Taxes \$8.40

Charles McCarthy. About 14,655 square feet of land on Charlemont street, being more particularly described in Section 53, Block 13, Lot 213 of Assessors' Plans. Taxes \$5.60

Charles McCarthy. About 12,165 square feet of land on Charlemont street, being more particularly described in Section 53, Block 13, Lot 209 of Assessors' Plans. Taxes \$5.60

Merchants Co-operative Bank. Supposed present owners, Alfred W. Barrett, Jr., and Margaret M. Barrett. About 1,575 square feet of land on Christina street, being more particularly described in Section 53, Block 13D, Lots 303, 304 and 305 of Assessors' Plans. Taxes \$12.60

Merchants Co-operative Bank. Supposed present owners, Alfred W. Barrett, Jr., and Margaret M. Barrett. About 5,000 square feet of land and building on Bernard street, being more particularly described in Section 53, Block 13D, Lot 324 of Assessors' Plans. Taxes \$63.00

Wilma D. Olander. Supposed present owners, Angelo Leporello and Frances Leporello. About 8,900 square feet of land on Parker avenue, being more particularly described in Section 55, Block 1G, Lots (30)-143 and -142 of Assessors' Plans. Taxes \$8.40

Edward Charles Pantan. About 40-440 square feet of land on Parker terrace, being more particularly described in Section 54, Block 6, Lot 25 of Assessors' Plans. Taxes \$5.60

Charles A. Price, Edward H. Bonelli and Stanley R. Miller, Trustees. About 7,545 square feet of land on Alexander road, being more particularly described in Section 55, Block 1, Lot (30)-452 of Assessors' Plans. Taxes \$5.60

Charles A. Price, Edward H. Bonelli and Stanley R. Miller, Trustees. About 7,411 square feet of land on Alexander road, being more particularly described in Section 55, Block 1, Lot (30)-453 of Assessors' Plans. Taxes \$5.60

Charles A. Price, Edward H. Bonelli and Stanley R. Miller, Trustees. About 4,260 square feet of land on Kendall road, being more particularly described in Section 55, Block 1, Lot (30)-243 of Assessors' Plans. Taxes \$2.80

Charles A. Price, Edward H. Bonelli and Stanley R. Miller, Trustees. About 8,089 square feet of land on Kendall road, being more particularly described in Section 55, Block 1, Lot (30)-242 of Assessors' Plans. Taxes \$2.80

Charles A. Price, Edward H. Bonelli and Stanley R. Miller, Trustees. About 5,569 square feet of land on Parker street, being more particularly described in Section 55, Block 1, Lot (30)-227 of Assessors' Plans. Taxes \$2.80

Charles A. Price, Edward H. Bonelli and Stanley R. Miller, Trustees. About 6,906 square feet of land on Parker street, being more particularly described in Section 55, Block 1, Lot (30)-414 of Assessors' Plans. Taxes \$4.20

Charles A. Price, Edward H. Bonelli and Stanley R. Miller, Trustees. About 6,802 square feet of land on Parker street, being more particularly described in Section 55, Block 1, Lot (30)-415 of Assessors' Plans. Taxes \$4.20

Charles A. Price, Edward H. Bonelli and Stanley R. Miller, Trustees. About 7,017 square feet of land on Parker street, being more particularly described in Section 55, Block 1, Lot (30)-416 of Assessors' Plans. Taxes \$4.20

Charles A. Price, Edward H. Bonelli and Stanley R. Miller, Trustees. About 16 acres 27,442 square feet of land on Walnut Hill road, being more particularly described in Section 55, Block 1, Lot 32 of Assessors' Plans. Taxes \$140.00

Moth Assessment 3.52

Charles A. Price, Edward H. Bonelli and Stanley R. Miller, Trustees. About 7,430 square feet of land on Woodcliff road, being more particularly described in Section 55, Block 1A, Lot (30)-431 of Assessors' Plans. Taxes \$2.80

Charles A. Price, Edward H. Bonelli and Stanley R. Miller, Trustees. About 10,140 square feet of land on Woodcliff road, being more particularly described in Section 55, Block 1A, Lot (30)-432 of Assessors' Plans. Taxes \$5.60

Charles A. Price, Edward H. Bonelli and Stanley R. Miller, Trustees. About 10,000 square feet of land on Woodcliff road, being more particularly described in Section 55, Block 1A, Lot (30)-433 of Assessors' Plans. Taxes \$5.60

Charles A. Price, Edward H. Bonelli and Stanley R. Miller, Trustees. About 7,120 square feet of land on Woodcliff road, being more particularly described in Section 55, Block 1A, Lot (30)-434 of Assessors' Plans. Taxes \$4.20

Charles A. Price, Edward H. Bonelli and Stanley R. Miller, Trustees. About 6,900 square feet of land on Woodcliff road, being more particularly described in Section 55, Block 1A, Lot (30)-435 of Assessors' Plans. Taxes \$4.20

Charles A. Price, Edward H. Bonelli and Stanley R. Miller, Trustees. About 6,900 square feet of land on Woodcliff road, being more particularly described in Section 55, Block 1A, Lot (30)-436 of Assessors' Plans. Taxes \$4.20

Charles A. Price, Edward H. Bonelli and Stanley R. Miller, Trustees. About 5,696 square feet of land on Woodcliff road, being more particularly described in Section 55, Block 1A, Lot (30)-437 of Assessors' Plans. Taxes \$2.80

Charles A. Price, Edward H. Bonelli and Stanley R. Miller, Trustees. About 5,360 square feet of land on Woodcliff road, being more particularly described in Section 55, Block 1A, Lot (30)-438 of Assessors' Plans. Taxes \$2.80

Charles A. Price, Edward H. Bonelli and Stanley R. Miller, Trustees. About 5,664 square feet of land on Woodcliff road, being more particularly described in Section 55, Block 1A, Lot (30)-439 of Assessors' Plans. Taxes \$4.20

Charles A. Price, Edward H. Bonelli and Stanley R. Miller, Trustees. About 6,496 square feet of land on Woodcliff road, being more particularly described in Section 55, Block 1A, Lot (30)-440 of Assessors' Plans. Taxes \$4.20

Charles A. Price, Edward H. Bonelli and Stanley R. Miller, Trustees. About 7,200 square feet of land on Woodcliff road, being more particularly described in Section 55, Block 1A, Lot (30)-443 of Assessors' Plans. Taxes \$4.20

Charles A. Price, Edward H. Bonelli and Stanley R. Miller, Trustees. About 7,200 square feet of land on Woodcliff road, being more particularly described in Section 55, Block 1A, Lot (30)-444 of Assessors' Plans. Taxes \$4.20

Charles A. Price, Edward H. Bonelli and Stanley R. Miller, Trustees. About 7,200 square feet of land on Woodcliff road, being more particularly described in Section 55, Block 1A, Lot (30)-445 of Assessors' Plans. Taxes \$4.20

Charles A. Price, Edward H. Bonelli and Stanley R. Miller, Trustees. About 7,200 square feet of land on Woodcliff road, being more particularly described in Section 55, Block 1A, Lot (30)-446 of Assessors' Plans. Taxes \$4.20

Charles A. Price, Edward H. Bonelli and Stanley R. Miller, Trustees. About 7,200 square feet of land on Woodcliff road, being more particularly described in Section 55, Block 1A, Lot (30)-447 of Assessors' Plans. Taxes \$4.20

Charles A. Price, Edward H. Bonelli and Stanley R. Miller, Trustees. About 4,800 square feet of land on Woodcliff road, being more particularly described in Section 55, Block 1A, Lot (30)-305 of Assessors' Plans. Taxes \$2.80

Charles A. Price, Edward H. Bonelli and Stanley R. Miller, Trustees. About 6,000 square feet of land on Woodcliff road, being more particularly described in Section 55, Block 1A, Lot (30)-448 of Assessors' Plans. Taxes \$4.20

Charles A. Price, Edward H. Bonelli and Stanley R. Miller, Trustees. About 6,000 square feet of land on Woodcliff road, being more particularly described in Section 55, Block 1A, Lot (30)-449 of Assessors' Plans. Taxes \$4.20

Charles A. Price, Edward H. Bonelli and Stanley R. Miller, Trustees. About 6,000 square feet of land on Woodcliff road, being more particularly described in Section 55, Block 1A, Lot (30)-450 of Assessors' Plans. Taxes \$4.20

Charles A. Price, Edward H. Bonelli and Stanley R. Miller, Trustees. About 6,557 square feet of land on Woodcliff road, being more particularly described in Section 55, Block 1A, Lot (30)-451 of Assessors' Plans. Taxes \$5.60

Charles A. Price, Edward H. Bonelli and Stanley R. Miller, Trustees. About 6,432 square feet of land on Oakdale road, being more particularly described in Section 55, Block 1C, Lot (30)-349 of Assessors' Plans. Taxes \$4.20

Charles A. Price, Edward H. Bonelli and Stanley R. Miller, Trustees. About 6,432 square feet of land on Oakdale road, being more particularly described in Section 55, Block 1C, Lot (30)-348 of Assessors' Plans. Taxes \$4.20

Charles A. Price, Edward H. Bonelli and Stanley R. Miller, Trustees. About 6,432 square feet of land on Oakdale road, being more particularly described in Section 55, Block 1C, Lot (30)-347 of Assessors' Plans. Taxes \$4.20

Charles A. Price, Edward H. Bonelli and Stanley R. Miller, Trustees. About 6,432 square feet of land on Oakdale road, being more particularly described in Section 55, Block 1C, Lot (30)-346 of Assessors' Plans. Taxes \$4.20

Charles A. Price, Edward H. Bonelli and Stanley R. Miller, Trustees. About 6,432 square feet of land on Oakdale road, being more particularly described in Section 55, Block 1C, Lot (30)-345 of Assessors' Plans. Taxes \$4.20

Charles A. Price, Edward H. Bonelli and Stanley R. Miller, Trustees. About 6,432 square feet of land on Oakdale road, being more particularly described in Section 55, Block 1C, Lot (30)-344 of Assessors' Plans. Taxes \$4.20

Charles A. Price, Edward H. Bonelli and Stanley R. Miller, Trustees. About 6,432 square feet of land on Oakdale road, being more particularly described in Section 55, Block 1C, Lot (30)-343 of Assessors' Plans. Taxes \$4.20

Charles A. Price, Edward H. Bonelli and Stanley R. Miller, Trustees. About 6,432 square feet of land on Oakdale road, being more particularly described in Section 55, Block 1C, Lot (30)-342 of Assessors' Plans. Taxes \$4.20

Charles A. Price, Edward H. Bonelli and Stanley R. Miller, Trustees. About 6,432 square feet of land on Oakdale road, being more particularly described in Section 55, Block 1C, Lot (30)-341 of Assessors' Plans. Taxes \$4.20

Charles A. Price, Edward H. Bonelli and Stanley R. Miller, Trustees. About 6,432 square feet of land on Oakdale road, being more particularly described in Section 55, Block 1C, Lot (30)-340 of Assessors' Plans. Taxes \$4.20

Charles A. Price, Edward H. Bonelli and Stanley R. Miller, Trustees. About 6,432 square feet of land on Oakdale road, being more particularly described in Section 55, Block 1C, Lot (30)-339 of Assessors' Plans. Taxes \$4.20

Charles A. Price, Edward H. Bonelli and Stanley R. Miller, Trustees. About 2,144 square feet of land on Oakdale road, being more particularly described in Section 55, Block 1C, Lot (30)-338 of Assessors' Plans. Taxes \$1.40

Charles A. Price, Edward H. Bonelli and Stanley R. Miller, Trustees. About 2,800 square feet of land on Boylston street, being more particularly described in Section 55, Block 1C, Lot (30)-25 of Assessors' Plans. Taxes \$2.80

Charles A. Price, Edward H. Bonelli and Stanley R. Miller, Trustees. About 2,800 square feet of land on Boylston street, being more particularly described in Section 55, Block 1C, Lot (30)-24 of Assessors' Plans. Taxes \$2.80

Charles A. Price, Edward H. Bonelli and Stanley R. Miller, Trustees. About 6,811 square feet of land on Oakdale road, being more particularly described in Section 55, Block 1D, Lot (30)-85 of Assessors' Plans. Taxes \$2.80

Charles A. Price, Edward H. Bonelli and Stanley R. Miller, Trustees. About 5,383 square feet of land on Oakdale road, being more particularly described in Section 55, Block 1D, Lot (30)-84 of Assessors' Plans. Taxes \$2.80

Charles A. Price, Edward H. Bonelli and Stanley R. Miller, Trustees. About 4,600 square feet of land on Oakdale road, being more particularly described in Section 55, Block 1D, Lot (30)-83 of Assessors' Plans. Taxes \$2.80

Charles A. Price, Edward H. Bonelli and Stanley R. Miller, Trustees. About 4,600 square feet of land on Oakdale road, being more particularly described in Section 55, Block 1D, Lot (30)-82 of Assessors' Plans. Taxes \$2.80

Charles A. Price, Edward H. Bonelli and Stanley R. Miller, Trustees. About 4,600 square feet of land on Oakdale road, being more particularly described in Section 55, Block 1D, Lot (30)-81 of Assessors' Plans. Taxes \$2.80

Charles A. Price, Edward H. Bonelli and Stanley R. Miller, Trustees. About 4,600 square feet of land on Oakdale road, being more particularly described in Section 55, Block 1D, Lot (30)-80 of Assessors' Plans. Taxes \$2.80

Charles A. Price, Edward H. Bonelli and Stanley R. Miller, Trustees. About 5,175 square feet of land on Oakdale road, being more particularly described in Section 55, Block 1D, Lot (30)-78 of Assessors' Plans. Taxes \$2.80

Charles A. Price, Edward H. Bonelli and Stanley R. Miller, Trustees. About 5,175 square feet of land on Oakdale road, being more particularly described in Section 55, Block 1D, Lot (30)-77 of Assessors' Plans. Taxes \$2.80

Charles A. Price, Edward H. Bonelli and Stanley R. Miller, Trustees. About 5,287 square feet of land on Oakdale road, being more particularly described in Section 55, Block 1D, Lot (30)-76 of Assessors' Plans. Taxes \$4.20

Charles A. Price, Edward H. Bonelli and Stanley R. Miller, Trustees. About 5,902 square feet of land on Walnut Hill road, being more particularly described in Section 55, Block 1E, Lot (30)-98 of Assessors' Plans. Taxes \$5.60

Charles A. Price, Edward H. Bonelli and Stanley R. Miller, Trustees. About 5,963 square feet of land on Walnut Hill road, being more particularly described in Section 55, Block 1E, Lot (30)-97 of Assessors' Plans. Taxes \$5.60

Charles A. Price, Edward H. Bonelli and Stanley R. Miller, Trustees. About 4,352 square feet of land on Oakdale road, being more particularly described in Section 55, Block 1E, Lot (30)-94 of Assessors' Plans. Taxes \$2.80

Charles A. Price, Edward H. Bonelli and Stanley R. Miller, Trustees. About 4,352 square feet of land on Oakdale road, being more particularly described in Section 55, Block 1E, Lot (30)-93 of Assessors' Plans. Taxes \$2.80

Charles A. Price, Edward H. Bonelli and Stanley R. Miller, Trustees. About 4,352 square feet of land on Oakdale road, being more particularly described in Section 55, Block 1E, Lot (30)-92 of Assessors' Plans. Taxes \$2.80

Charles A. Price, Edward H. Bonelli and Stanley R. Miller, Trustees. About 4,352 square feet of land on Oakdale road, being more particularly described in Section 55, Block 1E, Lot (30)-91 of Assessors' Plans. Taxes \$2.80

Charles A. Price, Edward H. Bonelli and Stanley R. Miller, Trustees. About 4,552 square feet of land on Oakdale road, being more particularly described in Section 55, Block 1E, Lot (30)-90 of Assessors' Plans. Taxes \$2.80

Charles A. Price, Edward H. Bonelli and Stanley R. Miller, Trustees. About 4,752 square feet of land on Oakdale road, being more particularly described in Section 55, Block 1E, Lot (30)-89 of Assessors' Plans. Taxes \$2.80

Charles A. Price, Edward H. Bonelli and Stanley R. Miller, Trustees. About 4,752 square feet of land on Oakdale road, being more particularly described in Section 55, Block 1E, Lot (30)-88 of Assessors' Plans. Taxes \$2.80

Michael Lewenberg. Supposed present owner, George A. Richards. About 1,158 square feet of land and building on Crosby road, being more particularly described in Section 67, Block 5A, Lot 11 of Assessors' Plans.	\$481.60
"Taxes	
Sewer Assessment 1925 and Interest	150.31
Joseph S. McKinnon. Supposed present owner, Allen Sibbes. About 10,820 square feet of land and building on Newton street, being more particularly described in Section 66, Block 7F, Lot (2)-14 of Assessors' Plans.	\$366.80
"Taxes	
Fifth Assessment	1.70
Annie E. White and Allen Sibbes. Supposed present owner, Jack Sharkey. About 7,620 square feet of land on Stone avenue, being more particularly described in Section 66, Block D, Lot 6 of Assessors' Plans.	\$42.00
"Taxes	
WARD 7, PRECINCT 1	
William T. O'Connell. Supposed present owner, Lawrence V. Quinn. About 4,931 square feet of land and building on Gordon terrace, being more particularly described in Section 10, Block 8, Lot (9)-3 of Assessors' Plans.	\$218.40

CONTRACTOR DIES

G. B. H. Macomber, Well Known Builder, Dies Suddenly

George B. H. Macomber of Newtonville died suddenly at his summer home, "The Firs," at Sakonnet, R. I., early Tuesday morning from an acute attack of angina pectoris. He had suffered for several years from a series of heart attacks, but his general condition in the immediate past had seemed excellent. A sudden seizure of unusual severity on July 2, however, led immediately to his death.

Mr. Macomber was born in Fall River on Jan. 18, 1868, the son of Frederick M. and Rowena Grinnell Macomber. He spent his early life in Fall River and was educated in its public schools. On Oct. 12, 1898, he married Miss Grace Clark of North Easton, who survives him. He is also survived by three children, Charles Clark Macomber, George B. H. Macomber, Jr., and Eleanor Macomber, all of Newtonville.

At an early age Mr. Macomber entered the business of building construction, which constituted his life work. His first experience was in 1884, as an employee for Norcross Brothers, who were then engaged upon the construction of the Durfee High School of Fall River. Upon its completion, Mr. Macomber moved to Boston and continued with Norcross Brothers until 1890, when he entered the Chicago office of Henry Ives Cobb, the architect. With Mr. Cobb he was supervisor of the work on the buildings of Chicago University.

In 1893 Mr. Macomber resumed the active work of building construction by becoming manager of the George A. Fuller Company's office in Chicago. He remained with the Fuller company until 1904, holding successively the positions of manager for the New England district, with headquarters at Boston; manager of the western district with headquarters at Chicago, and vice-president and general manager of the entire company with headquarters at New York. This latter position he left only when he retired to form the George B. H. Macomber Company in 1904. Of this he has been president and active head during its entire existence.

Mr. Macomber was for many years a member of the executive committee of the Building Trades Employers Association and has long been upon the board of appeals for the city of Newton. He was a director and president of the George B. H. Macomber Company and a former director of the International Trust Company.

He was a member of the Royal Arch Lodge of Fall River and Dalhousie Lodge of Newtonville. At the time of his death he was a member of the Brae Burn Country Club, Newton Club and Sakonnet Golf Club.

Funeral services will be held this afternoon at his late residence on Highland avenue, Newtonville.

GRADING CONTRACT AWARDED

Yesterday morning bids for grading the grounds between the Technical High School and Hull street were opened by Street Commissioner Stuart. Peter Salvucci of Waltham was the lowest bidder on Sections 1 and 3 of this work, and he will be given the contract when the Board of Aldermen appropriate money for the job. The list of bidders and the amount of their bids follow:

John H. McCusker, Waltham, \$70,158.80; Peter Salvucci, Waltham, \$71,725; John W. Duff, Inc., Newton, \$72,100; John McDonald Construction Co., Boston, \$77,100; Richard White, West Newton, \$85,041; Anthony Baruffaldi, Somerville, \$88,900; T. Stuart & Son Co., Newton, \$105,500.

QUIET FOURTH

Holiday Generally Quiet Throughout City—Few Celebrations

The observance of July 4th in Newton on last Monday was safe and sane enough to please even the most exacting. Thousands of Newtonians were at their summer homes, and other thousands had departed from the city on trips over the holiday. The "stay at homes" had little noise to bother them, and the youth of the city were on their good behavior. But one false alarm was pulled on the "night before," and apart from a slight blaze caused by fireworks, the firemen had nothing to do other than to extinguish a couple of small fires in a hayrack and a tar barrel; both in the Boylston street district at Newton Centre.

There was no municipal observance of Independence Day. Many residents had attractive displays of fireworks on their estates, and elaborate displays were "touched off" at the Braeburn Country Club, and Woodland Golf Club. These latter were enjoyed by large numbers of spectators, in addition to hundreds of members of the two clubs and their guests. At the Braeburn Club a dinner was served from 6 to 8:30. Ives Military Band gave a concert from 7:30 to 8:30, and between 8:45 and 10, the best exhibition of fireworks ever given at the club was enjoyed under the supervision of experts from the National Fireworks Company. Following the fireworks, dancing on the green was indulged in from 10 until 11. The program at the Braeburn was in charge of the entertainment committee, headed by C. A. Sawyer.

At the Woodland Golf Club golf tournaments for members were held in the morning and afternoon. From 3:30 to 6 a musical program was given by a trio under the direction of Louis Hafermehl. Dinner was served between 6:30 and 9. At the latter hour a magnificent display of fireworks was given by the American Fireworks Company. Several big set pieces featured. During the evening dancing was enjoyed, music for which was provided by an orchestra of seven pieces.

At the Newton Boat Club a program of water and field sports was held during the day. The grand prizes for scoring the greatest number of points in the various events were won by Miss Naomi Andrews and John Conrad. The athletic events included 50-yard dash, 100-yard dash, three-legged race, and canoe races. The novelty events were pipe, balloon and paper races, clock golf, nail driving contest and cigarette lighting contest. Howard Goff won the hand paddle and the tail end race in the canoe contests; John Conrad won the run-walk paddle. The affair at the Boat Club was in charge of a committee headed by Charles Champney.

ABOUT TOWN

By Edw. H. Powers

There were a number of automobile accidents in Newton the past week. Most of them were collisions at street intersections. With millions of persons operating automobiles, it is inevitable that many drivers of cars are people of limited intelligence or judgment. To protect such numskulls from their own reckless driving, and to safeguard cautious, intelligent automobilists from these road menaces, it would seem that the only effective remedy is to adopt the system in general use in Western states. Designate our streets as primary and secondary; with compulsory stops on all secondary streets where they intersect primary streets. And enforce the law.

DOLLAR DAY

Newtonville Merchants Plan Summer Sales Event on Sat., July 16

The merchants of Newtonville are to hold a big Dollar Day in that village on Saturday of next week, July 16, for which preparations are under way that should make this one of the most attractive and successful Dollar Day events ever held in the city. Not for an extended period has any local movement, depending upon co-operation for its success, being developed with so great a degree of interest and enthusiasm, or with so great a degree of co-operative effort seemingly assured, as this event. Practically every merchant in the entire village is preparing his list of Dollar Day bargains and searching his stock to insure the most attractive Dollar Day bargains possible in his respective line of business. Many orders have been placed for new merchandise especially adaptable to the Dollar Day plan and various jobbers have co-operated with their merchant customers to an extent that will be reflected in many unusual bargains in several of the stores on fresh new goods. Single articles and combinations of articles are being taken from stock that—at a dollar selling price—will prove astounding values that should in themselves more than repay every Dollar Day shopper visiting Newtonville on the chosen date. With the merchants interested 100 per cent in the coming event, and preparing for it in the same spirit, there should be no doubt regarding its drawing power with the public or the advantages to be gained by those who do their shopping at Newtonville on July 16.

Unlike other cities and towns, Newton's dollar days have generally been held during the winter or spring months, when conditions were most favorable. Originated as a plan to stimulate business during the summer months, and to give the merchant an opportunity to move slow-moving merchandise at a time when it is necessary to clear the shelves for incoming goods, dollar days have been so generally regarded in other trading centers as a summer event that they are seldom expected by the buying public at any other season of the year. A majority of the several successful Dollar Days conducted in Newton have been winter or spring-time events.

If there is any special advantage in dollar days during the height of the buying season, the Newtonville merchants are unanimously of the opinion that this may be overcome through the attractiveness of the values to be offered on July 16. While the summer dollar day is an accepted thing in other cities, none have been held in Newton later than the middle of June. The Newtonville Dollar Day committee is determined to make the coming Dollar Day a bigger success than those previously held in other seasons and are passing out word to their fellow merchants to go to the limit in the values to be offered, believing that this type of whole-hearted co-operation will give Newtonville the biggest business day ever enjoyed by the business interests of that village.

AUTO PLUNGES DOWN MT. IDA

One of the most spectacular automobile accidents in the history of Newton occurred shortly after 6 last evening when a Dodge car owned by Garrison Reid of Winston-Salem, North Carolina, plunged from near the summit of Mount Ida down to the tracks of the Boston & Albany railroad, opposite the Jackson Homestead. Young Reid is visiting his grandparents, Mr. and Mrs. William L. Garrison of 175 Newtonville avenue. He had parked his car in the yard at Mr. Garrison's house. The brakes in the morning had become released and the car started down the driveway, which is near the top of one of the steepest hills in the city. Quickly gathering momentum, the automobile whizzed across the Garrison yard, broke through a fence and plunged down the precipitous slope of Mount Ida between the residences of Dominick Richards and Mrs. Lillian Pierce. Constantly gaining speed, it whirled across Bellevue street, crashed through another fence, hurtled down the sheer side of the hill over the land owned by the railroad and leaped the granite wall which rises nearly 35 feet from the railroad tracks. The automobile crashed upside down on Track 4, a complete wreck. Fortunately no train happened along at that moment, and the police, assisted by a citizen quickly tipped the wrecked car off the tracks onto the culvert which runs alongside Track 4. The car travelled about 200 yards in its mad flight, and the drop from its starting point to the railroad tracks is over 150 feet.

NOTED BANKER DIES

Charles P. Morss of Chestnut Hill Former Reserve Bank Governor

Mr. Charles Anthony Morss, for many years a resident of Chestnut Hill, died Tuesday from heart failure, after several months' illness. Mr. Morss was for five years the governor of the Boston Federal Reserve Bank, from 1917 to 1922. He had long before that been known as one of the most substantial and conservative business men of the city, his principal business being manufacturing.

Mr. Morss was the son of Charles Anthony and Mary Elizabeth (Vells) Morss, and was born in Boston, July 13, 1857. He was graduated from the English High School here in 1875, though he had already been working in the wool business for two years with Warren D. Hobbs. He became a partner in the firm of Hobbs, Taft & Co. in 1884.

Five years later he became associated with his father in the firm of Morss, Whyte & Co., and when the Simplex Wire and Cable Co. was formed from the Morss & Whyte firm, young Morss was chosen treasurer of the company. He held this position until he was chosen governor of the Federal Reserve Bank.

He was always interested in banking and made a thorough study of it, with the result that he was made a director in the Massachusetts National Bank and the First National. He was appointed a receiver for the Pope Manufacturing Company when that famous old concern had to be liquidated.

During the Liberty Loan campaigns, Mr. Morss as governor of the Federal Reserve Bank of Boston, had much to do with the success attained on each of the drives in the First Federal Reserve district. He carried on his part of the great task with untiring energy. He devoted many extra hours to speaking trips in various parts of New England, helping in this way not only in the Liberty Loans, but the War Savings and other government campaigns as well.

Mr. Morss was a member of the Bostonian Society and his clubs were the Union Exchange, Eastern Yacht and the Brookline Country. In addition to his home at 164 Chestnut Hill road, Newton, he had a summer home at Cohasset.

Those of his family surviving Mr. Morss are his wife, Martha H. (Reed) Morss, three sons, Philip Reed Morss, assistant treasurer of the Simplex Wire and Cable Company; Charles A. Morss, Jr., with the Wright Aeronautical Corporation at Paterson, N. J., and James Reed Morss, assistant cashier of the First National Bank of Boston, as well as a daughter, Miss Marian Morss.

DIES FROM BURNS

Miss Susan Scheinfeld, 30, of 41 Washington street, Newton, died on Tuesday, from the result of severe burns received several weeks ago when her clothing caught fire from an electric heater. She was buried on Wednesday at Woburn. Miss Scheinfeld's father died but a couple of months ago.

MISS GOULD'S WILL

Under the will of the late Helen A. Gould, the Newton Hospital, and the Newton Home for Aged People will share in the residue of an estate valued at \$28,000, on the death of a sister.

AMAZING ARCHERY

Dr. P. W. Crouch of Newton Archers Breaks Several Records

Dr. Paul W. Crouch of Newton Centre, a Newton archer, broke all records at the Eastern Archery Association tournament at Deerfield, Mass., this last week. In the double York round at 100, 80 and 60 yards he made a score of 1142 hits and points, breaking the record of Harry B. Richardson of Boston, who made a score of 1111 hits and points 16 years ago. Crouch also established a new high record for the American round. He was in very close competition with A. L. Brush of Coscob, Conn., during the shooting on June 30th and July 1st. Two other archers in third and fourth places also did most remarkable shooting. The rounds are long and to complete them in the two days is a gruelling piece of work that is a test of skill, strength and endurance.

Dr. Crouch also won the novelty shoot at 40 yards and the clout shoot at 180 yards, coming home with all the highest honors. His poise, skill and unassuming attitude made him the center of attraction at Deerfield.

Mrs. H. A. Bartholomae of Waban gained a range medal at the tournament. The first morning at the National round she made a very high score, winning a place on the first target, as did also Miss Ruth Brewer of Newton Centre. Other Newton archers attending the tournament were Mr. and Mrs. J. P. True and Miss Eleanor True of Waban, Mr. L. C. Smith of Newton Centre, Mrs. Burton Payne Gray of Newton Centre, who, as Lady Garamont, did invaluable work, and Mr. Franklin E. Jordan of Newton Highlands and the Boston Transcript, who covered the tournament for that paper and shot with the archers. Mr. Jordan did a phenomenal piece of work and was of the utmost assistance to the officers.

Mrs. H. S. C. Cummings, who, as Miss Dorothy Smith, won the ladies' honors last year, did not compete. Mrs. N. C. Owen of Scarsdale, who was lady champion, this time slightly exceeded Miss Smith's score last year.

Miss Ruth Brewer was unanimously re-elected secretary-treasurer. The number attending this year was very large and the work correspondingly increased, but all of it was efficiently taken care of.

MISS ELIZABETH LYNCH

Miss Elizabeth Lynch of 129 Jewett street, died suddenly of heart failure on Wednesday. She had resided for most of her life on Morse street, in the Watertown section. Her brother, the late James Lynch, was for many years a well known grocer in Watertown, and at one time was postmaster there. Her funeral services were held this morning at St. Patrick's Church, Watertown. Burial was in Calvary Cemetery, Waltham.

CITY AFFAIRS

Miss Theresa Goddard of the Street Commissioner's office, is spending her vacation at Brant Rock.

Miss Alice McLaughlin of the Street Commissioner's office leaves next week for Long Beach, Maine, where she will spend her annual vacation.

UPPER FALLS WINS

First Half of Newton Twilight League Race Ends Tonight

With three games on the schedule for tonight the first half of the race for the City championship in the Newton Twilight League draws to a close. Wednesday evening the Upper Falls team won the right to compete for the City title and the second leg on the Graphic Cup by taking the Corpus Christi club of Auburndale into camp, 5 to 2, thereby clinching first place in the first half. The second half of the season will start Monday night. Many of the teams have sought to strengthen their lineups and the second half promises to be fully as close, if not even more of a toss-up than the race just ended.

After the first few weeks of play it was easily seen that the Upper Falls, Corpus Christi and Newton Pals teams were the three logical contenders. The Auburndale nine held the lead for several weeks during the middle of the race but Upper Falls flashed a winning streak while Auburndale struck a slight slump and dropped to second place. The Pals kept right behind the leaders all the way and for the past week or two have been in a tie for second. The loss of the game with Upper Falls on Wednesday night pushed the Corpus Christi nine down to third place.

The Newton Y. M. C. A., the only new team admitted to the league this year, dropped its first seven games before finding itself. It then won three straight and fought its way from the cellar to sixth place. By winning its game from Auburndale tonight it will get an even break in its last four starts. This team should be up in the running the second half as it is slowly getting itself together. In addition it should practically retain its first half lineup while most of the other teams are under more or less of a reorganization.

A meeting of the managers of the league was held at the Newton Centre playground house Wednesday evening with the league officials and several matters discussed. One important rule regarding the transfer of players from one team to another during the season was passed. Those who "switch horses in the middle of the stream" will hereafter be required to give their manager and the league two weeks notice to that effect. Any team using a player belonging to another club before the two weeks' period is up will forfeit the games in which that player took the field. The managers also set Monday, July 11th, as the day on which the names of the players they are to use during the second half must be submitted to the playground office.

Next Wednesday evening the Upper Falls team will play an All-Star team, picked from the remainder of the league teams, in a benefit game at Upper Falls playground. The benefit is for Jimmy Smith of the Newton Centre team who hurt his knee sliding to a base in a game some weeks ago.

The following players have been selected to make up the All-star aggregation: R. Stumpf of Newton Highlands and McLean of the Pals as catcher; Bright of Newton Centre, Powers of Auburndale, and Sullivan of the Highlands as pitchers; Dunphy of Highlands and Powers of Auburndale on first base; W. Stumpf of the Highlands and Gray of West Newton on second; Larkin of Auburndale and Lyman of the Pals at short; Gadson of

ELECTED PRESIDENT

Rev. Earl E. Harper Going to Evansville College in Early Fall

Rev. Earl E. Harper, pastor of the Centenary Methodist Church of Auburndale, has accepted an offer to become President of Evansville College, Evansville, Indiana. He will assume his new office in October, succeeding Dr. Alfred Hughes who has resigned to become president of Hamline University.

Rev. Earl E. Harper was born 33 years ago in Missouri. His father, and both his grandfathers were Methodist ministers. Graduating from the High School at Scotts Bluff, Nebraska, he attended Marionville College in Missouri for one year, and then went to Nebraska Wesleyan University, from which he graduated in 1912. In addition to his academic studies he took special courses in music at the University of Nebraska, specializing in piano and voice. He preached during his student days at Clatonia, Emerald and Murdock, Nebraska, and during his summer vacations travelled with Chautauqua companies.

After graduating from college, he came to Boston and entered the Boston University School of Theology. While attending this school he officiated as pastor of the Methodist Church at Holbrook. Mr. Harper's musical talent was soon recognized at Boston University, and he was appointed to conduct the choir at the School of Theology and the School of Religion. (Continued on Page 8)

West Newton and Slavin of Newton Centre at third; and Rollins of West Newton, Leahy of Newton Centre and Maloney of the Earnshaw Mills in the outfield.

The game will be played at West Newton Common.

Help Your Home Community

Money To Loan At

6%

Every man with any money to spare can help prosperity by investing his money where it will mean work for the workers of his community. Since the funds of our bank are loaned to our members for home building, this money is a direct investment in prosperity, not the prosperity of some far off city, but the prosperity of this community.

Building homes provides work for carpenters, brick and stone masons, electricians, painters, and all the people who furnish or handle the materials from which homes are built.

If you want to invest your dollars in a thoroughly safe place, where they will be keeping home labor busy, bring them here.

NEWTON SPORTS

Arthur D. Noble, Newton Centre youth whose tennis playing has been the feature of recent tournaments for boys of high school age, gave Louis Thalheimer, Texas star tennis player, a stiff battle at Ottawa, Canada, Wednesday in the lawn tennis championships there. Noble was defeated, 4-6, 6-3, 6-2.

Wilson in Points
At the National A. A. U. track and field games in Lincoln, Nebraska, last Friday, Ed. Wilson, local athlete on the B. A. A. team, placed third in the three-mile walk. The event was won by Raigel of Baltimore, who established a new national record of 22m. 55s. Fekete of Los Angeles was second man.

Turner Reaches Finals
Robert S. Turner, cousin of Malcolm T. Hill and Henry L. Johnson, Jr., star tennis players, and also a member of the Newton High tennis team, reached the finals of the junior boys' singles tourney at Longwood last week, where he lost the championship to C. A. Smith, who is to enter the University of Virginia in the fall. Turner defeated W. Barry Wood, Jr., of Milton Academy in the semi-finals in straight sets, 6-2, 6-3. In the final match his erratic play was the chief cause of his defeat. Thirteen doctored faults, in his anxiety to make his service a big asset, the better court covering, sensational recoveries and steadiness of his opponent made obstacles the local lad could not overcome.

West Newton Wins Three
The West Newton A. C. played four games over the holiday week-end of which three were victories. Friday evening they went to Natick where they took the Natick Town Team into camp by a 3 to 1 score. McCleary, the Newton high school pitcher, was in fine form and allowed the home team but two hits. Saturday afternoon, with Flatt on the mound, they defeated the Wellesley Town Team, 4 to 2. The holiday morning the team journeyed to Stow where McCleary lost a well-played game which went eleven innings. On the holiday afternoon Donald "Cutie" Cunningham and McNamara, Wellesley high school star, staged a pitchers' battle. Cunningham's teammates gave him a two-run advantage while he shut the Wellesley Town team out. Twelve of the Wellesley team's batters retired by the strikeout route. McNamara, the Wellesley twirler, was the only schoolboy pitcher to gain a victory over the Norwood high school team which defeated Cambridge Latin for the Greater Boston championship.

Curious Boulder
A tremendous boulder, weighing some 17 tons and perched upon a flat rock, apparently so nicely balanced that a glance at it almost convinces a person that but little force is needed to throw it over, is to be seen in the Berkshire hills of Massachusetts, not far from Pittsfield. It is called the "Balance Rock," but, despite its name and appearance, is firmly fixed and makes no movement whatever.

ABOUT TOWN

By Edw. H. Powers

If those officials of the City of Newton who grant permits which allow shacks to be erected for the sale of fireworks prior to the "Fourth of July" would grant a permit for such a shack to sell fireworks in their immediate neighborhoods, they would realize what people have to endure who reside near such shacks. For several days before the noisy holiday, children come to these places where the fireworks are on sale, and spend whatever money they can obtain for noise making firecrackers and torpedoes. Many of these youngsters "fire off" the explosives in the immediate vicinity of the shacks where they make the purchases, and the nerves of those residing in the neighborhood are subjected to a constant strain during all the days, and well into the nights that the fireworks shacks are selling their wares. Permits for such shacks should not be granted, if the fireworks can be obtained from regular storekeepers who handle them, or from persons who rent stores for this purpose.

One problem that is becoming increasingly bothersome in Newton, as in other cities, is the matter of the disposal of ashes and rubbish. When cities were thinly settled, dumps could be located far from residential sections where the odor from them would not reach dwellings at a distance. But since Newton has become more populated, many complaints are being received from persons whose home are located near dumps. Fires are constantly occurring in dumps, and the smoke from such fires causes a stench that is both annoying and unhealthy. Dump fires are very hard to extinguish and sometimes the firemen have to pour water on them for days before they are quenched. For some years there has been talk of Newton building an incinerator to burn its rubbish in, but this modern and sanitary method of disposing of waste has never become a reality in this city.

It is bad enough for the rubbish collected in this city to be deposited in the dumps within the confines of Newton. But in addition much rubbish is being brought into Newton from other places and thrown in the public dumps here. The practice should be stopped immediately. A citizen informed us of observing a big truck from Roxbury bringing a load of old rubber tires to the dump on Needham street, between Newton Highlands and the Upper Falls. If this dump catches fire, this load of rubber will cause a "delightful" odor to be wafted either in the direction of the Highlands, or the Upper Falls, according to the direction of the wind. Fences should be built around the public dumps in Newton, and rubbish from other towns and cities should not be allowed in them. The best way to end the "dump nuisance" in Newton is to build an incinerator as soon as possible.

RED CROSS LIFE SAVING

Over 60 boys and girls have enrolled in the Life Saving classes which are being conducted by the American Red Cross at Crystal Lake and at Auburndale. 47 have passed the swimmers' test which is given to determine whether or not the applicant is qualified to take the instruction necessary to pass the Junior Life Saving test. Cold water and cold weather has handicapped the work thus far but the first group taking the test will complete their work next week in spite of the trying conditions which have prevailed.

The Girl Scouts are planning a class which will meet on Tuesday, Thursday and Saturday mornings at 10:30. Girl Scouts desiring to enroll are requested to be present at Crystal Lake on any of the above mornings.

MRS. GEORGE W. DEARBORN

The flag was at half staff Wednesday afternoon at the home of Mr. and Mrs. Beecher Williams, 111 Lexington street, Watertown, during the funeral service of Mrs. Williams' mother, Mrs. Rose L. Dearborn, wife of George W. Dearborn, late member of Charles Ward Post 62 of Newton. Mr. Dearborn passed away in Waltham, five months ago.

Mrs. Dearborn, since her husband's death had made her home with her daughter, Ruth C. Williams. Mrs. Dearborn was loved by all who had the pleasure of knowing her, this was marked by the many and beautiful floral gifts.

Interment was in the Newton Cemetery. She was in her 67th year, and formerly lived in West Newton. She is survived by three daughters and two sons.

REAL ESTATE

John T. Burns & Sons, Inc., report that they have sold the property at 345 Newtonville avenue, Newtonville, comprising a single house and 10,000 sq. ft. of land, a part of the former Shore Estate. The property, which is valued at \$18,000, was conveyed by John T. Burns to Johannes H. and Catharina Ruers. Burns and Sons also report that they have sold for A. S. Stone the single frame house at 259 Homer street, Newton Centre, with two-car garage and about 10,000 sq. ft. of land, valued at \$16,500. R. G. Crossett has taken title to the property.

Henry J. Perry has sold through the office of John T. Burns & Sons, Inc., his property at 6 Fairfield street, West Newton, a single house, garage, and about 8,500 sq. ft. of land with a valuation of \$14,000.

The Burns Agency also reports the sale by Ernest H. Snail to Douglas S. Sloan of 38,901 square feet of land on Prospect street, Newtonville. This land is valued at \$10,000.

Making Herself Clear

An Indian paper furnishes us with a recent specimen of "English as she is wrote." It is copy of a letter sent by a woman teacher to the director of education, Manila, and reads: "Dear sir, I have the honor to resignate as my works are many and my salary are few. Beside, which my supervising teacher makes many loving to me to which I only reply, 'Oh not, Oh not!' Very respectfully, Josefina."

Shaving Others' Good Luck

The man who does not share in the success of others is bound to be a sad person. No failure can injure the man who feels that the good luck of his neighbors and friends is a joy to himself.

Copyright 1926, by Hayle, Jr.

Corners Not Desirable

Contrary to the commercial opinion in the United States, street corners are not always the most sought after for shops and stores in European cities. One of the reasons is that intersecting streets are not always continuous on both sides of the thoroughfares and also because busses or street cars often stop in the middle of the block or at certain stations instead of at every corner as is a custom in America.

Wisdom of the Persian

The sacred books of the ancient Persians say: "If you would be holy instruct your children, because all the good acts they perform will be imputed to you."—Montesquieu.

How to Play BRIDGE

A new series of lessons by
Wynne Ferguson
Author of "PRACTICAL AUCTION BRIDGE"

ARTICLE No. 14

There have been many articles written on the proper kind of hand with which to take out partner's no-trump, second hand having passed, but very few have emphasized the element of distribution. They tell you the kind of hand you must hold in hearts or spades to justify the take-out, but they neglect to mention the rest of your cards. No rule for a take-out is sound or complete that doesn't take into account the distribution of the entire hand. Suppose, for example, your partner bids one no-trump, second hand passes, and you hold one of the following hands:

A
Hearts—A, 9, 8, 4, 3, 2
Clubs—7, 2
Diamonds—10, 8, 3
Spades—9, 4
B
Hearts—none
Clubs—K, 10, 9, 4, 3, 2
Diamonds—J, 10, 3, 2
Spades—9, 8, 4
C
Hearts—10, 8, 3, 2
Clubs—none
Diamonds—Q, 10, 9, 5, 4
Spades—J, 10, 7, 5
D
Hearts—4
Clubs—10, 3
Diamonds—J, 10, 9, 4, 3, 2
Spades—Q, 8, 7, 5
E
Hearts—8
Clubs—Q, J, 10, 8, 7, 5, 2
Diamonds—10, 7, 2
Spades—9, 3

All writers agree that the no-trump should be overbid by two hearts, holding hand A, but very few advocate a take-out with the remaining four hands. Yet in all of these four hands the dis-

tribution should act as a warning. None of them can help a no-trump bid and yet all have a chance to win tricks at their suit bid. They may not go game but they are point savers and very frequently game savers. With a singleton or void suit, take out your partner's no-trump freely. With a six card suit, major or minor, always take out partner's no-trump bid if the hand contains a singleton or void suit. With a seven or more card suit, always take out partner's no-trump bid, irrespective of the remainder of the hand.

The test hand given in the preceding article is of the type just analyzed. It is as follows:

Answer to Problem No. 17
Hearts—8, 5
Clubs—A, K, 7, 5
Diamonds—Q, 10, 9, 8, 5, 2
Spades—6

No score, rubber game. Z dealt and bid one no-trump. If A passed what would you bid with Y's hand? Y should bid two diamonds. The hand contains a six card diamond suit and a singleton spade. Y-Z can make five diamonds but only one no-trump; quite a difference. Be on the look out for this type of hand and don't hesitate to take out partner's no-trump with the type of hands just analyzed.

Here is a hand that has just been received from England, with the request that it be analyzed and the proper bidding indicated. Look it over and compare your opinion with the analysis that will be given in the next article.

Problem No. 18
Hearts—K, Q, J, 4
Clubs—K, Q, 10, 7, 3
Diamonds—J, 8, 6
Spades—J, 8, 6

Hearts—10
Clubs—A, 9, 6, 4, 2
Diamonds—7
Spades—K, 10, 9, 7, 4, 2

No score, first game. Bid the hands as you think they should be bid, and thus determine the final bid. Then play out the hand and obtain the result.

ARTICLE No. 15

The question is often asked: "With what type of hand is the preemptive or shut-out bid sound or advisable?" The preemptive bid is sound when two elements are present. First, when the bid can go game with but average help from partner; and second, if, in case the bid fails to make, it will save or shut out a game bid by the opponents. In other words, a sound preemptive bid is either a game maker or a game saver. A shut-out bid, from this angle, should be at least three in spades, four in hearts and five in clubs or diamonds. Don't make the mistake, however, of bidding three spades if you hold good help for hearts; or of bidding four hearts if you hold good help for spades. The object of all sound bidding is to arrive at the best bid of the combined hands and a shut-out bid that makes this result impossible is unsound. The following hand was submitted recently and an opinion asked as to the proper bid:

Hearts—A, 10, 3
Clubs—J, 10, 3
A B : Diamonds—none
A Z : Spades—A, Q, 10, 8, 7, 6, 2

Answer to Problem No. 18

Hearts—K, Q, J, 4
Clubs—K, Q, 10, 7, 3
Diamonds—J, 8, 6
Spades—J, 8, 6

Hearts—8
Clubs—10
Diamonds—A, Q, 9, 5, 3
Spades—none

Hearts—9
Clubs—J, 5
Diamonds—K, J, 10, 8, 6, 4
Spades—A, Q, 5, 3

No score, first game. Z should bid one diamond. It is hardly a sound original bid but the hand is too strong to pass. A should bid one heart. Y then has the choice of bidding two clubs or one no-trump. If he bids one no-trump, the better bid, B should pass. If he bids two clubs, B should bid two spades. Z should double and A should bid three hearts. Y, of course, will double this and all should pass. A-B should be defeated by two, possibly three tricks. If Y should bid one no-trump, instead of two clubs, all should pass and B should open the ten of spades. Y should win this in his own hand and lead a low club, B winning the second club trick with the ace. B should now abandon his hand and play for his partner, leading the ten of hearts. Played in this way, Y-Z should score game at no-trump, winning three spade tricks, two or three heart tricks, and three club tricks. They also should win at least one diamond trick, making enough for game. It is a tricky hand and the cards are so peculiarly distributed that only a very careful analysis could give the

exact result. The foregoing, however, gives a summary of the probable bidding and probable result.

The informatory doubles have been in vogue for so many years that players should be pretty well acquainted with their use; but, nevertheless, every now and then a hand comes up that puzzles. Here is one that was recently sent in by a correspondent and as it involves a very important point of the informatory doubles, it will be given as a problem.

Problem No. 19
Hearts—Q, 8, 7, 5
Clubs—10, 4
A B : Diamonds—A, J, 10, 7
A Z : Spades—K, 10, 3

No score, rubber game. Z dealt and bid one spade. If A doubled one spade (informatory) and Y passed, what should B bid? Should he bid one no-trump or two hearts? An analysis of this interesting hand and of the principles underlying the informatory double will be given in the next article.

Roofs that cost less than nothing—

Yes, there are such roofs! Almost any real estate man will tell you so. They are roofs which bring higher prices for the houses they protect—which increase real estate values by more than their cost.

For instance, an attractive roof of Barrett Shingles. Handsome—fire-safe—rugged. Enough beauty to make most any house stand out from its neighbors.

Barrett Shingles can make your house more attractive and more valuable. Interested? Then stop in and see us—today. We will be glad to give you the benefit of our long roofing experience.

We endorse
Barrett

ABOUT TOWN

By Edw. H. Powers

There are many persons in Newton and vicinity who enjoy playing the game of golf but who for one reason or another do not find it possible to belong to a golf club. Such persons would welcome the establishment of a public golf links in this section. For some time efforts have been made to influence the Metropolitan District Commission to construct a golf course at the Riverside Recreation Grounds. Two hundred acres of land are available there for this purpose and a nine-hole course can be laid out at comparatively little expense.

Last year the Metropolitan District Commission was considering the laying out of a public golf course and had in mind two locations; the Fowl Meadows near the Neponset River at Readville, and the Riverside Recreation Grounds. The latter is far superior, situated as it is on high, dry land, located on the main line of the Boston & Albany with frequent train service, easily accessible by excellent roads, and possessing facilities such as dressing rooms, shower baths, and a fine swimming pool. If the Metropolitan Commission will build a golf course at Riverside, the Town of Weston stands ready to donate twenty acres of land adjoining.

That there is a great demand for public golf courses is proven by the fact that last year at the Franklin Park Links the receipts were over \$100,000, showing a profit of \$35,000 over the cost of maintaining these links. The charge there was \$1 the round. It is estimated that it will cost about \$20,000 to lay out a nine-hole course at Riverside, and by charging 50 cents a round to play this course, an appreciable profit should be returned. Such a course would be a boon to thousands of golf players not only in the Newtons, but in many neighboring communities as well. Persons who would care to see such a course constructed should make their wishes known to the Metropolitan District Commission and to the members of the Legislature.

The City of Newton and the citizens of Newton should appreciate those developers of real estate in this city who have the streets in their developments finished completely and turned over to the city to be accepted. This was done by Mr. Arnold Hartman at Oak Hill Village, and will be done by Messrs. E. J. Tuttle and J. H. McKim at West Newton Hill. Not only do attractively finished streets bring desirable residents into the city, persons who are willing to pay enough so that they may build their homes on accepted streets, but by completing the new streets, real estate values in adjoining neighborhoods are enhanced. There are all too many unaccepted streets in this city now, many of them eyesores to the sections where they are located. Certain persons bought estates in Newton, divided them into house lots, partly constructed streets through these developments, and lured people into purchasing home sites on the promise that the streets were to be completed. Some of these promises were not kept, and many who constructed homes on partly constructed streets, have been greatly inconvenienced by the almost impassable condition of the approaches to their residences.

DOG BITES MAN

A dog owned by Edmond Becker of 251 Mill street, Newtonville, attacked and bit Patrick McGuinness of 447 Newtonville avenue on Saturday night. The dog was ordered restrained and Dr. Bontelle notified to examine him.

EDITORIAL

We are glad to note the increasing interest in reform of the direct primary and the subsequent study of the importance of the short ballot. Incidentally, we fail to understand the deep seated opposition of the women voters to the convention system. No one wishes a return to the old form of conventions, but it is reflection of the brain power of the country, to say that it is unable to devise a safe and sane convention system. However, we are willing to get behind the short ballot as the best plan in sight for relief from the indifference of the average voter.

Newton seems to be a training school for college presidents. We can ill afford the loss of such men as Rev. Dr. J. Edgar Park and Rev. Earle E. Harper even for the good of the youth of the country.

We rather think that Newton established a new record this year for a safe and sane Fourth of July. Let us resolve to keep it up in the future.

MANY AUTOMOBILE ACCIDENTS

Monday evening at 6:15 an automobile driven by Isaac Edinberg of Pleasant street, Worcester, while travelling on Needham street, Upper Falls, near the bridge, hit Patsy Yatsreck, 6, of 99 Linden street. The child received a bad cut on the forehead, which was treated by Dr. Thompson. The little fellow was then taken to the Newton Hospital for observation.

Saturday morning at 10 a. m. a sedan driven by John Moriarty of Sawyer street, Dorchester, swerved onto the sidewalk on Commonwealth avenue, near Nobscoot road, and overturned. The accident was caused by the brakes locking. There were six persons in the car, but all escaped injury except Mr. Moriarty and his wife, who suffered slight hurts.

July 4th at 5 p. m. a Ford coupe driven by Thomas Green of 62 River street, West Newton, collided at the corner of Auburn street and Woodland road, Auburndale, with a Ford sedan driven by Joseph Lettino of 13 Lincoln road, Newton. Both cars were badly damaged, and the five occupants of the Lettino car received slight injuries. They were taken to the Newton Hospital.

Saturday night at 11:50 on Commonwealth avenue a Ford car driven by Prentiss Alger of 1073 Beacon street, Brookline, collided with a Buick sedan driven by Harry Lahu of Emerald street, Boston. Alger's car was badly damaged and he received a cut on his jaw. He was treated by Dr. Baxter.

Tuesday evening at 7:25 at the corner of Walnut and Watertown streets, Newtonville, a Ford coupe driven by Carmine Carullo of 16 Mague avenue, and a Studebaker sedan driven by Scott Simpson of Mason road, Newton Centre, came together. Both cars were damaged and Mrs. Carmine Carullo was injured. She was taken to the Newton Hospital.

Wednesday morning at 9:30 a truck driven by Joseph Gillespie of Chelsea street, East Boston, and a touring car driven by George Conley of Charlesbank road, Newton, came together at the corner of Washington and Adams streets. Miss Elsie Conley received a bad cut over her left eye, which was treated by Dr. O'Donnell.

Sunday afternoon at 3:30 at the corner of Chestnut and Prince streets, West Newton, cars driven by Manuel Steinhart of Salem, and Floyd Moore of Strathmore road, Brookline, collided. Both cars were considerably damaged. Mrs. Maud Moore and Robert Moore, 3, were slightly injured.

DEATHS

LYNCH: on July 6 at 129 Jewett street, Newton, Miss Elizabeth Lynch, age 70 years.

SCHNEIFELD: on July 5 at 41 Washington street, Newton, Miss Susan Schneifeld, age 30 years.

PADDOCK: on July 4 at 525 Winchester street, Newton Hlds., Miss Minnie Paddock, age 66 years.

COWLES: on July 5 at 51 Allerton road, Newton Hlds., Orrel Cowles, age 86 years.

MRS. COWLES DEAD

Mrs. Orrel F. (Johnson) Cowles died on Tuesday at the home of her daughter, Mrs. Charles C. Brown of 51 Allerton road, Newton Highlands, where she had spent her winters for the last twenty-five years. She was born in Albany, Vt., in 1840, and received her education in that town. In 1860, she married Jefferson Cowles, who died in 1902. Mrs. Cowles was an active member of the Methodist Church of St. Johnsbury, Vt., and was its oldest woman communicant. Besides her daughter, she leaves four grandchildren.

POLICE NEWS

Reynolds Clark of 68 Egmont street, Brookline, was fined \$10 by Judge Bacon on Tuesday for speeding.

M. L. Gilman of Grove Hill avenue, Newtonville, was in court yesterday to answer the charge of keeping a barking and biting dog. The case was dismissed for lack of prosecution.

W. Nickerson of 70 Wauwinet road, West Newton, reported to the police that four tires were stripped from his automobile on the night of July 1st, while the car was parked in a driveway next to his residence.

Wednesday evening, 8.

Reading Room, 255 Walnut St., Newtonville; weekdays, 10-6; evenings, except Wednesdays, 7-9; Sundays, 2-5.

All are welcome.

WEST NEWTON BUSINESS MEN'S ASSOCIATION

At the meeting of the West Newton Business Men's Association last Monday night many matters of interest were discussed. It was unanimously voted to adopt a uniform weekly half-holiday during the balance of July and August. The special committee appointed to report on the matter found that nearly every merchant had agreed to close his store on Wednesday afternoon beginning next Wednesday, July 13th. The closing hour will be one o'clock, an hour later than that adopted by merchants of most of the other business centres of the city.

Plans were considered for a membership campaign and President Brophy was authorized to appoint four team captains who in turn will select their own teams. A membership of 100 is the goal. The matter of holding another Dollar Day or some other form of merchandising event in the fall was referred to the committee in charge of the recent Dollar Day which was reported the most successful event of its kind ever conducted in West Newton.

Dr. Fred M. Lowe spoke on the proposed widening of Elm street urging the association to have representation when the matter comes before the Board of Aldermen on July 25th. The sentiment of those present was overwhelmingly in favor of the widening. The association also went on record as in favor of the proposed changes in the building code.

An invitation from the Newton Business Associates to join in the annual outing of that organization on July 20 was accepted as was a challenge to play a baseball game with the Newton Corner nine. A committee was appointed to organize the team for the big event of the day.

FEW ALARMS ON JULY 4th

The boys and young men of Newton deserve credit for allowing another July 4th to pass without indulging in the dangerous and stupid pastime of pulling false alarms. A perfect record would have been listed but for some misguided person who pulled an alarm from Box 123 at 3:53 on the morning of the holiday. Two small fires intentional set, and one slight blaze resulting from fireworks, were all that the firemen had to contend with during the day. The first two were at Newton Centre in the early morning hours: one in a hat rack at Langley road and Boylston street, the other a tar barrel at Langley road and Jackson street. The third fire was at 9:50 Monday night, and this was a slight blaze on the roof of the house at 31 Court street, Newtonville, occupied by Alfred Wellman.

Cummings of Brookline, and Dorothy Smith of 145 Elgin street, Newton Centre.

CITY HALL

Building Commissioner Chadwick reports that 171 permits were issued during June for buildings valued at \$823,103. Of these 48 were for single dwellings valued at \$492,400 and 10 for double dwellings valued at \$130,000. Miss Katharine Kimball of the City Clerk's office is spending her vacation at Newagen, Maine. Miss Caroline Beckwith of the City Clerk's office is spending her vacation at Hampton Beach.

Rescued From Gutter

Leaves and debris in gutters are gathered by a new device on a street sweeper which throws them in the way of revolving brushes, these in turn dumping the matter into a box on the cart.

CAMP NEWS

By Harold P. Carver, N. H. S. '26

This week's camp news is a bit scattered in that a number of people have reported in from camps outside of the usual list of assemblies where the boys and girls of Newton gather in the summer time. The first person that came to our attention is Leonard Clark of Newton Highlands, who is a councillor this season at Mische-Mokwa, on Little Red Head in Lake Winnepesaukee. This is his second year at the camp, and he has charge of the power craft. The camp is composed mainly of Dartmouth men with Bob McPhail, coming captain of football, and Michaels, the intercollegiate diving champion as members of the staff. Hence Len fits in well with the background as he is heading for Dartmouth with a great record in his high school work behind him.

Two other Newton boys are over at Wyanoke, also on Lake Winnepesaukee. Wendell Carr, the sensational runner for De Witt Clinton, and a fellow councillor, Brandt Marsh of Newton. Marsh was a good football player last year on the Varsity, while Carr held a number of records for the track events over at the Newton preparatory school.

At Camp Wynona in Fairlee, Vermont, there is located a graduate of this year's class at Newton, Thelma Colton of Newton. She is a councillor in charge of a kiosk, which is equivalent to a tent in other camps.

Camp Idlewild has two Newton boys that are in attendance at Mr. Roy's camp located on Cow Island in Lake Winnepesaukee. The two Robinson boys Albert and Elliot from Newton Highlands, sons of the author of many novels, are busy fitting into the camp activities. Both have shown possibilities along the lines of baseball, and in the many inter camp games that are held with the various camps on the lake they should show their ability.

Turning now to one of the more noted camps that occupy the Cape Cod coast line, we come to Camp Wampagoag, near Buzzards Bay and Gray Gables. Here Mrs. Bertrand E. Taylor of Newton Centre has started her twenty-first year of camp life on the Bay. This camp is located in such a way that it is easy of access and at the same time off the beaten line of traffic, and consequently it has a fair attendance of callers in the shape of interested parents. This is in itself a beneficial matter for it spurs the councillors on, and creates an interest in all that the boys are doing.

Among the councillors there is note worthy example of loyalty and satisfaction in that Harold Rising of Newton Centre, and a sophomore at Bowdoin College is returning for his eighth year at the camp. This is rather a usual matter for councillors at Wampagoag since they return year after year, always helping make the spot more attractive for the boys. One of the few new councillors this year is Russell Fivle of Newton Centre, more commonly known as Boo, and a fine football prospect for next year. Other councillors from the city are John Ward of Newton Highlands, an Amherst man, Theodore E. Taylor of Auburndale, one of the stars of the Andover track team. He held a high place in the estimation of the coach by reason of his work in the pole vault, and is expected to fill the shoes of the stellar athlete Ted Avery who graduated this year. Two other Newton men that are councillors are Norman Hays of Newton Centre, and William Bang of Newtonville. Bang is the craftsman of the camp, and he is the holder of many of the honors awarded by the Youths Companion's Laboratory League, besides holding credit for his work as entrance to the Massachusetts Institute of Technology.

Among the boys that are returning to the camp for the first time are Richard Gibbs, William Chadwick, John French, Myron Settle, Edwin Lombard, Kard Goodwin, Dave and Edwin McKillop, Edward Griffing, Peter Whittlesey, and Donald Gibbs. Richard Gibbs has won already the silver medal that means he has made over a certain number of points in the various that are in the camp, and this year should if his previous record is any criterion become the possessor of the gold medal which is awarded to the boy that has previously held a silver medal and this year holds the highest number of points.

At Camp Allegash in the Maine woods there is another Newton boy that is enjoying the life in the real wilds. This camp delights in long canoe trips and it is only the most hardy that can stand up under the long grind that awaits the campers. Boyce Godsoe of Newton Highlands is a member of the assembly this year, and should have a most enjoyable time since he is strong enough to wield a paddle with the best of them.

Camp Frank A. Day opened with a fine start due to the fact that over eighty per cent of the boys that came were old boys that had been there for a year or more, and also because the major part of her councillors were made up of old campers and councillors that had been there for a year at least. The annual Get-Together was held the first night under the direction of Mr. Hess who always plans some novel way to make the boys feel at home and yet mingle and become acquainted with each other. Saturday saw the ball game between the councillors and boys take place, with the batteries for the day being exchanged. Frank Spain and Alan Shaw formed the twirling squad for the boys, while Martinson and Johnson with Lacrosse made up the central part of the councillors. The Hawkshaw-Murgatroyd Company featuring Red Edgar of Dartmouth and Granger Haggood who will endeavor to amuse the crowd with their antics. "The Fatal Necklace" will be their first offering, and it will be fatal if no one laughs. On the evening of the Fourth the big blow off came in the shape of a large donation of fireworks that had been donated by Mr. Anderson. A large number of parents witnessed the sight, and also took in the afternoon festivities in the way of water sports.

Solid Foundation.

POLICE NEWS

In the Newton Court on Wednesday Herbert Zoller of 426 Columbus avenue, Boston, was fined \$150 for driving while under the influence of liquor, and James Sullivan of Sharon was fined \$10 for throwing glass onto a public highway. On the night of June 25 an automobile driven by Zoller hit another car at Nonantum square, Newton. Zoller started to make a getaway. He was pursued in another car by Patrolmen Frank Feeley and Loughlin. The chase extended to the Brighton line, and while it was on, Sullivan threw a bottle from the car onto the street. Three other bottles of liquor were found in the car; also three other soused occupants.

SEWER CONTRACT AWARDED

Wednesday morning Street Commissioner Stuart opened bids for the laying of 4600 feet of pipe sewers in the Parmenter road section at West Newton. A. Cefalo of West Roxbury was the lowest bidder, with a figure of \$17983.40. He will be awarded the contract as soon as the aldermen appropriate money for the work at their next meeting. The highest bid of the seven received was \$25,665.10.

JUNE BUILDING REPORT

During the month of June permits were issued for 48 new single dwellings, 10 two-family dwellings and 59 garages. For alterations on buildings, 37 permits were granted. The estimated value of construction work in this city during the month was \$823,102. Building permits by Wards were: Ward 1, 11; Ward 2, 32; Ward 3, 33; Ward 4, 17; Ward 5, 34; Ward 6, 35; Ward 7, 9.

During the first six months of 1927 the value of new construction and alterations in buildings in Newton was \$3,223,439; for the first six months of 1926 the valuation was \$4,341,734.

No Machines on This

Of all American industries, that of making maple sugar is one of the most fascinating. Certainly no other has retained so great a measure of dependence upon the skill of the individual. It boasts many traditions. In a machine age it has found machines inadequate. It has never been and never will be a large-scale industry. In the quality of its product and largely in the methods of its marketing it is a personal proposition. —Nature Magazine.

—Mr. and Mrs. Carl H. Gove and their son, William, Bradford Gove, have returned from a visit to "the Ledges" the summer home of Dr. and Mrs. Earle E. Bessey at Minot, Massachusetts.

BECOMES OBERLIN COLLEGE HEAD

A native of Newton and a graduate of Amherst—Dr. Ernest Hatch Wilkins will become the president of Oberlin College in the fall. He has been professor of romance languages at the University of Chicago and succeeds Dr. Henry Churchill King, president of Oberlin for a quarter of a century, now retiring. He will take office the first of next month. He is 47 years of age. Dr. Wilkins is the first non-theologian to accept the presidency of Oberlin. Dr. King had been a professor of theology, and all of his predecessors were clergymen. The new head of the college is a Congregationalist, as virtually all of his predecessors have been.

He was born in Newton Centre, Sept. 14, 1880, the son of Samuel F. and Laura Hatch Wilkins. His father was president of the Howard National Bank, but is now living in retirement in Boston. He has been treasurer of the Congregational Educational Society and has been identified with several other Congregational enterprises. Oberlin's new leader was graduated from the Newton High School at the age of 15, as the valedictorian of his class. His parents thought him too young to enter college, and he remained another year in Newton High School, doing post-graduate work. He entered Amherst in the class of 1900. President Goodale was a student at the college at the same time. In his sophomore year Wilkins got an opportunity to travel in Italy and became intensely interested in the Italian language. From that time he began to specialize in the romance languages.

He was graduated from Amherst with Phi Beta Kappa honors, and from 1901 to 1904 he remained at his Alma Mater, teaching French, Italian, Spanish, Latin and the history of Italian art. He won his doctor's degree at Harvard in 1910. He was married in 1906 to Oriana Phillips Hall, daughter of the late J. M. Hall of Cambridge. He spends his summer vacations at Waterville, N. H.

Storm Clouds

The weather bureau says that the distance at which storm clouds are visible to the naked eye varies greatly with one's position and the kind of clouds. If a person is in an open, flat country, and the clouds are of the broad stratus or layer type, he may not see them more than 30 or 40 miles away, and even not half as far if the air tends to be misty or hazy. On the other hand, when the air is quite clear a well-developed cumulo-nimbus, or thunderstorm, cloud may, in favorable circumstances, be seen when more than 100 miles away.

—Mrs. Iva B. Mears of 147 Charlesbank road, wife of Raymond Mears, died last Friday in her 35th year. Her funeral was held on July 4th and interment was in Calvary Cemetery, Waltham. She is survived by her husband and four small children.

NEWTONVILLE ESTATE SOLD

One of Newtonville's most attractive homes, at 99 Kirkland road, has recently been conveyed by J. Mervin Allen, trustee, to M. R. Jouett, Jr., of Winchester. The estate consists of a large stucco residence of 10 rooms and three baths, also 32,000 square feet of land, all beautifully landscaped. Mr. Jouett will improve the premises by building a two-car garage. The valuation is in the vicinity of \$40,000. A modern home in a handsome development opened by the Holland System has been sold to H. G. Travis. The property is located at 130 Rindze avenue, Newton Centre, and consists of a single frame house, garage, and about 8000 feet of land. The grantor was Leon E. Landt. The valuation is \$15,000.

NEWTON IN 1890

The accompanying picture shows Centre street at Newton Corner, as it appeared in 1890, before the tracks of the Boston & Albany were lowered. In the first building at the right (Cole's Block) was the grocery store of Howard B. Coffin and the newspaper store of A. V. Harrington. Coffin's grocery store was a Newton institution for many years; its proprietor was a generous, affable gentleman. He had three assistants, who were in his employ for many years, Samuel Holman, James Airth and Michael Hartford. Mr. Holman, the head clerk at this store, was a jolly, witty individual, whose merry jests kept many in good humor. He died many years ago. When Mr. Coffin retired from business he was succeeded by Mr. Airth. Both of these men are deceased. Mr. Hartford has for several years been employed at St. John's Seminary, Brighton.

The second building on the right, between Cole's Block and the railroad tracks, Whitman's Block, contained Whittier's Market on Centre street, and some small shops in an alley facing the railroad. Mr. Whittier was a good natured man. In addition, to conducting his market, he was quite interested in certain fraternal insurance orders. One of the small shops in the Whitman building was that of Harris Johnston, the electrician. Mr. Johnston was one of the pioneers in that then new occupation, and he adopted practical means of acquainting the Newton boys with the power of electricity. Outside the door of his shop were two handles, connected with electric wires, and was a popular joke to bring some unsuspecting kid to the shop door and get him to grasp hold of these handles. Then someone in the shop would turn on "the juice" and the unfortunate victim grasping the handles would squirm and yell. He could not leave go until the current would be shut off. On top of the fence which ran between the building and the tracks, a wire was laid. Other "innocents" would be lured into sitting on this fence. Then the wire would be "charged." The fence would be vacated promptly.

Whittier's Market was noted for carrying good cider. In those days cider was cider. The apple juice was not maltreated with benzoate of soda; nature was allowed to take its course, and the cider sold in stores then, developed a real kick. A well known resident of Newton then, was a hangar-on at Whittier's store. He was a carpenter by trade, and when the cider season came, he always offered to do odd jobs around the store; particularly jobs that would take him down cellar, near the cider barrels.

The warning sign near the railroad crossing will be observed at the left of Centre street, and the old gates can be seen standing up in the air. This crossing was manned by a gate-man and flagman during the day, and by a gate-man at night. The flagman was found necessary to aid in attempting to stop the many reckless persons who would persist in ducking under the gates after they had been lowered, rushing across in front of approaching trains. Even the flagman divided. The small structure to the could not stop the less orderly individuals. The small structure to the right of the crossing was the baggage room of the old railroad station. The station itself cannot be seen in the picture. The buildings of the Brackett estate are shown below the railroad crossing, on the right, and at the extreme right the tower of the Baptist Church looms up.

Origin of Petroleum
The question of the origin of petroleum is very complex. The oils—as distinct from petroleum—are all of organic origin, vegetable or animal. Petroleum may have the same origin, and of late the view has been gaining ground that the occurrences of petroleum and coal are interrelated. But the advocates of an animal origin of petroleum have by no means given in. The possibility of an organic origin also continues to find support, and the great variety of petroleum suggests various parent materials and modes of production.—Detroit News.

Open Thurs. and Sat. Evenings

The big mortar and pestle in the left foreground, stood in front of the drug store conducted by William F. Hahn. This drug store in later years was owned by Hiram Spaulding. The remodeling of Sumner's block during the past few months, caused the closing of the old store. Beyond Hahn's drug store were the stove and tinware store of Charles S. Sumner, the bakeshop of Mr. Beverly, and the shoe repairing shop of Michael O'Shea. On the second floor of this building Odin Fritz ran a photographic studio, and in Middlesex Hall, the "Christian Alliance," under the lead of Clark Morehead, held a couple of meetings each week in its efforts to save souls. The tower of Eliot Block can be faintly seen rising beyond the railroad crossing. Eliot Hall was used in those days for concerts, amateur and barnstorming theatrical productions, and fairs. Once each year a troupe of Thespians could be depended upon either to stage "Uncle Tom's Cabin" in Eliot Hall, or the old army. Most of the cast had to double. Some of them had to triple. The male members of the troupe played (or attempted to play) brass instruments in the band which advertised the production by holding a street parade. The big feature in this parade for the kids used to be "the bloodhounds." Sometimes the "bloodhounds" would be real hounds of the foxhound variety. At other times dogs of breeds that by no stretch of the imagination could be called hounds, were displayed. One outfit that hit the town scored heavily by possessing several large Great Danes. Usually "Little Eva," or "Topsy" officiated as ticket seller. The big scenic feature of "Uncle Tom's Cabin" was where the fugitives escaped across the Ohio River on the ice cakes. Patrons of the drama in those days were more easily satisfied while business was good enough to make the stay profitable. Many middle-aged persons today can look back and remember getting more real enjoyment out of the slapstick comedy of the funsters with these medicine shows than they ever obtained in later years by watching comedians of national fame. "Medicine shows" were so called because they were performances run in conjunction with the sale of alleged "cure alls" by travelling "doctors." These eminent physicians sold a tonic that would cure any disease which ailed mankind. Such tonics would enable the young to live to old age, and the old to regain their youth. Besides the wonderful tonic, the eloquent "doctors" of the medicine shows, dispensed liniments and salves, made from rattlesnakes, buffalos, mysterious roots and herbs, or some other remarkable ingredients. Some of these talented men also functioned as dentists. They could pull teeth without pain (to themselves). By constant practice on the victims of their oratory, these quacks would acquire a certain proficiency in extracting teeth. Medicine shows still are "on the road" in the southern and south-western states.

Confidence in Self Makes for Success
Many of us are actually afraid to succeed. Most of us are well fitted for our work, being properly prepared, possessing intellect, talent, love for our work and the earnest desire to do it well, but we lack the supreme gift, self-confidence, which enables us to make a success of things. Fear is a small word with a large meaning.
After hearing the great Mine, Nightingale sing a famous aria, little Miss Highvoice feels certain that her voice sounds like a tin whistle and never wants to sing in public again. Likewise, little Willie Pound-the-Keys hears the wonderful Maestro Forzando play his new concerto, returns home in disgust, closes his piano and goes on a vacation.
How easy it is to forget that hard work for long years, coupled with talent and great determination, are required to make a finished artist. How many of us are afraid of the long years, the hard work and the privations?

My message is simply this: Love your work and think it is the most glorious and wonderful thing in the world. Be radiant with enthusiasm. These two qualities make a splendid team and cannot be beaten. Both of these attributes are contagious and will help you and your work immensely.—Florence Belle Soule, in the Violin World.

Great Metropolis Has Seen Many Reverses
London existed as a town before the Romans licked it into shape behind the great wall that still can be traced. If tradition may be accepted, the Thames was unconfined and spread sluggishly among the reeds; the tide came up, forcing it to form backwaters and inundating the wide tracts of marshes. A thousand years after the Romans left, the houses, thatched with reeds, still were overgrown by woods and thickets, inhabited by deer and wild boars and the swamps were alive with bittern and duck. All the time London was growing, but on no settled plan. The process of development was continually interrupted, yet after each check it went on again. Bonfire destroyed it; the Danes wiped it out; Alfred the Great rebuilt it and within a century it was burned to the ground. Thereafter, fire and pestilence swept over it at frequent intervals, but it emerged stronger from every trial. London refused to be removed from the map, and its persistence was a visible expression of the determination of its people and a vindication of its position as a world mart.—Vancouver Province.

"Mother of States"
This name is applied to Virginia because so many states have been carved from her original territory. At the time of the settlement of Jamestown the name Virginia was applied to all that part of North America lying between the thirty-fourth and forty-fifth degrees of latitude, extending from coast to coast. This region now comprises the greater part of the United States. When Sir Frances Drake circumnavigated the globe he stopped on the coast of California which he spoke of as "the back of Virginia." Seven states have been carved from the territory claimed by Virginia at the time of the Revolution—Ohio, Indiana, Illinois, Michigan, Wisconsin, Kentucky and West Virginia.

Wild Holds Its Own
The persistence of the wild life close to the haunts of man and his works is more than remarkable. When man first intruded into the wilderness places wild animals were his easy prey. They did not know anything about him and probably looked upon him only as some fellow animal who had come to share their lot. They were disillusioned fast enough and they learned quick lessons from disillusionment.
Today wild animals know how to care for themselves. For years their ranks rapidly decreased, but when man believed that the vanishing point almost had been reached there were seen signs of increase. All the animals had become "foxy."

Little Pure Hebrew
The Jews who left Germany during the Middle Ages for the Slavic lands of Bohemia, Poland, Galicia and Lithuania spoke Middle High German and wrote it quite correctly, although they employed the Hebrew letters. Out of touch with Germany, the German sounds and forms underwent some change, while Hebrew, Aramaic and Slavic words were added to the language. The resultant idiom, Yiddish, supplanted the Slavic of the primitive Jewish settlers, and gradually with Jewish migration was carried to all parts of the world. Pure Hebrew is now an academic language, found only in books.

Clever Selling
Clerk—Here is a remarkable utensil—a can opener, a pan lifter and tuck puller, all in one.
Customer—But suppose I want the girl to open a can of soup and my husband to pull some tacks, while I lift the pans on the stove.
Clerk—Very easy. All you have to do is to buy three—anything else?—Good Hardware.

\$25,000 Found in Tree
An iron box containing \$25,000 was found buried in the roots of an aged tree by a woodcutter at Berford, Pa. Robert Boyer found the box. Most of the money was in bill form, but in bad condition.

MORTGAGE MONEY

There is a distinct advantage in having home mortgages held by home institutions. More favorable treatment is natural when the applicant deals directly with the Bank and establishes intimate friendly relations than can be expected if he deals with those who are practically strangers.

Our service is friendly, courteous and efficient, and our terms on mortgage loans are reasonable.

ROTARY CLUB

The Newton Rotary Club were hosts Monday noon to the Watertown Rotary Club, the meeting being held as usual at the Woodland Golf Club, President Pierce Fish of the Watertown club being seated at the head table with President Clark of the home club.

State Treasurer William S. Youngman was the guest and speaker and while deploring a tendency to scold, gave the club a most severe criticism of the Commission on Administration and Finance. Mr. Youngman doubted in the first place the constitutionality of such a commission and its attempts to overrule action taken by the Legislature. He called attention to the fact that during its four years of existence there had been no official audit of its books. He was particularly opposed to the Griffith report on classification and standardization of salaries which had been prepared and sent in to the last session of the Legislature and was critical of the system, by which present contented employees were given large and unrequested increases in salary merely to have their salaries on the same plane as employees in other parts of the state, where local conditions made more salaries necessary.

Chairman F. J. Perry of the outgoing committee announced a change in date from July 13 to July 27 for the joint outing with the Kiwanis Club at Frank A. Day Camp.

A silent tribute was paid to the memory of Dr. S. Charles McLaughlin, who passed away last week.

OWEN—SMITH

Miss Clare Wescott Smith, daughter of Mr. and Mrs. Melville H. Smith of Ward street, Newton Centre, was married to Mr. Allison Donham Owen of Berkeley, Calif., on Thursday, June 30th. The ceremony was performed at the home of her parents at 5 p. m. by Rev. Edward M. Noyes.

The maid of honor was Miss Jane Leffingwell of Hackensack, N. J., and Mr. Garry Owen of Berkeley, Calif., brother of the groom, was the best man.

The bride's dress was of white satin with silver trimming. Her maid of honor wore light blue beaded gossamer.

A reception was held, at which the couple were assisted in receiving by Mr. and Mrs. Melville H. Smith.

The home was beautifully decorated with palms, pink gladioli and larkspur in baskets, and pink roses. Music was furnished by Melville E. Smith, Jr., and Lawrence Smith, brothers of the bride, and by Elizabeth Savage, John Metz, Maxine Noble and Willard Young.

Mr. and Mrs. Owen left on a wedding trip by motor to northern Maine. The bride is a graduate of The Principia, St. Louis, class of 1917. The groom graduated from the University of California, class of '23, and Harvard Law School, class of '26.

THE CHILDREN'S MUSEUM OF BOSTON

For the summer season at the Children's Museum of Boston, Jamaica Plain, story hours illustrated with lantern slides or moving pictures and specimens will be held on Mondays, Wednesdays and Fridays at 3 o'clock. They will be given as follows for the coming week:

Monday, July 11—A Narrow-Waisted Mother.

Wednesday, July 13—Folk Tales from the Northland.

Friday, July 15—A Bird Heard but Seldom Seen.

The second field trip under the auspices of the Exchange Bureau will offer a study of the flowering plants around Turtle Pond in the Stony Brook Reservation. This is a very interesting region where the unusual plant life of a peat bog as well as the flowers of the deep woods and rocky hillsides may be found.

NEWTON HOSPITAL

June was a record breaking month at the hospital. In its thirty days there were born at the hospital 62 babies, one more than in any previous month. The baby that made the record 62 was born just five minutes before midnight of the last day. There were 302 operating room cases, or just over 10 a day. The out-patient department treated 676 cases and there were 132 X-ray cases. As time goes on the hospital's need for more operating room, particularly for rooms to be devoted altogether to accident cases, becomes more and more evident. Of accident cases there were 52, including the cases that were brought to the hospital from the fatal explosion at Waltham. In the month the hospital admitted 570 patients and discharged 418, having 146 as its largest number in any 24 hours, 106 as its smallest number, and its daily average 127. The social service department made 42 calls at the hospital, 42 at homes and transferred 50 patients in its car.

For the week ending July 2 there were in the hospital 106 patients, of whom 41 paid in full as the cost of their care or more, 35 paid less and 30, including babies, were free patients. The out-patient department treated 133 patients, the eye clinic nine and there were seven accident cases. Seven boys and three girls were born during the week. The social service department made seven calls at the hospital and transferred six patients in its car.

Two babies were born at the hospital on the fourth of July, baby Linell, a boy, and baby Redden, a girl. On the fourth, seven accidents were treated, which is more than the hospital has had to treat, as a rule, on Independence Day. Five of the accidents were due to fireworks and two to automobiles. Fireworks burned both hands and tore the skin of a child, burned the left hand and leg of a man and blew a fragment of steel into his body, lacerated the forehead of a man so that two stitches had to be taken and rather badly wounded the forefinger of the right hand of another man. A woman and a child were bruised and lacerated about the face and hands in an automobile accident.

During the past month the Board of Health has sent to the hospital 17 children to have X-ray photographs taken of their chests.

The surgical supply department reported for June that it, too, had broken a record. During the month only one woman, Mrs. Gertrude Rhind of Newtonville, visited it to help in the making of surgical dressings, of which the need grows greater and greater with every month. It is hoped that during the summer months there will be those who will remember the hospital's constant need of help in the making of dressings.

Dr. Wallace Hamilton, assistant Roentgenologist, is at Boothbay Harbor, Me., for two weeks. Miss Vera A. Houston, R. N., assistant to the superintendent, is at Augusta, Me., for a month's vacation. Miss Amy Foster, R. N., who has been assistant instructor in the training school, has gone on a holiday trip before going to the University Hospital at Ann Arbor, Mich.

Miss Nell A. Hostetler, B.A., R.N., of Portland, Oregon, who this month assumes her duties as superintendent of nurses and principal of the training school for nurses, is a graduate of the school of nursing at the Peter Bent Brigham Hospital in Boston. She is also a graduate of Whitman College at Walla Walla, Washington. She has taken a course in public health nursing, has had experience in private nursing and office nursing and has had experience in both directing and instructing pupil nurses at the Bridgeport Hospital in Bridgeport, Conn. At the Newton Hospital she will be the principal of a training school from which 600 young women have gone out to make places for themselves in all quarters of the world, a school which is ranked among the first and which this year graduated a class of 28.

DEATH OF WILLIAM A. HASKELL

William A. Haskell died at his home, 517 Commonwealth avenue, Newton Centre, on Monday, July 4, after a long illness. He was the son of the late William A. Haskell and Mary Coburn Haskell of Boston. He was a close friend of Mark A. Hanna, vice-president of the New York and New England Railroad, and was associated with railroad pioneering throughout the country.

Mr. Haskell was educated in Boston and as a young man went to Canada with the Bell Telephone Company, where he spent about 10 years establishing the telephone system in the remote districts. Upon the death of his father, Mr. Haskell was recalled to Boston, where he resided until the time of his death.

In 1901, he married Miss Josephine S. Sterry, who died in 1916. Two years later, he married Miss Margaret L. Barry of Newton Centre, who survives him, as do two children, William A. Haskell, Jr., and Miss Margaret Haskell. Mr. Haskell's brother, Coburn Haskell, who died in 1922, invented the Haskell golf ball and was a well-known sportsman.

MRS. MARY E. JOHNSON

Mrs. Mary E. Johnson of 84 Grove street, Auburndale, widow of the late Charles H. Johnson, died on June 30 in her 77th year. She was born in Charlestown and had resided in this city for 54 years. Her funeral services were held on Sunday afternoon at her late residence, Rev. Edward P. Drew officiating. Burial was in Newton cemetery. The deceased is survived by two daughters, Miss Susie T. Johnson and Mrs. J. Parker B. Fiske of Auburndale, a sister, Mrs. Emma F. Davis of Auburndale, and a brother, J. Charles Thomas of West Newton.

ELECTRIC CAR DERAILED

The heavy rain last Sunday night washed a quantity of gravel onto the tracks of the Middlesex & Boston Street Railway on Washington street, near Greenough street, West Newton, and caused the derailment of a car bound for Framingham. The car travelled along the sidewalk for over 20 feet after leaving the tracks.

POLICE NEWS

Michael Pappa of 164 River street, Waltham, was fined \$100 in the Newton court last Friday for driving while under the influence of liquor. He was arrested at West Newton on June 5 after his car had collided with another automobile.

Gus Basteri of Dudley street, Cambridge, was fined \$10 on Friday for speeding.

George Spikes, 16, of Prospect place, West Newton, was given a suspended sentence to the State Industrial School in the Newton Juvenile Court on Friday for stabbing John Sutherland, 15, of Melrose street, Auburndale, on June 23. The boys had become engaged in an argument on the Auburndale playground and were about to start to wallop each other when young Spikes suddenly pulled a knife and plunged it into Sutherland's back. The wound was not serious.

Complaints having been received by the police that women and girls were being accosted and annoyed by a man in the Nonantum section, caused Patrolman McCormick to be assigned to that district in plain clothes last Saturday night. On California street McCormick encountered William Murphy, 23, of 84 Bowers street, Newtonville. The policeman started to question Murphy, and the latter's reply was a wallop to one of McCormick's eyes that discolored that organ. The policeman gave his assailant some of his own medicine, and subdued him. Murphy was identified by a young woman as the person who caught hold of her one night recently as she was walking with her sister. In the Newton Court on Tuesday he was sentenced to three months in the House of Correction for accosting a person of the opposite sex, and one month for assaulting Patrolman McCormick. Murphy appealed, but not being able to furnish bail, he was taken to the jail at East Cambridge.

Salvatore Brasco, 17, of 63 Lincoln road, Newton, and John Pellegrino, 18, of 60 Clinton street, Newton, were arrested on Sunday night by Inspector Good of the Newton police charged with stealing 54 dozen golf balls on the night of June 24 from the Charles River Country Club at Oak Hill. The pair hired an automobile in Cambridge, and in this car took a trip to New Hampshire peddling the golf balls at reduced rates along the route. Their itinerary included Maine, but golfing in New Hampshire was not flourishing enough to cause sufficient sale of the stolen balls to enable the pair to continue on their journey; so they were forced to return to Newton. About half of the loot was recovered. The alleged "pill" purloiners were in the Newton Court on Tuesday morning, and their case was continued until tomorrow, July 9th.

Monday night Serg. Mahoney and Patrolman Hanlon and Turner arrested Frank Piper of 92 Brighton avenue, Allston, for driving while under the influence of liquor. Piper's car had collided with a few other machines on Commonwealth avenue, Auburndale, just before the police grabbed him. He will be tried on July 16.

Sunday night Serg. Bannon and Patrolman J. P. Murphy arrested Frederick Butcher of Lincoln road, Weston, charged with driving while under the influence of liquor. His case will be heard on July 26.

Patrolmen Frank Feeley and McDonough arrested Joseph Merino of Quincy on Monday night for driving without a license, and for driving the wrong direction on a one-way street. He was fined \$25 in court on Tuesday on the first charge, and \$5 on the second.

Edward Sturges, Jr., of Milton, and Antonio Braica of Marlboro, were each fined \$10 in the Newton Court on Tuesday for speeding.

ABOUT TOWN

By Edw. H. Powers

An old resident of Newton, asked us recently to say something about the present inadequate service given to residents of this city by the American Railway Express. This gentleman stated that one morning he telephoned the office of the Railway Express at Newton Centre at 9 a. m., and no person was there to answer the phone. He again telephoned at 1:30 p. m., and could get no response. The result was that his trunk was not called for to be taken to his summer home on the South Shore, and considerable inconvenience to his family resulted.

In years past all the larger villages of Newton either had an office of the American Express or of the Adams Express. Then the Adams Express was absorbed by the American Express, and later the offices of the American Express were discontinued with the exception of one office at Newton Centre. It is the belief of a large number of Newton's citizens that the American Railway Express,

which enjoys a monopoly, should have more offices in a city that is so scattered as Newton. Certainly the service is far inferior to that furnished in years gone by, so far as accessibility of offices is concerned.

If residents of Newton, and other nearby places, continue to be attacked by ugly dogs, either all dogs will have to be permanently restrained, as is done in England, or persons will have to wear "bite-proof" clothing. The latter expedient would necessitate a radical change in attire by many of the younger ladies. The vogue in late years has been for dogs with plenty of "pep," such as Alredales, Great Danes, German shepherds (the so-called police dogs) and Doberman Pinschers. The two last breeds have been very popular since the World War, when soldiers who served in the Army of Occupation brought back many of these two breeds of canines which were common in "Der Vaterland." In the say '90s people kept polite, well-mannered dogs, such as pugs, spaniels, black and tans and poodles. While the men of today are supposed to be less cave-mannish than the human males of preceding generations, present day dogs seem to be "real tough."

MORTGAGEE'S SALE OF REAL ESTATE

By virtue of the power of sale contained in a certain mortgage given by Charles S. Hill to Albert C. Holzmann, dated May 20, 1927, and recorded with Middlesex South District Deeds, Book 5099, Page 224, for breach of the conditions of said mortgage and for the purpose of foreclosing the same, will be sold at public auction on the premises hereinafter described on Tuesday, the twenty-sixth day of July, 1927, at ten o'clock in the afternoon, all and singular the premises conveyed by said mortgage and therein described as follows:

A certain parcel of land with the buildings thereon situated in that part of Newton called Waban, bounded and described as follows: Northwest by Chestnut Street one hundred and fifty-four and 9/100 (154.90) feet; Northeast by land now or late of P. G. Marsh one hundred and fifty-four and 27/100 (154.27) feet; Easterly by land now or late of Walter S. Place, one hundred (100) feet; Southerly by Beacon Street one hundred and sixty-seven (167) feet; Southwesterly by the curb, having a radius of twenty-seven and 11/100 (27.11) feet at the corner of said Beacon and Chestnut streets, fifty-two and 9/100 (52.87) feet. Containing 24.70 square feet of land.

Said plan of land in Waban, Mass., belonging to Frederick W. Webster, et al. Trs., by E. S. Smiley, Surveyor, dated May 20, 1927, and recorded with Middlesex South District Deeds Book 3938 ed. Being the same premises conveyed to me by Guy Deane, dated January 1, 1927, recorded with Middlesex South District Deeds, Book 5056, Page 201, and to me by Guy Deane, dated January 1, 1927, recorded with Middlesex South District Deeds, Book 5056, Page 201, in so far as the same are now in force and applicable. Subject to a mortgage for \$15,000 to the Home Savings Bank.

Said premises will be sold subject to all existing mortgages, taxes and municipal liens thereon, if any. \$1000 will be required to be paid in cash at the time of sale, the balance of the purchase price of sale; other terms will be announced at the sale.

CHARLES G. VERGE, Mortgagee.
c/o David J. Cohen,
1011 Franklin Street,
Cambridge, Mass.
July 1-8-15.

CITY OF NEWTON

MASSACHUSETTS

NOTICE TO CONTRACTORS

Sealed proposals for building about 3500 line feet of sewer in Newton, Mass., in accordance with a plan on file in the office of the City Engineer, Newton, Mass., and with the following: No. 20602, "City of Newton, Massachusetts, Kilburn Road, Private Land, South of the Park, Derby Street, Adena, Rangleway and Llewellyn Rds. (two sheets). Plans and Profiles of the sewer to be constructed, dated July 1, 1927, and signed by William P. Morse, City Engineer, in Newton, Mass., will be received by the City Engineer, Newton, Mass., until 11 A. M., July 14, 1927. All proposals must be in the form furnished by said commissioner, and must be accompanied by a certified check upon the City of Newton in the sum of \$10,000, payable to and to become the property of the City of Newton, if the proposal which it accompanies is accepted and the bidder neglects or refuses to comply with the terms of the proposal.

A sufficient bond for the faithful performance of the contract for the sewer of 50% of the contract price will be required. Specifications and terms of contract can be obtained at the office of said commissioner. Said commissioner reserves the right to reject either any or all proposals or to accept any proposal, and to award the contract to the bidder whose proposal is in the best interests of the City of Newton, and any contract made will be made subject to appropriation and grants to meet payments thereunder.

GEORGE E. STUART,
Street Commissioner.

TERMS \$3.00 A YEAR

HOLD SPECIAL MEETING

\$19,635 For Grading of Athletic Field Among Appropriations Passed by Aldermen

A special meeting of the Board of Aldermen was held on Monday night to make some appropriations necessary to permit the awarding of contracts on some urgent work, and to provide funds for the carrying on of certain necessary activities of the city. The meeting was scheduled to start at 7:45, but because of prolonged discussions between members of the Finance and Public Works committees, it was 9:17 when President Weeks called the Board to order. The absentees were Aldermen Earle, Leahy, Gordon, Ball, Holbrook and Bliss. A number of the aldermen came from their summer residences to be present.

Chairman Collins of the Finance Committee reported favorably on the orders to appropriate \$19,635 for the grading of the High School grounds, \$20,772 for sewers in the Parmenter Road section at West Newton, \$48,000 for covering Laundry Brook at Newtonville from the Boston & Albany tracks to Clarendon avenue, and \$800 for mow work by the Forestry Division of the Street Department. These recommendations of the Finance Committee were accepted by the Board, and these amounts appropriated. The Finance Committee reported "inexpedient" on the proposed appropriations of \$2000 for new plumbing at the Rice School, and \$1500 to improve the acoustics in the hall of the Underwood School.

Alderman Hodgdon asked "Why is it inexpedient to appropriate \$2600 for the new plumbing at the Rice School?" Chairman Collins of the Finance Committee explained that it has been the policy of the aldermen, and the Finance Committee in late years not to appropriate money for alterations or repairs on school houses, unless provision for such work was made in the annual budget, except in cases of emergency. It is the policy of the Finance and Public Buildings committees to do each year a certain amount of improvements on the plumbing in schools. While it is regarded that the plumbing at the Rice School needs to be modernized, it is not unsanitary, is not menacing the health of the children, and cannot be regarded as an emergency case. Alderman Hodgdon replied, "This is the fourth year that this improvement in the plumbing at the Rice School has been asked for. It was in the budget three times. We have seen larger items, less important to the health of the children, such as the dredging of Bulough's Pond, passed by the aldermen, outside of the budget appropriations."

Alderman Gallagher said, "This request for an appropriation to improve the Rice School plumbing, is merely an attempt on the part of the School Committee to gamble for a chance to get some easy money. We have no easy money just now, but I hope the Finance Committee will agree next Spring to appropriate money for this purpose. The Board of Health has not condemned the plumbing at the Rice School. As a medical man, I have gone into this matter, there is no emergency there. This matter can wait another six months." Alderman DeMille stated, that as a member from Ward 6, where the Rice School is located, he is interested in the matter. He has been assured by professional men and by plumbers, that there is no danger to the pupils from the present plumbing in the Rice School. Alderman Pratt, also from Ward 6, said that during his five years on the Board, he has received no complaints regarding the plumbing at the Rice School from the parents of the children there.

Alderman Fitts, as Chairman of the Public Buildings Committee said, "that this committee has made the effort to keep the plumbing in the schools in a sanitary condition to prevent any jeopardy to the health of the pupils."

The older toilets at the Rice School should be replaced, but no dangerous condition exists there. If the health of the children attending this school was being jeopardized, immediate action would be taken."

Alderman Hawkins inquired as to the reason for the Finance Committee not recommending \$1500 for improvements at the Underwood School. The trouble to be corrected at this school does not concern sanitation, but acoustics. It appears that in public buildings certain provisions must be made to assure proper acoustics. Some material, such as caulk, or some fibrous substance is placed to cover the walls and ceiling so that sounds will not reverberate and echo. When the plans for the Underwood School were made, this assurance for proper acoustics was specified; but in the long delay occasioned by the litigation over the taking of property for the school, certain changes in the plans were made. Among other things, no "non-echoing" treatment was given to the hall of the school. As a result conditions in the hall have been very unsatisfactory. The balls on a billiard table, in a "three cushion game," do not make any more caroms, than the sounds uttered, or made in the hall of the Underwood School. Residents of Ward 7, whose children attend the school, and who themselves go there to listen to the Read Fund Lectures, have become exasperated at the atrocious acoustics of the Underwood School hall, and have sought relief. Their auditory nerves will continue to suffer during the coming nine months, whenever they make use of this hall, as the aldermen refused to appropriate the money necessary to regular traffic conditions of the sound waves there.

One of the most important appropriations which was to have been made on Monday night, was not made: this was the \$47,500 to build the long talked-of tunnel under Elm road, which will permit the pupils to travel between the classical high school building and the new building, without being exposed to the inclemency of the weather, or endangered by the occasional automobiles which travel along Elm road. Chairman Collins of the Finance Committee explained that this appropriation was not acted upon because the committee had decided to spend on school construction this year, from the tax revenues the same amount as in the other years included in the school building program, \$200,000. To appropriate \$47,500 from revenue, would exceed this amount. To make further appropriation by a Bond issue for this purpose, is a question that City Solicitor Bartlett is somewhat in doubt regarding its legality. He desires a few more days to obtain more information on this matter. As soon as he obtains this information, the Mayor will call another special meeting to take action on this matter.

Alderman Hodgdon said that the tunnel is badly needed, and to delay appropriating money for its construction will greatly discommode the high school pupils next Fall. The noise of the work which will be in process on this tunnel, will interfere with the studying and recitations of the students. "The Public Buildings and Finance Committees," said the Ward 5 member, have had sufficient time to get the opinion of the City Solicitor, instead of waiting until tonight." Alderman Collins replied "that Buildings Commissioner Chadwick had informed him that by postponing action on making this appropriation for a week, no delay will be occasioned in the construction of the tunnel, and the work will be completed by next Fall without any annoyance to the pupils. So, the aldermen will have to travel one more, within a few days from the summer homes to City Hall, to hold another special meeting to appropriate money to build the tunnel."

TRAFFIC SURVEYS

Police Department Checks Autos At Important Intersections

The Traffic Committee of the Newton Board of Aldermen, in conjunction with the Chief of Police are making serious efforts to improve the traffic conditions in this city. Already fourteen flashing traffic signals have been installed at some of the most dangerous street intersections in different sections of the city, and have met with so much approval, that many demands have been made for similar signals at other places. Among such locations are the following street intersections: Boylston and Walnut, Cabot and Harvard, Webster and Elm, Oak and Needham, Chestnut and Elliot, Jackson Road and Pearl, Pearl and Jewett, Braeland avenue and Cypress, Webster and Cherry, Woodland road and Grove, Grove and Central, Auburn and Maple.

The appropriation of the Street Department for such signals is exhausted, so no more can be installed at the above, or other points, until an appropriation for such a purpose is made by the aldermen. It is probable that the Traffic Committee may ask for such an appropriation at the next Board meeting.

The Chief of Police recommends that General Electric signal and control system units be placed on Commonwealth avenue at the intersections of Centre, Walnut and Washington streets. These units show three colors and have four way pedestal signals. No mention is made of the long promised traffic tower at Nonantum square, the most congested traffic spot in the city, where electric cars, automobiles and pedestrians are constantly travelling in five directions. (It should be understood that ordinarily any one car, automobile or pedestrian is not travelling in five directions at one and the same time.) The Chief of the Fire Department has requested that the parking of automobiles in front of fire houses be prohibited. To enforce this request, it will be necessary for the Aldermen to pass an ordinance.

The Chief of Police has made a survey of the volume of traffic at intersections on Commonwealth avenue, and submitted a report to Chairman George Grebenstein of the Traffic Committee. On Thursday, June 2, between the hours of 8 a. m. and 11 p. m. 9058 automobiles on Commonwealth avenue passed by Centre street. On the following Thursday during like hours, 4103 cars on Centre street crossed Commonwealth avenue. Taking these two days as average week days, 13,161 cars passed this intersection in 15 hours. Of these cars, 1048 made left turns: left turns are the bugaboo of traffic. On Sunday, June 26, the number of cars that passed by Centre street on Commonwealth avenue was 14,196.

At Commonwealth avenue and Walnut street, the number of cars passing was somewhat less when counted on typical week days and a Sunday. The totals there on both streets on a week day—12,179; on a Sunday (Commonwealth avenue only) 13,606. The week day, tally at Washington street and Commonwealth avenue, strange to say was just a little more than at the avenue and Centre street, 13,212. And on the Sunday when the count was taken at the avenue and Washington street, it must have been raining, as but 937 cars passed by on the avenue. This intersection, ordinarily is much more congested by cars than is the one at Centre street and Commonwealth avenue.

Alderman Grebenstein, Chairman of the Traffic Committee, is determined that this body will use every available means to make Newton one of the safest communities in the State, as regards the automobile situation.

CITY HALL NEWS

Miss Mary McMullen of the Public Buildings Department was tendered a shower on Wednesday night at the home of Mrs. Edward Maguire, 28 Bridges avenue, Newtonville, and presented with many useful kitchen utensils. A collation was served to the girl friends of Miss McMullen who attended the affair. She is soon to become the bride of Thomas Reppard of Broadway, Newtonville.

Alderman Baker recalled to his fellow members some facts regarding the new bridge over the Charles River at Wales street, Lower Falls, plans for which were approved by the Board on Monday night. This bridge will be 50 feet wide, constructed of reinforced concrete, faced with granite. The cost of the bridge will be defrayed by the counties of Norfolk and Middlesex, the town of Wellesley, and the city of Newton.

The aldermen also appropriated \$3000 for moving portable schools. One will be moved to the Claffin School at Newtonville; another will be moved to Newton Centre.

LAY CORNERSTONE

Appropriate Ceremonies Held At Newton Centre Thursday Evening

On Thursday evening, July 7, the cornerstone of the new library at Newton Centre was laid. The exercises were supposed to start at 7:30, but because of the rain those present retreated to the protection of Dr. Andrews' house nearby. A few minutes later the downpour ceased and Dr. E. A. Andrews, as Chairman of the Committee, started the program. The assemblage sang "America." Dr. William Huntington offered prayer, eulogizing the generosity of those who had contributed to the building fund, and dwelling on the good the library will accomplish in the community.

Dr. Andrews followed, explaining the contents which would fill the corner box enclosed in the corner stone, consisting of a list of the names of those who had given to the library fund, copies of the Newton newspapers and some of the Boston papers, some coins and a Lindbergh stamp. The stone was then hoisted into place by B. A. Ferguson who is the contractor building the library, and A. Oram Fulton assisted by Dr. Andrews laid the stone.

AUBURNDALE LIBRARY

The exercises of laying the cornerstone of the new Plummer Memorial Library at Auburndale will be held next Tuesday afternoon at 5. J. Parker B. Fiske of the library committee has been arranging details. Addresses will be made by Mayor Childs, a member of the Library trustees and Frederick Plummer, representing the Plummer family.

LUCAS-ANDERSON

Miss Dorothy May Anderson, daughter of Mr. and Mrs. Charles Herbert Anderson of 983 Washington street, Newtonville, was married Saturday evening, July 9, at the Hotel Westminister to Mr. Frank Lucas of West Newton.

Reverend Geo. G. Phipps of Newton Highlands performed the ceremony. The bride was given in marriage by her father. Miss Anderson was attended by Miss Estelle Marjorie Yates of Newtonville, who wore a royal blue silk, the wedding gown of the bride's grandmother. She carried a large bouquet of pink roses.

Earl Crawford Anderson, brother of the bride, was best man. The bride was gowned in white satin trimmed with lace, and wore a bridal veil. She carried a shower bouquet of white roses and lilies of the valley. The ceremony was followed by a reception and dinner to the intimate friends and relatives. The bride and groom left shortly on a wedding trip. On their return they will reside at 28 Prince street, West Newton, and will be at home to their friends after November 1st.

NEWTON PUPILS GIVE TO RE-BUILD SHAKESPEARE FOUNDATION

Pupils of the Newton High School, and teachers of the school, have contributed \$215 to the fund being raised for the purpose of rebuilding and endowing Shakespeare Theatre at Stratford on Avon. The American Shakespeare Foundation is trying to raise \$1,000,000 as its share of the \$2,500,000 which is the goal of the total fund. The work of raising the money at Newton High was under the direction of a namesake of the man who is credited by many as being the real author of the plays attributed to the Bard of Avon. Francis L. Bacon, Director of Newton's High Schools was in charge of obtaining contributions here.

BAND CONCERT

The Newton Circle Inc., and the Playground Dept. furnished the music at a band concert last evening at Victory Field, Nonantum.

Next Thursday evening a band concert will be given on West Newton Common.

KIWANIS OUTING

Fifth District of Kiwanians at Norumbega Park.

Members of the Kiwanis Clubs in the 5th New England District journeyed to Norumbega Park on Wednesday for their annual outing. Over 500 members and guests were present. The program opened at 2:30 with a baseball game between two picked teams of Kiwanians, who in their youth played the game. The outstanding players for Newton were Doc' Fred Paul and Hugh Boyd. Dr. Paul was a stellar athlete in his college days, but he has become soft, as he showed by pulling a ligament. Age is also telling on Hughie Boyd, the erstwhile "iron man." Hughie tried his old stunt of playing every position on the team, but developed "Charley Horse," and had to retire. The game was alleged to have ended in a tie 6 to 6, but the real score will never be known.

While the game was in progress a "Teel Brothers" runabout an 1880 model, was driven onto the field. The chauffeur of this vehicle was an individual who sported a luxuriant crop of scarlet "Galways" on his phiz, despite the fact that the thermometer was hovering around 100. He was finally identified as W. Uriah Fogwill. With him as a passenger was an ebony hued gentleman of considerable girth, who was recognized as Thomas Lyons, the well known West Newton mortician. The "motor" of the vehicle was a "half-horse power" steed, foaled in 1900, and apparently having been on a restricted diet for sometime.

Following the baseball game a number of field and novelty sports were conducted. The Kiwanians entered into the athletic events with zest, and while their spirit was strong, their muscles were weak, with the result that Doc Paul was kept busy bandaging the bruised and cut limbs of "athletes" who took bad tumbles while running or jumping. The fat men's race was won by H. A. Martin of Quincy, Frank Foy of Quincy was second. The "three legged" race was won by Rev. Allan Blacklock and Melvin Downing of Waltham. Prizes in the contests for the ladies were won by Mrs. W. J. O'Donnell of Brighton, Mrs. Dwight Hollister of Wellesley, Miss N. Leconey of Newton, Mrs. Neil Squires of Wellesley, Mrs. L. B. Thigpen of Boston, Miss Margaret Downey of Cambridge, Miss Theresa O'Brien of Newton and Mrs. L. B. Todd of Wellesley.

Winners in the various novelty events for the men were Edward Hutchinson of Arlington, Charles Holbrook of Brighton, James Harn of Allston, W. B. McCrudden of Newton, Peter Litchfield of Quincy, M. R. Fletcher of Brookline and George Silman of Newton.

At 6:30 the gathering repaired to the Norumbega Restaurant, where a dinner was served. After the dinner President Frank Foy of the 5th District presided at the exercises. The prizes won for the different events were awarded by H. J. Pettigill, Jr., of the Boston Kiwanis Club, including prizes to James Armstrong of Malden and Mrs. Armstrong. Mr. Armstrong is Governor of the New England district of Kiwanis Clubs. Mayor Childs in his brief remarks eulogized Rev. Earl Harper of the Newton Kiwanis Club, and expressed regret that Mr. Harper is to leave this city. The Mayor emphasized the good done by such organization as Kiwanis in breaking down bigotry and misunderstandings, and promoting friendliness. Following the post prandial exercises, dancing was enjoyed, and stunts were put on by some of the clubs.

The clubs participating in the affair were Newton, Waltham, Wellesley, Boston, Allston-Brighton, Arlington, Cambridge, Brookline and Quincy. The committee in charge included Frank Foy, William Brown, Dr. Lester Blair, Dr. Fred Paul, John Cleary, George Thompson, Paul Wunderly, W. U. Fogwill, Clarence Holman, Thomas Lyons.

ARRESTS CLEAR MYSTERY

Clever Work by Officers Feeley and Taffe In Solving Mystery of Many Recent Breaks

Clever and persistent work by Patrolman Frank Feeley, assisted by Traffic Officer Ray Taffe, resulted in the arrests yesterday of Arthur Cummings, 16, of 296 Washington street, Newton, and John Mitchell, 15, of 23 Pearl street, Newton, and the admission by the boys that they had been the burglars who have for the past few months been breaking in to many houses in this city. Their partner in the many breaks, was Francis McCarthy, 16, of 35 Nonantum place, Newton. Young McCarthy has made a getaway, going to New York City on a truck, but his arrest is expected shortly.

Cummings and Mitchell told of fifteen breaks which they and McCarthy had made in this city during the past several months. In addition they burglarized four houses in Brookline and one in Watertown. The police of Newton have been endeavoring for the period during which the thefts have been occurring to catch the culprits, and the persistency of the thieves, who worked for the most part during the daylight hours, had the force on the alert. The houses entered, were usually those whose owners were away, and entrance was made in a real professional manner, either by porch

climbing, or by breaking a window pane and forcing back the catch. The loot taken by the thieves was, however, of a nature that would seem to indicate that the burglars were amateurs. From several houses golf balls were taken, also cigars and cigarettes. Other property stolen included money, watches, men's clothing, liquor, a revolver and field glasses.

Among the houses broken into were the residence of Harry Ham on Windsor road, Waban, and another house on that street, the McNeary residence at 35 Somerset road, Waban, Dr. Homer Sowles' house at 390 Dedham street, Oak Hill, several houses along Commonwealth avenue, including those of Joseph Eldridge, Robert Horner, Dora Lloyd and Arthur Peabody, Irving Clark at 2181 Washington street, the Neelan house at Beacon and Washington streets, and the house at 125 Otis street, Newtonville.

Young Cummings and Mitchell will appear in the juvenile court at West Newton today. Cummings was released some months ago from the Lyman School. The other boys have been in the juvenile court for misbehaving themselves, and have been on probation.

MR. TYLER DEAD

William J. Tyler of 350 Waverley avenue, Newton, who died in Boston after an illness of six weeks, was born in Vernon, Vt., in 1873, and moved to Boston in 1896, where he has been engaged in the real estate business ever since. Mr. Tyler was a trustee of the Warren Institution for Savings, where he served on its board of investment, and a director of the Workingmen's Co-operative Bank and a member of its security committee. He was a member of various Masonic organizations, including St. John's Lodge, a member of the Boston Real Estate Exchange and of the Commonwealth Country Club. He married, on Oct. 17, 1894, Susie N. Browne, of Barnardston and is survived by his widow; two children, Roger B. Tyler of Newton, and Mrs. Jacob P. Estey of Brattleboro, Vt.; three grandchildren; a sister, Mrs. J. L. Stockwell, of Brattleboro, and two brothers, Rev. George E. Tyler, of Vernon, Vt., and F. Leslie Tyler of Northfield.

Funeral services were held on Tuesday. Rev. Chester A. Drummond of Channing Church officiated and the interment was at Vernon, Vt.

AUTOMOBILE ACCIDENTS

Automobiles driven by Edward Bloom of 48 Harvard street, Newtonville, and William Comeau of Dorchester, collided Monday at the intersection of Walnut street and Lowell avenue, Newtonville. Mrs. William Leonard of Milton, who was riding in Bloom's car, and Mrs. Rose Comeau, were slightly injured. They were taken to the Newton Hospital for treatment.

Louise Maloea of John street, Newton Centre, was struck last Monday by an automobile driven by William Volante of 391 Dedham street. The accident happened on Boylston street. The girl received injuries to her knees. She was treated by Dr. West.

ENTERTAIN DISABLED VETERANS

On Wednesday, July 20, Mrs. Curtis Guild is opening her home at Nahant for an outing for the disabled veterans of the Marine Hospital. There will be a luncheon, boating, bathing, and fishing to make the day a festive one for the "boys." Mrs. Guild, always to the fore in sponsoring a worthy cause, has given unsparingly of her time in aiding the disabled veterans. Mrs. Clarence R. Edwards, founder of the Disabled Ex-Servicemen's Exchange, is assisting Mrs. Guild with the refreshments.

Mrs. Charles Royce Butler of Auburndale, who is a member of the Red Cross Motor Corps, has charge of the transportation, assisted by Miss Kathryn Muir of West Newton.

Among the invited guests are Senator David I. Walsh, General Clarence R. Edwards, Colonel Carroll Swan and others of note.

BENEFIT SHOP

At the Benefit Shop there is a fine mahogany inlaid cabinet and a combination desk and bookcase for sale very low. As the shop will be closed during August it is hoped that friends of this good cause will visit the shop during July when it is open every Wednesday and Friday from 9:30 to 1 and Saturday nights from 7 to 9. The need for children's and men's clothing is still urgent. Collections will be made by notifying Mrs. C. P. Clark, C. N. 1236.

DOGS STILL BITING

Mrs. Thomas O'Rourke of Saco street, Upper Falls, reported to the police on Tuesday, that she had been bitten by a dog owned by Harry Springham of Oak street, that village. Dr. Bouteille was ordered to inspect the animal. If the dogs in this town keep on biting persons, they will all have to have their teeth extracted. They can then be fed on hamburg steak, or mush.

NEWTON SPORTS

SECOND HALF STARTED

The second half of the Newton Twilight League season got under way on Monday night. Two games were played with Upper Falls the victor over West Newton, 4 to 3, and Newton Highlands, overwhelming Newton Centre, 9 to 1. Donald Cunningham was on the mound for West Newton and deserved a better fate. He held the first half champions to a few scattered hits and outside of the first inning was unbeatable. An error by the rightfielder proved his undoing in the opening frame when it allowed two runs to cross the plate. Kenney was on the mound for the winners and kept the visitors' hits well scattered. In the other game the Highlands team had no difficulty in defeating the visiting Newton Centre nine.

Tuesday night the Pals defeated the Newton Y. M. C. A. on the Y diamond 5 to 2. Bill Hawkes twirled for the winners and Hinchey for the Y. Mickey Monahan, former high school catcher, was behind the bat for the losers. At Victory field the Corpus Christi club, which is expected to be one of the contenders for the right to play the Upper Falls in the city series in September, had little difficulty in shutting out the Barnshaw Mills team, 10 to 0. The home team was forced to pick up several players in order to place a team on the field and were thereby weakened. The Catholic Club defeated the Newton Centre nine, 9 to 4, on the West Newton Common in the other game of the evening.

The game scheduled for the West Newton Common on Wednesday night between the first half champions, Upper Falls, and an All-Star team picked from the other teams in the league, for the benefit of Jimmie Smith of the Newton Centre nine, who hurt his leg sliding to base a few weeks ago, was called off because of the thunder shower. The game will be played next Wednesday evening at the same diamond where the West Newton-Newton Centre game was originally scheduled. That game will be postponed until a later date.

Monday evening a meeting of the league officials and team managers was held at the Newton Centre playground house. President William T. Halliday presided, and every team was represented. Considerable discussion was held upon the question of the transferring of players from one team to another. In the constitution as drafted last year is a rule prohibiting any player from changing his team during the season but this rule was never enforced. Because of the threatened disrupting of one of the teams, when another team sought to obtain three of its best men recently, it was thought time to call a halt. Naturally it would not be of any use for a team to get together a fair team and in the middle of the season have it go to pieces and neither is it fair to that team. Such a procedure would shortly put the league out of business. The majority of the managers therefore agreed that no player on the list of a team submitted at the opening of the first half of season should be allowed to play on any other team the same season. The penalty for any team using a player who is on another team's list is the forfeiture of the game that player was on. One exception was made to this rule. In case a player is listed with one team and only gets into the lineup occasionally he may ask to be transferred to another team. All of the managers must then be given two weeks' notice of the contemplated change before a meeting will be held to vote upon it. A majority vote will then decide the issue. With passage of these rulings and the expected enforcement of them it is readily seen that the league has strengthened itself considerably and the games will be even more keenly contested than at present.

SUMMER FOOTBALL NEWS

We have received an interesting letter from John L. Sullivan, newly appointed coach of football and baseball at Newton High, who is attending the University of Illinois where he is taking a summer course in coaching under the well-known athletic coach, Zuppke. Writing of his work he states that the courses in both sports have a theory class where the theory of how to play all positions, styles of plays, formations, and plays themselves are taken up both from an offensive and defensive point of view. Practice sessions are also held where the actual work covered by the theory is done. Star players of the University

city of Illinois teams demonstrate for the student-coaches. As soon as the new rule book is out that will be taken up as will the lateral pass in a thorough manner.

The coaches attending the school come from all over the country, among them is a former Newton High athlete, James Mohr, who learned the game from the late Coach Dickinson. He is now athletic coach at Coburn Classical Institute in Maine which has turned out Charles Major, colored high jumper, as one of its stars of recent years. Another New Englander at the school is Fred Tootell, Bowdoin graduate, and now track coach at Rhode Island State, the Alma Mater of Sullivan. Tootell was the olympic champion in the hammer throw not many years ago and recently he threw one for 182 feet without previous practice. Commenting on the Illinois Stadium, the horse of "Red" Grange, Sullivan writes that it is a fine piece of architecture, double decker style and capable of seating 70,000. It is so laid out however that if necessary it can be built to accommodate 135,000.

Noble Wins Title

Arthur D. Noble of Newton Centre won the junior tennis singles championship of the Ontario lawn tennis tournaments last Saturday by defeating G. H. Rapper of Montreal, 6-4, 1-6, 6-4. Noble was eliminated in the men's singles by Louis Thalheimer, Texas star, who won the title in that tourney. The Texan also eliminated Donald H. Martin of Newton before getting into the semifinals.

Johnson in Lenox Club Tourney

Henry L. Johnson, Jr., was among the players in the Lenox Club invitation tennis tournaments over the weekend. In the singles he was eliminated in the semifinal round by A. F. Vondermuth, 6-0, 6-4. Paired with J. Brooks Fennel in doubles they defeated Robinson and Moss in the semifinals and opposed Knyaston, singles champion, and Vondermuth in the finals.

Johnson and his partner were forced into extra games to win the finals from the New York pair although they won in straight sets, 7-5, 7-5.

Hill Wins For Brookline

D. Hill, playing for the Brookline Tennis Club last Saturday, defeated his opponent in singles and paired with S. Briggs won the doubles match in the team play against the Boston Y. M. C. A. on the latter's courts. The Brookline Club won 5 matches to 2 in handling the Hub outfit its first defeat of the season.

Held To Two Hits

The Waltham Pals defeated the West Newton A. C. Tuesday evening at Stony Batter field, 13 to 2, fielding faultlessly behind J. Ryan. Ryan held the West Newton team to two safe singles while his teammates were getting fifteen off the deliveries of Hutton. Four errors by the local nine aided in the Pals scoring.

Y. M. C. A.

An appreciative group of boys from Charlestown and the North end of Boston were entertained on Wednesday, July 6th. After games on the athletic field and a swim in the pool supervised by the Y. M. C. A. Physical Directors, Messrs. Simmons and Westgate, the boys were ready for the luncheon which was served by a Committee of ladies of which Miss Emma Page was Chairman.

Mr. Walter S. Bruton led the group in some lively Community singing and then Mr. Roland Thompson showed moving pictures which included one reel of Colonel Charles A. Lindburgh. After the pictures came another swim and then the trip back to Boston.

The ladies who assisted Miss Page in the luncheon were: Madames White, Anderson, Hennigan, Delano, and Bascom. Mrs. Howard Moore of Bellevue street very kindly played the accompaniments for the singing.

A group of these boys will be entertained each Wednesday during July and the first two weeks in August.

Nearly \$200.00 was subscribed by friends of the Y. M. C. A. and sent to the National Council to help Associations in Mississippi, Louisiana, and Arkansas whose property was badly damaged by the floods. The Committee who had charge of the raising of the money consisted of Fred W. Rust of Newtonville, Frederic D. Fuller, President of the Newton Association, and H. W. Bascom, Secretary.

Word has come from the Associate General Secretary of the National Committee of the Y. M. C. A. in China that American Secretaries are still needed to guide the Association movement in China. While several of the Associations have been occupied by communists, young men's organizations and it looks as if these discouraging conditions were a thing of the past.

General Chiang Kai Shek has issued orders that the Y. M. C. A. and other Christian properties in the Nationalist territory shall not be molested. It is hoped that General Shek and General Peng, who have joined forces will be able to establish democratic institutions in China. If they succeed in carrying out their aims the Association and other Christian institutions may expect a period of unparalleled progress and development.

NEWTON MAN HEADS ELKS

John F. Malley of 188 Commonwealth avenue, Chestnut Hill, was elected Grand Exalted Ruler of the Elks at Cincinnati on Tuesday. He was born in Springfield in 1878, graduated from Yale Law School in 1902, represented Springfield in the State Senate in 1910 and 1911, and was appointed associate justice of the Springfield Court in 1912. In 1913 he was made Collector of Internal Revenue by President Wilson, and held the position until 1919. He then resumed his private practice of law, with offices in Boston and Springfield. He is a member of the Springfield Lodge of Elks and has been a resident of Newton for five years.

No wind—No rain can get through this roof!

A real improvement—a roof of shingles that dovetail together. Even the fiercest wind can't force rain or snow through a roof of Barrett Self-Spacing Giant Shingles.

We've seen a lot of roofings—examined them—tested them. And we stand strongly behind these new Barrett Asphalt Shingles. They're proof against rot or rust—come in several handsome colors—are fire-safe and attractive in price. Come in and see them.

We endorse
Barrett
ROOFINGS

Neighbor: "Sure looks like a real roof."
Man on the job: "Yes, Sir. See how those shingles dovetail? Wind can't force water under 'em and cause leaks."
*A special feature of Barrett Self-Spacing Giant Shingles

ABOUT TOWN

By Edw. H. Powers

We have attended meetings of the Board of Aldermen during the past couple of years and listened to appeals for a tunnel under Elm road. The purpose of said tunnel is to afford protection to the boys and girls attending the high schools. This tunnel will render it unnecessary for the students who must travel from one building to another, to be exposed to the rigors of our New England climate, or to be jeopardized by the few automobiles which travel along Elm road. After having heard the alleged hazard to the health of those of the rising generation who attend the Newton High School, because they would be exposed for a fraction of a minute to the chilly outdoor air, or moistened slightly by falling rain, we wonder if the youth of today is less rugged than were we boys and girls of yesterday who were much less protected, but who, somehow, or other, managed to survive.

We perhaps, would be convinced that the boys and girls of the past generation were of harder stock than those of the present, had we based our conclusions on the pleas made for the tunnel under Elm road. But then we observed during the last winter or two, high school boys travelling about in the open in zero weather disdaining to wear any head covering other than slicked hair, and when we have seen high school girls during the same frigid seasons braving the wintry winds clothed in chiffon stockings and very light attire, we have reached the conclusion that the rising generation is at least as strong physically as their predecessors, and that those who have advocated the tunnel want it, not because the present high school pupils are weaklings, but as a precaution against ills resulting to those students who may be susceptible to sudden changes in temperature. It seems to be a necessary adjunct to the proper functioning of our costly group of high school buildings, and the aldermen should not be criticised for appropriating money to construct it.

A feast for the eye is afforded by the display of rambling roses in the yard of Miss Sarah Harley at the corner of Eddy and Watertown streets, West Newton. A solid blanket of roses covers a large area, and presents a delightful spectacle.

POLICE NEWS

More speeders were penalized in the Newton Court on last Friday for "stepping on the gas." Paul Krain of Watertown was fined \$50 for driving so as to endanger the lives and safety of the public. Krain's automobile had struck a horse-drawn wagon of the Newton Street Department on Washington street, throwing Peter Butler, who was driving the wagon, a badly cut head. Alfred Kilroy of Roxbury, Hugh Bean of Brown street, Brookline, Albert Gordon of Malden, each was assessed \$10 for speeding; Ernest Annese of 15 Hawthorn street, Newton, was fined \$5. Frank Mahony of 70 Prospect street, West Newton, charged with speeding, had his case continued. Edmund Scott of Worcester, was fined \$5 for not having his car properly lighted.

Three Newton Corner boys, residing on Peabody and Jefferson streets, and Pearl Court, were in the juvenile court last Friday, charged with stealing tires and rims. They were given suspended sentences to the Lyman School.

James Dezottell of Allison street, No. 10, was found not guilty in court on Friday on the charge of making an assault with a dangerous weapon on his young uncle, William Brooks. On the preceding week Brooks and Dezottell became involved in an argument over a young woman, and the latter was accused of obtaining a revolver and firing it in the direction of "unki." A witness testified that Brooks had started to treat Dezottell roughly, whereupon the latter went into his home, procured the pistol, and fired one shot into the ground, but not at Brooks. Dezottell was fined \$100 at Judge Weston for carrying a dangerous weapon without a permit.

Two Upper Falls residents were in court on Friday as a result of "July 4th." Bronius Rolaskiewicz, 15, of Mechanic street, stole some fireworks. Bronius went to the Shirley Industrial School. Dominic Donato of 22 River avenue, sold firecrackers larger than the law allows; Dominic was placed on probation for a year. So, just before next Fourth of July, he must be careful regarding the size of the firecrackers he sells.

Harold Brown of Elizabeth, New Jersey, a colored gentleman, was doubly unfortunate in driving too fast through Newton last Friday night. When Motorcycle Officer John J. Murphy stopped Harold for speeding, he found that Mr. Brown had no license in his possession. So Harold's return to New Jersey was halted until Saturday to allow his appearance in the Newton Court. He was fined \$15 for not having his license with him, and \$10 for speeding.

Judge Bacon in court on Saturday sentenced Frank Lentini of 195 1/2 Newton street, Waltham, to two months in the House of Correction for driving while under the influence of liquor. Lentini was also fined \$10 for drunkenness. It was his second "drunken driving" conviction. He was arrested recently by Policemen Reagan of Newton and Murphy of Watertown after having been chased along Watertown street from the Watertown line to Crafts street.

Friday night Patrolmen A. Foley and Tompkins were riding in an automo-

bile in the Oak Hill district when another car came along and crowded their machine. The policemen chased the reckless driver into West Roxbury where he abandoned the car he was driving. Obtaining the aid of West Roxbury policemen, a hunt for the fugitive was started, and he was found hiding in a clump of trees. He proved to be Joseph Cox of Roslindale, and the machine he had been driving was stolen last Friday from Wilfred Lewitt of Hunnewell street, Needham. Cox was in court on Saturday charged with reckless driving. The case was continued to Monday.

When Cox appeared Monday morning he had a squad from the Army Aviation Squadron at the East Boston airport, including commissioned and non-com officers, as well as a buck private, to provide an alibi for him. His witnesses claimed that on the night Cox was arrested, instead of having been touring Oak Hill, as alleged by the police, he was eating in a North and restaurant with them. Judge Bacon, however, was not convinced with the testimony of the alibis, so he fined Cox \$25 for driving without a license, and \$50 for driving so as to endanger the lives and safety of the public. He appealed, was bailed, and then turned over to the Needham police, who re-arrested him on the charge of stealing the automobile in which he was alleged to have been riding.

Over in the wooded regions of Oak Hill, near the West Roxbury line, is a rustic cabin where a Newton Centre resident communes with nature. Late-ly he had discovered that some uninvited guest was invading his cabin. The police were notified, and have been lying in wait for the trespasser. Early Monday morning Sers. Veducio and Moan, with Patrolman Stanton captured Joseph Rocketty of Brighton in the cabin. He pleaded guilty in court of breaking and entering and was bound over to the Grand Jury.

William Burke of 1063 Beacon street, Newton Centre, was fined \$20 by Judge Bacon on Monday for driving within 300 feet of fire apparatus while it was responding to an alarm. Chief Randlett testified that young Burke, on the night of July 5, drove his car in front of a fire truck on Parker street, and followed so close to the Chief's car, that the headlights on Burke's automobile kept glaring in the windshield of Randlett's machine.

Six drunks were arrested by the police over the week-end. Charles Ince of Holyoke street, Boston, was fined \$50 by Judge Bacon on Monday for driving after his license had been suspended.

David Eames of Robinhood road, Auburndale, was given a suspended sentence of 30 days in the House of Correction by Judge Bacon on Monday. He had been arrested for unlawfully appropriating an automobile.

TUNNEL BIDS RECEIVED

Bids were opened last Friday for the construction of the tunnel to connect the classical high school with the new high school building. The tunnel will run under Elm street. Bids were also opened for the heating and electrical work in this tunnel. The bids received were:

General—Duncan Construction Co., \$35,800; C. S. Cunningham & Sons Const. Co., \$36,855; John W. Duff, Inc., \$37,500; Hill Woodward Const. Co., \$39,100; John MacDonald Const. Co., \$41,490; Lawson W. Oakes, \$42,773; Somers & Drisko, \$42,775; Engineering Service & Const. Co., \$45,890; Anthony Baruffaldi, \$50,419; T. Stuart & Sons Const. Co., \$53,495.
Heating—Lynch & Woodward, \$6,616; R. H. Baker Co., \$6,740; McLand & Cousins, \$7,837.
Electric—E. C. Lewis, Inc., \$745; Lord Electric Co., \$759.

NEWTON GUARDSMEN AT CAMP

Company C, 101st Infantry, National Guard, departed Saturday in buses for Camp Devens where it will participate in the annual encampment of the 26th Division until July 23rd. The company was in command of Capt. Thomas Hickey, with Lieuts. Leo Taffe and James McDevitt in charge of platoons. The 101st will show in battalions this year: Mess Sergeant Irving House of Company C has been designated as Chief Chef of the 1st Battalion. Serg. House saved a cook during the late war, but will have something more than "corned willy" and "gold fish" with which to appease the appetites of his "guests" during the present encampment.

FARM AND CITY LOANS

As an indication that life insurance companies are placing their reserve funds in farm and city homes, is the report that the John Hancock Mutual Life Insurance Company of Boston, during the 6 months ending June 30, 1927, accepted loans totaling \$23,784,457 on farm and city property. The general character of these loans is evidenced by the fact that the average interest yield is 5.53 per cent. These loans cover 2144 farm properties and 849 city properties—the latter including 474 dwelling houses and 106 apartment buildings, housing in all 2030 families.

BOWDOIN SQ. THEATRE

Those who enjoy laughter will find the show at the Bowdoin Sq. Theatre Monday just to their liking. For the approval of the audience the management will offer "Frisco Sally Levy," a comedy of mirth, of the most wholesome variety with Irish love in a Jewish setting. Another picture will be "Ankles Preferred" with charming Madge Bellamy in the big role and the story is one that deals with girls and silk stockings. Ben Turpin will delight in, "A Prodigal Bridegroom" and the Pathe News and five selected acts will round out the bill. On Thursday night, July 21, full drama, round by round of the Dempsey-Sharkey contest will be given. Every Friday is opportunity night. Concert Sunday at 3.

ROTARY CLUB

The meeting of the Rotary Club was held as usual on Monday at the Woodland Golf Club. Charles E. Griffith, director of the summer course in music at Lasell Seminary under the auspices of the American Institution of Normal Methods, gave a short talk and extended an invitation to the club to attend a choral concert of the students on July 25th and 26th.

The members welcomed home the four delegates to the International convention at Ostend. They were William T. Halliday, Fred Leonard, Ben Rae and G. Wilbur Thompson. An open forum with discussions and opinions on various subjects was an interesting part of the meeting.

LANGMUIR—DRAKE

Miss Laura Drake, daughter of Mr. and Mrs. Louis Stoughton Drake of 24 Bennington street, Newton, was married to Mr. John Dean Langmuir of Hastings-on-the-Hudson, New York, on Saturday, July ninth, at four in the afternoon at Trinity Church, Newton Centre. The ceremony was performed by Rev. Gibson Bell of Wynnwood, Pennsylvania, an uncle of the bride, assisted by Rev. Laurens MacLure of Grace Church, Newton.

Miss Prudence Drake, sister of the bride, was the maid of honor, and the bridesmaids were the Misses Elizabeth Henry of Newton and Miss Mildred Dunham of Bethel, Conn. The best man was Mr. Dixon Griswold of Hastings-on-the-Hudson. The ushers were Messrs. Carl Trube of Maplewood, N. J., Donald Cooper of Boston, Dudley Bell of Waltham and Lewis Bell of Cambridge, the last two being cousins of the bride. Master Stoughton Bell, 2nd, of Waltham, was the ring bearer.

The bride wore a gown of white satin and tulle with satin court train, and veil of old Spanish lace worn by her great aunt, Louise Stoughton, at the Court of St. Petersburg in 1878. Her bouquet was of white orchids and lilies of the valley. The maid of honor wore cream lace over silver green with a large sand colored hat. She carried garden flowers. The bridesmaids wore pink chiffon taffeta and blue chiffon taffeta with hats to match.

After the ceremony a reception was held at the home of the bride, at which the couple were assisted in receiving by their parents.

The decorations at the church were palms and roses. The house was decorated with climbing roses.

Mr. and Mrs. Langmuir will reside at Portland, Maine.

The bride is a graduate of Dana Hall and Connecticut College and the groom is a graduate of Williams College and Harvard Business School.

CITY AWARDS HAY CONTRACT

Bids were opened last week by Street Commissioner Stuart for the supplying to his department of hay, grain and other horse-feed for the next three months. There were but two bids: F. H. Sargent Co., Watertown, \$4299; Highland Mills, Newton Highlands, \$4405.50. The contract was awarded to F. H. Sargent Company.

The "New England Way" Makes a Real Vacation

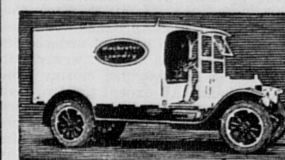

Enjoy Our Special North and South Shore Service!

If you go to either the North or South Shore, you will be glad to know that our own motors cover both of these territories, from Winthrop to Rockport and from Quincy to Duxbury.

No vacation can be 100% for the home maker unless it includes prompt and satisfactory laundry service.

The New England Ways are planned to fit the needs of every family, and there are many services from which you may choose the one that suits you best.

Just give your summer address to our salesman or 'phone NEWTON NORTH 6300, so that the necessary arrangements can be made. Then you need not worry over the problem of clean clothes again all summer!

EDITORIAL

The recent award of a silver cup to the Graphic by the National Editorial Association for "Merited Achievement in newspaper advertising" during the past year, gives us warrant for the opinion that it is not good business for newspapers to encourage or foster the so-called Dollar Day sales merely for the additional advertising which such events may produce. Dollar Day affairs sponsored by the Chamber of Commerce or by the various business organizations of the city are legitimate enterprises and usually are a benefit to the merchants as well as offering substantial bargains to the public. Dollar Day sales run by newspapers for the purpose of increasing advertising receipts during the dull season do not, as a rule, produce satisfactory results to either the merchant or his customer.

As the time is rapidly approaching when Governor Fuller must make what is evidently a momentous decision in the Sacco-Vanzetti case, let us give the Governor our hearty support in whatever way he takes action, being assured that he has the courage and the wisdom to do what he believes is right in view of all the circumstances. In particular let us refrain from burdening him with half baked opinions or so called new evidence on the matter.

Police officers Frank Feeley and Ray Taffe are to be congratulated on their good work in running down a group of young men who have been breaking into numerous houses in Newton and Brookline, during the past few weeks. These two officers have been commended before for previous good work on similar lines.

\$47,500 for a tunnel to connect two big high school buildings is a lot of money to put into the ground.

PICKED THE WRONG CUSTOMER

While passing through Newton Tuesday, Chief Prohibition Officer Dennis Lord, and one of his assistants, Thomas DeAngelo, were approached by two men who offered to sell some alcohol. The bootleggers were promptly arrested after they had made a sale, and taken to the Federal Commissioner in Boston for arraignment. They were James Cianti of Murray Court, East Boston, and Alfonso Greta of Sumner street, East Boston.

POLICE NEWS

Charles O'Brien of Fulton street, West Medford, was fined \$100 for drunken driving in the Newton Court on Wednesday, and \$15 for drunkenness. He appealed. O'Brien was arrested on the night of June 26 by Patrolman Chadwick at the corner of Commonwealth avenue and College road, Chestnut Hill. Chadwick testified that O'Brien halted his car to allow other autos to pass, and fell asleep while waiting. His case was scheduled for yesterday, and when he did not appear, a warrant was issued for him and he was arrested.

Another autoist who had mixed gasoline and hooch was also fined \$100 in the Newton Court on Wednesday. He was Thomas Hayes of West Cottage street, Roxbury, arrested on June 22 by Serg. Bannon and Officer Davis.

An automobile stolen on Tuesday in Roxbury from George Noel of that district, was found by Serg. Moan on LaGrange street, Oak Hill, early Wednesday morning. Three tires had been taken off the car.

Several persons were fined in the Newton Court on Wednesday for various offences against the laws regarding automobiles. Amos Samuda of Wellington street, Boston, paid \$5 for driving without his license, and another for driving without his registration. William Spindler of Auburn street, Cambridge, was fined \$10 for speeding. Wilfred White of Tabor Academy was assessed \$5 for a like offense.

As evidence that many outsiders are bathing in the limited space at Crystal Lake, and that some of these outsiders are less truly than Newtonians, was the appearance in court yesterday of Edward Morahan, 19, of Brighton, and Glen Lyons, 19, of Allston. They were arrested Wednesday night at Crystal Lake by Life Guard Edmund Mullen and Patrolman Hammill after they had created a disturbance. Because of the storm, Mullen had ordered the bathers from the water twenty minutes before the regular closing time, nine o'clock. All except the two from Brighton and Allston obeyed. According to Mullen they began to argue, and Lyons attempted to strike him. Other lifeguards came to Mullen's assistance and the pair of outsiders was arrested. Judge Bacon fined each \$15 and then suspended the fines on condition that they remain away from Crystal Lake.

Two more "speeders" were fined \$10 each in the Newton Court yesterday. They were Patrick Moran of Framingham, and Albert Brookhouse of Strathmore road, Brookline.

SCHOOL NOTES

Miss Cicely Horner, M. A. 1927, Peabody College, formerly Supervisor of Physical Education, Montpelier, Vermont, has recently been elected to teach physical education in the public schools of Newton, Massachusetts.

DOLLAR DAY

Newtonville's big Dollar Day, to the preparation of which Newtonville merchants have devoted a great deal of time and effort during the past few weeks, will be on Saturday of this week, July 16. From early morning Newtonville merchant will offer special inducements for the economical shopper and an array of bargains that are expected to prove a revelation to the buying public.

It will be helpful to the merchants, and undoubtedly beneficial to the individual shopper if all who can conveniently do so will at least do a substantial part of their shopping during the morning hours. This will also enable one to avoid the congestion of the afternoon or evening crowds and contribute materially to the success of the event as a whole through helping the merchant to render more orderly service than would be possible under other conditions.

WANT GASOLINE STATIONS

At the next regular meeting of the aldermen on July 25th, a hearing will be held on the petition of Henry C. Bourne for a gasoline station at Washington street, Lower Falls. Mr. Bourne has twice before applied for a station on this site, and been refused.

Another petition for a gasoline station is that of Percy Bragdon, who asks that he get a permit for an outside station at the so called Fuller Garage on Watertown street, West Newton. This is the site which former owners attempted to defy the ruling of the Board of Aldermen of this city, and who were found guilty of disobeying the law in the local, Superior and Supreme Courts.

Philip Capadanno, who once before failed in an attempt to obtain a permit to erect a building at his gasoline station at 349 Lexington street, Auburndale, will again ask the aldermen for this privilege at the meeting on July 25. This location is in a residential district.

SMITH-McGARRY

Miss Mary E. McGarry, daughter of Mr. and Mrs. Richard McGarry of 30 Wiltshire road, Newton, was married on Sunday afternoon, July tenth, to Mr. William E. Smith of Brooks street, Brighton. The ceremony was performed at the Church of our Lady, Newton, at four thirty.

Miss Florence McGarry of Newton, a sister of the bride, was the bridesmaid and Mr. John Smith of Brighton, brother of the groom, was the best man.

The bride wore a gown of white georgette with lace trimmings. Her bouquet was of white roses and sweet peas. The bridesmaid's dress was pink taffeta with pink hat to match. Her bouquet was pink roses and sweet peas.

A reception was held from five to ten thirty at the home of the bride. The couple left on a wedding trip to Niagara Falls, New York and Toronto.

CAMP NEWS

By Harold P. Carver, N. H. S. '26

The second week of camp always brings its problems to both boys and the counselors in charge. The whole camp is beginning to settle down to the now accustomed routine, and there must be some breaks in this life or else the efforts of the camp will be frustrated. In consequence, some camps enter into a highly varied program of events, others simply have instruction periods for the first half of the season, and then enter into the competitive activities. The boys have learned the ropes by the end of the first week and a half, and have more or less picked on some things in which they wish to concentrate, and this aids the camp. Since it is easier to fit the scheme to wishes than to rule, the camps should by this time have made some very definite steps toward developing the boys given them for the summer.

At Camp Wampanoag there is one activity that is shared above many of the others, and that is track athletics. Endowed with a fine jumping pit for the broad jump and one equally as good for the high jumpers, and also a good track, it has been one of the favorite camps for boys who enjoy that sort of sport. Wampanoag has been fortunate in its choice of counselors, who govern the sport, for in the persons of Ralph Thompson and Harold Rising a firm foundation for the future of track at the camp was established. Thompson has now left the camp, having graduated from college, but Rising, fresh from a successful year at Bowdoin, has taken up the task by himself. His previous work has shown him fully capable of teaching the difficult parts of the racing game, and always the runners that have obtained some of this careful coaching at Wampanoag have made excellent use of it in their efforts in the high schools.

Another camp that is run by Newton men is that going under the name of Camp Wickaboag, located near West Brookfield, Mass. Dr. Arthur Gilbert is the director, with two Newton High School teachers in charge with him. Mr. Frederick K. Hussey is the assistant Director and Mr. Carl Swan has taken over the manual training end of the camp work. Other counselors that claim Newton as their home are Ivan Hoyt of West Newton and Herbert Ellms of Waban. This camp is run mainly with the idea of a closer study of nature, and to that end they have devoted considerable time to organizing a study that would be adequate for the demands made upon it. One of their biggest features is that of horseback riding under the expert direction of a West Point graduate who personally supervises each initiate to the difficult art of keeping astride the ridges of the horse's back. The following boys from Newton are in attendance at Camp Wickaboag this summer: Horton Albion, who does the bugling, from Newtonville; Allen Carver, from the same town; Denham Thompson and Franklin, his brother, both coming from Newton Centre.

Among the many types of camps that predominate in New England we have the Boy and Girl Scout camps, that are fast gaining ground because of the terms that they offer. The chance to go for a few weeks' vacation at a set weekly stipulation is a godsend to many of the families that cannot meet the expenses required if they send their children to the larger, more completely organized camps. There are many Scouts from the City of Newton that are attending the Boy Scout camps, although there is no real Newton Boy Scout Camp. The largest delegation is that which is going to Camp Norse, Cape Cod Council. From Troop One, James Coligan, Harry C. Hatchell and Philip Margolin; from Troop 15, Raymond Case, Robert Reid, Norman Reed and James L. Griffith. This camp is located, as one could readily surmise, on Cape Cod at Mashpee. At Camp Kenoza, where the Medford Council holds its summer activities, five boys from Troop One will go for a part of a season—Julius Ober, Winston Sharp and Fred Provost for the first part, and Watson Walker, Jr., for the month of August. At Camp Massasoit at Elbow Pond, Emmons Brown of Troop 4 will go in with his brother Scouts from Quincy and thereabouts. At Camp Barclay there are two members of Troop 11 in attendance, Gilbert Ryerson and John Williams. These camps are valuable in a great degree because they furnish the opportunity for more perfect efforts along the lines that the Scout movement stresses. Here one can pass off merit badge requirements or his initial work for one of the badges, and thus the movement proceeds along at a more rapid pace, due to the expert instruction that can be given in each particular department.

Camp Frank A. Day, under the

direction of Red Edgar and Granger Hagood, presented the "Crimson Coconut" this past week-end. This camp has an unusual reputation at being able to present any show imaginable and making it a success.

At Camp Passaconaway the sports all have gotten under way. The intermediates lost a five-inning game to Waubunaki, but the Juniors and Seniors came through with two decisive wins against Camp Lawrence. For the Seniors, John Locke pulled off one of the most sensational double plays unassisted that have ever been seen on the camp field. He also hit well, garnering two two-baggers in one inning. For the Juniors Bill Leighton easily won the honors of the day by pitching air-tight ball and leading the team in hitting as well. For the intermediates Richard Hennessey and Robert Chapin put up a fine game as the battery, but poor baseball throughout by the infield ruined their chances of coming out on top.

In archery John Locke and Robert Holbrook have been leading the way, while Albert Hutchinson has the lead in both tennis and golf. The best swimmers at present seem to be Robert Chapin and Conant.

DR. MAURICE ALLEN DIES

Dr. Maurice J. Allen who had been residing on Perkins street, West Newton, and who was one of the victims of an automobile accident several weeks ago, when the car in which he was riding crashed into a trolley pole on Pleasant street, Dorchester, died at the Boston City Hospital last Tuesday from a compound fracture of the skull, and other injuries suffered in the crash. Two other of the four occupants of the machine also died from injuries. Dr. Allen was 31 years old and had worked hard to obtain his medical degree. He graduated from the Harvard Medical School last month, and on the day the accident happened, he was to have departed for Wilkesbarre, Pennsylvania, to become an interne in the Mercy Hospital there. He is survived by his widow and one daughter. His funeral was held yesterday at the Church of the Immaculate Conception, Boston. Burial was in St. Joseph's Cemetery, West Roxbury.

RED CROSS NEWS

The Newton Chapter of the Red Cross announces a slight change in the schedule of life saving instruction at Crystal Lake and at Auburndale.

There is still room for more pupils and those of our boys and girls who can swim ought to avail themselves of this splendid opportunity to become American Red Cross Life Savers.

Mr. Boughner, the instructor, engaged by the Newton Red Cross will be after this, at the Auburndale beach on the Auburndale playground, Monday, Wednesday and Friday afternoons from 2 to 5. He will be at Crystal Lake every morning from 9 to 12 and Tuesday and Thursday afternoons from 2 to 5. Any further inquiries may be addressed to the Newton Red Cross, 12 Austin street, Newtonville, or the Playground Department, City Hall, West Newton, Massachusetts.

This week saw fifteen boys and girls pass the Junior Life Saving examination at Crystal Lake and Auburndale the first products of the summer life saving campaign being conducted by the American Red Cross. This group demonstrated their ability to break holds and to tow a person their own weight in four different ways a distance of thirty feet. Other important feats that they performed were undressing in the water and bringing up

CENTRAL CHURCH NEWTONVILLE

11 A. M. Union Service in
Methodist Church.

Newtonville

—Mrs. Katherine Purcell has been confined to her home with a severe cold.
—Mrs. E. A. Rust of Oakwood road is entertaining her friend Mrs. Partridge, of New York.
—Mrs. T. A. Leavens of Otis street is visiting her daughter Mrs. Wilder of Friendship, Maine.
—Mr. and Mrs. Elmer Wilcox and family of Lowell avenue are spending a few weeks at York Beach.
—Mr. and Mrs. J. A. Chaffee and family of Harvard street spent the week end at Falmouth, Mass.
—Mr. George G. Livermore of Mill street is visiting at Flushing, L. I., and in New York for a week or so.
—Mr. Frank Sargent of Central avenue is enjoying a summer's sojourn at Nautilus Inn, Hull, Mass.
—Mr. and Mrs. Spencer Arend and their family are enjoying a summer's vacation at Falmouth Heights.
—Miss Marion Bassett is one of the speakers this week at the Unitarian conference held on Star Island, N. H.
—Mr. and Mrs. Rupert C. Thompson and son, Rupert, Jr., are spending the summer at West Falmouth, Mass.
—Dr. Anton Fried of Walnut street leaves in a couple of weeks for Vienna, Austria, where he will spend his vacation.

—Mr. and Mrs. Clark Macomber (Janet Eaton) are receiving congratulations on the birth on July 7th of a son, George.
—Mrs. Chas. Cunningham Livermore of Mill street will spend the last week in July and the first week in August visiting friends at Marblehead, Mass.
—Mrs. Mary S. Crosby, age 85, died on Sunday last at the John A. Andrew Home. Her funeral services were held on Tuesday. Burial was in Mt. Auburn Cemetery.
—The Rev. Lawrence Emig, D.D., pastor of the Copley M. E. Church of Boston, will be the preacher at the union service in the Methodist Church on Sunday.
—Mr. Wilbur Andrews of Grove Hill avenue was a passenger on the air liner between Paris and Croyden which was compelled to make a forced descent last Friday. Mr. Andrews has been attending the Rotary Convention at Ostend.

—Mr. and Mrs. H. L. Rapelye of Jackson Heights, N. Y., are spending the next two weeks at the summer home of her parents, Mr. and Mrs. Chas. B. Harrington, "Driftwood Cottage," Egypt Beach. Mr. and Mrs. Rapelye are on their way to Lake Maranacook, Maine, for the month of August.
—Henry W. Savage, Inc., reports that through its office, Fred E. Johnson has sold to Abraham Kaplan of Dorchester, the parcel of land located at 332 Walnut street, Newton, containing 11,407 sq. ft. and assessed for \$6000. Mr. Kaplan will erect a new building thereon. In connection with said sale, Henry W. Savage, Inc., has leased to the Great Atlantic & Pacific Tea Co., a store in this building for a term of years.

—Mrs. J. Everett Hicks of Highland avenue has been named as one of the matrons who are arranging the details for the entertainment of ladies attending the 27th biennial convocation of Kappa Sigma, the five-day national session of which will open at the Hotel Statler next Tuesday afternoon. The opening social function will be a reception, pop concert, and ball in the Statler ballroom Tuesday evening. J. Everett Hicks, chairman of the general committee in charge of arrangements for the event, will be among the speakers to extend greetings as part of the program on that evening.

Auburndale

—Mr. Harold O. Cook and family leave this week for their vacation in the Berkshires.
—The cornerstone of the Plummer Memorial Library will be laid with appropriate ceremonies at 5 p. m. on Tuesday, July 19th.
—Mr. Harland P. Sisk of Woodbine street is spending his vacation at Waterville Inn, Waterville Valley, in the White Mountains. As he goes to Schenectady, N. Y., to take up his work with the General Electric Co.
—At the Centenary Methodist Church, where Reverend Earl E. Harper is closing his ministry preparatory to assuming the presidency of Evansville College, Evansville, Indiana, services of great interest are being held at 10:45 o'clock each Sunday morning during the month of July. Attractive musical features are presented at each service and Mr. Harper is presenting a sermon review of his preaching in Auburndale during his ministry here. Unusually large congregations evidence the interest of the community in these services.

DEATHS

—**ROWE**, on July 10, at 45 River Ridge, Lower Falls, George V. Rowe.
—**MCCARTHY**, on July 7, at 38 Lewis street, Newton, Mrs. Katherine McCarthy, age 72 years.

—Albert Fisher of 1198 Chestnut street, a veteran employee of the Gamewell Company, died last Monday after a long illness. Mr. Fisher was born in Nottingham, England, 41 years ago, and had resided in this city for 36 years. His funeral was held on Wednesday and burial was in the Newton Cemetery.
—A surprise shower of lovely gifts was given to Gertrude Kerivan of Pennsylvania avenue the past week by forty friends at the Crowley home on Boylston street, Newton Highlands. The decorations were yellow and white. An amusing entertainment was put on by three young ladies and refreshments were served. Miss Kerivan is to be married the last of this month to John A. Lane of Somerville.

Waban

—Mr. William F. Lamb of Mossfield road is spending the week-end at Bradford, N. H.
—Miss Sylvia Meadows of Windsor road has gone to Pennsylvania for a week's visit.
—Much interest is being shown in the tennis tournament being held at the playground.
—Barbara Wells of Alban road has been visiting her maternal grandparents for a fortnight.
—George W. Lockwood is one of the incorporators in the Frank Gair Macomber Inc. of Boston.
—Dunbar Holmes of Waban avenue sailed the winning catboat "Katherine" in the Duxbury races recently.
—Mr. and Mrs. Robert E. Wells of Alban road have returned from a visit to New York City and Long Island.
—Mrs. George W. Souther and her sons, Hartwell and Richard, are at their summer home at Kezar Lake, Me.
—Mr. and Mrs. Harry Hopkins and their family are leaving Waban the first of August and will live in Suffolk, Conn.
—Mr. and Mrs. Albin L. Richards motored to Newfound Lake, where they joined the Walkers and the Stephens for the week-end.
—Mr. Donald Charlton of Beacon street has passed his college board examinations successfully and expects to enter Harvard College this fall.

NEWTON WOMAN 100 YEARS OLD

Last Friday at the City Home on Winchester street, Newton Highlands, Mrs. Sarah Morley observed her 100th birthday. She was born in Newton on July 8, 1827, the daughter of Isaac and Mehtabel (King) Hall. Her ancestors had resided in this community for generations. Mrs. Morley was twice married. Her first husband was John Cary, an Englishman who resided in Needham. Her second husband, George Morley, was also a resident of Needham, but later moved to Millis. After the death of her second husband, Mrs. Morley continued to reside in Millis, but in 1905, at the request of that town, Newton accepted her as a boarder in the City Home. She went back to Millis for a short period, but since 1907 has been at the home.

MORTGAGE MONEY

There is a distinct advantage in having home mortgages held by home institutions. More favorable treatment is natural when the applicant deals directly with the Bank and establishes intimate friendly relations than can be expected if he deals with those who are practically strangers.

Our service is friendly, courteous and efficient, and our terms on mortgage loans are reasonable.

ABOUT TOWN

By Edw. H. Powers

We are very fond of dogs; not the so called "hot" variety that cause indignation, but real live dogs. Notwithstanding that during our varied career we have been nipped three times by dogs, we still try to make friends with every canine we meet. But, although we like dogs, we believe there is a time and place for them. Out in the country where the spaces are wide and open, it is all right for dogs to be allowed to roam at will during the night hours; assuming of course, that the dogs are orderly canines, that guard the property of their owners, instead of preying on the chickens and other livestock of neighboring farmers. But, in thickly settled communities such as Newton, dogs should be restrained at night. In the neighborhood where we reside, about every family owns a dog. Some of these canines are restrained at night. Others are permitted to have a "free foot" (or four free paws) during the nocturnal hours. It is a regular occurrence during the late night hours, and during the wee morning hours, to have some dog in the neighborhood start to bark in fortissimo howls. Then several other dogs within hearing distance will commence to tell the first barker, "that he is not the only pup in the neighborhood." Which, of course, is extremely enjoyable to all those persons awakened by the din. Some of those awakened are impelled to give the offending dogs pedigrades, that if not detailed, are at least correct. From what we hear, our neighborhood is no different, in the matter of being bothered at night by barking dogs, than many neighborhoods throughout the city. So, if you own a dog, keep him restrained at night. It is bad enough to have one's sleep disturbed by the battle-cries and sonnets of felines, without having one's sleep shattered by the vocal efforts of canines.

Newton

—Mr. and Mrs. Walter Lovejoy (Evelyn Towle) are receiving congratulations on the birth of a son born July 6th.

—Mr. and Mrs. J. M. Gibson and family of Bennington street have returned from their camp at Stowe, Mass.

—Mr. Leo E. Davison and family of Playstead road moved this month to the Broughton house on Pembroke street.

—Mr. and Mrs. William Briggs of Miami, Florida, are the guests of Mrs. Briggs' sister, Mrs. Waldo Whitney of Copley street.

—Mrs. Frances Friend and son, Stuart Friend of Washington street, have returned from a two weeks' stay at Prudence Island, R. I.

—Mrs. Katherine McCarthy died on Thursday, July 7, at her late home, 38 Essex street. She was the widow of Patrick McCarthy, who formerly resided in Somerville. She is survived by six children. Her funeral was held on Monday morning from the Church of Our Lady, Burial was in Calvary Cemetery, Waltham.

—Hazel Beckwith and Alta Blakely of this village left July 9th on a tour covering New York City, the Hudson River, Alexandria Bay, the St. Lawrence River, Montreal, Ausable Chasm (on Lake Champlain), Lake George, and Albany. They will stop at the Windsor Hotel in Montreal for a short time.

NEWTON HOSPITAL

Fourteen babies were born at the hospital in the week ending July 9. Six of them were girls, eight of them boys. Forty one of the 105 patients in the hospital in the same week paid as much as the cost of their care, or more, 31 paid less than cost of care and 33, including babies, were free patients. The out patient department treated 140 patients, the eye clinic 4 and there were 13 accident cases. The social service department transferred seven patients in the social service car.

The tennis courts, for use by the pupil nurses and members of the staff, are in constant daily use and players are looking forward to the tennis tournament to be held in the fall to decide who the best players are.

Seven of the thirteen accident cases last week were the Fourth of July accidents reported last week. The other six included two golf accidents one a boy hit in the forehead by a golf ball and the other a boy hit in the head with a golf club. One case reported among the accident cases was that of a demented woman who attempted suicide by putting her head in the oven of a gas stove and turning on the gas. She was discovered in time to be hustled to the hospital and saved.

Last Friday a group of nurses from the hospital together with a group from the Massachusetts General Hospital had a picnic at Riverside. They enjoyed swimming, tennis and a picnic supper.

The Know More Kokki Klub held one of its meetings on Monday evening.

THE CHILDREN'S MUSEUM

There will be a talk at the Children's Museum of Boston, Jamaica Plain, on Sunday, July 17, at 3:30 o'clock, entitled, "Behind the Scenes at West Point," by Mrs. Inez Scott Harlow of the Museum Staff. The film depicts not only the military training the soldier receives, but also the sports activities required in their four years at the Academy.

An unusual collection of weapons has just been installed at the Children's Museum which includes guns, bows and arrows, javelins, and knives from many countries of the world, old rifles of the Civil War, as well as a helmet and gas mask used in the latest World War.

Story hours for the coming weeks are as follows:

Friday, July 15th—A Bird Heard but Seldom Seen.

Monday, July 18th—A Journey to Spider Land.

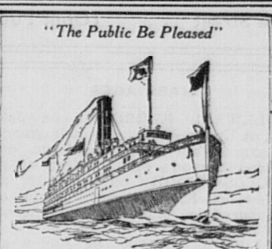

Wednesday, July 20th—Guessing Contest.

Friday, July 22nd—Adventures of a Red Squirrel.

PROMPT DELIVERY

Closed at Noon on Wednesdays During July and August

OUTING PLANS COMPLETE

The plans for the annual outing of the Newton Business men, which is expected to be the largest of its kind ever held by local merchants and which will take place at Pemberton Inn next Wednesday afternoon, have been completed. Not only will the Newton Business Associates, which is sponsoring the outing, be well represented by nearly all the merchants in Newton Corner, but West Newton, which has accepted the Newton Corner men's challenge to a baseball game, will send down a large delegation. In addition to these it is expected that many business men from other parts of the city, to whom the invitation has been extended to come and enjoy the afternoon, will be present.

The trip to Pemberton will be by automobile, starting from the corner of Centre and Richardson streets, Newton, at 12:30 where banners will be distributed to car owners which they will tie on the back of the car. The banners read "Newton Business Associates—Annual Outing." Harry Stevens, of the Washburn Stevens Company, is chairman of the transportation committee and anyone who desires a seat should get in touch with him. He also requests that anyone having room in their car for one or more persons let him know so that all intending to make the trip can be accommodated.

On arrival at the Inn dinner will be served. During and following the dinner an entertainment will be furnished. Harold Moore, chairman of the entertainment committee, will not divulge the nature of the entertainment but promises that it alone is worth the price of the tickets.

Edgar Burkhardt, chairman of the sports committee, has arranged an attractive program of sports which will begin with the baseball game between Newton Corner and West Newton as already mentioned. This will be followed by races, novelty events, nail-driving contest and tug-of-war. With a fine swimming pool at hand various races will also be held for the swimmers and divers. Many fine and valuable prizes have been donated by the various merchants and the committee, headed by George Campbell, deserves mention for the fine work it has done in this direction.

MR. MACOMBER BURIED

Funeral services for George B. H. Macomber of Newtonville, who died at his summer home at Seacomet, R. I., were held Friday afternoon at his residence, 171 Highland avenue. Rev. J. Edgar Park, D.D. of Norton, and Rev. Robert Underwood of the Second Church at West Newton officiated. Two selections were sung by Mrs. Bertha P. Dudley, "Softly Now the Light of Day" and "Jerusalem, the Golden." In attendance were delegations from the Royal Arch Chapter of Fall River and Dalhousie Lodge, A. F. & A. M., of Newtonville.

Honorary pallbearers were Luman W. Marsh, Willard B. Lither, Edward Palmer, John N. Eaton, H. H. Carter, Frank L. Adams, J. Everett Hicks, Frank H. Stewart, H. P. Bradford, Ralph Speere and Nathaniel P. Winchell. Active pallbearers were Charles E. Thrasher, Frank Fryer, William Eastman, David Sykes, Charles Kewer and William McClellan. Burial was in the family lot at Newton Cemetery. Mr. Macomber's will filed this week at Cambridge leaves an estate of about \$420,000 to his widow and children.

REAR ADMIRAL WADLEIGH

Rear Admiral George H. Wadleigh died on Monday at his late home in Lexington in his 85th year. He was for a number of years a resident of West Newton. He was born on September 28, 1842, in Dover, New Hampshire, and graduated from the Naval Academy in 1863. He saw service in the Civil War, and through successive promotions reached the rank of Rear Admiral in 1902. He was retired a few years later, and for the past 22 years has resided in Lexington. His wife, who was Miss Clara Robertson of San Francisco, died six years ago. He is survived by two daughters, Mrs. Severance Burrage of Denver, and Miss Clara Wadleigh, with whom he made his home. One son, George Wadleigh of Hastings on Hudson, survives. Another son, Colonel John Wadleigh of the United States Marine Corps, died in 1923.

GIRL SCOUTS

Red Cross Life Saving Classes

Instruction in Red Cross Life Saving methods is being given by Mr. B. F. Boughner, an expert examiner for the American Red Cross, to any Girl Scout, 12 years old or over, who is able to pass the Red Cross Swimmers test. These classes meet at Crystal Lake on Tuesdays, Thursdays and Saturdays from 10:30 to 11:30 a. m. and at the Auburndale pool on Mondays, Wednesdays and Fridays at the same time. This is a splendid opportunity for Girl Scouts to become Junior Life Savers and at the same time win their Swimmers merit badge. A good many girls have already availed themselves of this free instruction but Mr. Boughner will be glad to welcome any others that are interested provided his classes do not exceed twenty members.

Hike To Camp Mary Day, Saturday, July 23rd

Open to Girl Scouts living on the South Side of Newton, that is Newton Centre, Newton Highlands, Waban and Newton Upper Falls.

Take Boston-Worcester car on Boylston street leaving Newton Centre at about 8:40 a. m.; Newton Highlands at 8:45; Waban (Chestnut street) at 8:50.

Girl Scout officers will be on the car and will have charge of the hike. Each girl should bring with her a sweater or coat, her lunch, a bathing suit and towel, and a note from her parents if she wishes to go in swimming.

Bring 50 cents carfare.

The girls will return home at about six p. m.

A program of active and quiet games will be planned by the girls who are already in camp and we hope that ever so many hikers will be there to take part in them.

ABOUT TOWN

By Edw. H. Powers

Some years ago an effort was made by postal officials in Newton to correct the nuisance of many streets in this city bearing the same name as some other street within our municipal limits. A couple of such streets were renamed to end the duplication which causes much confusion, but many new streets which have been developed within the past few years have been given names already borne by accepted streets in this city. An ordinance should be passed forbidding the acceptance of any street which has been given a name duplicating that of another street in Newton.

The Boston papers last week told of the alarming shortage in the Metropolitan water supply. The storage basin at Clinton has become so low, that work is being rushed to obtain water from reserve supplies at Hopkinton, Woodville and Ashland. The water from the basins and ponds in these places will not be chlorinated, as it is adjudged sufficiently pure to be used in its natural state. It is a safe bet that when the water from the reserve basins is added to the Metropolitan supply, those using it will not imagine they are drinking spring water; and it is doubtful if the folks who were so anxious last year to have this city discontinue its own water supply and use the Metropolitan, will renew their demands.

LOST SAVINGS BANK BOOKS

Savings Banks Books as listed below are lost and application has been made for payments of the accounts in accordance with Sec. 40, Chap. 590 of the Acts of 1903 and amendments.
Newton Savings Bank Pass Book No. 64236.

MORTGAGEE'S SALE OF REAL ESTATE

By virtue and in execution of a power of sale contained in a certain mortgage deed given by Sara G. Moskow to Boston Penny Savings Bank dated December 18, 1924, and recorded in the Registry of Deeds for the County of Middlesex (South District) book 4739, page 337, for breach of the conditions of said mortgage and for the purpose of foreclosing the same will be sold at public auction, on the premises, on Tuesday the ninth day of August 1927, at two o'clock, in the afternoon, all and singular the premises conveyed by said mortgage deed, and therein described as follows: "A certain parcel of land with the buildings thereon situate on the east side of Algonquin Road, Newton being Lot 6 on "Plan of land in Newton dated May 28, 1924, by H. L. Maltzman" recorded Middlesex South District Deeds, Plan Book 337, Plan 14, and bounded and described as follows:

Westerly by Algonquin Road, fifty (50) feet;
Southerly by Lot five, as shown on said plan, one hundred forty-three and 10/100 (143.70) feet;
Easterly by land now or late of Stern, sixty and 60/100 (60.60) feet;
Northerly by Lot seven as shown on said plan one hundred fifty-eight and 60/100 (158.60) feet.

Together with the benefit of and subject to a right over a passageway ten (10) feet wide, the middle line of which coincides with the boundary line between Lots numbered six and seven, as shown on said plan, for a distance of one hundred (100) feet from the present street line of Algonquin Road, which passageway shall remain forever open as a passageway and driveway for foot passengers and automobiles in favor of said Lots six and seven.

Being a portion of the premises conveyed to me by deed of Thomas M. Smith, dated June 6, 1924, recorded Middlesex, South District Deeds, Book 4737, Page 10." Subject to all unpaid taxes, tax liens and other municipal assessments, if any, \$2000. will be required to be paid in cash by the purchaser at the time and place of sale. Other terms will be announced at the sale.

SUCCESSFUL OUTING

Newton Business Associates Hold a Field Day at Pemberton on Wednesday

The annual outing of the Newton Business Associates was held at Pemberton on Wednesday. A procession of thirty automobiles formed on Centre street, and at 1 o'clock, headed by motorcycle officers moved over Church and Washington streets, through Nantuxum square, and then along Centre street and Commonwealth avenue to the Brookline line. Eric Lagerblad of the Newton Garage in a snappy Studebaker touring car was in the lead, but during the first stages of the parade his position was usurped by rival automobile dealers who indulged in some good natured jockeying, but who later courteously withdrew.

A rapid trip was made along the South Shore to Pemberton where dinner was served at Pemberton Inn to 135, including not only members of the Associates who do business in Newton Corner, but many merchants from West Newton and other sections of the city. Among those present were Mayor Childs, Representative Arthur Hollis, and Aldermen Hawkins, Hodgdon, Noone and Weeks. While the dinner was being served, the gathering was entertained by Eddie King and Joe Antonelli in vocal selections. After the meal there were no speeches, and the "outings" went to the athletic field where a ball game was started between teams representing Newton and West Newton, and a program of sports was conducted under the direction of Edgar Burkhardt.

The first event in the athletic contests was a 50 yard dash which was run in three heats and a final. Dwight Colburn's long legs landed him a winner in the first heat, with Warren Brimblecom, another lengthy individual, taking second. The next heat was won by Buckley, with Bowman second. The third heat was taken by Doc Rae, with Clary as runner-up. The final

heat was won by Colburn, Brimblecom, 2nd; Buckley, 3rd.

The 220-yard dash was another victory for Colburn; Donovan of the Newton "Chrysler" staff was second; Nivling of the Newton "Nash" outfit, was third. The 300 yard run was another hard fought contest between the two fleet representatives of the local automobile industry. Nivling had the most stamina, and pulled away at the finish, but Donovan ran gamely to capture second place, collapsing just after he crossed the line. Doc Rae was third. The fat men's race had many contestants. Tom Lyons, alleging that his age entitled him to a 10 yard handicap in a 60 yard race, came back to scratch after protests from the other stout men, and then led the field till near the finish, when he faded. This race was won by Charles Johnston, who was eligible to enter, not because he is fat, but because he weighs over 200 pounds. Hodgdon was second, Fried third.

The shoe race was hotly contested. Those who could not recognize their own footwear, scattered that belonging to others all over the lot. Al Walker was the first to find his shoe, and tie it on. Paul Thomas was second, and Eddie Leavitt third. Mason and Davidson of Moore & Moore's force, proved to be the most expert tossers in the quilt pitching contest. The nail-driving contest was one of the most entertaining features of the day. Many teams of three men endeavored to display their skill. After many preliminary heats, the final was won by the crew composed of Ed Leavitt, Jeff McGrath and Russell Airth. Bert Stuart was accurate in his driving, but his strokes were more adapted to ten inch spikes than ten-penny nails. Syd Chant alleged that he and his fellow nail drivers, George Johnson, and Wilfred Chagnon, had been deprived of a win by poor judging, but his protest was not allowed. To prove their superiority, Syd and his mates challenged the winners, and lost.

The three-legged race was won by Frank Wing and Leo Hughes of Fitzgerald & Wing. Vuillemeier and Harington came in second; Rosenthal and Jenkins were third. Chant and McGrath started fast, but could not synchronize properly. The potato race was won by Henry Loughlin of the Newton police. Edgar Burkhardt was second; Chant came in third. The tag-of-war contests were fiercely fought. Three teams tested their brawn, and the winning combination included Hughes, Walker, Hopkins, Buckley, Thomas and McGrath. Blue suits seemed to be a "hoodoo" in this struggle. The anchor men of the two losing teams each wore a blue suit, and these luckless individuals, Louis Rosenberg and Bill Parker were

PLUMMER MEMORIAL LIBRARY

Interesting Exercises on Tuesday at the Laying of the Corner Stone of a New Branch Library at Auburndale

The cornerstone of the new Plummer Memorial Library at Auburndale was laid Tuesday afternoon before a gathering of several hundreds of residents of that village. The exercises were opened at five o'clock by J. Parker B. Fiske, chairman of the committee which has been working to make the library a reality. He told of the assistance received from the children of Auburndale, 600 of whom had contributed towards the fund for the building of the library, and who had donated the fireplace and chimney on the Ash street side. The Boy Scouts, Girl Scouts, and other children's organizations had all given in the work. Continuing, Mr. Fiske told of the efforts made to build a library at Auburndale; the difficulties which had to be overcome, and the obstacles removed. He paid tribute to the generosity of the Plummer family, without whose aid the project could not have been accomplished. This family donated the land and gave \$10,000 to the fund. Mr. Fiske praised the citizens of Auburndale for their co-operation; \$27,000 was raised in the first drive. In 1922 the Auburndale Women's Club took the initiative in starting the movement for a library; in 1925 the first pledge, \$400 was received from the Review Club, and shortly afterwards the Women's Club donated a check for a like amount. Following these initiative contributions and pledges, the people of Auburndale all did their share, and the sum of \$47,000 was given and pledged. Because of the generosity of the Plummer family, it was voted that the library should bear that name.

Mr. Fiske presented Mayor Edwin O. Childs, who gave the thanks of the city to all who had assisted in making the library possible. The Mayor congratulated the people of Auburndale for putting over the library project and said it gave evidence of the fine civic spirit existing. The building would serve as a memorial to all who had contributed and would be both useful and artistic. He told the children present that they should observe closely the construction of the building, and take the work as a lesson for the conduct of their own lives. Like the building, they must have a plan on which to build their careers, and a

good foundation is necessary to assure success. Care must be taken also, of the kind of materials used. He urged the little ones to endeavor to learn what is God's plan regarding each one's life, and having learned this, to build a good foundation, and then construct their careers so that they will become assets to the community.

Mayor Childs told of the good accomplished by libraries. They furnish healthful recreation for the leisure moments of those who have access to them. They are a refuge to those who have moments of loneliness. "No one is alone," said the Mayor, "who is accompanied by noble thoughts."

Judge Thomas Weston spoke of the growing popularity of branch libraries in this city. He eulogized the people of Auburndale, Newton Centre and West Newton for their zeal and public spirit in donating to such libraries, and stated that their example is moving the residents of the other villages to emulate them. The new library buildings, according to Mr. Weston, who is a library trustee, are much on which to build their careers, and a

(Continued on Page 4)

ON THE OLD FRONTIER

The National Editorial Association Visits the Wild and Woolly West of 50 Years Ago

In my early school days the geographies of that day represented the land west of the Mississippi and Missouri rivers as the Great American Desert. Fifty years ago, gold was discovered in the Black Hills and the stories of the wild and woolly west which seeped through to New England served to confirm the opinion that there was no civilization of any account in the vast domain of the Louisiana Purchase.

Of course the subsequent years have somewhat dissipated that idea but there is still a sub-conscious start in the minds of most Easterners that most of the mid-west is still "raw and uncivilized."

Having something of this opinion in the back of my head, it took the allurements of a renewal of many old friendships to make me decide to attend the 42nd annual convention of the National Editorial Association, held this year at Omaha, Nebraska, and to be followed by an educational trip of ten days through the state of Nebraska and a visit to the "Black Hills of South Dakota, which have been so well advertised the past few weeks as the summer home of President Coolidge.

I must confess, however, that the idea of meeting in that part of the country in the middle of June did not appeal to me from the standpoint of physical comfort and that was somewhat intensified by the remark of a friend who had just returned from that city and who informed me that it was a "drab town."

I was therefore surprised and consequently delighted to find Omaha a city with splendid stores, wide streets, fine residential sections, thirty parks and numerous golf courses.

Omaha is a city of over 200,000 population of which 76 percent is native born white. It is approximately 1000 feet altitude and has a rain fall of about 30 inches a year.

Omaha is the second city in the country in the packing industry being outclassed only by Chicago, and we were told that the Union Stock yards in South Omaha did a business of a million dollars a day.

The Association held business sessions on the morning and afternoon of three days, the evenings being in charge of the Omaha Entertainment committee, a committee which certainly lived up to its name.

On Monday afternoon there were two notable addresses on the program, one by Dr. Francis G. Blair, president of the other N. E. A., the National Education Association. The other remarkable address was by Ed Howe, better known as the "Sage of Potato Hill" and one of the best known editors in the country. Mr. Howe's philosophy of life was continued in one of his epigrams, "Work hard, behave yourself, eat less."

Another novel feature of the program was the following poem entitled "A Western Welcome," and read by A. L. Bixby (Poet-Philosopher of the Lincoln State Journal):

Sound, vibrant harp! It were no less than bliss
To twang on an occasion such as this.
When in Nebraska's proudest city wait
The brains and beauty of the Fourth Estate.
This is Nebraska's honor—she is host
To the entire United States, almost.
She stands before you, clad in summer charms,
To welcome and receive you in her arms.
Queen of the west, in answer to your call,
Her pride to be a sister to you all.
An hundred years ago these virgin lands
Were unsurveyed where Omaha now stands;
And just begun the emigration trains
That traveled westward clear across the plains.
And on and on to San Francisco Bay,
Save those who drooped and died beside the way.
To you who from the eastern seaboard come,
I dare announce we have been "going some."
Out in the west, where roamed the buffalo
The grammar grasses now no longer grow.
To wheat and rye the soil its virtues give
That writers in the east may eat and live;
While in those sections from the west apart
You hear the corn grow when it gets a start.
But I must lay my pride upon the shelf,
And let Nebraska say it for herself.
She's at her best about this time of year,
And dares to speak to those who care to hear;
And those with normal hearing will concur
In what she says, and what I say of her.
Where in her course the great Missouri sings
Her endless song, is where the west begins.
What lies beyond the man of wisdom seeks
Between the river and the mountain peaks.

NEWTON SPORTS

WITHDRAWS FROM LEAGUE

It was announced recently that the Newton Catholic Club had withdrawn its team from the Newton Twilight League. According to reports the management of the team objected to the new rule which was recently passed by a majority of the managers prohibiting the transfer of men from one team to another during the same season. Many of the teams in the league had sought to obtain players on other teams at the end of the first half in order to strengthen themselves for the second half race. At the recent meeting the managers voted 8 to 1 that no team should use a player on the list of any other team during the first half, with the single exception that if a player was used but rarely he could request a transfer to another team. The managers of all teams in the league would then be notified two weeks in advance of a meeting to be held at which the majority vote as to whether or not the player should be allowed to transfer would prevail.

The league officials are still endeavoring to persuade the members of the Catholic Club team to change their decision and remain in the league. It is the intention of the city authorities to have the managers of each team make their own rules and govern themselves as closely as possible and it is expected that each team should willingly abide by the majority. In the event that the seeding team does not reverse its decision the games already played by them in the second half will be thrown out of the league standing and the games already scheduled will be called off and the schedule revised for the eight remaining teams.

OWEN TAKES UP TENNIS

George Owen, Jr., made his first appearance in a tennis tourney this week, when paired with Karl Pfaffmann, former Harvard star, he entered the doubles event at the Longwood grounds. Owen played a good game throughout and did not lose a service in the first match. The pair carried Doeg and Bancroft of California and a seeded pair three sets before a winner was decided.

Kenney Wins 10th Game

George Kenney pitched the Upper Falls team to a 2 to 1 win over the Beacon Cab Company team Sunday afternoon at the Upper Falls playground in chalking up his 10th victory of the season. Upper Falls counted twice in the second inning and Kenney, while holding the visitors to six safeties kept the plate from being crossed until the ninth when the Cab company scored its only tally on Murphy's home run. John Simpson led the winners at bat with two singles while DeGeorge and Moore each got a two-bagger, and Goodwin and Billy Proctor each a single.

Several Local Players At Longwood
Among the many entries in the tennis tourneys at Longwood this week were the names of several local players. In the first round, Henry L. Johnson, Jr., beat N. Drake of Boston 6-0, 6-1, while Charles Parker of the Newton high tennis team was eliminated by G. A. D'Arcy of Worcester, 6-1, 6-3, and Robert C. Bray of Newton was eliminated by Charles Devens of Boston, 6-1, 6-1. Abbott Gottschall of Newton advanced to the second round when his opponent defaulted. D. M. Martin was put out by Alden Briggs of Brookline, 6-2, 6-1; George C. Scott was put out by C. A. Smith, 6-0, 6-3. In the second round Robert S. Turner, a cousin of Johnson, and Hill, young Waban stars, was put out by R. D. Mason of Oklahoma City, 6-3, 6-1, on Monday.

In Tuesday's matches Johnson advanced to the third round by defeating James Quinn of Dallas, Texas, 9-7, 6-4, only to be put out by Arnold W. Jones of Providence, 6-3, 6-3. Gottschall, the only other surviving local player to reach the second round was eliminated by David S. Niles of Brookline, 6-2, 6-1.

None of the local players who entered the doubles tourney won their first matches except Johnson who was paired with J. Brooks Fennell. They beat Martin and Floyd 6-0, 6-1. Bray, paired with G. Pattison and Turner paired with J. Dow were eliminated. Don Martin and his partner drew a bye in the first round and were put out in the second by Holman and Ogdan. George Owen, Jr., playing his first tournament match paired with Karl Pfaffmann, former Harvard star, also drew a bye and forced their opponents in the second round to three sets before being defeated, 4-6, 6-1, 9-7.

Johnson and Fennell beat Sloan and Estep in the second round, 6-1, 6-1 and then gave White and Thalheimer, Texas favorites to win the title, a scare. The Texans finally won out 6-1, 5-7, 6-3.

NEWTON BOY BUILDS SPEED BOAT

Richard C. Marcy, 16-year-old son of Mr. and Mrs. Grosvenor D. Marcy of Newton Highlands, has constructed a sea-plane boat capable of traveling at more than 30-miles an hour. The craft, which was built and equipped in the cellar of his home, was taken to Webster Lake at Franklin, N. H., on the top of his father's automobile. It is 14-feet long, of cedar boards a quarter of an inch thick and weighs 100 pounds. It has an aluminum keel that drops down from the centreboard and will carry three persons. The power is furnished by a twin-cylinder Evinrude motor and the boat has a racing propeller. Its beam is three and a half feet. Young Marcy has always taken to woodworking, once having built a small steamboat. His first mate is Edward Schirmer of Newton Centre, whose parents have a summer home near the Marcy's. Marcy has been a student at the Country Day school and is planning to enter Phillips Andover academy in the fall.

ROTARY CLUB

John B. Hebbard, principal of the DeWitt Clinton School for Boys was the guest and speaker at the weekly meeting of the Rotary Club on Monday at the Woodland Golf Club. "The Youth of Today" was the subject of a very interesting talk by Mr. Hebbard. He informed his listeners that in his opinion the youth of today is far superior to the youth of the past because of being born under more favorable circumstances and having far better facilities for obtaining an education. The speaker also put it right up to the fathers if their boys were in the wrong way and stated that it was a common failing for the father to place the responsibility upon the mother. He emphatically urged that the fathers of today should make more of a "pal" of their daughters as well as their sons and to get their confidence so that they will discuss their problems and troubles with the parents.

Mr. Hebbard told of one incident which affected a youth's point of view and feeling for his father materially. This young man was about to graduate from a certain college and he wired his father to come on to the exercises. The father wired back that he could not come as he was too busy. Shortly afterwards the father was killed in an accident and the refusal of his father to grant his son's request affected the boy's life.

Next Wednesday afternoon there will be a joint outing of the Rotary and Kiwanis Club members with their wives at Camp Frank A. Day, the Y. M. C. A. camp at East Brookfield. Frank J. Perry is chairman of the committee in charge. Present plans call for the departure of the party by automobile at 12:30 p. m. from the Longwood grounds at the entrance to Norumbega Park. Upon arrival at the camp a program of water sports is planned. If the weather permits a beefsteak supper under the pines on the camp grounds will be served.

CLOSES WITH BEETHOVEN FESTIVAL

The American Institute of Normal Methods, a summer school for supervisors of music, at Lasell Seminary, Auburndale, will close its Eastern Session with two programs, one on Monday evening, July 25th, and one on Tuesday evening, the 26th, both in the auditorium of the Auburndale Club, Melrose street, Auburndale.

On Monday evening the graduates of the class of 1927 will conduct a choral and orchestral program for which they have been trained by Francis Findlay, Head of the Public School Music Department of the New England Conservatory of Music. Mr. Frederick W. Converse's "Answer of the Stars" will close the program, with Mr. Thomas N. Britton, tenor, of Phillipsburg, New Jersey, as soloist.

On Tuesday evening the chorus of the entire school, numbering over two hundred voices, will be directed by Mr. Findlay in the Second Oratorio Festival, this year commemorating the life and works of Beethoven. The soloists will be Mr. Frank Jetter, tenor, of Amsterdam, New York; Mrs. Dana Kendall of Auburndale, Massachusetts; Mrs. Dorothy George, of Rockland, Maine; and Mr. W. B. Sutherland, of Brockton, Massachusetts.

The address to the graduating class will be made by Dr. John P. Marshall, Professor of Music at Boston University, on Beethoven's life and works, and the presentation of diplomas by Mr. Osbourne McConathy, formerly Director of the Department of Public School Music, Northwestern University. The thirty-seventh annual Commencement program will close with the singing of Mr. Chadwick's "Land of Our Hearts."

The public is cordially invited to attend these programs which provide the only summer music of this character in greater Boston.

Newton Centre

—Mr. Allison G. Catheron has resigned as a member of the Massachusetts Commission on Probation.

—Mr. and Mrs. Sam T. Emery of Marshall street are at the New Fountain Inn, Marblehead, for the month of July.

—Mr. and Mrs. Sidney R. Porter and Miss Evelyn Porter are with the Appalachian Club on a camping trip at Mt. Desert Island, Me.

—Mr. and Mrs. W. O. Weeden have arrived in Newton having driven in their car from San Diego, California. Mr. Weeden is a brother of Dr. C. F. Weeden of Glen avenue and has just attended the fiftieth reunion of his class at Amherst College. Mrs. W. O. Weeden is a daughter of Thomas Donne the famous civil engineer.

—Through the office of Henry W. Savage, Inc., Arthur H. Pray takes title to property numbered 107 Hobart road in Chestnut Hill. There is a large frame house of eight rooms, garage, together with 8541 sq. ft. of land, having a tax value of \$12,700. Mr. Pray bought for a home. D. Bradlee Rich & Co. represented the seller, Arthur Dolan, Commissioner.

Wind-driven rain can't get through

Even in the worst gales, winter or summer, Barrett Self-Spacing Giant Shingles remain snug and tight. They dovetail. Wind and rain can't force their way in under these shingles and through the roof.

You'll like these Barrett Giants. They'll give you a good roof—easy and inexpensive to lay, durable and good-looking.

Drop in and look over our samples! Our roofing experience is at your disposal—without obligation.

Despite the fact that no intensive campaign for funds has been conducted for some weeks the contributions continue to arrive at the office, 251 Washington street. These gifts are of course most welcome and a source of particular encouragement to those closely concerned with the financial affairs of the organization.

While the \$767 needed for the maintenance this year has not yet been reached \$5901.73 has been subscribed to date. This amount is divided as follows:

Newton Corner \$4418.10

West Newton 298.00

Newtonville 123.00

Newton Highlands 123.00

Newton Upper Falls 28.90

Auburndale 5.00

Watertown 5.00

Newton Centre 790.12

Waban 106.50

Total \$5901.72

The list of subscribers is 590.

The close of the active club year shows that since October, 1926, the following work has been done:

293 girls enrolled in clubs and classes; 400 classes and club meetings directed; 225 applicants for rooms, camps, instruction, employment or general information answered; 1220 persons entertained at special meetings. In other words, the total attendance at the rooms from October, 1926, to June, 1927, has been 5945.

Not only is it the aim of the Association to increase this budget by a series of entertainments in the fall, but it plans to increase its work.

Arrangements have already been made for an extension class to be started in Newton Upper Falls in October. It is expected this will meet in the Baptist Church and Miss Ethel W. Sabin is organizing the group in that village while Miss Elsie E. Bennett, Physical Director and Girl Reserve Secretary, will direct the group.

RESCUE AT NORUMBEGA

Thaddeus Allen of 58 Glendale avenue, Allston, made a brave rescue of a youth on the Charles River near Norumbega on Sunday night about 9. Hearing cries for assistance, Allen paddled his canoe in the darkness, and found two youths struggling in the water. One of the boys could swim some, but the second was drowning, and Allen was obliged to dive to get him. He had a hard swim with his unconscious burden through the eel grass to the shore, but managed to make it after a struggle. Following their usual custom, the Metropolitan Police did not divulge the names of the youths who were in the capsized canoe.

THE CHILDREN'S MUSEUM

Illustrated talks will be given at 3 o'clock at the Children's Museum of Boston in Jamaica Plain as follows:
Monday, July 25th—Our Legless Friends—Snakes.
Wednesday, July 27th—Irish Folk Tales.

Friday, July 29th—The Monarch and its Relatives.

The fifth field trip of the season of The Exchange Bureau Members will be to Hammonds Pond, Brookline. The group will leave the Museum at 9:15, under the direction of Miss Hilda Karas, field naturalist, and will study especially deciduous trees of this region.

NEWTON HOSPITAL

Thirty-eight patients, or just under one-third of the 116 patients who were in the hospital for the week ending July 16, paid as much as the cost of their care or more, of the others 44 paid less than cost of care and 34, including babies, were free patients. The out patient department treated 133 patients and there were 12 accident cases. Sixteen babies were born during the week. The social service department made 11 calls at homes and transferred 5 patients in its car.

The heat and humidity were responsible for one of the accident cases last week as one man was brought to the hospital for treatment for heat prostration. Two other accident cases were boys with head wounds caused by being hit with golf balls.

Many of the student nurses are among those who enjoy the swimming at Crystal Lake in Newton Center.

The hospital has had as a present a new gawthmey apparatus which is used in giving anaesthetics and which will be of assistance to patients, doctors and members of the operating room staff. The hospital has received also a gift of \$100 for the new hospital to be applied to the Nurses' Alumnae fund.

The student nurses at the hospital are preparing for a lawn tennis tournament with the nurses of the Massachusetts General Hospital to be held in the fall. A friend of the hospital who has always supplied the students with a set of season tickets for the great tennis tournaments at Longwood has arranged that they shall have a set for this year's tournament.

**HARMONICA BANDS AT PLAY-
GROUNDS**

Through the interest and the financial assistance of members of the Kiwanis Club it has been made possible for the Playground Department to inaugurate special instruction in harmonica playing this summer. Already about 400 boys and girls are receiving instruction in harmonica playing twice a week. The Upper Falls children have been supplied with harmonicas through money available from the interest of the Twombly House Fund. Here those who excel in harmonica playing will be given a specially fine harmonica at the end of the season.

The Playground Department has been very fortunate in securing the Massachusetts Champion Harmonica Player. He is well known throughout Massachusetts since he won the Boston Traveler New England harmonica contest. Mr. John Parry whose home is in Dedham, Massachusetts, is in charge of this work. He is not only a champion player himself, but on account of his temperament and his talents, appeals to the youngsters. Here and there throughout the Newtons there are some boys and also girls who have been playing the harmonica for some time. These youngsters have also joined with the others in the lessons. Pretty soon bands will be formed on all the playgrounds and later, one All-Newton band.

Although one of the objects of this instruction is to give our youngsters something which will be useful in

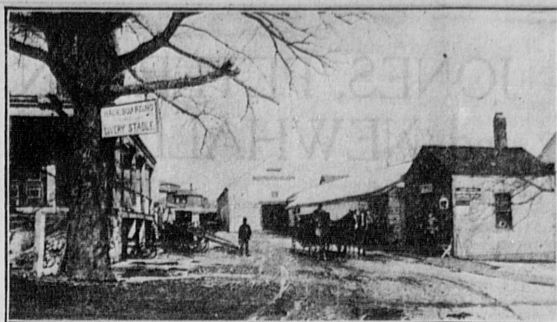

their leisure time, we recognize the importance of starting children in some instrumental music. It has happened that from 10 to 25% of those who learn to play the harmonica took up the study of other instrumental music.

Another valuable result which we hope to attain through this instruction is the development of civic spirit. We hope that the boys and girls who learn to play the harmonica will play hope to attain through this instruction the girls' folk dances and for their clogging and esthetic dancing.

OBSERVE SILVER WEDDING

Mr. and Mrs. Patrick Kenney observed the 25th anniversary of their wedding at their home, 14 Churchill street, Watertown, on Saturday evening. The couple were formerly residents of Newton, and have many relatives and friends in this city. Among the many guests present were Commander Brent Lowe of Watertown Post, American Legion; Mr. and Mrs. James Hammill of Newtonville; Mr. and Mrs. Rodendicher of Watertown, and many friends from Newton, Natick, Cambridge, Watertown and Belmont. The couple received many gifts of silver, including a purse of \$50 from Mr. and Mrs. Campbell of Walpole.

Mr. Kenney was born in a very picturesque spot by the Lakes of Killarney, and has resided in this vicinity for about 40 years. He is a veteran of the Spanish War, and also served during the late World War.

NEWTON OF YESTERDAY

The accompanying picture shows Daniels' Stable about the year 1887. At Newton Corner in those days were three livery and boarding stables. One was conducted by the late George W. Bush, and was located on Elmwood street; another was owned by Samuel Whitman, and was located on Centre street, where the present Whitman Building now is; Daniels' Stable was on Washington street, just east of the Nonantum Block. Its old site is now occupied in part by the Charlton Block. Prior to the acquisition of the stable by Mr. Daniels, it had been conducted by other owners in conjunction with the old Nonantum House, which in its day was a noted hostelry, largely patronized by farmers and drovers from up country, as they travelled to and from the cattle market at Brighton. The old stable was conducted by Mr. Daniels until the early 90s, when the property was acquired by R. C. Taylor of Worcester, who purchased most of the business sites around Nonantum Square. Then Mr. Daniels removed his business to the old Daniels estate at 189 Washington street.

This picture was taken in the Winter, as can be seen by the booby sleigh standing in the driveway. Old residents of Newton will recall the team of white faced horses attached to the booby, and their driver, Henry Harris. For many years Henry drove the depot hack for the Daniels Stable, transferring to the sleigh when snow covered the ground. Harris was a character. He was as full of good nature as a boy, and he could, and did, on occasion, use language that would make a second-rate turn green with envy. The man standing next to the office was F. G. L. Henderson, then bookkeeper for Mr. Daniels, and later for a long time superintendent of the Newton & Waltham Street Railway.

For sometime he has been purchasing agent for the Middlesex & Boston Street Railway. The man standing in the centre of the driveway was Jack Loud, familiarly known as "Texas Jack." He had, for many years, worked on the big ranches in Texas, and what "Jack" did not know about horses, was not worth knowing. "Texas Jack" was a live wire, as might be expected from the training he had received in the wild and woolly regions of Texas in the 70s. He could strum a banjo expertly, and one night when he and another talented person, who played the accordion with unusual skill, were giving a performance in the office of the old stable, Henry Daniels was so enthused with the concert, that he telephoned his home, had his children awakened, and brought to the house phone to "listen in" to the music. This was one of the first "broadcasts" in Greater Boston.

Another employee of Mr. Daniels, not appearing in the picture, was Louis Winkfield, who worked on the stable staff for about 40 years. Winkfield was a jolly colored man, born a slave in Culpeper County, Virginia. Hew as a grown young man when the Civil War started, and he drifted North to Newton following the emancipation of the slaves. In addition to performing the onerous duties as carriage washer at the stable, Winkfield also drove the coupe and victorias which Mr. Daniels rented to his regular customers who hired these vehicles to take pleasure rides. Louis was a careful driver, and for many moons handled the ribbons over an attractive pair of grays. He was a man of unusually powerful physique, and even after passing the age of 60, he quickly overcame more than one pugnacious young man who attempted to

assault him. For many years he made his home on Pleasant street, Watertown, and now works in Boston, quite active for a man of his age.

The sign attached to the big tree at the left of the picture, announces that the establishment was a Hack, Boarding and Livery Stable. Such stables were the predecessors of the modern public garage. They maintained hacks at the railroad stations, furnished hacks for funerals, weddings and other occasions, boarded and cared for horses owned by private individuals, and rented horses and vehicles to swains who took their sweethearts for "buggy rides."

Henry C. Daniels died several years ago. His widow, Mrs. Ada Daniels resides at 197 Washington street, as do his sons, George H., and Harold C. George Daniels was formerly commander of Company C of the 5th Regiment, M. V. M. He served at the Mexican border and during the World War. Harold Daniels, as a very small boy became inoculated with the desire to become a soldier. He went at every opportunity to the Watertown Arsenal, and became chummy with the young son of the then Commandant there. The two youngsters organized a company of boy cadets, and were trained in military drill by some of the veteran non-coms stationed at the Arsenal. When Harold grew to young manhood he was appointed an officer in the United States Marine Corps, and saw much active service in the Philippines. He also fought in China during the Boxer uprising. He became physically disabled while on duty in the Philippines and was placed on the retired list. During the World War he was recalled for special service and advanced to the rank of Major.

Two daughters of Mrs. Daniels, are well known educators. Miss Dora Daniels, one of the pioneers in the field of teaching domestic science, is Supervisor of Domestic Science in the schools of Hartford, Connecticut. Miss Amy Daniels, Ph.D., is on the faculty of the University of Iowa.

The old homestead at 189 Washington street, was formerly owned by George Daniels, an uncle of Henry C. George Daniels was a real "he man" who would tolerate no imposition on his rights. Before the advent of the Boston & Worcester Railroad in the early 50s of the last century, his farm extended back from Washington street to the Charles River. When the railroad was built through George Daniels farm, it caused him much trouble. Among other inconveniences, he had some of his cattle killed by the trains. He asked the railroad officials to properly fence off the tracks so that his live stock would be protected. They paid no attention to his reasonable requests. He took a very decisive way of bringing the railroad company to terms. Piling a number of large stones on a drag, he had his horses haul the drag onto the tracks, and then left it there. Trains in those days travelled quite slowly, so there was little danger of a wreck occurring as the light train could be stopped before it struck the obstruction. The train stopped, of necessity, when it came to the load of stones, and its crew had the task of unloading the drag, before the journey to Worcester could be resumed. Naturally NEWTON LEFTOVER—TWO Jy15 ally the railroad employees and officials were wrathful with Mr. Daniels. They were even more wrathful when he again obstructed the passage of other trains. But, they constructed a fence along their right of way where it passed through his farm.

Business Guide Posts

Where are your customers? What would it cost to do business with them by telephone?

You know the answer to the first question. We can give you the answer to the second.

We shall be glad to quote telephone toll rates to any point. To give you some idea of the possible economy from transacting business by telephone we quote rates for a three-minute station-to-station call* to the following typical points:

FROM NEWTON DAY RATES

Augusta\$1.05	Holyoke\$.60	Pittsfield, Mass.\$.80
Barnston1.40	Keene50	Portland75
Burlington, Vt.1.20	Lawrence25	Providence35
Concord, N. H.50	Lewiston90	Rutland, Vt.90
Fall River40	Lowell25	Springfield, Mass.60
Fitchburg35	Manchester, N. H.40	Waterville1.15
Gardner40	New York1.10	Woonsocket30
Haverhill30	Pawtucket35	Worcester30

*A station-to-station call is a call for a distant telephone by its number—not for a particular person. If you don't know the number, ask your local information operator for it.

EDITORIAL

If the Boston papers would cut out the stuff they are now printing about the alleged hunger strike of Sacco and Vanzetti it might alleviate the situation somewhat. The less publicity these men get the better the community will like it.

We wonder how many of the persons who pay fabulous prices to see the Sharkey-Dempsey prize fight made any contribution to the Mississippi flood fund.

If a skunk can hold up traffic on some of our congested highways why not teach a few to act as assistants to our overburdened traffic officers.

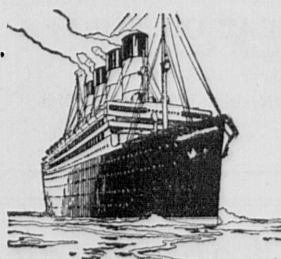

PLUMMER MEMORIAL LIBRARY
(Continued from Page 1)

better patronized than the inadequate quarters they replaced.

The corner stone was laid by Frederick Plummer, the largest contributor to the fund. He spoke in behalf of his family and explained its motives in giving to this movement. The trowel which Mr. Plummer used was given by J. H. Hennessey. In the cavity in the stone the following articles were placed: a book entitled "Early Days in Auburndale" compiled by the Education Committee of the Auburndale Woman's Club in 1917; an article of the first library movement in 1899 by C. S. Ober; an extract from The Newton Progress of April 15, 1925, regarding the first mass meeting; a list of the donors of the first drive of funds in 1925; a postal card notice of the second mass meeting, April 25, 1927; a booklet on the final proposition entitled "Our Library"; a letter by J. Parker B. Fiske to Harold Dougherty regarding the drive and its success; a list of donors to the second drive; photostat copies of the proposed building on the original land and similar photostats showing the building on the plot after the purchase of the Blaisdell property; photostat copies of architects' plans and elevations of the building; a list of the incorporators, present officers and committees; and extracts from the following newspapers regarding the second mass meeting held at Auburndale Club House, Monday, April 25, 1927: The Boston Herald, Boston Transcript, Boston Globe, Newton Journal, Newton Progress, Newton Graphic, and Waltham News-Tribune; a list of the ten teams soliciting funds in the second drive; extracts from the following newspapers regarding the letting of the contract to Messrs. Somers and Drisk; The Newton Progress, Thursday, July 7, 1927, and the Boston Herald, Saturday, June 25, 1927; pictures of the old fish market standing on the present site of the library; the Newton Free Library bulletin of June, 1927, showing pictures of the proposed library; photographs of the Plummer family; postcard pictures and photographs of scenes around Auburndale; a Lindbergh air-mail stamp; the annual report of the Board of Trustees of the Newton Free Library for the year 1923; a letter of greetings "to whoever may open this box" from Somers and Drisk; and a letter from the architects, Smith and Walker, descriptive of the architectural progress.

Cohens Lead Smiths

The Cohens are ahead of the Smiths in the city directory of New York. The book contains 1,981 pages and weighs 11 pounds, 4 ounces. There are nearly 6,500 Cohens and Smiths and approximately 5,800 Smiths and Cohens. There are 223 Abraham Cohens.

ON THE OLD FRONTIER

(Continued from page 1)

But vain a poet's efforts to rehearse
The tints and shades of Paradise in verse;
Nor is it my dread purpose at this time
To give Nebraska's history in rhyme;
To skip the worst, and magnify the best,
And weary you with words who long for rest.
Let it suffice that this is nothing worse
Than "make your selves at home" reduced to verse—
A western welcome in a homely way,
Assurance that we mean just what we say,
From which the fair conclusion you may draw
The state is yours as well as Omaha;
The broad expanse of prairies, fresh and free,
Its rivers on their journey to the sea;
Its pastures green, its fields of waving grain,
Its sheep and cattle on the boundless plain.
All these are yours, pro tempore, I am told;
So is the air—breathe all that you can hold.
It is a joy with all the clans to mix
And catch the deeper inspiration. BIX.

Looking West on Farnum Street, Omaha

That afternoon we had an automobile ride across the Missouri river to Council Bluffs and to a high point near the city from whence a fine view was obtained of the river valley. The Missouri river was nearly up to its banks and we were told it was 20 feet above normal. Like all western rivers, the Missouri is a dirty yellow stream with numerous eddies and counter currents which are far from beautiful.

In the evening while the ladies attended a new and splendidly appointed theatre, the men were invited to the "Den" of the Ak-Sar-Ben. The Ak-Sar-Ben is Nebraska spelled backwards and is a body of 5000 business men who are boosters for Omaha and Nebraska.

Ak-Sar-Ben came into being a little more than a quarter of a century ago. A number of citizens assembled, formed an organization, put on a big parade, followed it by a grand ball, at which "King Ak-Sar-Ben the First" was crowned and his queen chosen.

This custom of choosing a King and Queen of Ak-Sar-Ben prevails as an annual event each fall and arouses keenest interest. To be chosen King or Queen is regarded as one of the highest honors that the city can offer. The city is crowded on the occasions of the fall festival by visitors from all over the country.

This year's show was presented by a chorus of 70 and a total cast of 96 men and women. "Chris, the Gold Digger, or Columbus Discovered." The theme deals with the adventures of Columbus, the man who went west for gold and found it growing in the great midwestern state of Nebraska.

Another feature that makes the Ak-Sar-Ben Show unique is the fact that all of the effort required to put on the show is voluntary. The show in its entirety is a contribution of Omaha business men.

The show, which has now been an annual event in Omaha for 30 summers, is entirely new each year, with different music, different scenery, different dialogue. In climax and purpose, however, it is always the same—that is, it always points out the glories, the beauties, the resources, the advantages of the state of Nebraska. It is a "booster" affair in every respect.

Each year the thousands of visitors from all parts of the United States who witness the production on various Monday nights pay tribute to the high calibre of the Den Show. It is universally acclaimed as being equal to professional performances in all details

and its mirth-provoking qualities, as well as the beauty of the spectacle, are long-remembered. No visitor who has seen an Ak-Sar-Ben Den Show ever forgets Omaha. Previous to the presentation of the show, the editors were initiated into the realm of King Ak and emerged from the laugh-stirring mysteries, full-fledged knights of Ak-Sar-Ben.

A few days after our entertainment in the Den, we heard that it had been burned to the ground. With characteristic western pep the directors of the organization while the building was still in flames held a meeting and voted to start work at once on a new and modern building.

(Continued from last week)
On Tuesday afternoon, there was an automobile drive around Omaha with a splendid opportunity to see its beauty spots and ending at the new Live Stock exchange building in the Union Stockyards at South Omaha.

This building, which is said to cost over a million dollars is the last word in office buildings and the banquet we enjoyed was in the same class.

Our hosts made the mistake, which nearly everyone who entertains our Association makes, in that their speeches were too long and rather technical. Editors prefer facts and statistics in printed and not oral form.

On Wednesday, the last day of the business sessions, the Newton Graphic was honored by being awarded a \$1000 silver loving cup for the most "merited" achievement in newspaper advertising.

The Graphic received an honorable mention last year for this cup which must be won three times for permanent possession. We expect to exhibit this cup in the various parts of the city when it has been properly inscribed.

(Continued next week)

KIWANIS CLUB

The weekly meeting of the Kiwanis Club was held on Tuesday at Norumbega. President Clem Colburn presided and told of the coming visit of members of the Rotary and Kiwanis Clubs to the boys camp of the Newton Y. M. C. A. at East Brookfield. The resignation of Warren T. Hollis as Secretary was read. He was presented with a writing set of a fountain pen and pencil. Col. John S. Barrows of the Boston Transcript was the speaker of the day. He explained the growth of the modern newspaper, and the many varied tastes it must cater to. He asserted that a person's newspaper reflects to a large degree the sort of man he is. Mr. Barrows stated that many families would be better off if they did not read daily newspapers, but depended on reliable weekly reviews for news of importance. Too much time is wasted in reading non-essential matter.

Col. Barrows urged that people patronize the weekly paper printed in their town, or city. He contends that such papers are important factors in the community and are not given the recognition they deserve. He suggested that instead of writing letters to absent relatives and friends in other cities, that the practice of sending them copies of the home paper would be very acceptable.

49-51 TEMPLE PLACE, Boston

POLICE NEWS

Sunday night at the corner of Chestnut and Washington streets, West Newton, an automobile driven by Stephen Lakus, a chauffeur of Weston, hit a car owned by the Smart Taxi Company, badly damaging it. Just after the accident, Lakus was arrested by Patrolman Elliot and Motor cycle Officer Murphy, charged with driving while under the influence of liquor. He was brought into court on Monday morning and his case continued for a week. He was held in \$600 bonds.

Elmer H. Johnson, who gave his address as 169 Albemarle road, West Newton, but who could not be found by Inspector Goode at that address, when a summons was issued to be served on him, was in the Newton Court on Tuesday, charged with driving after his license had been revoked. His bail was set at \$100 and his case continued for a week.

In court Wednesday Judge Bacon sentenced Frank Piper of Allston to 30 days in the House of Correction for driving while under the influence of liquor, and fined him \$10 for drunkenness. Piper appealed and was held in \$600 for the Superior Court. When he was arrested on July 4 after his car had collided with three automobiles parked near the Woodland Golf Club on Washington street. He testified that he had taken but one high-ball on the night he was arrested. Serg. Mahoney and Patrolman Hanlon, who arrested Piper, testified that he was under the influence of liquor when they took him into custody. The owners of the three cars which were hit, also testified for the prosecution, although one of them stated that he did not consider Piper under the influence of liquor. Thomas McCarthy of Prince street, West Newton, and ex-Alderman Perley Crosby testified that defendant was sober on the night of the 4th.

Inspector Goode, who was prosecuting the case called Lieut. Hughes and Serg. Mahoney to refute Crosby's testimony. The two policemen testified that Crosby had told them that Piper was in such a condition that he should not have been allowed to leave the clubhouse. Crosby denied having said this.

Edward Miller of Columbia Park, Dorchester, reported to the police that a tire was stolen from his automobile on Tuesday night, while the car was parked opposite 333 Commonwealth.

A Peerless car, the property of avenue.

Michael Strain of Harris street, West Newton, was stolen Tuesday evening while parked on Washington street, near Centre place, Newton.

Reuben Wright of Babson park, Wellesley, was arrested Saturday morning by Officer Turner for speeding and for having no license in his possession. He was fined \$10 on the first charge, and \$5 on the second.

Fines paid by speeders of automobiles in Court last Friday were: Albert Peeteau of Hopkinton, \$5; Clarence Brown of East Milton, \$5; Francis Fuhs of So. Boston, \$10; Robert Walker of Boston, \$10.

William Stanwood of Bradford road, Wellesley, was in court yesterday, and paid \$10 for speeding.

A children's quarrel brought Rosario Cavallo of Oak avenue, West Newton, into court yesterday on the charge of assault and battery. Cavallo's children and those of Joseph Gentile quarrelled, and Cavallo is alleged to have chastized the Gentile youngsters and to have made threats. His case was continued to August 1st.

Eugene Clark of Bradford avenue, Medford, was fined \$10 for speeding in the Newton Court on Wednesday.

David Niles of Elmwood street, Newton, was arrested early Wednesday morning by Patrolman Foley, charged with driving while under the influence of liquor. He will be tried on July 29th.

Another group of "step on the gas artists" paid \$10 each for going too rapidly after having been found guilty in the Newton Court on Tuesday. Those fined were Weston Adams, Framingham Centre; Ralph Johnson, Brighton; Allen Housley, Boston; John Farrell, Medford; Alfred Spitzer, Cambridge; Alice Cohen, Brookline. Cohen was also assessed \$10 for not having his license with him.

PRIZE ESSAY

Charles C. Bullock, twelve years of age, Angier School, Grade VII, Waban, was the winner of the \$5.00 gold coin offered through the Scientific Temperance Department by the Newton W. C. T. U. for the best essay on a temperance subject.

The essay follows:

Why the United States Prohibits the Sale of Beer and Wine

Years ago there was no prohibition. To be positive of this one might go down any street of the poorer section of all large American cities and see for yourself what a terrible thing liquor is. Men going in and out of saloons wholly and partially intoxicated.

Why Beer Should Not Come Back

I believe that beer and wine should not come back because: of all crimes committed in the United States (or foreign countries) a large majority can be traced to alcoholic drink.

Liquor as a Menace to Auto Driving

In many instances accidents could be prevented if liquor was not used. But, sad to say, many think to themselves to appease their conscience, "There is no harm in just a glass." They are wrong. The "light" drinker who has a glass a day shortens his life by about four years. It also makes a man susceptible to Bright's disease, a liver disease, and pneumonia.

To get back; the auto driver after having a glass feels reckless enough to take a chance, then, watch out! It also retards the activity of the brain. For instance, a man, going down the avenue at a good rate of speed, traffic light suddenly changed from green to red. A man need not be drunk at all, he just needs a glass to make him slower to comprehend. In this time he may smash. The man who has not drunk anything would put on his brakes and save himself.

Alcoholic Drink as a Menace to Industry

Many industrial foremen will not have men who have drunk anything at all the day before. They have a very good reason: It is this: a riveter working high above the street has a responsible position. It is no place to be under the influence of liquor. If he was he might drop a beam, do his work entirely wrong and the company would be forced to do all the work over.

Ten, twenty, thirty or forty years ago it was not wrong to be drunk on the job. But times have changed and with them come machinery and prohibition. The days of the old hand laborer are numbered: Watch out, drunkards!

Arguments for and Against

The chief argument against Prohibition is that the "boys" were across when it was made a law. That is true in one sense but not in another. Before they were across three-quarters of the United States were "dry," leaving hardly any chance of becoming "wet" again.

Also during the war bushels of grain were used in the manufacture of beer. The drinkers who demand their "personal liberty" to drink forget the rights of others, which the policeman bluntly expressed as he said, "The old man" has had his personal liberty long enough. It's time to give the kids a chance."

Also during the war bushels of grain were used in the manufacture of beer.

How to Play BRIDGE

A new series of lessons by
Wynne Ferguson

Author of "PRACTICAL AUCTION BRIDGE"

Copyright 1926, by Hoyle, Jr.

ARTICLE No. 16

The purpose of the informative double is to obtain the best suit bid for the combined hands. The no-trump bid should not be bid in answer to an informative double unless you hold a double stopper in the suit bid. For example, note the problem hand given in the preceding article.

Answer to Problem No. 19

Hearts—Q, 8, 7, 5
Clubs—10, 4
Diamonds—A, J, 10, 7
Spades—K, 10, 3

No score, rubber game. Z dealt and bid one spade. If A doubled one spade (informative) and Y passed, what should B bid? Should he bid one no-trump or two hearts? B should bid two hearts. He has only a single stopper in the suit bid.

Problem No. 20

Hearts—8, 5
Clubs—none
Diamonds—A, 10, 9, 8, 5, 3, 2
Spades—K, 8, 7, 6

Hearts—Q, J, 10, 9, 6, 2
Clubs—A, Q, 10, 7, 3
Diamonds—6
Spades—3

Hearts—A, K, 7, 3
Clubs—J, 6, 4, 2
Diamonds—4
Spades—A, J, 9, 2

No score, first game. Z dealt and bid one spade. A doubled. Y passed and B bid two clubs. Z bid two spades and all passed. The bidding of this hand is not sound but the only question to be decided is: Can Y-Z score game at spades?

Problem No. 21

Hearts—K, J, 8, 6, 3, 2
Clubs—none
Diamonds—K, Q, J, 9, 7, 4
Spades—9

Hearts—A, Q
Clubs—8, 2
Diamonds—A, 10, 8, 3, 2
Spades—Q, 10, 8, 2

Hearts—7, 5
Clubs—A, Q, 7, 3
Diamonds—6
Spades—A, K, 7, 6, 5, 4

No score, first game. Z dealt and bid one spade. A doubled. Y passed and B bid two clubs. Z bid two spades and all passed. The bidding of this hand is not sound but the only question to be decided is: Can Y-Z score game at spades?

Problem No. 22

Hearts—none
Clubs—A, J, 10, 8, 4, 3
Diamonds—none
Spades—J, 10, 6

Hearts—A, Q
Clubs—8, 2
Diamonds—A, 10, 8, 3, 2
Spades—Q, 10, 8, 2

Hearts—J, 8, 5
Clubs—Q
Diamonds—10, 8, 7
Spades—A, 5

There are no trumps and Z is in the lead. How can Y-Z so play the hand that they will win at least five tricks against any defense? Solution in the next article.

CENTRAL CHURCH NEWTONVILLE

11 A. M. Union Service in
Methodist Church.

Newtonville

—Miss Marion Gordon of Harvard street is on a business trip to New York.

—Mr. and Mrs. J. W. Crowell of Walnut street are at Marion, Mass., for the summer.

—Call H. A. McDonnell, 6 Highland terrace (Newton North 4674), for anything in the capenter line.—Advertisement.

—Miss Dorothy Jones is a member of the Appalachian Club party which is enjoying a camping trip at Mt. Desert Island, Me.

They expect to return September 2nd. During Rev. Mr. Miner's absence, The Rev. Merton W. Ross, Rector of St. Luke's Church, St. Albans, Vermont, will have charge of St. Mary's and will conduct the usual services and respond to all emergency calls. His address will be 26 Seaward road, care of Miss B. W. Blyth. His telephone number will be Wellesley 0828-W.

MRS. ANTONETTA MAGNI

Mrs. Antonetta Magni of 294 Adams street, Newton, wife of Antonio Magni, a well known Nonantum baker, died last Saturday. She was born in Italy, but came to Newton when a small child. Besides her husband, she is survived by six small children. Her funeral was held on Tuesday morning from the Church of Our Lady, and was one of the largest ever seen in this city: 87 automobiles were necessary to carry those attending. Burial was in Calvary Cemetery, Waltham.

Dickens Not Fine in Delineation of Women

Dickens had no theories about women as a sex; he had no theories about mankind. He did not try to account for his women characters by reliance on a formula. They interested him as individuals, and the most successful of his women characters are those with some heavily underlined peculiarity which enabled him to keep up an incessant excitement about them, is the comment of a writer in the Westminster Gazette.

Mrs. Nickleby and Sairey Gamp live vividly because Dickens' imagination was working at high pressure when he created them, and his excitement infects his readers. The women about whom he felt so intensely are human, and therefore credible; but Dickens never worked dispassionately or far enough away from his subject to make his women universal. In creating Miss Wardle he felt the pathos of the lovelorn spinster. But he had to make a jest of the elopement with Jingle, whose rascality alone saves the scene from complete reality. Dickens ran away from Miss Wardle's emotional tension because she was a good woman and for women of her type to give way to emotion was a little improper.

For with all his imagination, sympathy, and acute sensibility, Dickens could never persuade himself that women have the ordinary feelings and failings of humanity.

Hunting Polar Bears No Longer Perilous

The old method of hunting polar bears was as dangerous for the hunters as it was for the bear, according to Roy J. Snell, a man of action and who knows the polar wastes of the North.

In the early hunting days, four natives would start out together for bear. When they located one, all but one of the men would crawl up close and attempt to harpoon him. If they succeeded in sticking the animal they would hold him by leather thongs attached to the harpoons, while the fourth member of the party approached a position where he could attack the animal with a spear. The bear was not always quiet and peaceful and not infrequently he would get one of the men. Now, however, the game of bear hunting in the Arctic is much the same as it is in the cane brakes of Louisiana or the mountains of Idaho. They use dogs to keep the bear busy while they approach with rifles and pick off the bear at their leisure.

Moving-Picture Screens

Experts of the movies have pointed out that the screen is dark nearly half the time a picture is being shown. They say the eye of the camera is so fast that the spectator does not notice the darkness. Also, each picture is shown on the screen three times. There are sixteen pictures on every foot of film. In front of the projection machine is a revolving disk. This disk is divided into six parts, three of which allow light to travel to the screen. By means of an intricate synchronizing device this disk revolves each time one of the minute pictures stops before the opening. Thus, each picture is shown three times before it passes on. But all this happens too fast for the eye to discern. The darkness of the screen during nearly half the picture is caused by the solid sections of the disk.—Exchange.

Florence Crittenton Homes

Charles Nelson Crittenton was an American philanthropist, born in Adams, Jefferson county, N. Y. He went into the drug business in New York city in 1861; but after 1882, when his five-year-old daughter Florence died, he devoted his time and wealth to the establishment of Florence Crittenton homes for homeless and unfortunate girls and their infant children. In 1885 the National Florence Crittenton mission was incorporated to carry on this work. Of these mission homes more than 70 were organized in Mr. Crittenton's lifetime in all the larger cities of the United States and in Mexico, Tokyo, Shanghai, the City of Mexico, etc.

"Stabat Mater"

The "Stabat Mater" is a medieval poem of uncertain authorship, generally ascribed either to Jacopone or to Pope Innocent III. It came into popular use in the Thirteenth century, although not at that time with any musical setting. Because of the beauty of the poem, it became a great favorite with composers, and hence a number of musical settings have been furnished for it, the earliest being that of Josquin des Pres, which appeared in 1510. Other compositions are those of Pergolesi, Haydn, Stefani, Clara, Astorga, Winter, Raimond, Dvorak, Verdi, Ernest Walker, and Sir C. V. Stanford.—Literary Digest.

One Bridge in 2,000 Miles

In China there is only one bridge spanning the mighty Yangtze river, which has a course of more than 2,000 miles. This bridge is at Tsuli. It is a suspension bridge with two pairs of six chains clinging to the boards with a railing alongside. It is in fairly good repair. There was once another bridge at Chaoting, but because of raids from the north whereby Chinese were carried off into slavery the Chinese themselves broke down the bridge, leaving only the one at Tsuli.

Newell, Newton Highlands; Biscoe Chipman, Newtonville; Allen W. Mitchell, Newton Highlands; W. Kimball Mitchell, Newton Highlands; the Donald Wright, West Newton; Richard Bancroft, Newton Centre; Joseph Harrison, Newton Highlands; William D. Follett, Jr., Newton Centre; Frederick Kennedy, Newton Centre.

Nine Newton boys after a three weeks' vacation at the camp returned to their homes on Wednesday. They are Walter Rye, Newton; Warren C. Lewis, Jr., Newton Centre; H. Clay Lewis, Newton Centre; Richard D. Briggs, Newton Highlands; Steven Bailey, Newton Centre; Harold C. Banks, Newton; John W. Nichols, Newton Highlands; James B. Hunter, Newton; Clovis Crunnett, Newtonville.

MORTGAGE MONEY

There is a distinct advantage in having home mortgages held by home institutions. More favorable treatment is natural when the applicant deals directly with the Bank and establishes intimate friendly relations than can be expected if he deals with those who are practically strangers.

Our service is friendly, courteous and efficient, and our terms on mortgage loans are reasonable.

West Newton Savings Bank

WEST NEWTON, MASS.

NASH

Leads the World in Motor Car Value

3 New Series New Lower Prices

Come drive

the Smartest Looking cars you've ever seen

Never has any motor car manufacturer introduced body designs of such superb style and smartness.

The moment you view these new Nash models you will recognize that Nash has done something distinctly unusual in the way of motor car design.

The bodies are swung extremely close to the road. The low center of gravity together with small wheels and the new spring construction, and the character of the body design, achieve a most beautiful effect of grace and swiftness.

The varied color finishes are of perfect tastefulness and richest artistry.

Throughout the interior are fittings and appointments of finest quality which contribute even more to the luxurious note common to all these new Nash models from the lowest to the highest price.

In the design and selection of the paneling throughout the interiors, the finely patterned silverware, and the upholsterings Nash has gone far beyond anything ever presented in this price field.

And you must not fail to drive one of them and experience the remarkable new performance qualities in the way of speed, power and smoothness now offered by the newly refined Nash 7-bearing motor.

All these new Nash models have new springs built of a special secret alloy-steel which gives them the finest riding quality you can buy regardless of the price you may pay.

Don't delay your visit to our showroom. And we would particularly appreciate arranging an opportunity for you to ride and drive one of these incomparable new cars.

THE MEDITERRANEAN

Interesting Trip Through Southern Europe by Local People

Dr. and Mrs. Earl E. Bessey and their older son, Edward, have recently returned from a tour of the Mediterranean carrying with them a moving picture camera and since their return have entertained some of their friends with their pictures. At present Mrs. Bessey is engaged in editing and cutting one thousand feet of film, out of which she hopes to make a most interesting travel picture.

They left New York on the spring cruise of the SS. "Carinthia." The first views taken on sailing from New York show the pier and the harbor.

The first stop was at Funchal (Madeira), where Karl the last emperor of Austria is buried in a church on the mountain. There they took views showing the bullock "carros" (carts), and of the trip up the mountain, showing the sledges used for descending the mountain on the cobblestone road.

After a day at sea the "Carinthia" steamed through the Strait of Gibraltar and entered the wide bay. Views were taken of the great rock from all sides. While they were there a military funeral took place and the pictures of this proved most interesting, especially those of the horse of the dead officer which was laid saddled, with the man's shoes facing backwards in the stirrup.

From there they went to Cadiz, taking pictures of the ships at anchor in the harbor, and then to Seville where the gardens of the Alcazar, an old Moorish palace, made beautiful subjects for photography with their unusual fountains and botanical exhibits, and with their colony of white doves.

Because of bad weather the party did not land at Algiers, the next port, but Mrs. Bessey took pictures of the exceedingly high waves and the next day they landed at Phillipville (Algeria) to go by train through the Atlas mountains to Constantine. Constantine is situated on a high plateau of rock surrounded by a deep gorge through which runs the fantastic river Rummel. We call the town after the great Roman emperor, but the Arabs know it more graphically as the "City of the Air." Much of the town is still theirs and their narrow streets curve around the gruesome promontory of Sidi Rached, whence the old Beys used to throw convicted criminals and in convenient rivals, and even at times, some wife who had grown tiresome into the yawning Gorge of Rummel.

Pictures were taken of the gorge, the valleys, the bridges and the children playing near. Next the party arrived at Tunis with its Oriental atmosphere where interesting views were obtained of the Cosmopolitan crowd, of the hawkers and vended women, and of the minarets of the mosques from which the muezzin call "the faithful" to prayer.

All that remains of ancient Carthage is a few miles away—some pillars, great blocks, stairs that lead nowhere, and running about among them are the goats and young kids feeding on the grass, and swarms of Arab children.

From there they went to Ragusa, a mediaeval walled city where they took views of the narrow streets and of the flat house-tops from the walls, then to Cattaro where they photographed an old Venetian gateway. Next they visited Constantinople where were pictured the mosques. Here on the Bosphorus is the meeting place of the old and the new. On one side of the Golden Horn, a river flowing into the Bosphorus, is Stambul, the ancient Byzantium, which is undisturbedly Turkish; Gaiety and Pera, which are the "Frankish" or foreign quarters, are on the other.

On the opposite side of the Bosphorus, a scant mile away, is Asia and the Oriental town of Scutari whence started annually caravans to Mecca. Here the party took a trip through the city in the ancient Turkish one-horse carriages.

From there up the Bosphorus the party went to the Black Sea, taking pictures of the Bosphorus and of Robert College on the way. In Athens, the next stopping place, they took views of the Parthenon, an "immortal masterpiece of soft yellow and pink marble against the vivid blue sky."

From here a two days sail was taken to Valletta (Malta) where there are ruined temples and a frieze of a quaint design from the neolithic (stone) age which they photographed. On the drive they saw women wearing their black native head dress called "Faldetta" and goats driven through the streets to be milked wearing muzzles so that they should eat nothing which might hurt the milk. The pictures show these and parts of the Governor's garden at San Antonio.

From Malta the party went to Palermo, getting a panorama of the shipping in the harbor; to Naples, the largest city of Italy, and to the island of Capri, under which is the extraordinary Blue Grotto where the waters glow like a mysterious blue flame. Here pictures were taken of the small row boats which take people to the Blue Grotto, of the picturesque inhabitants and the general shore line.

Ajaccio, Napoleon's birthplace, in Corsica, was the next stopping place. Here pictures were taken of the exterior of his house, the picturesque streets and of the monument—Napoleon sitting on a charger and at the four corners of the pedestal stand his four brothers.

After a stop on the French Riviera, the ship went back to Gibraltar where they left it for a tour of Spain. They first went to Granada where they visited the most famous spot in Spain, "the Alhambra," a wonderful Moorish palace which seems to belong to the Arabian Nights.

Here they took views of a great gate with a wide-loaded donkey standing under it; of the grounds with the doves feeding from the people's hands and of the Court of Glens, where closeups were taken of the queer faces of the stone lions, and of the

gardens of Fenerallife, the summer palace of the Moors with their beautiful ancient fountains.

Thence they went across the plains of Andalusia to Cordova where views were taken of the picturesque peasants on foot and on donkeys passing over the old bridge across "Guadaiquivir" and of the Roman Arch.

The party then went to Madrid, the Spanish capital, and to Toledo, where the swords which bear that name are made. They are of such wonderfully pliable steel that the point can be made to touch the hilt without breaking.

From there the Besseys went to San Sebastian, the most famous of Spanish watering places, where they saw the native carts with their two "disk" wheels of solid wood drawn by cows or oxen with yokes tied to their horns. The men driving them were Basques, wearing the Basque caps of dark blue cloth that are so popular now under the name of Beret. They photographed the fishermen and boys mending their nets and the house of Zuloaga, the famous Spanish painter.

Then they went to Biarritz, the well known French seaside resort where they took pictures of the beach and of the Basque villages.

At Paris they saw the Tomb of the "Unknown Soldier." It is a simple slab, level with the ground, under the Arch de Triomphe. At one end burns the everlasting flame of remembrance.

They sailed from Cherbourg, taking pictures of the harbor and of their ship, the huge Aquitania, and on board an amusing boxing match staged by the crew. To New York where they photographed the famous "Lady Liberty" and the skyline.

Thus ended a trip made unusual by the added interest of motion photography, and the Besseys brought home much more than souvenirs to their friends—they brought visible records of their trip.

DEATH OF OLD RESIDENT

Friends of Mr. Samuel H. Uhler, for many years a well known resident of Newton, were shocked to learn early Sunday morning of his sudden death in his apartment at Vernon Court, Newton.

He was born in Pottsville, Pa., seventy-three years ago, of an old Quaker family and entered the shoe business when he was fourteen. He came to Boston in 1879, after serving some years with the firm of E. S. Reeve in Philadelphia. He was connected with the E. L. Sprague Company at one time, and later was with the Parker-Peaks Company. For the last three years he was with Rowen & More, shoe manufacturers.

He was for many years a member of the Hunnewell Club and had served as its president. He was also a former president of the Boston Shoe Association.

He is survived by his widow who was formerly Miss Ada C. Clapp of Worcester.

Funeral services were held from the Newton Cemetery Chapel on Tuesday afternoon, and Rev. Dr. Laurens MacLure, rector of Grace Church, officiated.

WEDS FRENCH CONSUL

Miss Alice Sampson, a former well known resident of Newtonville, and daughter of the late Ezra Sampson, for many years a teacher at Newton High School, was married last Saturday to J. C. Joseph Flamand, the French consul at Boston. The ceremony was performed at the summer home of the bride in Marshfield Hills by Rev. Adolphe Rabel, provincial of the Marist Fathers. The bride was attended by her sister, Miss Ethel V. Sampson, and was given in marriage by her brother, Winslow F. Sampson of Altoona, Pennsylvania. Albert E. Lynch of Cambridge was the best man.

Miss Sampson had been secretary to Mr. Flamand for a number of years. The couple left Boston Sunday afternoon on the S. S. Providence of the Fabre line, and will make a tour of the Mediterranean. On their return, they will make their home at Cambridge.

RED CROSS LIFE SAVING

The number of lives that are lost yearly, even daily, by drowning should stir within every able swimmer a desire to become proficient in the art of life saving. Six hours of instruction, sometimes less, may mean that a life will be saved. Not only do the men, women and children who are daily receiving instruction at Crystal Lake and Auburndale under the auspices of the American Red Cross, secure expert instruction in life saving, but they also become better swimmers. Daily demonstrations are given and classes are available for those who desire to enroll.

During the past week the following passed the Junior life-saving tests and are now rated as capable life savers: Hugh Burns, Charles Bassett, Harry Purple, William Perry, Thomas Fitzgerald, Earl Tilton, Jr., Catherine Martin, Fred Delorey, George Hildreth, Paul Feldberg, Edward Connolly, and Martha Farmer. Daily tests are given between nine and nine-thirty at Crystal Lake.

Classes for boys and girls have been arranged at Crystal Lake on Tuesday and Thursday afternoons. Classes for non-swimmers, both boys and girls meet on Tuesday, Thursday and Saturday mornings.

NEWTON BOY MAKES GOOD

Mr. Malcolm C. Govan, son of Mr. and Mrs. David Govan, 107 Park street, Newton, Mass., who graduated from the Bentley School of Accounting and Finance, Boston, Mass., in June, has accepted an accounting position with the International Telephone & Telegraph Company, 41 Broad street, New York City.

Mr. Govan graduated from the Newton Technical High School in June, 1922. He was very popular among the student body and took part in many of the local school activities.

Mr. Govan entered the Bentley School in September 1925 and did exceptionally good work in all his subjects. He is very enthusiastic over his professional training and looks forward to a bright future in the business world.

DOG FRIGHTENS CANOEISTS

A bull dog, apparently mad, rushed into the Terminal Boathouse at Riverside last Saturday evening and by his actions caused the young men and women canoeists who were in the building to scramble to places of safety. Arthur Sadler, one of those present, recognized the dog as the one which had attacked and bitten his dog on the preceding day. Sadler telephoned the Newton and Metropolitan police, and Motorcycle Officer McGrath of the local force, Serg. Gardner and Officer Roch of the Metropolitan police responded. After an exciting pursuit, the animal was cornered, and shot by Patrolman Roche.

FRED A. FERNALD

Fred A. Fernald, for many years a resident of Newton Centre, died on July 17th, at Sharon following an illness of several months. He was born in Kittery, Maine, in 1861, and graduated from Dartmouth in 1887. After teaching school for several years he studied law at Boston University and was admitted to the bar in 1894. Mr. Fernald was a widower and had no children. He is survived by one sister, Mrs. Hattie Rand of Somerville. His funeral services were held on Wednesday morning at the funeral chapel of Ernest M. Wilson, Somerville. The remains were taken to Kittery, Maine, for interment.

Stray Bit of Wisdom.

Life is, after all, like baccarat or billiards. . . . It is no use winning unless there be a gallery to look on and applaud.—Ouida.

—Miss Helen Van Buskirk of Church street, Newton, and the Misses Jane and Grace Briggs of Witherington road, Newtonville, will leave next Tuesday for the International Old Girls' Religious Education Conference.

—The street is at Camp Chemonki, Wisnepsaukee, New Hampshire. They were chosen as delegates from the Eliot Sunday School, Newton.

JOHN W. HAHN

John W. Hahn, a life long resident of Newton, died Sunday at his home on Nonantum Place. The funeral services, which were private, were held Tuesday afternoon, and were conducted by Rev. Chester A. Drummond of Channing Church. Burial was in Newton Cemetery. Mr. Hahn was born in Newton 72 years ago. He was well known and respected in his home city, and in business circles in Boston. Throughout his life he was always deeply interested in public affairs. He had been a member of the old Claffin Guards in the early days of that organization. He is survived by his mother, Mrs. Amelia B. Hahn, five brothers, Rev. Andrew, Arthur, W. Fred, Charles and Francis Hahn, and two sisters, Amelia B. and Susanna E. Hahn.

TUNNEL CONTRACTS AWARDED

SIMMONS—HUTTON

A wedding of interest to Newton people is that of Miss Barbara P. Hutton, daughter of Mr. and Mrs. Andrew B. Hutton of Holyoke, Mass., and Mr. Richard B. Simmons of 200 Church street, Newton, which took place on Thursday evening, July 21st, at the Grace Congregational Church, at seven thirty in the evening. Rev. E. B. Robinson, D.D., performed the ceremony.

Miss Lillian M. Farr of Holyoke was the bride's attendant and Mr. Robert E. Bacon of Holyoke was the best man. Mr. John M. Hutton and Mr. Elisha Price, both of Holyoke were the ushers. Miss Margaret J. Stewart, also of Holyoke, was the flower girl.

The bride wore a gown of white georgette with Brussels lace trimming. The bridesmaid wore peach colored georgette with velvet trimmings.

A reception was held at the Holyoke Boys' Club from eight thirty to eleven o'clock.

Miss Constance Kelton, who was the soloist at the church, sang "Oh Promise Me."

After a wedding trip to Silver Bay, Lake George, New York, Mr. and Mrs. Simmons will reside at 52 Bennington street, Newton, where they will be at home after September fifteenth.

Every one invited. Prayer and Conference service on Friday evening at 7:30.

NEWTON BUSINESS ASSOCIATES OUTING AT PEMBERTON

(Continued from Page 1)

dragged over a considerable portion of the field, which did not improve the natty appearance of their blue attire.

The baseball game was won by the team representing Newton Corner, which defeated West Newton, 10 to 3. Doc Paul, Hodgdon and Somers did the pitching for Newton, Boyd and Colburn catching. Brophy and Cary were the twirlers for West Newton, with Connors handling their "curves." The game was featured by a home run hit by Boyd, and a three-bagger off Paul's bat, William U. Fogwill unpaired. Uriah cheated both sides impartially.

The sports concluded about seven o'clock. A number of those present then showed their swimming ability in the pool at Pemberton. Swimming in the ocean was impracticable, because of the heaviest fog which Boston harbor and Massachusetts Bay have experienced for sometime. During the afternoon the steamer Mayflower of Nantasket line, passed by, badly damaged after a collision with another boat.

Gay-Feathered Birds

Make Best Warriors

Gay birds are the hardy athletes of the feathered world, according to a theory advanced by C. H. Henshaw, a London naturalist.

Male birds are forced to be dashing, beautiful in order to attract the more sober-colored females, Mr. Henshaw explains. But a bird that wears scarlet, blue or orange feathers, and that sings loudly and otherwise makes himself conspicuous, must be sturdy and alert if he is to survive long enough to establish a home and raise a family. He is as much a target for his enemies as the warrior who used to dash into battle wearing a red coat and riding a white horse.

How all this illustrates the old principle of the survival of the fittest is shown by Mr. Henshaw, who says: "The better mate an animal can get, the more chance its descendants will have of survival, and it is obvious that a male that has to face more danger and yet manages to survive has in all probability a greater capacity for keeping alive than one which lives through less danger. Therefore the female that chooses a mate with a dangerous habit or structure chooses what is, aside from the dangerous part, a better and more fit mate."

This tends to raise the vitality of the bird species, he says, because the male bird's vitality is inherited by both sexes of his family, although his hazardous beauty is handed on only to his male descendants.—Science Service.

Excess of Gratitude

Not a Common Fault

Gratitude, in many people, is only a strong and secret desire for further favors. I believe it is Goethe who wrote: "He who is not grateful for a favor may be likened to one who nudges the spring from which his thirst was quenched."

When gratitude, I heard another say, has become a matter of reasoning, there are many ways of escaping its bonds. This is only another manner of saying that he who expects gratitude is a merchant, not a benefactor. Gratitude, which the ancients always painted in the brightest colors, is one's duty, but it is not an inalienable right one is at liberty to exact. Honore de Balzac, in probably one of his less lucid moments, wrote that gratitude was a foolish word; that, though appearing in the dictionary, it could never be found in the hearts.—Frank Hanson, in Los Angeles Times.

Agreed With the Jury

A slightly deaf old man who had been making whisky all his life was finally picked up and arraigned under the drastic Colorado still possession law. The jury, without leaving the box, returned a verdict of guilty.

"Old man," said his lawyer, "the jury says you are guilty."

"Yes?"

"The jury says you are guilty," he repeated loudly in his ear.

"In what degree?"

"There is no degree in a still case."

"Guilty all over, then?"

"Yes?"

"Yes," shouted the lawyer.

"Well, that's what I told you in the first place, but you said you could clear me. Wish now I'd got that judge to defend me. Get him next time."

Everybody's Magazine.

Rain and the Moon

Near the equator the position of the young moon never makes an angle of more than 30 degrees with the horizon, and it is generally in an even more nearly horizontal position, so that in a part of the world notorious for regions of heavy rainfall, the moon is, according to the proverb, always a "dry" one. The final absurdity of the idea that changes in the moon denote rain is the case of the crescent moon as seen from the North and South poles, where it is always what the proverb describes as "wet," for at those places the line joining the tips of the crescent always makes an angle of less than 25 degrees to the vertical; yet the polar regions are characterized by so little precipitation in the form of rain and snow that they rank among the arid regions of the globe.

Buried Treasure

A grim statistician announces that under the sod in the cemeteries of this country a treasure estimated at \$20,000,000,000 has been buried since the beginning of American history. No one can dispute these figures. No one will care to analyze them carefully.

The ancient tombs of Egypt have given up treasure of priceless value. Excavations in buried cities have shown that man has ever held to the custom of burying jewels and baubles and valuable trinkets with the dead. The sword and helmet of many a warrior have gone with him into his dark and narrow bed.—Thrill Magazine.

Cause and Effect

"Sedentary work," said the college lecturer, "tends to lessen the endurance."

"In other words," butted in the smart student, "the more one sits, the less one can stand."

"Exactly," retorted the lecturer; "and if one lies a great deal, one's standing is lost completely."—The Outlook.

BOY BURGLAR CAPTURED

Francis McCarthy of Nonantum place, Newton, one of the three boys who confessed to breaking into many houses in this city and Brookline, and who subsequently fled the city, was arrested Saturday night at Sandwich by Patrolman Frank Feeley. He will be tried in the Newton Court at the juvenile session today.

LIQUOR RAID AT WEST NEWTON

Sergeant Mahoney and Patrolmen Kelly, Whalen and Carroll raided the home of Rosie DeSantos, 64 Border street, West Newton, last Saturday night, and seized 90 gallons of wine and one gallon of alcohol.

Woman Raises Turkeys

When ill health caused Miss Margaret Mahoney of Concord, Mass., to abandon her ambition for a medical career some years ago, she took to raising turkeys as a diversion. Now she has become a big shipper of the birds, has originated several kinds of turkey foods, and has written a book for the guidance of those who aspire to raise turkeys.

The Bug for Business

They were at work gathering potato beetles from the backyard garden spot of their dad—big boy and little boy. They received ten cents a hundred for the striped-backed rascals. It was hard work for the boys and a premature investment of funds for the dad, but the potato crop had to be saved.

"These yellow eggs have to be smashed too," cried the little boy, exhibiting the patch underneath a leaf.

"Oh, no, don't do that," yelled the big boy; "they'll hatch out an' make bugs, an' then we c'n pick 'em and git paid for 'em."

Newspaper Interviews

The interview feature of journalism dates back to 1859, the year of the John Brown raid on Harpers Ferry. Among those stated to be implicated in the raid was Gerrit Smith, a noted antislavery advocate of Peterboro, N. Y. The New York Herald sent a reporter to see him and published the interview in conversation style. Being the first example of newspaper enterprise in that line, it created a sensation.

By Comparison

An American died, and met an old friend in the realms of the departed. "How are you getting on?" asked the old friend kindly. "Fine!" was the enthusiastic reply. "Say, I thought I'll ole Noo Yahk had the universe skinned to death, but this here heaven of yours—"

"Heaven?" repeated the older hand pityingly. "Heaven! Say, get wise, bo; get wise!"

AUTO ACCIDENTS

Saturday afternoon at the corner of Chestnut and Pennsylvania avenues, Upper Falls, an auto driven by Mrs. Myrtle Olson of Glenwood avenue, Wellesley, struck a telephone pole. All the occupants of the car were badly shaken up. Mrs. Elbina Mackaye and Samuel Slicho received cuts on their heads.

Saturday afternoon on Watertown street, Nonantum, a car driven by Loren Penney of 213 Lincoln street, Newton Highlands, hit Mary Totaro, 5, of 286 Watertown street. The child received a fracture of the left collar bone.

Saturday morning at the corner of Walnut and Dedham streets, autos driven by Harold Cornish of Robbins street, Waltham, and Louis Decourcy of Parker avenue collided. Cornish suffered cuts behind his left ear and on his right hand. A hydrant was knocked over in the crash.

Sunday afternoon on Boylston street, Newton Highlands, cars driven by Stephen Heinrich of Margaret road and John Donovan of Harrington street, Newtonville, collided. Both cars were badly damaged.

POLICE NEWS

In the Newton Court last Friday Thomas Greene of 62 River street, West Newton, was charged with going away after an automobile accident without making his identity known. His case was continued until August 5.

Other cases in court that day were those of several motorists charged with speeding. For such offences Albert Fecteau of Hopkinton was fined \$5; Clarence Brown of East Milton, \$5; Francis Fuhs of South Boston, \$10; Robert Walker of Greenwich Park, Boston, \$10.

In court last Saturday, Reuben G. Wright, a student at the Babson Institute, Wellesley, was fined \$10 for speeding, and \$5 for driving without his license in his possession.

NEWTON CENTRE MAN DROWNED

Friday morning about 11 o'clock, Patrolman Austin of the Metropolitan police, discovered an automobile parked on the bank of the Charles River in the Roberts section of Waltham. Noticing the car stalled there sometime later, Austin notified his superior, Serg. McLeod, and the two policemen after searching along the river, discovered a body some distance away about 35 feet from shore. As the number plates on the automobile were those of Hawley K. Rising of Morseland avenue, Newton Centre, members of the law firm in Boston, with which he was associated, were communicated with, and a member of the firm came to Riverside and identified the body as that of Mr. Rising.

Mr. Rising was at his office on Thursday afternoon, and appeared to be in good spirits. He was formerly a resident of Springfield and was a graduate of the Boston University Law School. The police attempted unsuccessfully on Friday night to get in touch with the wife of the drowned man. They finally learned she was visiting in Randolph, New Hampshire.

Funeral services for Mr. Rising were held on Monday afternoon at Trinity Church, Newton Centre, Rev. Edward T. Sullivan officiating. Burial was in Springfield, Mass.

WALTER E. PAINE

Walter E. Paine of 20 Oxford road, Newton Centre, died suddenly last Friday morning of heart failure. He was born 70 years ago at North Bridgewater, now Brockton, and became a noted singer. Mr. Paine possessed an unusually high tenor voice. He was a member of the original Apollo Quartet, and he sang also in the Weber and other famous quartets. The range of his voice enabled him to achieve success as an impersonator of famous sopranos, and he became known as the male Patti. Mr. Paine studied both in this country and Europe. One of his teachers was Mme. Long, who instructed Geraldine Farrar. While Miss Farrar was under the direction of Mme. Long, Mr. Paine was her accompanist. He continued at his profession until two years ago. For the past twenty years he had made his home in Newton with his sister, Mrs. T. Lyman Howe. His funeral service, which was private, was held Sunday afternoon at his late home. Burial was in the family lot at Brockton.

HIGH SCHOOL TUNNEL

The Newton Board of Aldermen met again last Thursday night, the second meeting of the week, for the express purpose of appropriating \$47,500 to build the tunnel under Elm road, Newtonville, which will connect the old Classical high building with the new high school building. This appropriation was supposed to have been made at the special meeting held on Monday, July 11th, but City Solicitor Bartlett was somewhat in doubt as to the legality of raising the money for this purpose through the medium of a bond issue. After much legal research in the matter, Mr. Bartlett ruled that inasmuch as the tunnel cannot be classified as a new building, or as an addition to a building, it would not be allowable to raise money for it by issuing bonds. The only alternative, and the one which the Aldermen did not desire to resort to, if it could be avoided, was to appropriate the money from the tax revenues; but it had to be done. Thus the plan, not to spend over \$200,000 on new schools during any one year from the tax revenues, had to be broken.

The Playground Commission had asked for \$1200 to erect two portable buildings; one at the Upper Falls playground, and one at the Lower Falls playground. The Aldermen appropriated \$600 for the building at the Upper Falls playground, but refused to appropriate a like sum for one at Lower Falls. A new school house is soon to be built on part of the Lower Falls playground, and it would be impracticable to erect a portable there at this time. The Aldermen also appropriated \$6800 for water mains.

SAFETY FOR CHILDREN

The playgrounds of the state were an important factor in reducing fatal accidents to children last summer, according to a statement issued by the Massachusetts Safety Council today. It urges that a concerted effort be made this year to double attendance on the playgrounds, "because the automobile never strikes the child that is not in the street."

The statement of the Massachusetts Council, whose president is Howard Connelley—likewise chairman of the Governor's Committee on Street and Highway Safety—continues: "Deaths of children in automobile accidents last summer were reduced from 50 to 41, but the significant fact is that only 14 of these occurred in the 15 cities that taught safety on the playgrounds as a part of the regular summer program. A third of all the highway accidents occurring to children, and any city or town that has entered the Governor's trophy contest for the best reduction of accidents during the next six months must make this an important part of its safety work. The Massachusetts Safety Council expects to have 20 cities enrolled in the summer campaign."

A joint committee representing the council and the playgrounds in the metropolitan area has adopted the following program for safety activities:

1. Each playground will adopt a safety slogan of its own before the 16th of July.

2. After the regular registration of children is complete, the attendance of other children not accustomed to come will be stimulated by the organization of Lurch-a-lugh Clubs. Each youngster, must bring a new child to the playground for one week.

3. A booklet prepared by the committee and entitled "Teaching Safety to the Child," will be placed in 2000 homes where there are children.

4. One hundred posters will be provided for general use. They carry two messages: "Stop playing in the street. The playgrounds are safer"; and "Less Speed! Give children and elderly pedestrians a fair chance to cross the street!"

Newton is one of the group that will carry on the campaign intensively.

BUSINESS PROPERTY SOLD

John T. Burns & Sons report that they have sold for Louis F. Bachrach to Robert A. Vachon the two story block of stores and offices located at 12-14-16-18-20 Lincoln street, Newton Highlands. This property is in the heart of the business district, and with the building there are 7,746 square feet of land, the total value of the property is \$80,000. Mr. Vachon intends to remodel the buildings and change the fronts. He purchases for an investment.

Burns & Sons also report that they have sold for Elander Brothers their new 7 room Colonial home located at 40 Salisbury road, in the Newtonville district. With the house there are 9,500 square feet of land, total value \$12,500. Sarah B. Jewell purchases for a home and will occupy at once. Burns & Sons also report that they have sold in South Boston the brick single 10 room residence, located at 807 East Broadway. With the house there are 3125 square feet of land, the total value of the property being \$8,500. Anthony Falino conveys to E. Hurtado.

All the above sales were negotiated by John T. Burns & Sons, Inc., as Brokers.

259 WALNUT STREET, NEWTONVILLE

ABOUT TOWN

By Edw. H. Powers

We have received letters from ex-Alderman Daniel O'Connell who is touring Ireland. The first told of his trip across on the "Samaris" of the Cunard line. Mr. O'Connell, who is an epicure, eulogized the cuisine of the boat. The voyage for the most part was quite pleasant, but during the last day rough weather was encountered, the several passengers on the "Samaris," who hail from Newton, proving to be good sailors.

Landing at Queenstown, Mr. O'Connell, together with Austin and Joseph Shea of Newton, proceeded to Cork, and from there went to Blarney Castle, where all three kissed the famous "Blarney Stone," which act assures them of eloquence during the remainder of their lives. They next started on the Prince of Wales route, a beautiful scenic trip which begins at Cork City and proceeds through enchanting rural country to Glengarriff on Bantry Bay. Mr. O'Connell waxed enthusiastic in his description of the very attractive vistas afforded by this journey. From Glengarriff the trip will continue by way of Kenmare to the Lakes of Killarney.

Those "heroes" who attempt to gain fame and fortune by reposing near the top of a flagpole for a week or two, ought to be arrested for vagrancy, and put to work doing something useful. If this country tolerates such asinine stunts, we will soon develop a crowd of freaks such as India has.

It certainly improves the streets in this city when the old street car tracks are removed. Centre street, Newton Highlands, is an example of this. Here's hoping that the consent of the surviving trustees of the Newtonville & Watertown Street Railway has been obtained, to permit the removal of the tracks from Watertown street. This street is in a terrible condition.

Each year sees a big increase in the number of persons using Crystal Lake as a bathing place during the summer months. During the recent hot spell this place was mobbed. It is frequented not only by residents of this city, but by hundreds from other localities. The Mayor, in his inaugural address, advocated that the city purchase the land at Crystal Lake, where the bathing beach is situated, and that proper bathing houses be built to permit much needed toilet facilities and shower baths. If this were done, a small fee could be charged, and the use of the lake restricted to residents of Newton.

The lack of proper sanitary facilities at Crystal Lake is a menace to the health of the thousands who bathe in it. Allowing such a large number of persons to bathe in a small area of still water, invites the spread of diseases. Before another summer the city should acquire the land it now leases there, and bath houses should be erected. These houses should be equipped with toilets connected with the sewer, and with shower baths, which all who bathe in Crystal Lake, should be compelled to use, before entering the water.

ELM STREET TO BE WIDENED

Important Improvement Approved by City Government On Monday Night

The Board of Aldermen on Monday night voted to widen Elm street at West Newton, from Washington street to a point just beyond Webster street. The street will be widened from 40 to 60 feet. Most of the widening will be on the west side of the street. The Central Block property, which has been purchased by Bennett Rockman, is soon to be razed and a modern business block erected on its site by the Kenmore Realty Company.

Alderman Baker explained that the cost of the widening will be borne by betterment assessments on properties which supposedly have their values appreciably increased by the widening. The land damages as estimated total \$11,300; the cost of the work on the street will be \$10,000; the betterment assessments have been fixed at \$21,450. The estimated awards are: Kenmore Realty Company—\$6,000, John W. O'Brien \$600, John Nagle \$1,200, James Holbrook \$2,000, Francis T. Ward \$300, Victoria Minicase \$600, Ellen M. Ellis \$400, Alice Morton, trustee, \$200. The betterment assessments will be levied as follows: Kenmore Realty Company \$17,200, John W. O'Brien \$1,000, Francis T. Ward \$2,000, James Holbrook \$1,000, John Nagle \$250.

Alderman Hodgdon attacked the action of the Aldermen in making the abutments pay for the cost of widening the street. He believed it to be the first time the city has resorted to such a practice. He asked: "Why should those who own property here, and who will not be benefited, be compelled to pay for a public improvement which is to be done for the benefit of West Newton and the whole city?" Alderman Baker replied that it is a regular thing for the city to assess betterments under such conditions; that it is proposed to award a fair value for land seized, that the betterments will not be levied until the work will have been completed.

Alderman Hodgdon asked for a division of the question, to permit the matter of the "betterment" phase of the widening to be voted upon separately from the authorizing of a bond issue to pay for this work. Alderman Baker thought the question could not be divided, but City Solicitor Bartlett ruled that it could. Accordingly, the matter of authorizing the bond issue and the appropriation of \$21,300 to defray the cost of the improvement was voted on first. All the Aldermen voted in favor. When the vote was put on making the widening under the Betterment Law, all voted in favor except Alderman Leahy. Alderman Hodgdon then raised a Charter Objection, which President Weeks ruled out of order as the matter had been voted upon.

Alderman Baker, still on the "quiver" against any strategy, moved for reconsideration, hoping his motion would not prevail. Alderman Hodgdon raised another Charter Objection against Mr. Baker's motion, and was overruled by President Weeks. The Ward 5 Alderman asked for a ruling from the City Solicitor, but Mr. Weeks stated that Mr. Bartlett had no jurisdiction on this matter. Mr. Hodgdon then took an appeal from the decision, and the Board sustained Mr. Weeks. Alderman Baker's motion for reconsideration was then put, and lost, as he desired.

WANT MORE FILLING STATIONS

Despite the fact that many gasoline filling stations in Newton today are being operated at a considerable loss, optimistic persons are still seeking to obtain permits for additional stations. This, of course, is no reason why such permits should not be granted. At the meeting of the aldermen on Monday night the first hearing on a petition for a gasoline station permit was that of Percy Bragdon at 966 Watertown street, West Newton. Harry Ross, as attorney for Bragdon, explained that this locus is the same as where his former clients, the owners of the Fuller Garage, made a determined, but futile fight, to operate outside pumps after having been refused a permit by the Board of Aldermen. He stated that Mr. Bragdon desires two pumps outside the building, but if this will not be granted, he wishes to be allowed to place one pump immediately inside the garage, so that cars can drive up to the building and have their gasoline tanks filled by a hose running through the office window. The low wall which was supposed to have been erected adjoining Davis court, and which was not, prior to the legal fight, has since been built. There was no opposition to the petition at the hearing.

James P. Gallagher appeared for Henry C. Bourne, who for the third time seeks a permit for a filling station at 2268 Washington street, Lower Falls. He told the board that his client had been refused a permit on the two former occasions because of the alleged danger the station would be to the children attending the Hamilton School. Now that the school is to be located on another site, this objection is removed. He stated that the land is properly zoned, that a clear view is afforded traffic from both directions, that nearby property will not depreciate in value if a station will be erected, and that no valid reason can be advanced to justify the refusal of the permit.

Alfred Murray again appeared to oppose the petition. His arguments were that there is but one sidewalk along Washington street at this point, on the side where the station would be located; that a footbridge over the river is located there; that the location is dangerous; that 70 residents of the Lower Falls have signed a petition favoring another applicant for a filling station. Howard Murphy also spoke in opposition.

Mr. Gallagher also appeared for Fried & Litchman, who ask that the storage capacity at their station at 1233 Washington street be increased from 1000 to 4000 gallons. The reasons given by Mr. Gallagher for the increased storage are that new merchandising methods in gasoline call for two grades, and that reserve tanks are needed. Thomas Coleman of 1229 Washington street objected to the increase being allowed, as 4000 gallons of gasoline so near to his residence will be very dangerous. The young son of Thomas Gandella, whose residence is at the rear of the Fried & Litchman station site, said that his father does not object to the increased storage capacity provided that the petitioners will promise to assume responsibility for any damage which may result from fires which might occur at the station.

The Highland Oil Company asked for increased storage capacity at their wholesale station on Easy street, Newton Highlands, from 20,000 to 40,000 gallons. There was no opposition.

Residents of Lexington and nearby streets in Auburndale protested against the petition of Filippo Capadanno for an extension of non-conforming use so that a building can be erected at 349 Lexington street for a filling station. This site is in a residential section, and efforts have been made unsuccessfully before to obtain a similar permit. Harry Ross again took the floor to plead for this petition and informed the board that he has leased the station. He stated that it will be conducted in an orderly way. George Whidden of 373 Lexington street objected, saying that the location is very dangerous, that Auburndale is already overburdened with stations, and two nearby stations afford ample facilities. Mrs. Nelson Freeman protested against a residential section being invaded by filling stations, and asserts that no gasoline had been sold at this station for a considerable period.

Other objectors told of the original permit for a station at this locus having been granted out of sympathy to a young man who had served overseas, and how the station had been shifted from one site to another at different times, finally causing it to be far removed from where it was supposed to be originally. Maxwell Hutchins, chairman of the School Committee, told the aldermen that a few days previous, employees of the Standard Oil Company had come and taken the pumps, formerly at the station, away.

MONEY TO LEND for Home Building--Buying

We particularly favor the lending of money for home building or buying to those who have saved up some money and appreciate that their program simply MUST include a home of their own. Every dollar paid out for rent is gone forever. But you can borrow money and build a home, repaying your loan on a convenient schedule that will make your home ownership complete in about 140 months. Choose now a home of your own!

BAD STORM

Second Church Spire Struck by Lightning

The beautiful spire of the Second Church at West Newton has been so badly damaged by a bolt of lightning that extensive repairs must be made on it. Within the past few days it was discovered that a number of the granite blocks forming the lofty steeple were out of place and shattered. It is not known on just what day the church was hit, but it was during one of the storms within the past two weeks.

The terrific force of the electrical energy in a lightning bolt is well illustrated by the effect shown on the spire. It will be necessary to repair from 25 to 40 feet of the structure. The electric force in lightning when it hits an object, unless afforded excellent facilities for being grounded, either fuses or produces an explosive effect. In the case of the Second Church, the latter result followed. A staking is now being erected to permit the work of repairing to be done.

Because of the condition of the spire, it has been deemed unsafe to hold further services in the church until the repairs will have been made. Starting next Sunday, up to and including the 14th of August, union services will be held in the Lincoln Park Baptist Church. On August 21 and 28 and September 4 services will be held in the Unitarian church.

Several very important matters were acted upon at the meeting, including the appropriation of nearly \$250,000 for the new school near Waverley avenue and Ward street, nearly \$100,000 to purchase part of the land at the "triangle" for the new city hall and memorial, and \$21,300 for the widening of Elm street at West Newton. In addition there were a number of hearings on petitions for gasoline stations, sewers, and street improvements, which consumed considerable time.

MORE TRAFFIC SIGNALS

Chairman George Grebenstein of the Traffic Committee of the Board of Aldermen has been advised by Police Chief Burke that traffic signals will be placed at the following street intersections as soon as money to purchase them is appropriated:—Webster and Cherry; Webster and Elm; Maple and Auburn; Grove and Central; Grove and Woodbine; Chestnut and Commonwealth avenue; Chestnut and Boylston; Chestnut and Eliot; Oak and Needham; Centre and Walnut; Walnut and Boylston; Boylston and Hartford; Cypress and Braintree avenue; Homer and Walnut; Crafts and California; Faxon and Watertown; Pearl and Jackson road; Pearl and Jewett; Cabot and Harvard.

The Chief comments "that since such signals have been installed at other locations, there have been no accidents there."

At the meeting of the aldermen on Monday night, \$697 was appropriated to be added to \$2700 remaining in the Street Department funds for traffic signals. These amounts will be used to purchase and install three General Electric signals which will be placed at the intersections of Commonwealth avenue, Centre, Walnut and Washington streets. Just why these locations are given priority over Nonantum square, the worst traffic spot in the city, is peculiar. A couple of years ago there was a movement started by some Newton Corner business men to raise a fund to donate a traffic tower at Nonantum square. This idea is now dead, and if the city waits until it gets a traffic tower at Nonantum square as a gift, it will have a long wait.

MRS. ROXANNA ARMINGTON

Mrs. Roxanna Armington of 5 Warren terrace, Newton Centre, died on Sunday, July 24. She was the widow of Asa Armington, and was born in Chelsea 77 years ago. Her funeral services were held on Tuesday afternoon, Rev. Frederick Anderson, D.D., officiating. Burial was in Mount Auburn Cemetery. She is survived by one daughter, Miss Elizabeth Armington of Warren terrace, and one son, A. Warren Armington of Grafton street, Newton Centre. The deceased had resided in Newton for 54 years.

and right behind them was another truck with Beacon Oil employees to place their equipment on the site. He remarked that it seems that someone was trying to put something underhanded across. James Garvey of Freeman street again related how his family had been disturbed at all hours of the night by persons seeking to buy gasoline, and how the petitioner had refused to install a sign directing would-be customers to his residence, as he did not wish to be disturbed himself. Another objector, a Mr. Wood, alleged that gasoline stations are a nuisance because persons who hang around them act and talk improperly.

Several questions were put by different aldermen to ascertain if the station is being operated legally. The matter was referred to the Claims and Rules Committee for further consideration.

NEW GRADE SCHOOL

\$250,000 Approved for Building at Chestnut Hill

The aldermen held a regular meeting on Monday night. It was the third meeting the Board has held this month, in addition to a number of committee meetings the members have attended. Citizens of Newton should appreciate the sacrifices their representatives are making, as these meetings necessitate a number of the aldermen breaking into their summer vacations. All of the Board attended the meeting with the exception of Alderman Fitts, who is away. It was 7:50 p. m. Monday evening when President Weeks called the meeting to order, and it was 2:45 a. m. Tuesday morning when he adjourned it. Part of this time was occupied by a "short recess," which began at 9:55 p. m., and ended at 12:43 a. m. on Tuesday morning. This recess was called to permit the Finance Committee, and other committees to confer.

At the start of the meeting, President Weeks conceived the idea of expediting matters by requesting the Finance and License Committee to retire to the large committee room to listen to petitioners for private garages. One of the first matters on the docket was the hearing on the renewed petition of Henry C. Bourne for a gasoline station at 2268 Washington street, Lower Falls. When this hearing started, Alderman Earle, very logically suggested "that the members of the License Committee should be present to hear what was said." So the meeting was stopped until the members of the committee concluded their conference with the petitioners for private garages.

The first matter on the docket was a hearing on the proposed amendment to the zoning ordinance which will place on the same basis as accepted streets and the setback of buildings. No one appeared to oppose this proposed change, and the matter was referred to the Claims and Rules Committee. Another proposed amendment also met with no opposition, and was likewise referred to the Claims and Rules Committee; it provides that committees of the Board of Aldermen, instead of the full board, may hold hearings on any proposed amendment to the zoning ordinance, or upon hearings for permits under the ordinances.

When hearings on these petitions were announced, no persons appeared in opposition: Wallace Phinney for a 500-gallon gasoline tank and pump for private use at 293 Fuller street; Thomas Ackroyd for permit to erect a three-car garage at 91 Oak street; Highland Oil Company for permit to increase storage of gasoline at Needham and Easy streets from 20,000 to 40,000 gallons; E. F. Dewitt, permit to alter two-car garage at 376 Central street to three-car; Frederic Plummer, to alter two-car garage at 155 Woodland road to three-car; Thomas Houlihan for (Continued on page 4)

Major Breen then called two detachments from C Company, under Lieutenants Leo Taffe and James McDevitt, to circle the Parkman bandstand and break up the milling throngs, in order to save from fainting thousands of women who had been caught in the jam. The two detachments fought their way through the crowd and finally succeeded in their missions. During this duty it was necessary, several times, to carry out (Continued on Page 4)

CO. C RETURNS

Local Militia Have Had 15 Days of Active Training

Toughened and tanned by 15 days of intensive training at Camp Devens and on various "one-night stands" en route back to Boston, C Company, 101st Infantry, returned to the Army in West Newton last Saturday after what officers and men proclaimed as the most successful summer training period in history.

On Saturday, July 9, the company left the Army on two Middlesex and Boston motor busses. At Waltham, two units of the 132nd Infantry joined the company and at Concord units of the 181st Infantry were picked up. The men were taken to the door of their barracks in the busses, a decided improvement over the former method of marching nearly two miles from the Boston and Maine railroad siding.

The first week at Devens was spent in close and extended order work, coupled with a "trick" guard duty on Friday. The company participated in division reviews on Thursday and Sunday, being excused from the Saturday review because of being on guard.

As a result of the reviews and the other duties of the camp, the 1st Battalion of the 101st, comprising A and B companies of Boston, C of Newton and D (machine gun) of Cambridge, was characterized as "the best in the division" by Lt. Col. Henry D. Cormier, acting inspector. The battalion is commanded by Major Frederick Breen.

On the last Tuesday of the tour, the company started over the road to Boston. The first stop was made at Littleton. Not a man dropped out on the first day's march, although several feet needed attention at the finish. The next day saw the outfit at Concord, near the Reformatory. No men dropped out that day.

The third day's hike was a heart-breaker, nearly 14 miles being covered with long hills on Trapelo road, Waltham, being close to the finish line. On this day several of the men might have been justified in riding in ambulances but they refused to drop out. Officers of the company had to literally tear the packs from their backs and carry them when it became apparent that the younger soldiers were weakening but would not quit.

On Friday the company, with the rest of the regiment, went to Boston Common for police duty during the reception to Col. Charles Lindbergh, C Company, under Capt. Thomas F. Hickey, with a platoon from D Company, was assigned to the Charles street entrance, where "Lindy" entered the Common. Here came the first great crush as thousands fought for a first glimpse of the famed flier. Throwing up a barrier of rifles, each man grasping his neighbor's "Springfield," the Newton soldiers withstood the onrush and "Lindy's" party went through the cleared lanes without trouble.

Major Breen then called two detachments from C Company, under Lieutenants Leo Taffe and James McDevitt, to circle the Parkman bandstand and break up the milling throngs, in order to save from fainting thousands of women who had been caught in the jam. The two detachments fought their way through the crowd and finally succeeded in their missions. During this duty it was necessary, several times, to carry out (Continued on Page 4)

SITE FOR NEW CITY HALL

Aldermen Vote to Take the "Triangle" Lot, at Commonwealth Ave., Walnut and Homer Streets

Those residents who for years have been advocating the taking of the land bounded by Commonwealth avenue, Homer and Walnut streets, as the site for a new City Hall, had their efforts crowned with success last Monday night when the Board of Aldermen appropriated \$85,250 to purchase part of the "triangle," and \$8850 to purchase the westerly end of this site for memorial purposes. The larger sum was appropriated to acquire that section of the "triangle" which includes the building formerly used as a waiting station by the Middlesex & Boston, the Crowell garage, and the Socory filling station. The \$8850 is for the purchase of the land extending from the lane known as Lakeview avenue to the junction of Homer street and Commonwealth avenue. This money will be taken from the excess civilian war poll taxes which were returned to the city. That part of the "triangle" extending along Walnut street south of Laundry Brook and abutting Homer street will remain unpurchased for the present. The aldermen did not appropriate money for the purchase of this section, as to do so would have left the funds of the city almost depleted. This land will be acquired later on.

The only alderman to vote against the appropriations was Madden of Ward 1, who had filed a minority report against the taking of the "triangle." He said "that he did not wish to appear as an obstructionist, but so many people of importance, large taxpayers of the city, had favored the retention of City Hall at West Newton, that recognition should be given them." He commented, in view of the fact that it was 2 a. m. when he started to speak, "that he did not care to weary the members, and that he would not be accused of talking to the galleries." The gallery was quite empty at that time. According to Mr. Madden, the average citizen cares little as to where the City Hall will be located. There is ample room at West Newton to build a dignified City Hall that will well serve the needs of the city, and \$250,000 will be saved by having it there instead of on the "triangle." The nature of the soil at the latter place is such, argued Mr. Madden, that a large sum of money must be spent to assure a proper foundation for the building. The Ward 1 alderman told of the trouble the Edison company has experienced with its transformer station building on Homer street because of the foundation settling. He asserted that it will be necessary either to lower the level of the pond in the Newton Cemetery, or Bulloughs Pond. He contended that the new City Hall will not be the dream some people try to

realize. It will set in a hollow, cannot be seen as one approaches from the west along Commonwealth avenue, because of the bend, and only its roof will be visible as one approaches along Commonwealth avenue from Boston direction.

To build the City Hall at West Newton will keep the city out of the hands of speculators, argued Mr. Madden. West Newton is the additional place for the Hall, he continued, and the effort to locate it on the "triangle" is just to clean up the miserable proposition there.

Alderman Baker in reply said "that no other municipal proposition in years had been so thoroughly discussed and considered as this. We are as nearly in agreement on this as any city government can ever be. Because we desire to borrow as little as possible, 180,000 square feet of land at the 'triangle' will have to be taken later. We must go to the Legislature for authority to borrow \$500,000 outside the debt limit. Only by doing this can the City Hall ever be built. It should endure for many generations. The proceeds from the sale of the land at West Newton now occupied by the present City Hall, will, perhaps, cause the new Hall on the 'triangle' to cost no more than if it were located at West Newton." Answering Mr. Madden's argument "that a building on the 'triangle' must be imposing, and will tend towards extravagance," Mr. Baker said "that in his four years on the board, he had found no tendency towards extravagance; the people's money is being wisely spent." He commented that the purchase of the "triangle" is one of the outstanding things done by the aldermen in many years, and future generations will approve of this action.

Alderman Hodgdon argued against the City Hall being erected during the coming five years. He contended that other things are more needed, such as better streets, modern fire alarm signals, a junior high school at the South Side, and more fire hydrants.

A vote was then taken on the appropriation of the money to buy the land at the "triangle." Alderman Madden cast the only negative vote. Alderman Baker immediately moved for reconsideration of the vote, hoping it would not prevail. This action was taken by him to prevent similar action being taken later on by anyone who would attempt to hold up the project. His motion to reconsider was lost, in accordance with his desire. And so it is definitely settled that sometime in the near future, perhaps in 1929, Newton will have an attractive, modern City Hall on the "triangle."

Salvatore Brasco, 17, of Lincoln road, Newton, who was convicted recently of stealing 54 dozen golf balls from the Charles River Country Club, and was released in \$2000 bonds pending disposition of his case, failed to appear in court last Thursday, and is supposed to have fled from the State. Brasco's companion in the theft, John Pellegrino, was sentenced to the Concord Reformatory and appealed.

The heavy electrical storm of Wednesday afternoon struck a number of buildings and blew out fuses in many houses, causing the Edison employees to be on the jump Wednesday evening and yesterday. A bolt entered the home of Edwin A. Jones at 33 Cottage street, Upper Falls, and started a slight blaze. Box 631 was pulled and the fire extinguished before much damage resulted.

Wilson to Walk at Woburn
Ed. Wilson, B. A. A. walker and New England outdoor champion, will be a member of the B. A. A. track and field team that will compete in the Woburn games tomorrow. The local man has a busy time ahead in the next two months. There will probably be a walking event at the Scotch games on August 6th and the following week at the Topsfield Fair. On Labor Day the Norwood Civic Club holds a field day, and later in the month is still another. At the recent national games in Lincoln, Neb., Wilson placed third, but undoubtedly would have done better but for the loss of eight pounds due to the heat on the trip West.

Dr. Martin Recovering
Dr. Oscar Martin, faculty manager of athletics at Newton High School, is recovering from his recent severe illness at his home in Newton Highlands. It is hoped that he will be able to resume his duties at the school with the opening of the fall term in September.

Eliminated at Crawford Notch
Denton Carman of Newton was among those who were eliminated in the second round of the tennis tournament at Crawford Notch on Tuesday. Edward McKnight of Springfield was the victor over the local player, 6-2, 6-3.

Great American
On March 2, 1793, Samuel Houston was born at Timber Ridge Church, Va. He was a great soldier and statesman and was the leader against Mexico in the Texas rebellion. His birthday is observed as a holiday in the state of Texas.

ALDERMEN APPROPRIATE LARGE SUMS

Many large appropriations were made by the Aldermen last Monday night. In addition to the amounts of \$249,454 for the new school near Ward street, and \$93,300 for the land at the "triangle" for the new City Hall, other appropriations included \$13,200 for the collection of garbage from October 1 to December 31; \$356.90 for expenses incurred by the City Solicitor in connection with the litigation over the Newton Centre Women's Club taxes; \$37.14 for a temporary janitor at City Hall; \$11,329 for sewers in the North Gate Park district; \$285 for a deficit in the expenses of Memorial Day observance; \$100 to decorate the graves of Newton boys buried in France; \$432 for a laborer's pension for George Osborne; \$697 for traffic signals; \$562.50 for adjustment of salaries of sergeants in the Police Department; \$2881.73 for adjustment of salaries of lieutenants in the Fire Department. These last two items were necessitated because of errors in the budget.

The Mayor had recommended a salary increase of \$250 for George Stacy, assistant chief of the Fire Department, who retires in a few weeks on a pension. This would bring his salary to \$3000. The Finance Committee reported adversely on this recommendation, as it would be establishing a bad precedent, and would disarrange salaries in both the Police and Fire Departments. Chairman Collins of the Finance Committee stated that he regretted being compelled to make this report, because of the thirty-eight years of faithful service, and his unselfishness in refusing to accept the appointment as Chief of the Fire Department a couple of years ago. Alderman Heathcote made a motion calling for an expression of appreciation of Chief Stacy's service by the Aldermen. This motion was passed.

On the motion of Alderman Collins, \$100,000 was transferred from the Excess and Deficiency Fund to the revenue of 1927. This is a larger sum than usual, because of the exceptionally large expenses which may have to be met.

LIEUT. JONES DINED

Lieutenant John C. Jones, Jr. of Temple street, West Newton, was tendered a complimentary banquet Tuesday night at the Hotel Westminster in Boston. Lieut. Jones, who has been connected with Battery C, 101st Field Artillery, M. N. G., is just retiring from service.

Capt. Richard D. Roquemore was toastmaster. Lieut. Theodore Pitman, on behalf of the battery, presented Lieut. Jones an especially manufactured automatic pistol in appreciation of his services as coach of the battery's pistol squad, which won the championship.

CITY SOLICITOR RULES AGAINST ALDERMAN HEATHCOTE'S CONTENTION

Claiming that the appropriations made by the Board of Aldermen on July 8th at a special meeting were illegal because Sections 12 and 13 of the rules of the Board were not complied with, Alderman Heathcote asked for a ruling by City Solicitor Bartlett on this point. Section 12 reads: "No committee shall sit later than 6 o'clock in the afternoon of any day on which the Board of Aldermen meets, unless previously authorized by said Board or the president."

Section 13 reads, "Every order appropriating money for the current expenses of the city, reported by the committee on finance, shall be printed, and a copy thereof mailed to each member of the Board of Aldermen at least one day before the meeting of the Board at which such order is to be presented."

The Ward 4 Alderman asserted that these two sections had been violated at the meeting of July 8th. When he asked the City Solicitor for a ruling shortly after the regular meeting of the Aldermen started on Monday night, the latter replied that he would give his answer later, after he had looked into the matter. It was a hot night to look up legal decisions, but Mr. Bartlett got busy immediately, and before the meeting adjourned, some hours after, he announced that he was prepared to answer Mr. Heathcote.

He ruled that the appropriations made at the July 8th meeting were legal, despite the fact that Sections 12 and 13 may not have been adhered to. First, because no member having objected to the procedure at that meeting, the actions taken by the Board without a protest by any Alderman present, are legal and binding, according to decisions of the Supreme Court. Secondly, because the meeting having been a special meeting, called by the Mayor for the specific purpose of passing certain appropriations, it was not bound by rules which apply to regular meetings.

PETITIONS RECEIVED BY ALDERMEN

Among the petitions received by the Aldermen last Monday night were several from persons who want to buy land owned by the city. William J. Doherty makes an offer for the large parcel of land on Washington street, east of the Martin Manufacturing Company. David Gillespie wants to purchase city-owned land on Florence street; Arthur Boudrot offers to buy land on Irwin street. Other petitions are:

Max Becker et al, for acceptance Adams avenue, Ward 3.
Daniel A. Hagen et al, acceptance of Cedric road, Ward 6, under General Law.

Daniel A. Hagen et al, acceptance of Athelstane road, Ward 6, under General Law.

Harold R. Bates et al, sewer in Hineckey road, Ward 5.

Haynes & Hernandez, Inc., sewer, Leonard avenue, Ward 2.

Haynes & Hernandez, Inc., sewer, Highland street, Ward 2.

Haynes & Hernandez, sewer, Greylock road, Ward 2.

Loretto Gentile, for relocation of culvert, Day street, Fuller street, Commonwealth avenue, Ward 5.

Harriet M. Hodgkins, abatement of sewer assessment, Athelstane road, Ward 6.

Michael J. Mullen, for retaining wall, Cummings road, Ward 6.

James T. Prendergast, for retaining wall, Cummings road, Ward 6.

Alice L. Prendergast, for retaining wall, Cummings road, Ward 6.

Boston Consolidated Gas Co., laying gas mains, Boylston street and other streets.

Water Department, recommending water mains in certain streets.

Florence Maynard, protest, sewer in Pilgrim road, Ward 5.

Miss Clara R. Dumas, 210 Upland road, Ward 2, claim for compensation on account of accident on Walnut street.

Frederick Leatherbee, 54 Oxford road, Ward 6, claims for compensation on account of injuries sustained by his wife in collapse of High School bleachers.

Max Mandelstam, claim for compensation, damage by spraying, 36 Hovey street.

Elizabeth Chadwick, changing District Zoning Boundaries from General to Private Residence, land Oakland avenue, Ward 4.

SHEPARD-SPENCE

The wedding of Mr. Frederick J. Shepard, Jr., of Auburndale and Miss Elizabeth McArthur, the daughter of Mr. and Mrs. D. J. Spence of Montreal, Canada, took place last Saturday afternoon at the Episcopal Church in Wiscasset, Me.

Miss McArthur attended Miss Gaspes School and McGill University in Montreal, and was graduated last month from Simmons College, where she was president of student government.

Mr. Shepard, the son of Mr. and Mrs. Frederick J. Shepard of Derry, N. H., is a graduate of the Massachusetts Institute of Technology, class of 1912. He is a member of the Engineers, Brae-Burn Country and Corinthian Yacht clubs.

Optical Illusion

Carbon Dioxide Used to Stimulate Plants

If some one should tell you that you might run a pipe from your chimney to the back-yard garden and use the coal gas from your furnace to fertilize vegetables and flowers you probably would laugh at the idea. Yet virtually that same thing is being done today.

In remarkable experiments, conducted in plant laboratories near New York city, plants are being made to grow and flourish as never before on a simple diet of carbon dioxide—the gas of combustion given off by the very furnaces used to warm the greenhouses in which the plants are grown!

That such things have proved possible is due to comparatively recent scientific discoveries concerning the manner in which plants breathe and draw nourishment from the atmosphere, the sunshine and the earth. For one thing, plants breathe like animals. A plant takes in oxygen through tiny openings in its leaves, much as we breathe through our noses, and it gives off carbon dioxide.

Under the influence of sunlight, however, the plant, while breathing oxygen, also draws in carbon dioxide and uses this gas to manufacture the starch on which its growth depends. Now, by supplying this gas in the greenhouse at certain times of the day, we can make the plants grow from two to three times as fast as they would ordinarily, and more luxuriantly.—Popular Science Monthly.

Clock Could Do Most

Everything but Talk

A clock that showed the motions of the sun, marked the years and some historical events was completed by Felix Meyer of New York in 1880 after 10 years' work and experimenting. It showed local time, the hours, minutes, seconds, the days of the weeks and months, the seasons, the signs of the zodiac, the revolution of the earth around the sun and on its own axis, the movements of the planets around the sun and the phases of the moon. It showed the difference in time at Washington, San Francisco, Chicago, Cairo, Melbourne, Constantinople, Peking, London, Paris, Berlin, Vienna and St. Petersburg (Leningrad). A child struck the quarter hour, a youth the half hour, an old man the three-quarters and death the hour; while Washington rose from his seat and, extending his right hand, presented the Declaration of Independence, a servant entered the door and all the Presidents of the United States entered and saluted Washington and passed out through another door.

Rebuke From the Unknown

In the Harbinger of Light (Melbourne) the editor tells a good story against himself.

Some years ago, when having his first sitting with a trance medium, to whom he was a complete stranger, a communication was received from an aunt whose unkind treatment of him as a boy in England had caused him to leave home. She now expressed regret for her conduct, and was freely forgiven.

The amazing part of the interview came at the end, when he was admonished: "Don't let me hear you tell your wife again that I was a shallow-minded woman." These were the exact words used by the writer to his wife when news of the death of this aunt in England reached him in Australia nine years previously.

Famous Gutenberg Bible

Gutenberg produced his first book at Mainz between the years 1452 and 1456—while the Turks were storming Constantinople, and the Wars of the Roses were beginning in England—nearly 40 years before Columbus had sighted America.

The book itself is a splendid folio, without title page or date, and contains 641 printed leaves. So that Goldstein paid for his copy at the rate of near \$350 for each leaf.

Ten complete copies on vellum are known to exist, and 22 complete copies on paper. It is often called the "Gutenberg Bible," or the "Mazarin Bible"—because the copy of it which first attracted the notice of scholars was in the library of the famous Cardinal Mazarin.

Crabs as Prospectors

Agile enough to climb coconut trees, the land crabs infesting the little island of Utiila, off the coast of Honduras, were formerly looked upon as a nuisance. But recently the sixteen-year-old son of one of the inhabitants made a remarkable discovery by their aid.

Near one of the crabs' holes, which they burrow in the ground like rabbits, he noticed some black, strong-smelling mud excavated by the crabs. Experts examined this substance and pronounced it to be high-grade petroleum. It had long been suspected that oil existed on the island, but this was the first "strike."

Just Fit

The teacher had explained that an anonymous person was one who did not wish to be known. A little later in the lesson some one in the class laughed out loud and lessons were halted.

"Who laughed?" demanded the teacher.

"An anonymous person," promptly replied King Baggot, Jr.

Lock Out

wind—rain—weather!

A shingle that locks flat to the roof! All four sides fastened so they can't budge. And attractive—fire-safe—fadeless. Isn't that the kind of shingle you want for your roof?

No wonder Barrett Wedglock Shingles are so popular. They're laid right over the old wooden shingles—they give double protection.

You'll like these new shingles! Come in and examine them. Prices surprisingly low.

We endorse

OUTING AT CAMP DAY

Rotary and Kiwanis Clubs Present
Radio to Y. M. C. A. Camp

A party consisting of members of the Rotary and Kiwanis Clubs of Newton, with their wives and guests, enjoyed an outing at Camp Frank A. Day on Wednesday afternoon. The group left about one o'clock from Westport bridge and arrived at camp about two hours later after being slightly delayed by a heavy shower near Worcester. Frank J. Perry was chairman of the committee for the Rotary Club, and Walter Whalin for the Kiwanis Club.

A four-inning baseball game between a team composed of Rotarians and Kiwanians and a team of counselors at the camp was much enjoyed. Roy Randall was in the box for the visitors, and although he fanned several would-be fence-busters, others connected, and in the four innings a half-dozen runs crossed the plate. The Rotary-Kiwanis team was saved from a shut-out when Fred Hawkins hit a home run in the third inning. Frank Perry at second base for the losers contributed a marvelous stop which staved off a run in the final inning.

The players felt the call of the bathing suit and forsook the ball and bat for that popular summer sport. A few of the ladies also took advantage of the opportunity for a swim. After getting cooled off in the waters of the lake and succeeding in working up an appetite, everyone seconded the welcome call to eat. Chief Timmins provided an excellent beefsteak supper, and when Doc Clark brought him out from the kitchen to receive the greetings.

The group then gathered in the camp library before the majority of the 140 campers, where Camp Director Hess introduced Dr. Cecil Clark, president of the Rotary Club, and turned the meeting over to him. The latter gave a short talk on the objectives of the service clubs and introduced the Kiwanis Club, who were also greeted heartily. Before noon of that day an automobile bearing a mysterious burden arrived at camp and much secret activity by Walter Moore and his assistant, Eddie Mason, aroused the campers until they discovered that a radio was being installed. Dr. Clark told the boys that it was the gift of the Rotary and Kiwanis Clubs, and when not in use at the camp would be set up at the local station. He called upon Walter Moore to tell the boys about the set. It is a C-7 Superheterodyne set, similar to the ones adopted by the U. S. Navy about three years ago. Mr. Moore put the set together himself, and for the past few weeks has been testing it out. It worked to perfection and brought in 2LO, London, once, California several times, and other distant stations clearly. For some reason or other it would not work satisfactorily on Wednesday, due probably to atmospheric conditions, but Mr. Moore assured the boys that he would have it working within a few days.

Mr. Harry Bascom, general secretary of the Y. M. C. A., thanked the Rotary and Kiwanis Clubs for the gift and requested Dr. Clark to do his now famous act for the boys. This little sketch of nonsense, as Doc Clark calls it, was the climax for the boys' enjoyment, and it was a treat to hear their laughter.

POLICE NEWS

Louis Wenieur of Auburn street, Boston, was fined \$20 in the Newton Court on Friday last for driving within 8 feet of a street car that was stopped for passengers. Traffic Officer Taffe had the complaint issued, but it was a difficult job to find Wenieur, as he did not answer summons issued to a couple of addresses. Finally Inspector Goode got on his trail and arrested him.

Persons who think they can explode firecrackers or like instruments of torture, on days other than the Fourth of July, should take heed from the fate of George Clark of Lowell, who was fined \$10 in the Newton Court last Friday. George fired one firecracker without a permit.

John McNeil of Lynn was arrested Saturday night by Patrolman McGrath, charged with driving while under the influence of liquor. He was in court Monday morning, and his case was continued until August 3.

Eliot Rogers of 79 Hillside avenue, West Newton, was arrested Sunday night by Patrolman Conlon, charged with driving without either a license or registration. He will be tried August 3.

John Freeman of Framingham was fined \$10 in court on Monday for speeding.

ON THE OLD FRONTIER

The National Editorial Association Visits the Wild and Woolly West of 50 Years Ago

(Continued from last week)
That evening we started on a ten days' educational tour of Nebraska and the Black Hills of South Dakota.

It might be well at this time to give a short and concise account of Nebraska.

Nebraska calls itself the "bread-basket of the country" and I must confess that my previous ideas of the country underwent a remarkable change. Instead of vast prairies, I saw hundreds of acres of highly cultivated land and only in the far western part of this state was it necessary to irrigate.

Nebraska is about nine times larger than Massachusetts and is about the size of all New England with Vermont included twice. Placed on the map of the United States, it would reach from Boston to Albany in one direction and from Boston to the North Carolina boundary line in the other.

It has a population of about 1,300,000 or less than Greater Boston, which contains 1,800,000 population. In the matter of education Nebraska easily outclasses Massachusetts having 1.4% of illiterates and 4.1% of illiteracy in native born whites, whereas Massachusetts had 4.7% of illiteracy with 4.1% of native born whites. The University of Nebraska has 11,000 students.

Notwithstanding its rather poor roads, the state has a large number of automobiles, one for every five persons in the state. The number scheme is rather interesting. When registration was first required, the various counties in the state were listed by the number of machines in each, the county containing Omaha being ranked 1, Lincoln 2, etc., and the first number on the registration plate is the county from which the automobile is registered. The same system is followed in South Dakota, which we visited a little later.

Our first stop was at Fremont, named after the Great Pathfinder of that name. After a fine breakfast we took the train for Stanton, where automobiles were in readiness to drive us to Norfolk, the largest city in northeastern Nebraska.

Our entertainment at Norfolk was marred somewhat by a drizzling rain, but enough of the program was carried out to give us some indication of the warmth and enthusiasm of our welcome. On our way from Stanton we stopped for a few moments at the live stock pavilion of the Nebraska Hospital for the insane and the agriculturist of the party revelled in an exhibition of fine cattle, horses and hogs. Norfolk, itself, largely due to the good work of one of our women editors, Mrs. Marie Weeks, simply did itself proud. The town was in gala attire, with numerous side-shows and exhibitions including one of high diving. But the parade was the chief feature and for it floats had been entered from all the surrounding towns, one coming a distance of 80 miles. Twenty bands and floats had been promised but only 12 appeared, the bad conditions of the roads making it dangerous for the awkward floats to make the trip. The floats in the parade were most elaborate and interesting and showed a great deal of preparation and hard work.

There was a banquet that evening at which one of the most prominent features was the presence of several of the old frontiersmen whose names were well known fifty years ago. There were Dr. Richard Tanner, known as Diamond Dick, whose home is in Norfolk; Richard W. (Deadwood Dick) Clark, Deadwood, S. D.; Maj. J. W. (Pawnee Bill) Little, Pawnee, Okla.; and Doc W. F. Carver (Evil Spirit of the Plains), who now lives in Tampa, Fla.

The last was an enormous man who carried his 86 years with the grace of a college athlete.

I was surprised to see that most of these men were but a little older than myself, and it was evident that these exploits of which we have often heard must have been performed by comparatively young men or even boys.

An enjoyable as well as one of the most charming features of the evening was the presence and the singing of a group of young business women of the city.

During the night our train of ten sleepers carried us to the far northwestern portion of the state with Chadron as our objective (pronounced as if spelled Shadron).

Chadron is the gateway to the Black hills country and is a little city of 5,000. It is near the Sioux Indian reservation and quite a large party of braves, squaws and children were there to welcome us with dancing and music (?).

Some of our party were invited to dance with them and it was an odd sight to see how gravely, and solemnly they swayed and shimmed about.

A fifty mile auto ride followed breakfast and we passed by a small section of the bad lands on our way to what is called the "table." The table is a flat plateau some 4300 feet elevation or 1000 feet above Chadron and the surrounding country and rich in agricultural possibilities. We were told of one farmer who cultivated 700 acres of this land entirely by machinery.

A barbecue dinner followed at the Nebraska state park of 640 acres the first park in the state.

We reached Hot Springs, South Dakota, late Friday afternoon and were immediately taken on a drive around the city. Hot Springs is built right in a canyon and consequently the drives are mostly up or down. We climbed up and up but the view from the top was well worth the trip. Below us was the Soldiers Home which the federal government has erected for its veterans at a cost of a million and a half. Near it is the 150 bed hospital just built for tubercular victims of the World War. The soldier boys are well entertained with band concerts, radio and movies.

On the opposite side of the canyon is the South Dakota State soldiers' home. We made a stop at the Country club and the golfers in the party expressed much regret that time did not permit a try at what must be a remarkable course. The first hole is a drop from the clubhouse about 150 feet and out about another 100 feet.

Hot Springs takes its name from a number of hot water springs in that vicinity, the largest being the Evans Plunge where 50,000 gallons of warm pure water pour through the pool every minute. This pool is 200 feet long and 60 feet wide.

A few days later we heard that there had been a cloud burst in this little city and that an automobile which happened to be on the bridge at the time was swept down the valley and three persons drowned. As we recalled this neat little city, tragedy seemed the last thing in its existence.

Saturday was the big day for most of our party for the program included not only a trip through the wonderful Black Hills but an opportunity to meet President and Mrs. Coolidge at their summer home.

Our first stop out of Hot Springs was at Wind Cave in Wind Cave National Park. Wind Cave was discovered by a cowboy who passing by heard the whistling of the wind making its way through a small opening in the side of the mountain. Further exploration revealed an enormous cave, with over a hundred miles of explored passage and over 3000 subterranean chambers.

To me the cave was most disappointing. It was poorly lighted, mostly with candles, the passageways were narrow, the footing wet and uncertain and the touted beauties of rock formation were not conspicuous. After travelling about half way, a large number of us concluded we had had enough and after waiting for the rest of the party to pass, tried to make our way back to the entrance. On the way we met another party making its way in and the guides, who should have assumed control at once, lost their heads and both parties stood at a dead lock for a half hour in a narrow and poorly lighted passageway. It is needless to say that "we won't go there any more" and we should advise everyone else to omit the Wind Cave from their itinerary of that region.

We had lunch at a new and hastily built pavilion near the Summer White House and it was my good fortune to be the first to greet President and Mrs. Coolidge.

I had finished lunch and was standing in front of the pavilion when an official car containing the President and Mrs. Coolidge stopped within a dozen feet of where I was standing and Mr. and Mrs. Coolidge got out. As the President turned around assisting Mrs. Coolidge from the car, he recog-

scenery is almost beyond adequate denized me and gave me a cordial hand-grasp and an introduction to Mrs. Coolidge. They only stopped at the pavilion a moment, merely to look over the party whom they would meet a little later.

Our party with several hundred others were received by Mr. and Mrs. Coolidge on the lawn immediately in front of the State Lodge, and after the reception the President made a few remarks.

As the President and Mrs. Coolidge returned to the veranda of the Lodge, there was considerable applause which was greatly augmented when Mrs. Coolidge came running down the lawn with a small moving picture camera and snapped the crowd as it stood on the lawn. Mr. Coolidge made quite a hit with all those present but Mrs. Coolidge won the hearts of everyone and even Democratic editors from the South were heard to say they would be perfectly willing to vote for her for President.

Mr. Coolidge never looked better in my estimation but Mrs. Coolidge seemed frail and wan, although still charming and vivacious as ever. Leaving the Summer White House we enjoyed one of the most interesting and impressive drives I have ever taken. The road was good and the (Continued on Page 6)

Where Are Your Friends?

The day's work is done. Supper—or dinner, if you please—is over. Bedtime is not yet.

You think of Bob, away at school. Or Mary, married, her children tucked in for the night.

Or Dad. Or Mother. Or distant friends.

The telephone bell rings. "Yes? . . . Who? . . . Well! Well! Well! This certainly is a pleasure."

Others would feel as you do at receiving such a social call.

Here are station-to-station * rates to typical nearby and distant points after 8.30 P. M.

EDITORIAL

Notwithstanding the importance of keeping our election machinery up to the highest standard of efficiency, we very much doubt if there are fifty persons in this city of over 20,000 voters who will take any interest in the hearings which are to be given this fall on proposed changes in our election laws.

Probably the principal question to be heard this fall is not the larger issues of the Short ballot or the abolition of the primary election, but the advisability of creating an additional primary for the election of delegates to party conventions, which would approve the nomination of candidates whose names would later be found on the regular primary ballot. The general idea underlying this plan—of giving the average or indifferent voter some indication of the best candidates for whom he should vote—is admirable, but we have grave doubts if the new primary would attract this class of voters more than the present primary, and if this interest is lacking there would be grave danger that the convention could be controlled by politicians and its approval given to the least desirable candidates.

After many years of experience with political questions, we have come to the conclusion that the only permanent solution of the question is not the abolition of the primary (although that might be desirable if other methods fail), but by the adoption of the Short ballot. As its name indicates, the Short ballot reduces the number of candidates to be elected by the people to only the important offices, such as United States Senators, Congressmen, Governor, State Senators and Representatives, all other offices to be filled by appointment. By limiting the elective ballot to these offices, it is believed that more interest will be taken by the average voter and the primaries better attended than at present.

In order to prepare for the Short ballot it will be necessary to change the constitution, which now provides for the election of district attorneys, sheriffs, clerks of courts and registrars of probate, and this will take at least four and possibly six years, as it must be acted upon by two successive Legislatures and then submitted to the people. We hope some action along this line will be taken by the next Legislature. In the meantime we would like to see a return of the convention system for such offices as State Treasurer, Secretary, Auditor and Attorney General, and county officials. We do not agree with many voters that the convention system ought not to be revived just because it was badly abused a generation or so ago. It is a reflection on the brain power of this generation to say that it cannot create a convention plan which will eliminate the objectionable features of the old scheme.

While we very much doubt if the so-called "triangle lot" at Commonwealth avenue, Walnut and Homer streets, can be purchased for the amount of money voted by the Board

Successors Since 1890

50 Bromfield Street Boston

of Aldermen, we are glad to see something done towards acquiring this property for civic purposes. We do hope, however, that after the property has been acquired that there will be nothing done towards a new City Hall. The city is in no financial condition to bear this unnecessary expense, and there are many other ways of using the taxpayers' money which will do far more good than a new office building.

If we understand the situation correctly, the action of President Weeks in ruling out of order the charter objection raised by Alderman Hodgdon to the passage of the order for widening Elm street under the betterment act, may raise a serious question as to the validity of the betterments which will be levied on the Elm street abutters, after the work is finished. Alderman Hodgdon was clearly within his rights in raising the charter objection, and that action cannot be set aside by any dictum of the chair or be made the subject of an appeal from the ruling of the chair.

If the Republican party really desires to elect a United States Senator next year to succeed Senator David I. Walsh, it will have to seek a stronger candidate than former Senator William M. Butler. Mr. Butler would make an excellent Senator, but Walsh has beaten him once and, in our humble opinion, can do so again.

It takes the summer time to induce our city government to appropriate money; \$250,000 for a new school house, \$90,000 for the triangle site, \$50,000 for street improvements, are some of the larger items voted last Monday at City Hall.

The Aldermen are to be commended for widening Elm street between Washington and Webster streets. It is a step in the right direction. Now, gentlemen, take similar action at St. James street.

Another accident at the corner of Church and Centre streets shows the necessity of cutting down the hedge which now obstructs the view of the motorist.

We breathe a sigh of relief now that the daily papers have nothing on the Dempsey-Sharkey fight.

NEWTON STUDENTS INCLUDED

Among the 1200 students attending the 13th annual Boston University summer session, which closes on Aug. 13, are 27 students from the Newtons, of which number seven are from Newton.

These students and the courses they are taking are as follows:

From Newton—Miss Muriel L. Anderson of 171 Charlesbank road, music; Fred W. Hubbard of 36 Boyd street, business English and drama; Miss Rose V. Hughes of 181 Cabot street, biology and mathematics; Miss Marguerite M. Watts of 21 Laurel avenue, economics and English; Miss Miriam E. Marshall of 78 Washington street, mathematics; Miss Beatrice H. Simmons of 20 Marlboro street, history, and Miss Blanche Wilde of 82 Arlington street, comparative literature and psychology.

From Newton Centre—Miss Ruth C. Bieler of 90 Lake avenue, history; John W. Coons of 30 Lake avenue, biology and psychology; Miss Anna M. Dean of 33 Braeland avenue, education; Miss Hester M. Leitner of 41 Norwood avenue, education and English; Miss Ruth R. Pearson of 73 Lenox street, drama and English; Miss Edna Snyder of 463 Waverley avenue, drama.

From West Newton—Wendell F. Smith of 1660 Washington street, economics, education and history; Charles F. Tower of 63 Perkins street, music; Miss Eleanor Warren of 32 Lenox street, shorthand, and Miss Marguerite M. Watts of 21 Laurel avenue, education.

From Newton Highlands—Miss Eleanor H. Clark of 38 Allerton road, typewriting; Miss Esther Clement of 1053 Walnut street, education, and Miss Dorothy L. Goddard of 154 Lincoln street, chemistry and English.

From Newtonville—Miss Florence A. Amidon of 106 Austin street, typewriting; Miss Elizabeth R. Desmond of 51 Wildwood avenue, shorthand; Carl F. Holloran of 9 Clarendon street, history; Miss Frances R. Scipione of 146 Walnut street, Italian, and Miss Louise A. Webber of 65 Withington road, chemistry.

From Auburndale—Mrs. Harriet S. Holden of 30 Grove street, German.

From Newton Upper Falls—Miss Maude C. Sullivan of 209 Elliot street, education.

CAMP NEWS

By Harold P. Carver, N. H. S. '26

One of the finest aspects of the mountain camps is the hiking program that they are able to carry out, while the seashore places have the opportunity to give the would-be sailors training on the sea by means of sail boats and like craft. This period of the year is the time when all the camps are planning for their ultimate goal, be it a field day or final competition. The cancellations are increasing their instruction in order to have everything ready for the final efforts of the boys, and the campers, in turn, are working a degree harder because they want to be able to show their improvement to the lookers-on.

The tutoring camps have long been noted for their extreme usefulness to the tired school teachers because they fill a long-felt need. In such a camp a boy will study harder in order to be able to get outdoors and enjoy his play time. In Pennsylvania there is such a camp. Here at Susquehanna a number of the finest instructors in the country gather in order to teach and at the same time have some recreation. Mr. Paul E. Ellicker of the Newton high schools is one of the foremost teachers that attend this camp, and instructs in his specialty, mathematics. Other boys from Newton that attend this camp are John Proctor, the star athlete of this year's athletic season at Newton; Langdon Powers, the hockey star, and Norman Paine, the ball player from the Upper Falls. The work that this particular camp does can be seen when a man will come back from his summer vacation and pass off conditions in studies that had bothered him the previous spring.

The Megunticook Camps are known all over the United States for their versatility and ability to keep all the boys interested. This is done by a unique system of grading the various camps according to the strength and ability of the boys. The younger boys are nearer civilization, while the huskier crew go up the river into the wilder parts and there perform their canoeing stunts without any other help than the instruction of the trained counselors. One of the boys at this last and hardest of camp sites to reach, called Trail's End with a deal of truth in the title, is William Locke of Newtonville. He is an expert swimmer and is aiding in the teaching of the prospective swimmers that have difficulty in that northern country.

At Camp Idlewild the return home of Albert Robinson is the news of the season at this time. His younger brother, Elliot, however, is staying over and has shown some skill at all the camp sports.

Leonard Clark at Mishe Mowkwa is working hard to get into shape for the busy football season that he faces in the other, which constitutes a fair record for a week's achievement. The stars of the tennis are John Booth and Joseph Wesson, both of whom have been turning back the opposition with regularity. Albert Hutchinson has shown a decided improvement over last year's form in the tennis and is in his way to the winning of the Senior Cup for tennis. In the swimming events Robert Chapin and Lincoln Paige have shown unusual merit for their various events. Chapin has consistently won the back stroke and breast stroke since his advent at camp and Paige is one of the finest divers for a youngster that I have seen the writer pleasure to see. During the past three days Arthur Noble, an old camper, and Louis Volpe have been visiting the camp, and while they were here, amused the camp by playing some exhibition tennis with the Hoyt-Pelphs-Scott combination that has withstood almost all the attacks on its ability. The basketball season has quieted down for the time being since the other camps are becoming busy in their other types of sports, but the practise still continues. One of the better players on the Junior team, that has won all its games, is Carl Davis. He is a small left-hander, but his aggressiveness and the wonderful knack that he possesses of finding impossible chances have made him a fine prospect in years to come.

KIWANIS CLUB

The weekly meeting of the Kiwanis Club at Norumbega Park restaurant on Tuesday was attended by 60 members. In the absence of President Colburn, William E. Cahill presided. The gathering was entertained by moving pictures which showed the different processes used in manufacturing biscuits and cookies.

MRS. ESTHER J. LEACH

Mrs. Esther J. Leach, widow of George Leach, died on July 20th, at her late home, 22 Knowles street, Newton Centre. She was 80 years of age and had lived in Newton for 18 years. Her funeral services were held on Saturday and were conducted by Rev. Enoch Bell. Interment was at Biddeford, Maine. She is survived by a daughter, Miss Mattie Leach.

EDISON LINEMAN SHOCKED

William Drew of Concord avenue, Cambridge, employed as a lineman by the Edison Company, received a shock while working on a pole on Elliot street, Upper Falls, on Wednesday afternoon. He was taken to the Newton Hospital, where it was found that he had received slight internal injuries.

Strength That Counts.

Most men do not lack strength, rather the will to use it, and knowledge how best to apply it. Physical strength needs the will to decide and the brain to direct, to insure use that will prove profitable.

CHESTNUT HILL SCHOOL

Bids for the various contracts for the erection of the "John Ward" School on Dolphin road, off Ward street, Ward 6, were received by Building Commissioner Chadwick on Monday. They were as follows:

General Contract:—Joseph S. Greenwood, Boston, \$171,823; Phandor Company, Boston, \$180,873; John MacDonal Construction Co., Boston, \$181,455; C. S. Cunningham & Sons Construction Co., Boston, \$182,265; P. J. Cantwell, Dorchester, \$183,800; Lawson W. Oakes, Boston, \$209,993.

Plumbing Contract:—R. H. James & Co., Newtonville, \$11,310; James S. Cassidy, Cambridge, \$11,535; Chisholm Heating & Plumbing Co., Lowell, \$11,877.

Heating Contract:—Stone-Underhill Heat. & Vent. Co., Boston, \$22,762; James S. Cassidy, Cambridge, \$23,850; T. J. Duff, Boston, \$24,665; R. B. Crocker Co., Boston, \$24,774; P. J. Kenneally Co., Boston, \$25,200; F. W. Zemeir Co., Boston, \$26,000; McLean & Cousins, Boston, \$26,569; Lynch & Woodward, Boston, \$27,088; Chisholm Heating & Plumbing Co., Lowell, \$27,500.

Electric Contract:—Barnes-Pope Electric Co., Boston, \$7,995; Carlisle Electric Co., Boston, \$8,687; Edwin C. Lewis, Inc., Boston, \$8,997; James Wilkinson & Co., Boston, \$9,066.

Sheet Metal Contract:—George H. Priggen Co., Boston, \$4,254; F. W. Montgomery, Boston, \$4,627; James S. Cassidy, \$4,857; Dulbrook Ventilating Co., Boston, \$5,688.

Pipe Covering Contract:—Keasbey & Mattison, Boston, \$1,200.

Painting Contract:—James I. Wingate & Son, Boston, \$6,940; Albert D. Howlett Co., Boston, \$7,461; Johnson & Nordstrom, Newton Centre, \$7,905; August Johnson & Co., Newtonville, \$8,200.

The contracts were awarded yesterday by Commissioner Chadwick. The general contract was given to the Phandor Company; the heating was awarded to Stone, Underhill Company; the plumbing to R. H. James & Co.; the sheet metal to George H. Priggen & Co.; painting to James I. Wingate & Son; pipe covering to Keasbey & Mattison; electrical work to Barnes-Pope Company.

The school will be of English Tudor architecture and will contain 11 classrooms and an assembly hall. It is expected that it will be ready for occupancy in September 1928.

COMPANY C RETURNS

(Continued from Page 1)

women who had succumbed to the heat and had fainted.

Under string orders to use no force, the men of the company won high compliments from the battalion commander for their efficiency in carrying out their assigned duties without disorder.

On Saturday the company took part in the final review of the division in Boston and embarked for home in M. and B. buses.

At Littleton, Lt. Col. Sinclair Weeks, president of the Newton Board of Aldermen, visited the company and extended the greetings of the city. He was also called on to address the entire regiment, during the evening's entertainment, by Rev. William J. Farrell, formerly of St. Bernard's Church, West Newton, chaplain of the 101st Infantry.

At Concord, Commander Julius Ramm of Newton Post of the Legion, was among the visitors.

Despite the rigorous training of the two weeks, not a man reported at the regimental infirmary for illness, other than minor ailments that were quickly remedied.

"We had the most successful tour of duty of any that I can remember," Captain Hickey said. "The men did their duty splendidly and showed that they are ready for service. The manner in which they performed police duty at Boston Common, where a mistake might have caused disorder, speaks for itself."

The company will hold a drill on Monday night, August 1, at which time the pay checks for Army drills will be distributed. The men were paid off last Saturday for their two-weeks' tour of duty. The regular drills will not be resumed again, excepting next Monday night, until the Monday following Labor Day.

MARRIAGES

LANE—KERRIVAN, on July 27 at Upper Falls by Rev. Frederic Driscoll, John A. Lane of Somerville, and Gertrude M. Kerrivan of 91 Pennsylvania avenue, Upper Falls.

CARROLL—SULLIVAN, on July 24 at Brookline by Rev. A. R. Finn, John J. Carroll of 28 Chandler place, Upper Falls, and Julia Sullivan of Brookline.

SVENSON—McGRATH, on July 23 at Jamaica Plain by Rev. James Lane, Arvid Svenson of 9 Elm street, West Newton, and Edith McGrath of Jamaica Plain.

KNOX—ROSS, on July 21 at Cambridge by Rev. Wm. Goble, Ernest Knox of Cambridge and Maude A. Ross of 11 Forest avenue, West Newton.

REAL ESTATE

John T. Burns & Sons report that final papers having been recorded whereby V. C. Wetmore conveys to Fred B. Fowler the single-family frame ten-room house located at 44 Lake Wood road, in the Crystal Lake district of Newton Highlands. With the house there is a garage and 9000 square feet of land, the total valuation of the property being \$14,000.

Burns & Sons also report that they have sold for Dr. Charles Graepke a lot of land on Centre street, corner of Lombard street, Newton, 10,000 square feet and valued at \$4000. Frank L. Gray was the purchaser and will start immediately the erection of a home thereon.

ALDERMANIC MEETING

(Continued from Page 1)

permit for three-car garage at 239 Webster street. Telephone company, permit for underground conduit on Bigelow road; Edison Electric Company for pole location on Derby street.

Those residents on, or near, White avenue (which is anything but an avenue) at Newton Centre who for years have been endeavoring to have a sewer constructed in that lane, finally achieved success on Monday night. Mrs. Hansbury, who stated she has six children, and Mrs. Ardino, who said she has four, both complained of bad sanitary conditions on White avenue because of overflowed cesspools, and asked for the sewer to protect their children's health. Garfield Appleyard of 171 Jackson street, who has a frontage of property on White avenue of 171 feet, objected. J. F. McNary, representing the McCarthy estate, stated that this family has owned property abutting White avenue for 218 feet since 1866, and should not be obliged to pay the greater part of the cost of the sewer for the benefit of persons who bought land at the rear of White avenue at a very low price, and who will have to pay but little for the improvement. As the Board of Health has requested repeatedly that a sewer be built in White avenue, the aldermen voted to have this work done.

Other streets on which sewers will be built are: Pilgrim road, from Waban avenue southerly, Ward 5; Waban avenue, from Neholiden road to Pilgrim road, Ward 5; Gate House road, from Newton street southerly, Ward 6; Chestnut Hill road, from southeast of Gate House road, southerly, Ward 6; Adena road, from Derby street northerly, Ward 3; Kilburn road, from Henshaw street to North Gate Park, Ward 3; Llewellyn road, from Rangleley road, easterly, Ward 3; North Gate Park, from Kilburn road easterly, Ward 3; South Gate Park, from Kilburn road easterly, Ward 3; Rangleley road, from North Gate Park to Derby street, Ward 3; Rangleley road, from Derby street to Pleasant street, Ward 3; Derby street, from Rangleley road South to Rangleley road North, Ward 3; private land, from Kilburn road to Kilburn road, Ward 3; private land, from Hawthorne avenue westerly, Ward 4, drain only.

F. H. Smalley of 109 Auburn street asked for information regarding the widening of Auburn street near Greenwood. W. K. Greenwood objected to a 12-foot wide being taken for a distance of 150 feet on his land. He thought that just the corner of the two streets needs to be widened.

Alderman Bail told the board of the donation to the city by the Working Boys' Home of land to permit the widening of the corner at Winchester and Nahanton streets. Dr. Fred Lowe took the floor to plead for the widening of Elm street from Washington street to beyond Webster street. He stated that he has lived at 1354 Washington street for 30 years, and that he has witnessed many accidents at the corner opposite his residence. He told of the many near-promises made by the Board of Aldermen that Elm street would be widened, but that the widening had never been done. He said he had obtained 300 names on a petition for the widening, without any trouble.

Alderman Hodgdon asked whether the hearing was on taking the land for the widening of Elm street under the Betterment Law, or under the General Law. President Weeks answered that the hearing was on both propositions. Mr. Hodgdon expressed the opinion that the two matters are quite distinct and should be considered separately. Mrs. George C. Ellis of 90 Elm street objected to her land being taken under the Betterment Act. She stated that the best part of her land will be taken, and as she owns half the strip on the east side of Elm street south of Webster street, she protests against betterments being assessed.

George Brophy, president of the West Newton Business Men's Association, told of the great amount of trucking along Elm street from Border and Webster streets, and of the need of widening between Webster and Washington streets.

George Hatch also favors the widening. He spoke of the bad fire hazards in the district along Border street, and the difficulty the fire apparatus experience in travelling over narrow Elm street.

Fletcher Hyde asked that George street be graded and accepted under the Betterment Act. He characterized this street as a dust bin in dry weather and a bog in wet weather. Herbert Farrier and other residents of Hawthorne avenue asked for the improvement and acceptance of that street. Mrs. Peckham objected to the improving of Tolman street, as she is a widow and cannot afford the betterment assessments. Daniel Needham asked that Whittier road be improved as it is almost impassable. Theodore O'Clins also asked that this road be accepted.

Other streets which the aldermen are asked to grade and accept under the Betterment Law are Charlotte, Hazleton, Winchester and Winslow roads, Laurel and Hawthorne avenues and Kenmore street.

Fred Connolly, speaking for Joseph Peruzzo, asked for a waiver of the setback line on Wiltshire court from

Peace and Friendship

A Japanese student declares that America is full of "Peace and Friendship." Peace and Friendship belong to the man who keeps a growing account in the Newton Savings Bank.

Dividends have been paid at the rate of 4½% since 1917

INTEREST BEGINS AUGUST 10TH

NEWTON SAVINGS BANK
"The Place for My Savings"

15 to 8½ feet. Questions by Alderman Madden brought out the facts that Peruzzo wants to build two houses, one on a lot 3609 square feet in area, and the other on a lot 4500 square feet. According to Connolly, Peruzzo had excavated his cellars before he knew of the restrictions. Protests have been received against this waiver being granted. John J. Sullivan of Wiltshire road objected to a waiver of the setback on the lot at the corner of Adams street and Wiltshire road being granted to Antonio Magni. Magni desires to build a house only 3½ feet from the street line. Mr. Sullivan called attention to the several petitions for widenings of street intersections which the aldermen had considered just before. He told the board that the corner in question is a dangerous one, and located directly across from a large school. There is one blind corner at this street intersection now, and to grant the waiver asked for, would make both corners very hazardous.

The hearing on the petition of John Janse for an addition to his cow barn at 443 Parker street, occasioned a vigorous protest from Margaret McHugh of 439 Parker street, who on previous occasions has objected to similar petitions of Janse's. She claims that Janse's barn is only 10 feet from her bedroom and a terrible odor comes from it. She stated that he has 10 acres of land and should build another barn away from her house. Janse replied that his premises are given a very high rating by the Board of Health and that the objection of Miss McHugh is based on spite because he would not buy her father's milk business. Miss McHugh retorted by asserting that Janse was telling an untruth.

Chairman Collins of the Finance Committee told the board "that while he disliked to call for a recess, one was necessary to consider the matter of appropriating \$250,000 for the Chestnut Hill school, in order to have this building enclosed before next winter and permit of its completion in September, 1928. The bids for the

construction of this school had been just received on Monday, but if any member objected, he would not ask for a recess. Alderman Heathcote said that the first he knew of the plans of the Chestnut Hill school was when he saw an account of it in the paper last Saturday. He commented that while it is easy for a layman to "O.K." the plans for a school costing \$250,000, it is not fair to the city to rush such an appropriation through, and it may not be legal. He read the Rules of the Board of Aldermen which state that committees shall not sit later than 6 p. m. on the afternoon of any day on which the board meets, unless especially authorized, and that orders appropriating money for current expenses of the city, reported by the Finance Committee, shall be printed, and a copy mailed to each member at least one day before the meeting when such order is to be presented. He asserted that these rules had been ignored at the meeting held on July 8, that the appropriations made at that meeting were illegal, and he asked for a ruling from City Solicitor Bartlett. Mr. Bartlett stated that he did not care to answer Mr. Heathcote's questions regarding the July 8 meeting until he had an opportunity to examine the records of that meeting. A recess was then declared to allow the Finance, Public Works and other committees to meet.

When the aldermen re-assembled at 12:45 Tuesday morning, large bond issues were authorized and appropriations made, including those for the school, the taking of land at the "triangle," and the widening of Elm street; the details of the discussions on these matters are given elsewhere.

How to Play BRIDGE

A new series of lessons by
Wynne Ferguson
Author of "PRACTICAL AUCTION BRIDGE"

Copyright 1926, by Hoyne, Jr.

ARTICLE No. 17

The writer has pointed out many times in these articles the folly of bidding no-trump with hands that contain a singleton or void suit. Such hands seldom score game at no-trump unless partner has the missing suit, so with this type of hand bid a suit, if possible, on the first round. By so doing, you will give partner and opponents a chance to bid and your subsequent procedure depends entirely on their bidding. Unless your partner bids the missing suit, don't venture a no-trump bid for it seldom produces a game. With such a hand, a suit bid is preferable. The following is an excellent example:

Hearts—A, 8, 7, 3
Clubs—K, J, 10, 4
Diamonds—K, Q, 3
Spades—8, 3

Y :
A B :
Z :

Hearts—Q, J, 10, 4
Clubs—A, 7, 3

Answer to Problem No. 20

Hearts—8, 5
Clubs—none
Diamonds—A, 10, 9, 8, 5, 3, 2
Spades—K, 8, 7, 6

Y :
A B :
Z :

Hearts—A, K, 7, 3
Clubs—J, 6, 4, 2
Diamonds—4
Spades—A, J, 9, 2

No score, first game. Z dealt and bid one heart, A two clubs, Y two diamonds and B three clubs. Z now bid three spades and all passed. A opened the ace of clubs and Z trumped in dummy with the six of spades. How should Z plan the play and it is possible for him to score game? Z should endeavor to establish a cross ruff and use up all his trumps, if possible, in this manner. He should lead the five of hearts from Y's hand, winning the ace in his own hand. He should then lead a club from his hand and trump in Y's hand. He should then lead the eight of hearts from Y's hand. If B passes this trick, Z should win it with the king and lead another club, trumping in Y's hand. Y should then lead the ace and deuce of diamonds, trumping in Z's hand with the nine of spades. Z should lead his last club, trumping in Y's hand with the king. Played in this way, Y-Z should score game, making four trump tricks and the ace of diamonds in Y's hand and three trump tricks and the ace, king of hearts in Z's hand. At trick four, however, B can save game by trumping Y's eight of hearts and leading trumps. This trump lead will prevent Y from ruffing the fourth lead of clubs and so save a trick and game. It is a pretty hand both on attack and defense and should be carefully noted.

Answer to Problem No. 21

Hearts—K, J, 8, 6, 3, 2
Clubs—none
Diamonds—K, Q, J, 9, 7, 4
Spades—9

Y :
A B :
Z :

Hearts—A, Q
Clubs—8, 2
Diamonds—A, 10, 8, 3, 2
Spades—Q, 10, 8, 2

Hearts—7, 5
Clubs—A, Q, 7, 3
Diamonds—6
Spades—A, K, 7, 6, 5, 4

No score, first game. Z dealt and bid one spade, A doubled, Y passed and B bid two clubs. Z bid two spades and all passed. The bidding of this hand is not sound but the only question to be decided is: Can Y-Z score game at spades against the best defense if A opens the ace of diamonds and follows with a low diamond? Y-Z cannot go game if B trumps the second diamond lead with the jack of spades. If Z overtrumps, A is bound to make three trump tricks.

Answer to Problem No. 22

Hearts—none
Clubs—A, J, 10, 8, 4, 3
Diamonds—none
Spades—J, 10, 6

Y :
A B :
Z :

Hearts—Q, 10
Clubs—K, 2
Diamonds—9, 4
Spades—9, 8, 2

Hearts—A, 8, 5
Clubs—Q
Diamonds—10, 8, 7
Spades—A, 3

There are no trumps and Z is in the lead. How can Y-Z so play the hand that they will win at least five tricks against any defense? Z should lead the queen of clubs and overtake with the ace in Y's hand. Y should then play the trey of clubs, forcing B in the lead with the king. On this trick, Z should discard

the ace of spades. If he makes any other play, Y-Z cannot score five tricks. By Z's discarding the ace of spades, however, A-B can only score one club trick, one heart trick and two spade tricks. Play out the variations for practice for it is a tricky little problem and worthy of careful study.

CENTRAL CHURCH NEWTONVILLE

11 A. M. Union Service in
Methodist Church.

Newtonville

—Call H. A. McDonnell, 6 Highland terrace (Newton North 4674), for anything in the carpenter line.—Advertisement.

—Mr. and Mrs. William Henderson and family of Otis street left this week for a month at Mattapoisette, Mass.

—The Frost Family Association, of which Mr. John E. Frost of Clyde street is secretary, will hold its 31st annual meeting next Tuesday at Salem Willows.

—Mrs. J. A. Chaffee and daughter Miss Virginia Brown of Harvard street are spending the week with Miss Gertrude Lane at her summer home, Hamlin, Conn.

—Dr. and Mrs. W. P. O'Halloran of 107 Central avenue called Tuesday, July 26th, on the SS Chatham of the Merchants & Miners Line from Boston to Baltimore, Md.

—Mr. and Mrs. Herbert C. Hovenden of Glendale, Calif., are receiving congratulations on the birth of a daughter. Mr. Hovenden formerly resided on Austin street.

—Miss Constance McGlinchey of Elm road has returned to New York to finish a season interrupted by illness and her sister, Miss Claire McGlinchey, who is teaching Shakespeare in Hunter College Summer School, will spend the late summer in England sailing on "Scythia" August 13 from New York.

—The Closing Program of the Newtonville Community Vacation Church School will be held Friday morning, July 29, at ten o'clock. The school has been in session from nine to twelve o'clock in the forenoon since July 6. The closing program will consist of demonstration work that the boys and girls have done during the school. Handwork will be on exhibition. Certificates will be granted to all those who have attended at least ten days. The program will be given in the Methodist Episcopal Church where the school has been meeting. The school is held under the auspices of the Newtonville Community Council of Religious Education of which Rev. J. W. Spiers is acting president.

Newton Highlands

—Miss Helen Cox of Walnut street is spending her vacation in Nova Scotia.

—Mr. and Mrs. George R. Loud left this week for Sebago Lake where for two weeks they will be guests of Rev. E. J. Dennen.

—Mr. and Mrs. Frederick J. Elliott and their son leave on Saturday next for Vineyard Haven, Mass., to spend the month of August.

—Miss Helen Wood of Rochester, N. Y., has returned there after spending several weeks at the home of her parents on Walnut street.

NEWTON LAD KILLED

Samuel G. McPherson, 19, of 132 Tremont street, Newton, is dead and William J. Boyd, of Dorchester, is in a dangerous condition at the Carney Hospital as the result of a head-on crash between two motorcycles on the Strandway, South Boston, about 500 feet from the Carson Beach bathhouse shortly before 1 o'clock this morning.

Both McPherson and Boyd were riding alone when the crash occurred. McPherson was thrown into the street and dragged about 50 feet by a passing automobile before the operator of the machine noticed him. He was picked up by pedestrians and taken to the Carney Hospital where he was found to be suffering from a fractured skull and multiple injuries. He died shortly after arrival there. Boyd suffered multiple injuries and concussion of the brain. His name was placed on the dangerous list.

DEATHS

SAUNDERS; on July 26 at 30 Crescent street, West Newton, Nicholas Saunders, age 80.

HICKEY; on July 26 at Newton Hospital, Daniel Hickey of 614 Moody street, Waltham, age 57 years.

ARMINGTON; on July 24 at 5 Warren terrace, Newton Centre, Mrs. Roxanna Armington, age 77 years.

AIKEN; on July 23 at 62 Pleasant street, Newton Centre, Charles H. Aiken, age 74 years.

LILL; on July 23 at 9 Lill avenue, West Newton, William F. Lill, age 71 years.

LEACH; on July 20 at 22 Knowles street, Newton Centre, Mrs. Esther J. Leach, age 80 years.

YOUNG; on July 24 at 22 Cottage place, West Newton, Mrs. Margaret Young, age 61.

BIRTHS

VISCO; on July 23 to Mr. and Mrs. Donato Visco of 11 Beech street, Newton, a son.

PEARSON; on July 23 to Mr. and Mrs. Frank Pearson of 299 Auburndale avenue, a daughter.

HUBLEY; on July 25 to Mr. and Mrs. Earl Hubley of 357 Parker street, a son.

GOULDING; on July 26 to Mr. and Mrs. Jerry Goulding of 990 Watertown street, a daughter.

AUCOIN; on July 26 to Mr. and Mrs. George Aucoin of 105 Allison street, a son.

BOOTH; on July 23 to Mr. and Mrs. Edward Booth of 21 Salisbury road, a daughter.

MASTROPERI; on July 25 to Mr. and Mrs. Leonard Mastroperi of 2 Elliot place, a daughter.

Waban

—Mr. and Mrs. Carl Mosser have returned from a month's visit at Kennebunk, Me.

—Mr. and Mrs. Homer F. Prouty and their children are at Mearns for the week.

—Mr. and Mrs. W. J. Dimock, formerly of Waban, are at Scituate for the summer.

—Work is progressing on Mr. and Mrs. A. G. McMillan's new residence on Collins road.

—Mr. and Mrs. William F. Baxter and their children have taken a cottage at Cataumet.

—Mr. J. Everett Young of Larch road has just returned from a trip to Southport, Me.

—Mr. and Mrs. Henry L. Short of Carlton road are spending the summer at Marblehead Neck.

—Mr. and Mrs. L. Estes of Beacon street moved into their new home on Alban road on Saturday.

—Mrs. Cyrus Y. Ferris and her son Cyrus Y. Ferris, Jr., are at the home of her father at Hartland, Wis.

—Dr. and Mrs. Edwin J. Morse and their family will be at Shore Acres for the month of August.

—Mr. and Mrs. Willard F. Woodman of Alban road have moved into their new house on Wilde road.

—Mrs. Reuben Ellis and her eldest daughter, Dorothy, spent the weekend at Eastern Point, Gloucester.

—Mr. and Mrs. John Powell of Nehalem road are rejoicing in the birth of a daughter, Anita Joyce.

—Dr. and Mrs. Walter A. Hosley will spend the month of August in the New Hampshire mountains.

—Miss Lois Rice is the guest of her sister, Mrs. Perley F. Ayer, at her summer home in Scituate.

—Miss Mabel Brooks will join her parents at their summer lodge at Camp Bemis, South Chatham, N. H.

—Helen McLowry of Alban road is spending the weekend at North Harwich as the guest of Jean Snyder.

—Mr. and Mrs. J. C. King leave Waban on Monday to spend the month of August at Shore Acres, Mass.

—Mr. and Mrs. Charles W. Brooks of Pilgrim road are enjoying the weekend with friends at Jefferson, N. H.

—Mr. and Mrs. H. S. Wiley and their daughter Helen left Waban on Monday for a trip to Kittery, Camden and Deer Isle, Me.

—Mr. and Mrs. Arthur L. Soule, with their family, have gone to Shelter Island, Long Island Sound, for the month of July.

—The house occupied by Dr. Stephen Mallett on Irvington street has been sold to Mr. John S. Clapp of White Oak road.

—Mr. and Mrs. A. D. Lawrence of Moffatt road have gone to Wolfboro, N. H., to visit their son Jack, who is at Camp DeWitt.

—Miss Phyllis Parker and her father, Mr. Albert K. Parker, have returned from a trip through New Hampshire and Vermont.

—Mrs. Chester Bantan, formerly of Waban, was in the group of fortunate people invited to the Arena to greet Colonel Lindbergh.

—Mr. and Mrs. R. Jackson Gram and their family sail on Sunday for Deep Brook, N. S., where they will be for the month of August.

—Mr. and Mrs. E. Payson Upham and their family went on Friday to HARBORSIDE, Me., where they will be until after Labor Day.

—Mrs. J. Earle Bessey of Beacon street has joined the art colony at Rockport, N. S., where she is studying in one of Mr. Tebbetts' classes.

—Mr. Gardner Wiley, son of Mr. and Mrs. H. S. Wiley of Irvington street, is in the hospital at Philadelphia, recovering from an operation for appendicitis.

—David Bissell of Waban avenue leaves Camp Passaconaway the end of this week and will join his father and mother at their summer home at Boothbay Harbor, Me.

—Vincent Simpson, 12 years old, crossed the continent alone from Los Angeles to visit his aunt, Mrs. Herma Simpson, of Beacon street. He will also return alone in September for school.

—Mrs. Lucius W. Pond of Mossfield road entertained a group of her friends at luncheon at the Woodlot Tea Room, Babson Park, on Friday. After luncheon, her guests returned to her home for bridge.

—Mr. and Mrs. Paul S. Mosser are motoring on Sunday to "Four Winds," the Girl Scout camp to Long Pond, Plymouth, to bring home their daughter Willetta, who has been there for the month of July.

AUTO ACCIDENTS

Saturday evening at 7:20 as Della Connolly of 822 Commonwealth avenue was crossing that street near the residence she was hit by an automobile driven by Stanley Garner of 855 Beacon street, Boston. She suffered an abrasion of the left arm and was attended by Dr. Watters.

Tuesday evening at 6, automobiles driven by Cleo Rickard of Lasell Seminary and Joseph Laplant of Lawrence collided at the corner of Commonwealth avenue and Chestnut street. The car driven by Miss Rickard was overturned and she and Mrs. Beatrice Rickard received injuries. They were taken to the Newton Hospital for treatment.

Wednesday afternoon at 1, another collision occurred at the corner of Commonwealth avenue and Chestnut street. Cars driven by Stephen Illsley of Islington and Thomas Bennett of South avenue, Weston, collided. Mrs. Carrie Illsley received injuries and was taken to the Newton Hospital.

Yesterday afternoon, John Hayes went to an automobile repair shop on Elmwood street and drove out with a Ford sedan, owned by the Telephone company, which had been undergoing a slight servicing job. He had driven about 300 yards to the corner of Centre and Church streets when another car came along Church street at a high rate of speed and turned south into Centre street, forcing Hayes to drive his car into a tree to avoid a collision. The Ford was taken back to the garage it had just left, this time badly damaged. The other car was driven away rapidly. The police have its number.

The Second Church West Newton

10:45 Morning Worship.
Union Service in Lincoln
Park Baptist Church.

Rev. Robert L. Underwood will preach.

West Newton

—Mrs. Celia Wellman has returned from a motor trip to Boothbay Harbor, Me.

—Mr. and Mrs. A. T. Beal of Webster street left this week on a motor trip to Maine.

—Dr. and Mrs. Clarence Glazier and family of Waltham street are leaving today for a month at Martha's Vineyard.

—Prof. Kurt Hermann Thoma of Fuller street, who has been assistant professor of Oral Pathology at Harvard Dental School for the past eight years, has been appointed to a full professorship, to take effect Sept. 1.

—Mr. Horace M. Wheelock has sold his home on Highland street, West Newton, and he with Mrs. Wheelock is at the Charlesgate until September, when they have taken an apartment at Riverbank Court in Cambridge.

Their daughter, Mrs. Shoemaker, is still in South America.

—Nicholas Saunders of 30 Crescent street, a resident of this section for 50 years, died Tuesday at his late home. He was born in Naples, Italy, 80 years ago and formerly was employed by the City of Newton. He is survived by a son and a daughter. His funeral was held yesterday at St. Bernard's Church; burial was in Calvary Cemetery.

—Daniel Hickey, formerly a well known resident of West Newton, died suddenly of heart trouble at the Newton Hospital on Tuesday. He was employed as a motorman for many years by the Middlesex & Boston, and his home was at 614 Moody street, Waltham. His funeral services were held this morning and interment was in Calvary Cemetery, Waltham.

—Mrs. E. C. Davis of Beacon street left Sunday to visit her son, Mr. Emory Davis of Gloucester.

—Mr. E. C. Davis of Beacon street is visiting her sister at Bangor, Maine.

—Misses Julia and Mollie King of Beacon street left by auto for Montreal, Canada.

—Mrs. J. Hurst of Langley road is spending her vacation at her summer home at Tuissett, R. I.

—Mr. and Mrs. H. A. Johnson of Cedar street left Saturday for Gray Gables, Buzzards Bay.

—Miss Mary Colburn of The Haseltine House is spending her vacation in Vermont and New York.

—Mr. and Mrs. H. T. Lane of Summer street spent the month of July at Burkhaven Cove, Lake Sunapee, N. H.

—Mr. and Mrs. Cushman of Montclair, New Jersey, are visiting their son, Mr. T. H. Cushman of Homer street.

—Misses Jennie and Ethel Tierney of Beacon street have returned from a two weeks' vacation spent at Old Orchard, Maine.

—Mr. and Mrs. John Marshall and daughter, Miss Marion Marshall, of Warren street will spend the month of August at Scituate.

—Misses Ellen and Lillian Everett of Parker street leave Sunday to visit their brother at Hingham, Mass., from there they will go to Nantucket.

—Mr. Charles Whitman has purchased the property at 121 Homer street, and is occupying the same.

—Mr. and Mrs. Alfred E. Vose and Miss Constance Vose of Centre street are spending their vacation at East Bay Lodge, at Osterville.

—Mr. and Mrs. Geo. Duffy of Mill street and Mr. and Mrs. E. J. Burnell of Pittsburg, formerly of Newtonville, left Sunday by auto for a trip through Canada.

—Miss Rose Janse, daughter of Mr. and Mrs. Edward A. Janse of Dudley road, is on an European tour for two months, visiting England, Germany, France, Switzerland, Holland and Belgium.

—Rev. George Lawrence Parker, who has just resigned as pastor of the Unitarian Church, preached last Sunday at the Union services held in the Church of the New Jerusalem at Brooklyn Heights, N. Y.

—Miss Elizabeth B. Lawrence, daughter of Dr. and Mrs. C. Arthur Boutelle, was married to Fred Forsyth Gifford, formerly of Danville, Quebec, at the home of her parents, 535 Ward street, on Thursday, July 28.

—Mr. and Mrs. John Henderson of Boylston road are at Dark Harbor, Me., for the summer.

—Mr. and Mrs. T. P. Curtis of Lake avenue are spending the week at Poland Springs, Maine.

—Mr. and Mrs. Kenney of Walnut street are spending the month of August at Atlantic City.

—Mr. and Mrs. Davies of Hanson street are receiving congratulations upon the birth of a son.

—Mrs. M. E. Howard of Malone, N. Y., formerly Miss Mary Stone, was visiting here last week.

—Albert E. Robinson has returned to his home on Lakewood road from Camp Idlewild, Lakeport, N. H.

—Mr. and Mrs. Charles W. Hawkes of Saxon road leave for Juniper Point, Me., on Aug. 1 for a month's stay.

—Mrs. Metcalf, who has been visiting friends on Chester street, has returned to her home in Whitinsville, Mass.

—Under the will of the late Ellen J. Hartnett of Boston the Working Boys home will receive the sum of \$2000.

—A party of Newton Highlanders motored to Kimball's, Cohasset, Mass., on Wednesday last and enjoyed a fish dinner.

—Mrs. Elliot H. Robinson of Lakewood road has returned from a visit to friends in Philadelphia and Duncannon, Pa.

—The funeral service for Mrs. Blue who died in Florida, was held last Saturday at her son's residence on Margaret road. The interment was in Newton Cemetery. Rev. George G. Phipps officiated.

MORTGAGE MONEY

There is a distinct advantage in having home mortgages held by home institutions. More favorable treatment is natural when the applicant deals directly with the Bank and establishes intimate friendly relations than can be expected if he deals with those who are practically strangers.

Our service is friendly, courteous and efficient, and our terms on mortgage loans are reasonable.

ROTARY CLUB

Charles E. White of Belfast, Ireland, recently elected director of Rotary International at the Ostden convention, was the chief guest and speaker at the weekly meeting of the Newton Rotary Club at the Woodland Golf Club on Monday. The presence of the speaker attracted a large number of members of neighboring clubs as well as many guests. President Cecil Clark presided and mentioned the fact that the meeting was one of the most notable in the history of the local club as besides Mr. White there were present Charles Symonds, newly elected governor of the first district, and the presidents of three nearby clubs. President Clark turned the meeting over to the district governor, who appropriately introduced the speaker. Mr. White has occupied an important position in the work of Rotary since the spreading of the movement to the British Isles. He has been president of the Belfast club, special representative who helped organize the London club, president last year of R. I. B. I. and at the Denver convention gave one of the outstanding speeches on the "Conception of Worldwide Business."

His subject was the "Dreaming and Vision of Rotary" and he held the attention and interest of his audience throughout. Speaking first of the difficulties which the extension of the Rotary movement was beset with in its early days in the British Isles, he traced the growth of it from the formation of the first three clubs in Dublin, Belfast and London in 1911 until last year when there were over 250 clubs in Great Britain and Ireland. The dissimilarity of constitutions, the difference in objectives, the practice of calling brother members by their given names, which latter familiarity was not acceptable for the most part, effect of the war, the wrong idea that members were more or less obliged to trade among themselves, and other problems made a long and protracted struggle for the very existence of the movement, to say the least, of much extension work. The Edinburgh convention was characterized by the speaker as one having the most influence on Rotary in the United Kingdom. There a committee was appointed to meet in Chicago in October, 1921, to discuss constitutional problems. Three of the appointees represented the British Association of Rotary Clubs; Charles Smith, a Londoner, was the English representative, Frank Eastman, also a Londoner by birth, represented Scotland, while the speaker, who is a native of Yorkshire, was selected from Ireland. Prior to the meeting of the committee, Mr. White suggested to several that the title of "International Association of Rotary Clubs" was too long and cumbersome and that it might be better to adopt a shorter and more effective title. Taking the two most important words in the designation of that day, Mr. White proposed the title "Rotary International." At the committee meeting, to his great surprise, no discussion was held and the vote in favor of that name was unanimous.

In the United Kingdom the Rotary clubs differ slightly from those of America. Some years ago it was deemed advisable that some of the smaller towns desirous of forming clubs be permitted to do so and be allowed to meet fortnightly instead of weekly. This idea began to grow rapidly until it was foreseen that much of the value of Rotary was being lost. A bitter struggle was waged until the movement in this direction was checked.

One of the most interesting points brought out by the speaker was that the earliest club formed was in Philadelphia in the days of Benjamin Franklin. Although not having the title of Rotary, it had many of the objectives and ideas. The needs of the city and the business men were discussed and from it came the first fire brigade, the first library and other things. The movement was designed for the large city where the loneliness is great but in the smaller towns the loneliness is greater. There everyone knows everyone else's business and every man knows his neighbors, but is not known by them. Attendance at club meetings stimulates interest, which is the reason for compulsory presence and classification permits of the broadening of view. Some wise thinker has said, "your old men shall dream dreams and your young men shall see visions." This quotation was the foundation of Mr. White's talk and he urged his listeners not to be afraid of being called a dreamer or visionary as it is when the older and younger men get together that each can help the other greatly.

Turning to the three mottoes of Rotary, Mr. White emphasized the fact that the word "service" was the keynote of all as it is the crux of the entire movement. The first of these, "Service—not self," although denoting the main idea, was eventually said by those not in sympathy to mean that the members placed their own ends first. This was followed by the motto, "He profits most who serves best," and although here again the idea of service was prominent, the dissenters placed the emphasis upon the word "profit." This led to the third motto, "Service above self," which, although the last, is by no means the final one. Rotary is not a question of capital versus labor but a bonding together of the two in an effort to serve each other best. It is the helping hand in aid of youth in starting the battle of life and it is the finding of friendship and brotherhood of man in Rotary. The three mottoes are combined into one and disharmony cannot come in religious, political or other matters.

Supreme Torture Is

Deprivation of Rest

Deprivation of rest is one of the severest forms of torture. If continued long, the victim will resort to almost any end to relieve it. His behavior may become as frantic as that of a dope addict deprived of his drug. He will do anything, sign anything and say almost anything that promises a chance of sleep, says the Pathfinder Magazine. Confessions obtained under such circumstances should be regarded as obtained by torture.

"During the Middle Ages prisoners who were actually innocent confessed the crimes charged to them to gain removal from the rack, even though confession brought death by hanging, burning or breaking on the wheel. A scientist, who has undergone many long periods of experimental insomnia, says the discomforts he then suffers are almost indescribable and that his dread of future experiments exceeds his dread of any other form of physical pain. Our own observations indicate that after sufficient deprivation of sleep and rest a person is, at least, at times, neither mentally nor normally responsible. Facts and confessions obtained under such circumstances should be given their proper values by the courts," remarks a research worker.

St. Elmo's Light Seen on Land and Water

St. Elmo's fire consists of brushlike tufts of light which sometimes appear on all pointed objects or those with sharp angles, during a thunderstorm or snowstorm. It has also appeared on the masts of ships at sea. It is most common at high elevations on mountains. It is simply a brush discharge of electricity due to the large change in potential with height. A hissing sound is usually heard and sometimes an odor is noticed. "Looming" is a phenomenon allied to mirage, occurring chiefly over the ocean near the seashore and in the Arctic regions. Rays of light passing upward from an object through a warmer and less dense layer of air above it are bent by refraction so that total reflection takes place, and the observer sees an inverted image above the object. Objects even below the horizon may be brought into view in this way and nearer objects seem much raised and elongated.

"Help Yourself"

An invitation to "come in and consume all you can eat and drink" is displayed outside a cafe in San Diego, Calif.

On entering the customer is confronted with a lunch counter, apparently ordinary in all respects, except that it is circular, and a revolving circle of wood moves clockwise on a roller around the inner edge of the counter.

A waitress seated at the counter serves butter, water, soup and silverware, but after that the customer looks after himself. An assortment of meat, vegetables, salads and desserts rolls past on the moving circle. This circle runs through the kitchen, where the cook fills up the dishes as they are emptied.

Three National Capitals

The nation's capital was moved from New York to Philadelphia on December 1, 1790, for a period of ten years, ending December 1, 1800, prior to its removal to Washington. After the burning of the capitol during the War of 1812 a strong movement arose for removing the capital from Washington. In fear of such a result the local interests formed the Capitol Hotel company, and erected a building for government occupancy until the repairs on the capitol were finished. It was occupied from 1814 to 1819 and was afterward known as the "Old Capitol" and was used in the Civil war as a military prison.

Golf Instructions

An absolute beginner was toiling round the links wondering if the game was really worth while and vowing, to his grizzled Scottish caddy, that this would be his last round.

"And what should I take now?" he asked a moment later, finding his ball in a terrible lie. "Well, mon," replied the caddy, "you have three alternatives. For a start, you might take me and get me something to drink; secondly, you might take a' your clubs home and give up golf; thirdly, you might try throwin' the ba'!"

"The End of the Trail"

The statue of an Indian with a spear under his arm, sitting on a horse, in an attitude of utter abandon, is intended to symbolize the passing of a great race—the Indian once the proud, unchallenged master of this continent and its plains and streams and forests, but who now, as the sculptor, James Earl Fraser conceives it, stands hopeless and despairing at "the end of the trail." The statue is very literally at the end of the trail, too, in Golden Gate park, San Francisco.

Oldest Forms of Writing

Writing is a very ancient art. The oldest forms of which there are existing examples are Babylonian and Egyptian. The Babylonian is cuneiform, that is, the characters are wedge-shaped. They were written on clay, and the clay was baked into bricks, which formed permanent records, many of which have been unearthed and interpreted.

ALDERMEN ARGUE ABOUT NORUMBEGA

The "Hey Dey" and the "Tumble Bug" will continue their merry (and alleged noisy) whirling at Norumbega Park. For the past couple of months, or longer, the Aldermen have been receiving protests from residents of Islington road, Auburndale, against these new devices at the park. At the meeting of the Aldermen on Monday night, it was reported that no action is deemed necessary on these protests. Alderman Hawkins, chairman of the License Committee, stated that this committee had visited the park collectively on one occasion, and individually on a number of occasions to observe conditions there and to ascertain if the protests against the screaming of persons "enjoying" themselves on the thrill-producing devices, and the noise of the machines, were justified. The committee based its report on its observations. Mr. Hawkins said that the park is in the business zone, much money has been invested in it, and its management ascertains that they have always conducted it in an orderly manner.

Alderman Gordon suggested that the objectionable devices be removed to some part of the park more remote from Islington road. Alderman Noone replied that the management state it will be impracticable to comply with such a suggestion, as there is no place to move them to except the baseball field. He suggested that the park management be more careful in the future as to the type of devices permitted there.

Alderman Gallagher remarked that the park is less noisy now than in former years, as some of the lions which roared so loudly have died. He commented "that the people who are protesting, knew the park was there before they moved into that neighborhood. Alderman Grebenstein stated that the devices are 600 feet from Islington road, and that persons in other parts of the city (he was thinking of his own case) who live next to garages, have to contend with far more noise.

Alderman Heathcote, who admitted that he will try anything once, told of taking one ride on the "Tumble Bug." There one ride was enough for him, he said. He stated that the new devices make much more noise than do the older amusement devices at the park, and that the management there should not allow any more new devices to be installed until they have received the sanction of the Aldermen.

CITY HALL NOTES

Richard Dalton, of the City Hall janitor staff, and Patrick Fitzsimmons, night watchman at City Hall spent their vacations in Quebec, touring in the Saguenay region.

Street Commissioner Stuart has received several commendations from citizens because of his promptness in co-operating when quiet is desired on streets where persons are seriously ill.

At 2:37 a. m. Tuesday morning, Alderman Ball started to tell his fellow members something about water. But they would not listen to him. They were all so fatigued that only an external drenching with fire-water, or an internal drenching with fire-water, would have made them sit up and take notice.

ON THE OLD FRONTIER

(Continued from Page 3)

scription. Fairly acquainted with most of the wonders of these United States, I must confess that until this trip was broached I had never heard of the "Needles," a fact which showed that the State of South Dakota needs a good advertising man in its employ.

Our official daily paper, the Chronicle, says that only an amateur at the newspaper game would undertake to describe the wonderful scenery along that 25 mile drive, a statement to which I heartily subscribe. Great splinters of naked rock a hundred feet high crop up all along the way. Walls and ledges of rock are seen across deep ravines filled with sombre pines. From the high spots, range after range of tree-clad mountains with here and there great boulders of rock furnish many a charming vista. At one spot the rock formation is such that an opening called the "Needle's Eye" is formed. Our drive through this marvelous scenery was altogether too short even after we had reached Sylvan Lake, 7000 feet above sea level, and one of the beauty spots of America. This lake is artificial and is something like 30 feet in depth. It is formed by a dam less than 20 feet in width, placed between two of the many enormous ledges of rock forming the lake. The rock formations in this vicinity are awe inspiring. Boulders larger than houses are scattered around as if thrown about by prehistoric giants. Walls of rock line beautiful little forest glades and it was a matter of regret that we did not have time to traverse the canyons, formed by streams from the spillway of the dam.

In place of this, however, we had the beauty of a severe thunder shower to witness, followed by a wonderful as well as beautiful double rainbow.

After the dinner at Sylvan Lake the party autored 12 miles over to Custer City, the oldest town in the Black Hills and named after Gen. George A. Custer. There a novel and beautiful pageant was presented by the pupils of the public schools in a setting that could not be paralleled in any other town in the country. In front of a splendid monument erected to the memory of the Black Hills pioneers, backed by the everlasting hills clothed in their shen of dark pines, on a stage made brilliant by spotlights, and only the starry sky as a canopy, the school children pictured the tradition and the history of their city and the hills. The old stage coach that carried the first settlers into the hills, and the first gold out; that bore Sheridan, Crook and Miles and Custer; that was held up by bandits and attacked by Indians; that bore its messages of hope and of despair—that old stage coach was a reminder of the days when the West was young, a song unsung, a land unknown. It was an entertainment and a reception unique in history of the National Editorial Association.

ABOUT TOWN

By Edw. H. Powers

Our idea of the location of Chestnut Hill does not coincide of the new school soon to be erected on land situated on the Harbach estate off Ward street as being in that village. True, the school site is at one extreme corner of Precinct 3 of Ward 6, commonly known as the Chestnut Hill precinct, but actually the school will be located short distance from the summit of Waban Hill. But, as Waban Hill is also in Precinct 3, perhaps the school site is more correctly called the Chestnut Hill school, until some name is bestowed upon it.

In our humble opinion, scant consideration should be given to those persons who come before the Board of Aldermen asking for waivers of setback lines at street intersections. The city was zoned several years ago to assure it remaining a high-class residential community. Waiving setback lines to permit a dwelling to be erected on a small lot, or two dwellings to be erected on a lot only large enough to contain one dwelling, is nullifying the zoning ordinance, and giving special privileges to persons who care nothing for the future of the city, but who are more concerned with their own selfish interests. Frequently persons asking for this special privilege are not even residents of Newton. It is hardly consistent for the city to grant waivers of setbacks at street intersections, when petitions are being constantly received for altering and widening street corners to remove danger spots. And such widenings, when made, involve large expenditures on the part of the city.

We cannot conceive of the aldermen granting a waiver on a setback opposite a school, when to grant such a waiver will jeopardize the safety of many of the children attending that school.

We listen on occasions to petitioners for exemption from the restrictions of the zoning ordinance make a play for sympathy by telling that they had purchased the lot on which they want setback waivers or some other waiver, or they had started building preparations, before they knew of the restrictions. We dislike to impugn anyone's veracity, but we have been aware that some who made this whine could qualify for membership in the Ananias Club. And, strange to say, such pleas for sympathy sometimes bring favorable results from the aldermen. Perhaps the latter are unduly glib—or obliging.

The building laws of Newton specify that no external wall of any frame building shall be less than 7½ feet from the line of any adjoining lot, nor less than 15 feet from any frame building, unless the side wall of such adjoining building is constructed of fireproof material. This is a good restriction. It is supposed to be obeyed. It should be obeyed. This law should not be circumvented by any permit being granted for a temporary addition to be erected less than 7½ feet from a lot line with the intent that such addition will remain where erected, permanently, after once having been built.

We notice that in the list of locations where Columbia signals will be placed to safeguard dangerous street intersections, and protect human lives, the intersection of Pearl and Thornton streets is not included. For some time there was a silent policeman at this very dangerous point. It was destroyed and not replaced. This street corner is located at the foot of an appreciable incline on Pearl street. It has a blind corner which prevents automobiles coming down this grade from seeing automobiles coming along Thornton street. At one corner of this street intersection is the Lincoln School, a primary school attended by small children. This old frame structure, erected in 1854, would not be tolerated in most sections of the city. Inasmuch as the parents of the children attending the Lincoln School, Newton's genuine educational antique, are willing to have their little ones go to this ancient "edifice," the least the city can do is to accord a measure of protection to the little ones there that is given to children in other parts of the city. A warning signal for traffic should be placed at the intersection of Pearl and Thornton streets, even if it has to be suspended in mid-air. We have called attention to this need several times. There have been numerous accidents at this spot. Perhaps when some child is killed or some fatal auto collision occurs, a signal will again be installed there.

ASSIST FIREMEN AND POLICE- MEN TO MAKE TRIP TO FRANCE

In order to make it easier for several members of the Newton Fire and Police Departments who will make the trip to France with the American Legion this summer, Alderman Madden had a motion passed by the Board of Aldermen which permits these employees of the city to be given credit for the days off they are supposed to receive during the time they will be on the trip.

WANTED

POLICE NEWS

Stephen Lakus of Weston, who was arrested last week after his automobile had collided with another car at Washington and Chestnut streets, West Newton, and charged with driving while under the influence of liquor, was found guilty in the Newton Court on Wednesday and sentenced to 30 days in the House of Correction. He appealed.

Alexander McEachern of Somerville and Daniel Murphy of Newton Upper Falls were also sentenced to 30 days each in the House of Correction on Wednesday for driving "wutiol." McEachern took the sentence; Murphy appealed. McEachern also was fined \$15 for drunkenness, and \$50 for driving after his license had been revoked. When the men were arrested, McEachern was driving, but he was supposed to be driving under Murphy's license.

On Tuesday still another person was found guilty in the Newton court of driving while under the influence of liquor. Fred Butcher of Wellesley was fined \$100. He appealed.

In court on Wednesday, Judge Bacon found Elmer Johnson of West Newton guilty of driving after his license had been revoked. Elmer was assessed \$50. On the same day Louis Cusano of Mechanic street, Waltham, and Emilio Albertass of South Boston paid \$10 each for speeding.

In court Wednesday, Mrs. Rosie DeSantos of 64 Border street, West Newton, whose home was robbed last week, was fined \$50 and given a suspended sentence of three months in the House of Correction for keeping and exposing liquor for sale. She was given a suspended fine of \$50 for making an illegal sale. Her son, Dominic Cagliati, 18, was fined \$50 for making an illegal sale.

Fiorante DeAngelo of 372 Boylston street, while bathing in Crystal Lake on Tuesday afternoon, had his pocket-book stolen from his clothes. The wallet contained his automobile license and registration, and \$16.

A 14-year-old Newton Highlands boy was in the Juvenile court today, charged with stealing \$23.35 from the filling station of Earl Johnson on Needham street, Newton Highlands.

The hot weather seems to be causing some persons to develop a terrible thirst. Monday night in two and one-half hours, ten inebriated individuals were arrested in various parts of Newton. Tuesday morning four of them were sentenced to the House of Correction. It was necessary to use the police patrol to convey the quartet to East Cambridge.

Joseph Hope of Hampshire street, Roxbury, was fined \$50 in the Newton court yesterday by Judge Bacon for drunken driving. Judge Bacon usually fines "spifficated" automobile operators \$100, but he was lenient with Joseph because the young man from Roxbury had already suffered considerably for his transgression.

Hope was arrested on July 20 by Officer Taffe, after a chase. When he was taken to police headquarters that day, he became ill and was sent to the Newton Hospital over night. When he was brought into court in the morning his case was continued for a week. He was unable to obtain bail and has spent the intervening time in the jail at East Cambridge. Judge Bacon showed further mercy to Hope by giving him until August 24 to pay the fine.

Judge Bacon yesterday assessed five "rapid" motorists \$10 each for speeding. The quintet included John Boyle, 54 Tremont street, Brighton; Royce, 1000 of East Boston, Altona; Weeks 2nd of Winchester, John Freshman of Chelsea and Coleman Wexler of Cambridge.

ABOUT TOWN

By Edw. H. Powers

The popular "brands" of cars will have to be marked in some way so that they can be readily distinguished by their owners. We have frequently started to enter some other flivver parked near ours. Monday at the Woodland Golf Club, the Newton Rotary Club held its weekly meeting. Pierce L. Fish of Leeward's Laundry drove to it in his Chevrolet Coach. Clifford Eddy of West Newton also drove to the meeting in his Chevrolet Coach. Mr. Eddy was the first to emerge from the club house after the meeting. He entered what he supposed was his car, and drove to his office. Soon after Mr. Fish came out, went to where he had parked his car, and found it gone. He immediately got in touch with Police Headquarters and reported the "theft." Inspector Shaughnessy went to the scene and discovered another "Chevy" on the grounds, which from its number plates was found to belong to Mr. Eddy. The latter was telephoned, and soon Mr. Fish was again in possession of the "stolen" car.

Some months ago the city spent some thousands of dollars in dredging Bullocks Pond, and in building a weir there to catch the mud which was brought into the pond by Laundry Brook. The purpose of the weir is to stop the end of the pond near Commonwealth avenue from becoming filled with mud. The purpose of the dredging was to end the nuisance of the eel grass (or whatever kind of grass it is, that grows in the pond). Apparently not enough material was taken from the pond to prevent the grass from growing. This is the first summer since the dredging was done; already considerable grass appears above the surface of Bullocks Pond.

Nearly all the members of the School Committee were present at City Hall on Monday night to confer with members of the Board of Aldermen regarding the new "Chestnut Hill" school. The members of the School Committee wanted a school large enough to care for the estimated school population growth of that district for the next ten years. The aldermen wanted a smaller school, because of the great demand on the financial resources of the city at the present time. The School Committee finally brought the aldermen around to their way of thinking.

The amounts appropriated by the Aldermen for the taking of the parcels of land at the "triangle" for the city hall and memorial sites, represent the minimum figures at which it is estimated this land can be purchased. It will be interesting to compare these figures with the amounts which will be paid for these parcels of land.

Samoan Native Still Believes in Old Oath

White men who introduced the system of plotting land and the surveyor's methods of defining boundaries, brought with them to Samoa the white man's method of administering oaths. So, officially, the native Samoan places his hand upon the Holy Bible to swear that title to a certain piece of land belongs to him.

But those who have lived there long know that, at heart, the native does not have the degree of fear when an oath is taken upon a Bible that he had for the old Samoan oath. Where grave issues are at stake he is apt to discard the modern form for the old one.

While the old manner varied in the different villages the common rite was to take a bunch of grass and lay it on a stone or other object that represented the family or village god.

The contesting parties would say with hand resting on the grass, "In the presence of this whole assembly, I lay my hand on the grass. If I have declared falsely may I suddenly die."

It often happened that one making a false oath would be seized with superstitious fear that would overcome him or cause him to confess.

The meaning of the grass was that, should the oath be false, he and his entire family be exterminated from the face of the earth and their habitation covered with grass.

Sudden Jungle Quiet as Night Approaches

There is some noise in the jungle all day long, according to African travelers, but just at nightfall it becomes oppressively quiet. Not a sound is to be heard for a while, but this does not last long, for all of a sudden there are many noises to be heard that were not experienced during the day.

Jacksals begin to yelp and hyenas to howl, immediately followed by hundreds of other lesser denizens of the jungle. These noises keep up all night, approaching at times and then receding, so that the camper is kept at qui vive all the time, not knowing when some animal will poke its nose into his presence.

Every other noise sinks into insignificance at the roar of the lion, which seems to shatter the atmosphere.—Chicago Journal.

Old City of London

In the early days of London, the houses of nobles and peasants were built side by side, but in later centuries a species of segregation went on that led to the main divisions of West end, City and East end. Yet even now, tucked away in the most fashionable parts, are to be found clusters of the poorest. The habit of fogs is believed to have led to the earliest enactment in the matter of smoke abatement and in 1306, on the petition of the citizens, the burning of sea coal was made a capital offense, says the Vancouver Province. Not long afterward the first serious labor trouble came to a head in the revolt of Wat Tyler. London was occupied by farm workers and the court took to the Tower. In these days agriculture was the chief industry, so the result might well be termed a general strike.

Ancient Bibles

The American Bible society says that "prior to the Gutenberg Bible, printed about 1450, many manuscripts of the Bible were produced in which both sides of the leaf were lettered. Writing materials were so expensive in the Middle Ages that it was the exception rather than the rule not to use both sides of a leaf. We have in our library at Union seminary four Latin biblical manuscripts of that type. It was quite possible to write the entire Bible in manuscript in a single volume, though the handwriting which had to be employed in that case was apt to be so small that it was very hard to read. Three of our biblical manuscripts mentioned above contain in a single volume both the Old and the New Testaments, so it was quite feasible."

Dispute Over Book of Job

The authorship and date of the Book of Job are controversial matters, a great many students of Scripture being of the opinion that the book dates back to the patriarchal age, making Job contemporary with Abraham, possibly being Jonah the Edomite, alluded to in Genesis, tenth chapter, twenty-ninth verse. Others ascribe the book to Moses, and still others to Solomon. It is said that the animals mentioned in the book would be better known in the Assyrian mountains than in the plains of Palestine, while the leviathan or crocodile was a native of Egypt. The spirit of the book, however, undoubtedly is that of the Hebrew race, combining faith, endurance and tenacity of purpose, which are characteristics of the race today.—Washington Star.

French Legion of Honor

The Legion d'Honneur in France is an order of merit, both military and civil. As at present organized it consists of five classes—chevaliers, officers, commanders, grand officers and grand crosses. The President of the republic is grand master. In ordinary circumstances twenty years of military, naval or civil service is necessary for eligibility to the rank of chevalier and promotions can be made only after definite service in a lower rank. Extraordinary service admits to any rank. The word "chevalier" means knight.

Early Peoples Passed Up Delicious Clams

Dr. Edward S. Morse of Salem, who spent 45 years sorting over the shell heaps that are found along the New England shore, found them composed largely of oysters and clams. But when he went to Europe to consult with Professor Steenstrup, the Danish expert on European shell heaps, he was amazed to learn that no clam shells were found among the oysters, says Edwin E. Slosson, director of science service, writing in Collier's Magazine.

Although clams abounded in the Baltic, the prehistoric people never ate them. It was the same in England; the clam had never been eaten, even in ancient times. We learned the epicurean delights of the clam from the North American Indians, to whom we are indebted for tobacco.

Now we are accustomed to think of these early ancestors of ours as rather undiscriminating in their diet, having no prejudices against beast, bird, fish, mollusk or insect. Yet these poor benighted creatures had lived for 25,000 years with clams served up to them on the shell as a free lunch at every tide, and they wouldn't touch 'em.

Writer's Tribute to Chivalry of Women

I am convinced that, in their relations to men, women are the chivalrous sex. In fact, I cannot understand how the reverse idea ever came to be accepted. It must have been a superpowerful Crusader who first enforced it with his mace.

How many times have I noticed how a woman, in the very climax of a quarrel, will not refrain from saying the one small, last thing of all that will cut nearest to the place where a man keeps his "wince." And I have heard men talk of "playing the game."

"Playing the game," "Letting down one's side," "It isn't done." The good old code, phrased in schoolboy jargon, that I have had to hear so very often, too often, from the lips of a husband who is, perhaps, nearer to the schoolboy than I always remember.—G. B. Stern, in Hearst's International-Cosmopolitan.

Cause and Effect

There are no special acts of providence that have reference to you and to me, to this or to that event of our lives, any more than the North star was placed there for the guidance of mariners, or that anything in nature was made for the use of man. Was water made to quench thirst? No; we have thirst because there is water. Were the beauties and harmonies of nature made to delight our senses or for edification? No; we have the sense of the beautiful because beauty exists. The beneficent forces of nature brought us forth and sustain us, therefore we love beneficence. The loving kindness and the tender mercies of God, of which we hear so much, are such not because they are directed to us, but because they are directed to all—because the laws of the universe are so and not otherwise.—John Burroughs.

Fans in History

"Customs of Mankind" says that "fans have an interesting history. The first fan was probably a palm leaf or some other natural device appropriated by man to keep away flies or gnats, perhaps even to cool the fevered brow in tropical climates. We know that in Egypt, 2,000 years ago, fashionable hosts had special servants to stand behind dinner guests and fan them with huge papyrus fans. . . . In France the fan reached the height of its development under Louis XIV. We read that 'Fans are invariably accompaniments of feminine costume, and that they are of rare beauty, exquisitely painted and mounted on sticks of carved or painted wood, mother-of-pearl, carved ivory or gold. There are over 500 makers of fans in Paris and they enjoy special privileges accorded to them by the king.'"

Gave Name to Movement

The word "teetotal" as applied to the total abstinence from intoxicating liquor was first used by one Richard Turner, an artisan, at a temperance meeting held at Preston, England, in 1833. While contending for this principle he exclaimed: "I'll hev nowt to do with this moderation botheration pledge—I'll be reet down tee-tee-total for ever and ever." The word was quickly taken up and passed into general use. This is the epitaph which may be read on Turner's tombstone at Preston, near Manchester: "Beneath this stone are deposited the remains of Richard Turner, author of the word teetotal as applied to abstinence from all intoxicating liquors, who departed this life on the 27th day of October, 1846, aged 56 years."—Exchange.

"Cloture" Rule

Cloture did not exist in the British parliament until 1882, debate being unlimited. About 1872 Isaac Butt, leader of the Irish Home Rule party, began the policy, but it was not until 1882 that a "cloture rule" was passed, which allowed the speaker, on request of 40 members, to pronounce the debate closed and call for a vote. In 1902 the present rule was adopted providing that upon the proposal of a question a member might move that the question be put, and if the rules be not abused by such a motion and the rights of the minority be not infringed, then the question should be put at once and decided without further debate or amendment.

MORTGAGEE'S SALE OF REAL ESTATE

By virtue and in execution of the power of sale contained in a certain mortgage given by John A. Jones to the Waverley Co-operative Bank, dated February 8, 1925 and recorded with Middlesex South District Deeds, Book 4942, page 106, for breach of the conditions therein contained and for the purpose of foreclosing the same, will be sold at public auction on the premises at the Waverley Co-operative Bank, 100 State Street, Boston, on Thursday, fourth day of August, 1927, at four o'clock in the afternoon, all and singular the premises described in said mortgage, namely:

"The land, with the buildings thereon, situated in the city of Boston, in the County of Suffolk, Massachusetts, called Newtonville, being lot numbered 94 in Section A, as shown on a plan of Charlesbank Parkway, recorded with Middlesex South District Deeds as Filed Plan No. 527, said lot being located on California Street, and bounded and described as follows: North by lot numbered 86 on said plan, fifty and 7/100 (50.07) feet; Easterly by lot numbered 86 on said plan, ninety eight and 48/100 (98.48) feet; Southerly by California Street, fifty (50) feet; and Westerly by lot numbered 86 on said plan, ninety and 6/100 (90.06) feet; Containing 4714 square feet according to said plan, being the same premises conveyed to me by Almon G. Davis by deed dated August 1, 1925 and recorded with said Deeds, Book 4875, page 21, and being hereby conveyed subject to restrictions of record, so far as now in force and applicable."

Said premises will be sold subject to any and all unpaid taxes or other municipal liens or assessments.

\$300.00 will be required to be paid in cash by the purchaser at the time and place of sale, and the balance in or within ten days thereafter. Other terms to be announced at the sale.

WAVELEY CO-OPERATIVE BANK,
By Irving F. Munroe, Treasurer.

NORUMBEGA SUNDAY SCHOOL ASSOCIATION LEADERS AT SUMMER CONFERENCES

Prof. J. P. Berkeley of Newton Centre, Dean of the Norumbega School of Religious Education, is one of the instructors at three summer schools this year—Northfield, Mass., Ocean Park, Me., and Storrs, Conn. Time between conferences is spent with his family at Freeport, Me.

Miss Juliana Barker, executive secretary of the district, is also teaching at Northfield, July 21-31, and is, in addition, supervising two of the vacation church schools within the district. She has charge of the special dramatization work at the Watertown vacation school, where a weekly assembly plan with playlets by the children has been adopted this year.

Miss Priscilla Fowler of Newton Centre, who is to teach at the Community School next fall, has also a place on the faculty of the summer schools at Storrs, Conn., and Ocean Park, Me. She is to teach at the Newtonville School next fall two courses, Educational Dramatics for the Sunday School and Worship Program Building.

Dr. Herbert W. Gates, formerly Dean of the Norumbega School, and also of Newton Centre, is Dean of the Northfield Summer Conference. The registrar of this conference is Bryant Nichols, a well known resident of Auburndale, whose efficient management of the business side of the Northfield Conference of Religious Education is greatly appreciated by the 650 or 700 members of that conference.

MRS. MARY E. MALLEY

Mrs. Mary E. Malley of 257 Forest Park avenue, Springfield, died at her late home on Wednesday morning, July 29. She was born in New Haven, Connecticut, 78 years ago, and taught school before her marriage. She spent all her married life in Springfield. Of her four children, three survive, Judge Thomas J. Malley of the Springfield Court, Mrs. Grace M. Baker of White Plains, New York, and John F. Malley of 188 Commonwealth avenue, Chestnut Hill, recently elected Grand Exalted Ruler of the Elks. A daughter, Mrs. C. C. Spellman, died six months ago. The deceased was prominently identified with many charitable organizations.

NEW AUTO SERVICE CONCERN

The rapidly growing automotive industry of Newton has received another accession. The Brookline Auto Body Repair Company, formerly of Boylston street, Brookline, has established quarters at 314 Washington street, Newton, next to the Gas Company office. This company specializes in fender and radiator repairs, and in rebuilding wrecked bodies. It also does trimming work and glass work on automobiles. Its proprietor is George W. Koskinen, for eight years in the employ of Chauncey Thomas Company.

BENEFIT SHOP

The Benefit Shop will be closed until Sept. 7 and all through August. During the summer, however, collections will be made as usual and will be very welcome to insure a fresh stock for fall. Call or write Mrs. C. P. Clark, 71 Pleasant street, Newton Centre (telephone 1236 C. N.).

ABOUT TOWN

By Edw. H. Powers

Edward Morrissey of 299 Centre street is again spending his annual vacation at George Meigs' Camp at South Sandwich. This is a high tribute to this Cape Cod resort, as Mr. Morrissey is a very discriminating person.

We have received a card from "Tom" Burns of the John T. Burns & Sons Company, who, with his wife is making a tour of the British Isles and Europe. The card was mailed at Bournemouth, in the Lake Country of England, and Mr. Burns expresses over the beauty of that region.

A citizen has asked us these questions. Why, after the city has expended considerable money buying traffic signals, and placing them at street intersections, do not the police officers enforce the instructions printed on these signs? Why are not the instructions on these signs printed in sufficiently large letters to enable automobile operators to notice them? Why did a police automobile drive by a traffic officer, when other automobiles were stopped in obedience to a signal from that officer, and there was no apparent need for the police automobile breezing by? Why are automobiles permitted to be parked facing the wrong direction on streets, in violation of the traffic ordinances.

We have received another kick from a well known citizen of Newton who resides in an apartment block at No. 2000 Square. He complains that he, and most of the other dwellers in the blocks near the square, were kept awake for two nights recently because a public service company was digging a trench in the square to make connections with one of the buildings there. This citizen suggests that in the future such work be done during the daylight hours, even if traffic is somewhat inconvenienced. He insists that as a taxpayer, he is entitled to be allowed to sleep.

Last year the GRAPHIC contained an article calling attention to the big increase in number of chain stores. This article stated that chain stores are regarded by many as a growing menace to the country. Some weeks ago Senator Walsh made a speech at Lowell voicing this opinion. Those who are opposed to chain stores contend that they are concentrating the wealth of this country into the hands of a comparatively few men; they assert that chain stores are causing rapid diminution of the "middle class" of this country. Thousands upon thousands of retail merchants, and large numbers of wholesale business men have been driven to the wall in late years because of the competition from chain stores. Such classes of men were formerly prosperous members of the communities in which they lived; they paid appreciable taxes to their cities and towns; they provided work for multitudes engaged in other occupations. The abolition of individually owned stores by chain stores has caused those in this economic strata to be succeeded by men earning moderate wages, with much smaller buying power. This result does not redound to the benefit of business in general.

The opponents of chain stores argue that the ordinary family saves but a small amount weekly by trading in such stores, and if the wage earners of families become idle or ill, no credit can be obtained from chain stores. At individually owned stores, conducted by local men, customers who had established reputations for honesty, were extended credit when misfortune visited them. Much has been said in favor of chain stores. Much is being said against them. Undoubtedly they have created a serious economic problem in the United States.

LIFE SAVING CAMPAIGN

During the past month 90 children have passed the Red Cross Swimmers' test, which requires that the child swim 100 yards using two different strokes, dive into the water, swim on the back 50 feet with the legs only and do a surface dive in deep water. A large percentage of this group will eventually pass the Junior Life Saving test.

The classes of instruction for children who cannot swim have been progressing favorably and during the past 10 days 15 children have learned to swim after attending the non-swimmers' classes which meet on Tuesday, Thursday and Saturday mornings between 9 and 10 o'clock.

But two girls passed the Junior Life Saving test during the past week, Winifred Bouzan and Emily Roche, both qualifying and passing. Raymond Mayne and William Brown of Auburndale completed their Senior Life Saving test during the past week.

While the classes are full, there is still room for a few more children on Tuesday and Thursday afternoons at Crystal Lake, and on Monday, Wednesday and Friday afternoons at Auburndale. All the morning classes are filled, but applicants will be taken care of if they report.

AUTO HITS EDWARD O'HALLORAN

Edward P. O'Halloran of 101 Central avenue, Newtonville, a former police inspector of Newton, and now manager of the Stores Mutual Protective Association, was hit by an automobile on Monday afternoon at the corner of Charles and Beacon streets, Boston. He suffered a fracture of the left leg, and contusions. He was taken to the Massachusetts General Hospital. The automobile was driven by Vincent Giorgio of 40 Onelda street, Boston.

NEWTON HOSPITAL

In the week ending July 23, 36 of the 114 patients in the hospital paid as much as the cost of their care or more, 44 paid less and 34, including babies, were free patients. The out-patient department treated 124 cases, the eye clinic seven and there were 13 accident cases. Of the 10 babies born, five were boys and five were girls. The social service department made one call at the hospital and transferred seven patients in its car.

Six men, five children and two women made up the 13 who were treated for accidents. Of the men one had an acute case of alcoholism, one had a bruised chin and a bruised chest, one sprained a wrist, another had a broken arm, another caught his hand in a saw and had three fingers lacerated and the sixth had a jacked-up car fall on him and bruise his back and sprain his knee. Of the children two were bruised when hit by an automobile, one broke an elbow, one fell off a bicycle and broke an arm and the last had a lacerated ear. Of the two women one was bitten by a dog on the chin and the other was poisoned by iodine.

Several of the student nurses went over the Leviathan while she was in drydock in Boston.

Miss Annie McDonnell, who was superintendent of the hospital from 1893 to 1904, was one of the recent visitors to the hospital. From 1904 until 1924 Miss McDonnell was at the head of her own private hospital on Newbury street in Boston. Since 1924 she has made her home at 20 Ware street in Cambridge with her sister.

THE CHILDREN'S MUSEUM

At 3:30 P. M., Sunday, July 31st, at the Children's Museum of Boston in Jamaica Plain, there will be an illustrated talk entitled, "What an Artist Saw in Japan." It will be given by Miss Jeanie Lea Southwick of Worcester, who has lived for several years in Japan. She will illustrate her talk with colored chalk blackboard drawings. Many fine articles from Japan will be on display at the Museum. Especially interesting are the models of houses and house furnishings loaned by Miss Anna D. Slocum.

The field trip of the Exchange Bureau on Wednesday, August 3rd, will be to Mt. Chickatawut in the Blue Hills reservation. The group will leave the Museum at 9:15 A. M.

Regular story hours for the first week of August are as follows:
Monday, Aug. 1—Sea Life.
Wednesday, Aug. 3—Wonder Tales from Windmill Land.

Friday, Aug. 5—Wigwam Stories.

NEWTON LODGE OF ELKS

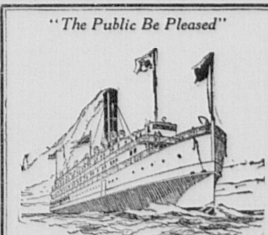

The annual outing for the children of Newton Lodge of Elks, will be held on August 3rd at Norumbega Park, which has been donated through the courtesy of Manager Will White. A committee under the lead of Frank Wilcox is making arrangements for the outing. Twenty-five automobiles will be needed to transport the children, and members of Newton Lodge have been asked to provide the cars. Newton Lodge will hold a "stag" outing at Vose's Grove, Maynard, on Sunday, August 14th. A well known caterer will provide a fine dinner, and a large crowd is expected.

MORTGAGEE'S SALE OF REAL ESTATE

virtue and in execution of the power contained in a certain mortgage by L. Maxwell Gordon and Rose M.

given by J. Maxwell Gordon and Rose M. Gordon to The New England Brotherhood of Locomotive Engineers Securities Corporation, dated August 26, 1926, and recorded with Middlesex South District Deeds, Book 5099, Page 457, for breach of conditions of said mortgage and for the conveyance of said realty, the same will

A. M. on Tuesday, the ninth day of August, 1927, on the premises hereinafter described, all and singular the premises described in said mortgage, to wit:

A certain parcel of land with the buildings thereon situated in said Newton and shown as Lots 2, 3, 20 and 21 on a certain plan entitled "Plan of Land in Newton, Mass.," dated August 1922, drawn by Dana F. Perkins and recorded with Mid-

310 as Plan 39, said lots being bounded and described as follows:—Easterly by State Lot No. 67/100 (188.67) feet; Northernly by land now or formerly of Steadfast, one hundred twenty (120) feet; Easterly by State Lot No. 67/100 (188.67) feet; Southernly by fifty-one and 33/100 (51.33) feet; Northernly by land of owners unknown, eighty (80) feet. The area of said lots is shown as above on said plan by three courses, measuring respectively one hundred (100) feet, fifty-nine and 18/100 (.98) feet, and one hundred (100) feet. Said lots are situated Southerly by Lot No. 19 on said plan, one hundred twenty-nine and 93/100 (129.93) feet; Easterly by State Lot No. 67/100 (188.67) feet; Northernly by land of owners unknown, one hundred (100) feet. Said lots containing in the aggregate thirty-five thousand six-hundred and thirty-four (35,634) square feet according to said plan. All said lots are situated more or less, or however otherwise said lots may be bounded or described. Said lots hereby being sold, conveyed, granted, retained or referred to in a deed from Tony

Said premises will be sold subject to the same terms, conditions and covenants as that with the benefit of all restrictive covenants recorded with South District Deeds, Book 465, Page 331. Said premises are conveyed subject to a prior mortgage to the Bank of the United States in the principal sum of \$10,000.00, with interest at the rate of five dollars dated October 3, 1924 and recorded with Middlesex South District Deeds, Book 477, Page 49.

ments, improvements, outstanding tax titles, municipal or other public taxes, assessments, liens or claims in the nature of liens and encumbrances having priority over the mortgage. Terms of sale: Five Hundred Dollars to be paid in cash by the purchaser at the time and place of the sale and the balance in Twenty (20)

days thereafter. Other terms to be announced at the sale. New England Brotherhood of Locomotive Engineers Securities Corporation, present holder of said mortgage.

MORTGAGEE'S SALE OF

REAL ESTATE

By virtue and in execution of a power of sale contained in a certain mortgage deed given by Sara G. Moskow to Boston Penny Savings Bank dated December 18 1924, and recorded in the Registry of Deeds for the County of Middlesex (South District) at No. 4742, for breach of the conditions of said mortgage and for the purpose of foreclosing the same will be sold at public auction, on the premises, on Tuesday the ninth day of August 1927, at two o'clock, in the afternoon, all

lows: "A certain parcel of land
the buildings thereon situate on the

East side by Algonquin Road, Newton being Lot 6 on "Plan of land in Newton dated May 28, 1924, by H. I. Maltzman" recorded Middlesex South District Deeds, Plan Book 337, Plan 14, and bounded and described as follows:

Westerly by Algonquin Road, fifty (50) feet;

Southerly by Lot five, as shown on said plan one hundred forty-three and 70/100 (143.70) feet;

Easterly by land now or late of Stern, sixty and 50/100 (.60 50/100) feet;

and plan one hundred fifty-eight and 1/100 (158.60) feet.

together with the benefit of and subject to the easement of way, the width of the feet wide, the middle line of which coincides with the boundary line between Lots numbered six and seven, as shown on said plan, for a distance of one hundred (100) feet from the center line of Algaquin Road, which passageway shall remain forever open as a passageway and driveway for foot passengers and automobiles in favor of said Lots six and seven.

Being a portion of the premises conveyed to me by deed of Thomas M. Smith, dated the 19th day of March, 1907, South District Deeds, Book 387, "page 18."

Subject to all unpaid taxes, tax liens and other municipal assessments, if any, on said premises.

\$100.00 required to be paid in cash by the purchaser at the time and place of sale. Other terms will be announced at the sale.

BOSTON PENNY SAVINGS BANK,
By Its Treasurer, Oliver H. Kent,
Present holder of said mortgage.

July 7, 1927.
